The Commonwealth of Massachusetts

# ANNUAL REPORT

OF THE

## Commissioner of Corporations and Taxation

FOR THE

YEAR ENDING NOVEMBER 30, 1934

HENRY F. LONG

COMMISSIONER OF CORPORATIONS  
AND TAXATION

# The Commonwealth of Massachusetts

DEPARTMENT OF CORPORATIONS AND TAXATION,  
HENRY F. LONG, *Commissioner of Corporations and Taxation*,  
STATE HOUSE, BOSTON, January 31, 1935.

*To the Honorable Senate and House of Representatives.*

In compliance with the provisions of Section 29 of Chapter 58 of the General Laws, I am herewith making my annual report for the year ending November 30, 1934, for the Department of Corporations and Taxation. The report follows the provisions of Chapter 14 of the General Laws which divides the Department, in addition to the Main Office, into divisions, to be designated as the Income Tax Division, Division of Corporations, Division of Inheritance Taxes, Division of Local Taxation, Division of Accounts, and because of need from time to time as additional duties were required of the department certain other divisions and sections which it has been necessary to create. In furtherance of this the Division of Miscellaneous Taxes was established wherein is included all taxes on banks, public service corporations and miscellaneous assessments, and also a Division of Excise Taxes wherein is included the Gasoline Tax and the Alcoholic Beverage Tax. The Insurance Tax is handled by the Commissioner and administered separately.

## GENERAL CONSTITUTIONAL

Massachusetts and its political subdivisions, comprising 14 counties and 355 cities and towns, obtains the right to tax for the purpose of raising revenue for governmental activities from the following provisions of the Constitution of Massachusetts:

PART THE FIRST of the Constitution provides in Art. X. "Each individual of the society has a right to be protected by it in the enjoyment of his life, liberty, and property, according to standing laws. He is obliged, consequently, to contribute his share to the expense of this protection; . . ."

PART THE SECOND of the Constitution provides in Art. IV. "And further, full power and authority are hereby given and granted to the general court, from time to time . . . and to impose and levy proportional and reasonable assessments, rates, and taxes, upon all the inhabitants of, and persons resident, and estates lying, within the said commonwealth;<sup>1</sup> and also to impose and levy reasonable duties and excises upon any produce, goods, wares, merchandise, and commodities, whatsoever, brought into, produced, manufactured, or being within the same;<sup>2</sup> . . ."

|    | 190 | "     | 110 |     |       |     | 7   | "       | 540 |

Under this authority of the Constitution Massachusetts and its political subdivisions have operated for many years. It is quite similar to the provisions found in the constitutions of most of the states of the Union, and out of it grows what is usually spoken of as the General Property Tax. Out of this provision of course grows also the right to lay excises in taxing the privileges given by the sovereign. There is no other provision of the Constitution which in its original form provides for direct taxation. There is a part, however, in the Constitution, as it was originally adopted, which provides for exemptions which take on the characteristics of a tax upon the people. This is found in Chapter 5, Section I, of the Constitution which has to do with particular reference to Harvard College, under the general heading of "THE UNIVERSITY OF CAMBRIDGE, AND ENCOURAGEMENT OF LITERATURE, ETC." Under Section II of this same chapter the broad powers which Massachusetts has exercised in exempting various kinds of property from taxation are worded as follows:

"Wisdom and knowledge, as well as virtue, diffused generally among the body of the people, being necessary for the preservation of their rights and liberties; and as these depend on spreading the opportunities and advantages of education in the various parts of the country, and among the different orders of the people, it shall be the duty of legislatures and magistrates, in all future periods of this commonwealth, to cherish the interests of literature and the sciences, and all seminaries of them; especially the university at Cambridge, public schools and grammar schools in the towns; to encourage private societies and public institutions, rewards and immunities, for the promotion of agriculture, arts, sciences, commerce, trades, manufactures, and a natural history of the country; to countenance and inculcate the principles of humanity and general benevolence, public and private charity, industry and frugality, honesty and punctuality in their dealings; sincerity, good humor, and all social affections, and generous sentiments, among the people."

There have been articles of amendment to the Constitution, under Art. XXXIX of which is permitted betterment assessments on land taken by eminent domain, as follows:

"The legislature may by special acts for the purpose of laying out, widening or relocating highways or streets, authorize the taking in fee by the Commonwealth, or by a county, city or town, of more land and property than are needed for the actual construction of such highway or street: *provided, however*, that the land and property authorized to be taken are specified in the act and are no more in extent than would be sufficient for suitable building lots on both sides of such highway or street, and after so much of the land or property has been appropriated for such highway or street as is needed therefor, may authorize the sale of the remainder for value with or without suitable restrictions." (Approved November 7, 1911.)

In an effort to encourage reforestation of the land of Massachusetts, so as to take forest lands out of the General Property Tax which seemed to encourage the cutting of timber rather than to allow it to grow, there was adopted the following amendment:

"Art. XLI. Full power and authority are hereby given and granted to the general court to prescribe for wild or forest lands such methods of taxation as will develop and conserve the forest resources of the commonwealth." (Approved November 5, 1912.)

Massachusetts having found it difficult as well as apparently unfair to tax the large amount of intangible wealth present in Massachusetts under the general property tax law at the local rate, adopted the following amendment:

"Art. XLIV. Full power and authority are hereby given and granted to the general court to impose and levy a tax on income in the manner hereinafter provided. Such tax may be at different rates upon income derived from different classes of property, but shall be levied at a uniform

rate throughout the commonwealth upon incomes derived from the same class of property. The general court may tax income not derived from property at a lower rate than income derived from property, and may grant reasonable exemptions and abatements. Any class of property the income from which is taxed under the provisions of this article may be exempted from the imposition and levying of proportional and reasonable assessments, rates and taxes as at present authorized by the constitution. This article shall not be construed to limit the power of the general court to impose and levy reasonable duties and excises." (Approved November 2, 1915.)

Acting under constitutional powers and following out the general idea of government as set out in the Constitution, the following have been established:

#### MASSACHUSETTS GOVERNMENTAL UNITS EXISTING BY TAXATION

|                          |                               |
|--------------------------|-------------------------------|
| City Governments         | Reclamation Districts         |
| Town Governments         | District Enjoying Betterments |
| Metropolitan District    | Transportation Areas          |
| Fire and Water Districts | County Governments            |
| Improvement Districts    | State Government              |

These political subdivisions obtain their revenue from the following:

#### MASSACHUSETTS SUBJECTS OF TAXATION

##### *Polls*

*Old Age Assistance Tax (Head Tax)*  
(Temporary — 1931, 1932 and 1933)

##### *Property Taxes*

|                            |                              |
|----------------------------|------------------------------|
| Real Estate                | Intangible Personal Property |
| Tangible Personal Property |                              |

##### *Excise Taxes*

|  |   |
|--|---|
| Foreign and Domestic Business Corporations (Foreign and Domestic Manufacturing Corporations — Securities Corporations) | Legacies and Successions                      |
| Public Service Corporations  | Estates (80 per cent Federal Tax)             |
| National Banks   | Registered Motor Vehicles                     |
| Trust Companies  | (Use of highways)                             |
| Savings Banks  | Gasoline (Privilege of Registration)          |
| Savings Departments of Trust Companies   | Alcoholic Beverages (Privilege of dealing in) |
| Insurance Companies  | Incorporated Investment Trusts                |
| Savings Bank Life Insurance  | Fees  |
| Massachusetts Hospital Life Insurance Company  | Licenses                                      |
| Stock Transfers  | Betterment Assessments                        |
|  | Fines   |
|  | Tax in Districts                              |
|  | Sales of Property                             |
|  | Charges for Governmental Activities           |

Under the powers granted the following become

#### MASSACHUSETTS DIRECT TAX PAYERS

|              |                        |
|--------------|------------------------|
| Individuals  | Voluntary Associations |
| Partnerships | Corporations           |
| Fiduciaries  | Estates                |
| Trusts       |                        |

These people bear what can be called the

#### MASSACHUSETTS BURDENS OF TAXATION

|                   |                                  |
|-------------------|----------------------------------|
| Direct Taxes      | Betterment (Special) Assessments |
| Fees and Licenses | Exemptions                       |
| Excises           | Borrowings                       |

In this report an attempt is made to indicate how these burdens are being distributed by the use of tables or corresponding statistical information. The tables and the statistics will be found under the appropriate division of the departmental work. The exemptions which come to the cities and towns as well as to the State

and the counties are largely included in Table N and in Table O. (The pages upon which these tables are to be found as well as the other tables quoted can be easily ascertained by reference to the Index in the last pages of the book under the title "Tables.")

The aggregate of municipal indebtedness — general and enterprise debt, and comparisons, together with the net debt as of January 1, 1934, and ratio of net debt to valuation as of cities and towns, are found in Tables H, I, J, K, L and M.

The cost of government in these various governmental units and the sources of revenue will be found in Tables 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10.

Table 2 of this group contains a column dealing with "*Ability to Pay.*"

In addition to these tables which are of general interest, there will be found tables dealing with particular kinds of taxes, as follows:

|                  |  |
|------------------|--|
| Table 11         | National Banks and Trust Companies   |
| Tables 12 and 13 | Savings Banks and Savings Departments of Trust Companies.  |
| Table 14         | Income Tax.  |
| Tables 15 and 16 | Foreign and Domestic Business Corporations.  |
| Table 17         | The Reimbursement which is given by the Commonwealth to Cities and Towns for Taxes lost on Land held by State Institutions.  |
| Table 18         | Assessed Valuation of Municipalities together with Revenue Distributed by the Department, Property Exempt from Taxation, Equalization of Property for State Tax Purposes, the State Tax, and the County Tax. |
| Table 19         | The local situation in respect to Tax Rates, Direct Tax Valuation, Population, Per Capita Valuation and Per Capita Direct Tax.   |
| Table 20         | Number of Tax Titles reported as held by each Municipality.  |
| Table 21         | The value of Real Estate and Tangible Personal Property over a period of years, together with State, County and Local Taxes.   |
| Table 22         | The Collection of Overdue Taxes.   |
| Table 23         | The Direct Tax on Municipalities together with Bonds required.   |
| Table 24         | Statistics of Various Kinds of Tangible Personal Property and Real Estate which is Assessed for Purely Local Purposes. (Not printed since 1931 report.)  |
| Table 25         | Increase and Decrease of detail of Taxable Estate of the current year as compared with previous years. (Not printed since 1931 report.)  |
| Table 26         | Municipal Determination of current Tax Rates, with Appropriations, Receipts Used, and Free Cash Used.  |
| Table 27         | Uncollected Taxes of Cities and Towns and Betterment Assessments as of January 1, 1934.  |
| Table 28         | Polls, Property and Taxes; 1905 to 1931 aggregates, inclusive. (Not printed since 1931 report; see P.D. 19.  |
| Table 29         | Revenue for Current Charges, together with Current Charges against Revenue for the years 1931 and 1932.  |
| Table 30         | General Loans and Temporary Loans for a Series of Years.   |

The total assessments for certain years laid by the Commissioner of Corporations and Taxation will be found in Table A. Table B gives collections for the current fiscal year. Table BB gives detail of collections with Table C giving the taxes and revenue for that period. Table D shows the distribution of corporation taxes. Table E shows the distribution of the national bank and trust company taxes. Table F shows the distribution to the cities and towns of the proceeds of the income tax.

## CONSTITUTIONALITY OF THE SALES TAX IN MASSACHUSETTS

*To the Honorable the Senate of the Commonwealth of Massachusetts:*

The Justices of the Supreme Judicial Court respectfully submit these answers to the questions set forth in an order adopted on April 5, 1933, and transmitted to them on April 7, 1933, copy whereof is hereto annexed.

The main inquiry raised by the order in its questions numbered one, two and three, as applied to the accompanying bills, is whether it is within the competency of the General Court to levy a duty or excise on sales of produce, goods, wares, and merchandise. Each of these bills, by title or by terms, concerns sales at retail.

The powers of taxation in c. 1, § 1, art. 4, of the Constitution are in these words: "full power and authority are hereby given and granted" to the General Court "to

impose and levy proportional and reasonable assessments, rates, and taxes, upon all the inhabitants of, and persons resident, and estates lying, within" the Commonwealth and "to impose and levy reasonable duties and excises upon any produce, goods, wares, merchandise, and commodities, whatsoever, brought into, produced, manufactured, or being within the" Commonwealth. The questions relate solely to "duties and excises" and therefore only that part of the grant of power to tax need be considered. It is not necessary to examine art. 44 of the Amendments to the Constitution, relative to taxation of incomes, because none of the questions touch that subject, although House bill No. 1055 appears to have some connection with it. The grant of "full power and authority" is comprehensive. It does not easily lend itself to implied exceptions, although it must be limited in construction so as to be in harmony with other equally mandatory provisions of the Constitution. The competency of the General Court to exercise taxation is therefore of broad import. It is thus empowered to impose and levy "reasonable duties and excises." When the word "duties" was adopted as a part of the Constitution, Massachusetts was an independent State with only the loose connection with the other original States afforded by the Articles of Confederation, and it remained such independent State until it ratified the Constitution of the United States and that instrument became established, in accordance with its art. 7, in 1788. Construed in the light of those facts, "duties" included at least the power to collect revenue from goods imported into and exported from Massachusetts, a power surrendered to the United States by art. 1, §§ 8 and 10 of the Federal Constitution. It is not necessary to consider whether it may have a wider meaning because we are of opinion that the proposed tax falls within the description of "excises." The term "excise" was said in *Portland Bank v. Apthorp*, 12 Mass. 252, 256, to be "of very general signification, meaning tribute, custom, tax, tollage, or assessment"; in *Oliver v. Washington Mills*, 11 Allen, 268, 274, to be "a fixed, absolute and direct charge laid on merchandise, products or commodities, without any regard to the amount of property belonging to those on whom it may fall, or to any supposed relation between money expended for a public object and a special benefit occasioned to those by whom the charge is to be paid"; and in *Minot v. Winthrop*, 162 Mass. 113, 119, it was stated that "The excises to which the inhabitants of the Province of Massachusetts Bay were accustomed were taxes in the nature of license fees for carrying on certain kinds of business, taxes on the sale of goods, wares, and merchandise, such as intoxicating liquors, tea, coffee, and chocolate, china ware, etc., and stamp taxes on legal papers." In *Pacific Insurance Co. v. Soule*, 7 Wall. 433, at 445, occurs this language: "Excise is defined to be an inland imposition, sometimes upon the consumption of the commodity, and sometimes upon the retail sale; sometimes upon the manufacturer, and sometimes upon the vendor. [Bateman's Excise Law, 96; 1 Story's Constitution, § 953; 1 Blackstone's Commentary, 318; 1 Tucker's Blackstone, Appendix, 341.]" *Patton v. Brady*, 184 U. S. 608, 617-618. *Opinion of the Justices*, 220 Mass. 613, 618-619. Excises have also been defined as "taxes laid upon the manufacture, sale or consumption of commodities within the country, upon licenses to pursue certain occupations, and upon corporate privileges." Cooley on Taxation (4th ed.) § 42. Without attempting to lay down a precise definition of "excises," it is apparent from what has been said that the proposed tax falls within the kind of exaction of public revenue included within that word in the Constitution.

The words descriptive of the subjects upon which reasonable "excises" may be imposed and levied are "any produce, goods, wares, merchandise, and commodities, whatsoever, brought into, produced, manufactured, or being within" the Commonwealth. The word "commodities" in this connection may have a broader significance than the other words used in conjunction with it, although in common speech it frequently is used in a sense nearly if not quite identical with them. The interpretation of that word has been discussed several times and has been found to involve difficulties. *Portland Bank v. Apthorp*, 12 Mass. 252. *Gleason v. McKay*, 134 Mass. 419, 425. *O'Keeffe v. Somerville*, 190 Mass. 110, 112-113. *Opinion of the Justices*, 195 Mass. 607, 614; 196 Mass. 603; 247 Mass. 589, 593; 266 Mass. 590. The scope of that word need not here be considered. It is manifest from the tenor of the questions in the order, read in the light of the accompanying bills, that the inquiry is limited strictly to sales of tangible personal

property, and does not include sales of other property which would fall within the broad definition of "commodities." It is assumed, also, that sales of gasoline are excluded from the scope of the questions because no reference is made in any of the bills to the provisions of G. L. (Ter. Ed.) c. 64A, levying a tax on sales of that article based on number of gallons sold, although it may be open to doubt whether all the accompanying bills make this omission clear. The words "produce, goods, wares, merchandise" are inclusive enough in their meaning according to the approved usage of the language to comprise all articles of tangible personal property usually sold at retail.

The questions and the accompanying bills make clear that the proposed excise is to be levied not upon personal property which is static, but upon a change in its location or a movement in trade wrought by a transfer of title. It is not levied upon the mere ownership, or the right to hold and possess property, or the exercise of what frequently are termed natural rights. *Opinion of the Justices*, 195 Mass. 607, 614; 196 Mass. 603, 622, 619; 208 Mass. 616, 618-619; 247 Mass. 589. An excise upon sales of tangible personal property based upon a percentage of the sale price bears some resemblance to a property tax; but we think that its dominant feature in the present connection is the change of title and possession necessarily involved in the sale, and not the value, of the property. In this respect it is analogous to the excise on legacies and successions, which is based upon the value of the property, and to the excise on the franchises of domestic corporations under earlier statutes. The context in which the word "excises" occurs in c. 1, § 1, art. 4, of the Constitution renders that kind of a tax appropriately operative upon a change in the location and title of tangible personal property, such as accompanies a sale. Although the quoted words of art. 4 indicate that an excise upon tangible personal property brought across the frontier or State line in consequence of or preliminary to sales was contemplated when the Constitution was adopted in 1780, such sales are expressly excluded from the operation of two of the proposed bills accompanying the order. It is assumed that the questions are based upon the implication that sales in interstate or foreign commerce, not within the taxing power of the Commonwealth under the Federal Constitution, are not contemplated in any proposed legislation. *Brown v. Maryland*, 12 Wheat. 419. *Fairbank v. United States*, 181 U. S. 283, 294-300. The quoted words from art. 4 immediately follow a grant of power "to impose and levy proportional and reasonable assessments, rates, and taxes" upon inhabitants, residents and property. They are designed to be a grant in addition to that previously conferred. They relate to the great sovereign function of taxation upon which government must depend for its support. They are to be interpreted in accordance with the common understanding of voters at the time of their adoption. Thus construed, the words extend to the exercise of the incident of ownership of the designated personal property manifested by the transfer of title and delivery of possession inevitably associated with a sale.

This power to levy an excise need not be confined to a fixed exaction on every transfer, but may be based upon a reasonable percentage of the sale price. It does not thereby become a property tax, provided in size and nature it conforms to the general conception of an excise. *Perkins v. Westwood*, 226 Mass. 268. *Opinion of the Justices*, 195 Mass. 607; 220 Mass. 613. We think that it makes no difference whether the burden of the excise rests finally upon the buyer or upon the seller. *Hart Refineries v. Harmon*, 278 U. S. 499. *Gregg Dyeing Co. v. Query*, 286 U. S. 472.

As matter of construction of language and interpretation of words, we are of opinion that the power to impose an excise upon sales of tangible personal property is conferred upon the General Court. This conclusion finds support by comparison with similar words in the Federal Constitution and decisions touching their meaning.

The words of c. 1, § 1, art. 4, of the Constitution of the Commonwealth, already quoted, are seemingly as broad in respect to excises as those in art. 1, § 8 of the Constitution of the United States, whereby Congress is given power "to lay and collect . . . duties, imposts and excises . . . uniform throughout the United States." That power has been held to include an excise upon the sale of property; *Nicol v. Ames*, 173 U. S. 509; *Thomas v. United States*, 192 U. S. 363, 370; *American*

*Manuf. Co. v. St. Louis*, 250 U. S. 459, 463; the gift of property, *Bromley v. McCaughn*, 280 U. S. 124, 136-137; and the manufacture and sale of specified property, *McCray v. United States*, 195 U. S. 27. In *Thomas v. United States*, 192 U. S. at 370, it was said of those words of the Federal Constitution, "they were used comprehensively to cover customs and excise duties imposed on importation, consumption, manufacture and sale of certain commodities, privileges, particular business transactions, vocations, occupations and the like. Taxes of this sort have been repeatedly sustained . . . As in *Hylton v. United States*, 3 Dallas, 171, on the use of carriages; in *Nicol v. Ames*, 173 U. S. 509, on sales at exchanges or boards of trade; in *Knowlton v. Moore*, 178 U. S. 41, on the transmission of property from the dead to the living; in *Treat v. White*, 181 U. S. 264, on agreements to sell shares of stock denominated 'calls' by New York stock brokers; in *Patton v. Brady*, 184 U. S. 608, on tobacco manufactured for consumption." *Barclay & Co. v. Edwards*, 267 U. S. 442, 450.

Since none of the proposed bills accompanying the order levy an excise on the consumption, or to be exacted at the time of consumption, of produce, goods, wares, or merchandise, question three is construed as not requiring consideration or answer concerning that factor. *Opinion of the Justices*, 148 Mass. 623; 261 Mass. 556, 612. Thus construed, questions one, two and three of the order are answered in the affirmative.

The fourth question relates to legislative power to regulate sales of tobacco to the extent of requiring registration of dealers and imposing an excise in the form of a substantial fee upon the privilege of registration as an essential prerequisite to making sales. Other words of the Constitution bearing upon this inquiry are that "full power and authority" are granted to the General Court "from time to time to make, ordain, and establish all manner of wholesome and reasonable orders, laws, statutes and ordinances, directions and instructions" not repugnant to its other provisions. C. 1, § 1, art. 4. This is language of broad import. It includes the exercise of the police power. The policy of courts has been not to limit that power by attempts to define it. Necessary and lawful business of a nature liable, in the absence of regulation and supervision, to harm the public health, the public safety, or the public morals, may be required to be licensed. It is common knowledge that the use of tobacco by youth is regarded as deleterious. Sales or gifts of tobacco in its various forms to persons under certain ages are prohibited under penalty by G. L. (Ter. Ed.) c. 270, § 6. Legislation of this nature has been adopted in several of the States. So far as we are aware, it has always been upheld against assaults upon its constitutionality. In *Packer Corp. v. Utah*, 285 U. S. 105, 108, it was said in substance and effect that it could not be successfully denied that the State may, in the exercise of the police power, regulate the business of selling tobacco products. The ground upon which such statutes have been upheld is that tobacco is an article of such characteristics that it is within the province of the Legislature to say under what conditions it may be sold or to prohibit its sale entirely in certain forms for the protection of public health and public morals. *Gundling v. Chicago*, 177 U. S. 183, 188. *Austin v. Tennessee*, 179 U. S. 343, 348.

The selection of dealers in tobacco from among other dealers as subject to license is a permissible classification and is not arbitrary or capricious.

We are of opinion that the regulations suggested by question four come within the lawful exercise of the police power. *Watertown v. Mayo*, 109 Mass. 315. *Commonwealth v. Strauss*, 191 Mass. 545. *Lawrence v. Board of Registration*, 239 Mass. 424. *Commonwealth v. National City Bank of Boston*, 280 Mass. 439.

The reasons already stated in answering questions one, two and three show that an excise in way of license fee lawfully may be laid upon vendors of tobacco measured by a percentage on sales.

A requirement that those who dispense or deal in beverages shall be registered and pay a license fee stands in its constitutional aspects upon the same footing as a similar requirement as to tobacco. Beverage in its common meaning signifies a liquid designed for drinking by human beings. Supervision and regulation of persons by whom, and conditions under which, beverages are sold and dispensed may be thought to have close connection with the public health. Cleanliness and purity of the liquids and of the places where they are kept and sold may be regarded as necessary to the innocuous use of beverages.

Questions four and five are answered in the affirmative.

These answers have been confined to the questions and do not extend to the details of proposed bills. *Opinion of the Justices*, 239 Mass. 606, 612. The suggestion is ventured, however, that in two drafts of bills printed in House Document No. 410 there is provision to the effect that the proposed excise is in lieu of local property tax. Whether such provision would be valid may be open to grave doubt. *Opinion of the Justices*, 195 Mass. 607; 208 Mass. 616; 220 Mass. 613. *Perkins v. Westwood*, 226 Mass. 268.

## ADMINISTRATION

The Department is under the supervision and control of the Commissioner, who is assisted by two deputies, and, in addition to the general office, consists of an Income Tax Division, a Division of Corporations, a Division of Inheritance Taxes, a Division of Local Taxation, a Division of Miscellaneous Taxes, a Division of Excise Taxes, and a Division of Accounts, each division being in charge of a director.

There were employed, on November 30, 1934, 444 assistants in the work of the Department, which occupies in office space 16,360 square feet in the State House, 23,622 square feet at 40 Court Street, Boston, and a total area of 7,977 square feet in Pittsfield, Springfield, Worcester, Fitchburg, Cambridge, Lowell, Salem, Brockton and Fall River, to accommodate branch income tax offices. All taxes laid by the Department are collected at 40 Court Street, Boston, except such as are paid in the branch income tax offices.

## DUTIES

The work of the Department consists in examining and approving the agreement of association, articles of organization and by-laws of all new corporations except insurance companies and certain public-service corporations; the examination and approval of all amendments to the charters, increases and decreases of capital stock and the annual financial statements of all domestic and foreign corporations, except certain public-service corporations; the registration of all foreign corporations, except insurance companies, which desire to establish a usual place of business in this Commonwealth; the filing of copies of the deed of trust of voluntary associations with transferable shares; the levying and collection of various taxes and special assessments; the distribution of the income and certain other taxes; the supervision of the work of local assessors and tax collectors and the approval of the form of collector's, deputy collector's and treasurer's bonds; the auditing of county, city and town accounts and special audits, installation of the standard system of municipal accounting established by the Department, the compiling of statistics of municipal and county finances, the certification of town and district notes, assisting those interested in city and town affairs and the classification of positions in the service of the several counties, for the setting up of salary standards, and for the allocation of county employees to the classes established.

## TAXATION

As the major portion of the work of the Department relates directly to taxation, a brief account of the system is here given.

The taxation laws of Massachusetts are contained in the General Laws, Tercentenary Edition, subject to such additions and amendments as have been added by the General Court since January 1, 1932. The thirteen chapters of the General Laws relating to taxation are divided as follows:—

*Chapter 58.*—General provisions relative to taxation. Covering that part of taxation dealing with the supervision of local taxation; the State tax; the adjustment of veterans' exemption; the reimbursement for loss of taxes on land used for public institutions; the distribution of taxes; the repayment of illegal taxes; the assessment for deposits with the State Treasurer; reports; and the destruction of certain documents.

*Chapter 58A.* — Board of tax appeals. Dealing with establishment of board of tax appeals, etc.; principal office, meetings, hearings; publication and sale of reports and opinions; annual report; traveling expenses, compensation clerk and employees, expenditures; jurisdiction; appeals to board, petition, abatement by appellee, answer, entry fee, etc.; "informal procedure" defined, rules and regulations, waiver of appeal; hearings; service of process, etc.; stenographic reports of proceedings; administering of oaths, witnesses, depositions; costs; reports of findings, decisions and opinions, appeals to supreme judicial court.

*Chapter 59.* — Assessment of local taxes. Dealing with taxation affecting each city and town, in regard to persons and property subject to taxation locally; persons and property exempt from taxation locally; payment in lieu of tax on property held for certain municipal purposes; excise tax on certain ships or vessels; where and to whom polls and property shall be assessed; duty and manner of assessing taxes; notices and lists; valuation of property; books, lists, tables and returns of assessors; collector's list and warrant; interest on taxes (no discount allowed); abatements; omitted assessments; reassessment of taxes; apportionment of taxes on real estate subsequently divided; illegal assessments; additional duties of assessors; responsibility of assessors; evasion of taxation; and neglect by assessors.

*Chapter 60.* — Collection of local taxes. Dealing with the collection of taxes by each city and town, by defining certain terms of the statute; showing general duties of collectors; describing the tax bill; the collection of poll taxes; the collector's books, records, accounts and vouchers; the bond of the collector; the special collector; the fees; the proceedings prior to sale, distress or arrest; the certificate of taxes and other assessments on real estate; collection by distress; collection by imprisonment; collection by suit; collection by sale or taking of land; collection of taxes subsequent to sale or taking; redemption; tax titles; sale of lands of low value held by city or town under tax titles; proceedings if tax title is deemed invalid; lien of co-tenants; miscellaneous provisions; penalties and forms.

*Chapter 60A.* — Excise tax on registered motor vehicles in lieu of local tax. Dealing with excise tax on registered motor vehicles, assessment and levy; collection of tax and abatement; local collectors to have certain remedies; law respecting registration of motor vehicles not affected; rules and regulations; where taxes laid and collected.

*Chapter 61.* — Taxation of forest lands. Dealing with taxation of forest products and classification and taxation of forest lands. Classification; taxation; forest products tax on standing timber; withdrawal from classification; disputes, settlement by state forester; penalty.

*Chapter 62.* — Taxation of incomes. Dealing with the taxation of incomes from certain intangibles; taxation of income from annuities, professions, employments, trade and business; exemptions; taxation of estates and fiduciaries; taxation of partnerships; income tax returns; information at the source for income taxation purposes; assessment and administration; collection of the tax; abatements; constitutionality, and penalties.

*Chapter 63.* — Taxation of corporations. Dealing with the taxation of banks, trust companies, etc.; taxation of savings banks and savings departments of trust companies; taxation of savings bank insurance; certain exemptions from taxation allowed co-operative banks; taxation of insurance companies; taxation of business corporations; relative to domestic corporations; foreign corporations; assessment and collection of the tax, and its constitutionality; the taxation of corporate franchises; excise on corporations interested in ships and vessels; collection of the tax; miscellaneous provisions and penalties and their enforcement.

*Chapter 64.* — Taxation of stock transfers. Dealing with an excise on transfers of shares of stock; the preparation and sale of stamps; rules and regulations; collection; recovery by suit; and miscellaneous provisions.

*Chapter 64A.* — Taxation of sales of gasoline and certain other motor vehicle fuel. Dealing with definitions; licenses; records of sales, etc.; monthly returns and payment of excise; determination of excise upon failure to file return, etc.; penalty; reimbursement of excise, sale free from excise regulated; application of chapter to foreign and interstate commerce; purchaser to bear tax, sales separate from tax forbidden, penalty; recovery of excise, penalties, etc., suspension of dis-

tributors' licenses; general penalty; restraining collection of excise on sales exempted by federal law; all receipts credited to the Highway Fund.

*Chapter 65.* — Taxation of legacies and successions. Dealing with the taxation of property passing by will or by laws regulating intestate succession, or by deed, grant or gift; indicating subjects and rates of taxation; payment of tax; value of property for taxation; special provisions for payment of taxes on future interests; provisions affecting administration of estates; valuation and appraisal; assessment of tax; proceedings to determine and collect taxes; and general provisions relating to this kind of an excise.

*Chapter 65A.* — Taxation of transfers of certain estates. Dealing with taxation of transfers of certain estates; tax when payable; tax when credited against tax upon certain future interests; certain laws applicable to repayment, collection, etc.; reimbursement, etc., to certain persons paying tax; effect of change in federal revenue act; effect of repeal, etc.

*Chapter 138, section 21.* — Alcoholic beverages excise. Dealing with excise for privilege of manufacturing and selling, or importing and selling, alcoholic beverages.

## LEVIES

According to the 1930 census Massachusetts had 4,249,614 inhabitants and these annually contribute in direct taxes to the support of the government of the United States, of the Commonwealth, of its 14 counties, and of its 316 towns and 39 cities, and in addition special taxes are levied for the support of districts called fire, water, light and improvement districts, which are established in certain communities and paid for by the residents of those communities benefited thereby. The largest is the Metropolitan District, which includes Boston and certain near-by cities and towns, and there are about 60 smaller districts in other parts of the State. The district tax is levied and collected in the same manner and at the same time as other local taxes, except that the metropolitan district taxes are levied and collected by the Commonwealth. Other special taxes are assessed against and through the local governments in certain sections of the Commonwealth to cover deficits in the operation of street cars, elevated trains and subways.

## EXPENDITURES

The large portion of the cost of maintaining the local city and town governments is for the support of the public schools, public welfare, the building and repairing of roads and bridges, the establishment and maintenance of police, fire, water, light and sewerage departments; and the smaller portion is for the maintenance of a large number of minor municipal activities. The larger portion of the cost of maintaining the government of the counties is for the maintenance of the county courts, the building and maintenance of county courthouses, registries of deeds and probate, jails, houses of correction, county roads and bridges; and the smaller portion for various minor county activities. The larger portion of the cost of maintaining the State government is for the building and maintenance of institutions for the retention and care of those suffering from mental diseases, the feeble-minded, the indigent, the drug addicts, the felons and the misdemeanants, and sufferers from tuberculosis; the building and maintenance of roads and bridges; the development of harbors and public lands and their maintenance; the diffusion of education; the building and maintenance of normal and trade schools; the maintenance of a State militia and State police force; the care and protection of industrial workers; the care and protection of the public health, the supervision of public service activities, the maintenance of the judiciary and the expenses of the General Court. The smaller portion is for many other State-wide activities.

That portion of the expense of maintaining the government of the Commonwealth which is not met by revenue or taxes levied by the State and kept entirely for its own use is assessed upon the cities and towns on a basis of valuation, measured by their ability to pay, falling as a direct tax upon the real estate and tangible personal property locally situated.

The cities and towns, for the purpose of meeting their regular expenses and for obligations incurred by issuing loans for permanent improvements, use the revenue

they obtain from minor sources, such as fees and fines, and the revenue they receive from the Commonwealth for taxes assessed and collected on business corporations, incomes and certain public-service corporations; and for the major portion levy an assessment through an elected or appointed board of assessors, usually three in number, upon all the real estate and tangible personal property locally situated, except registered motor vehicles and merchandise owned by a foreign or domestic corporation. Machinery of corporations used in the conduct of the business as well as their real estate and registered motor vehicles are taxed locally. A local excise is assessed upon registered motor vehicles for the privilege of using the highways at the rate of taxation used for corporate franchises by the state with the provision for a minimum tax of two dollars. Property being held for literary, temperance, benevolent, charitable or scientific purposes is expressly exempted from taxation. Forest lands are taxed by special provision of law to encourage forestation, and ships and vessels engaged in interstate or foreign carrying trade or engaged exclusively in fishing, and documented and carrying "papers" of the United States (provided certain tax returns are made) are taxed on a different basis from other tangible property.

### RAISING OF REVENUE

Boards of assessors have nothing to do with the appropriation of money other than as good citizens, but, having taken oath that they "will neither overvalue nor undervalue any property subject to taxation," are charged with the duty of determining as of April [after 1934 January] first of each year the value of all the real estate and tangible personal property subject to taxation and situated in their city or town.

The proper town or city officers having furnished to the assessors the amount appropriated, together with a statement of the provisions, if any, made for meeting any portion of it, the assessors, by adding the State and county tax and any other sum required by law to be raised by taxation, determine the total amount that must be provided for; and, by deducting from this amount the amount certified to them by the Commissioner as the estimated sum they will receive from the proceeds of the income, bank and corporation taxes, and reimbursement for state owned land and also the amount to be raised on polls and estimated receipts, as more fully specified by Chapters 59 and 60A, the amount to be assessed on the real estate and the tangible personal property is determined. The tax rate per \$1,000 of value is determined by dividing the amount to be raised on property by the value of such property.

When the property owner of a city or town pays the tax bill rendered by the tax collector of his city or town, he pays a direct tax for city or town, State and county expenses, but inasmuch as the receipts from the State including income tax about take care of the State and county levies, his tax bill represents a direct tax for purely local needs.

Under authority of an annual act of the Legislature, counties are authorized to levy a direct tax upon each city or town within the county for such sums as the county requires for its expenses, and, like the city and town, the county derives revenue from miscellaneous sources such as fines and fees which are applied toward meeting expenses, as previously indicated, before a tax is levied.

The Commonwealth derives revenue from taxes, rentals, sales, refunds, interest, gifts and grants, fines and fees of miscellaneous character. The motor vehicle registration fees are a substantial contribution to the revenue of the Commonwealth, which is restricted for highway purposes. The registered motor vehicle itself is locally taxed at the rate of taxation of corporate franchises by the state, and the tax received is used for general purposes. The alcoholic beverages fees for licensing dealers in alcoholic beverages and tax on beverages is restricted to old age assistance. Almost all the other sources of revenue are available for the general purposes of the Commonwealth.

Under the Massachusetts law all receipts must be paid into the treasury and direct appropriations made in specific sums for governmental activities.

## EXCISES

The Commonwealth annually assesses and collects on excise tax upon foreign, foreign manufacturing, domestic business and domestic manufacturing corporations, five-sixths of which is distributed to the cities and towns on the basis of the proportion of tangible property of corporations in each, and one-sixth of which is retained by the Commonwealth for its general purposes. The present tax law became effective January 1, 1920, and the excise is determined by two measures: one, a  $2\frac{1}{2}$  per cent tax upon such portion of net income of the corporation as is derived from carrying on business within the Commonwealth; and the other by a tax at \$5 per \$1,000 on the value of the corporate excess which by statute, in the case of a domestic business corporation, is the fair value of its capital stock less (a) the equity in real estate locally assessable and machinery and motor vehicles subject to local taxation in Massachusetts, (b) certain classes of securities, (c) equity in tangible property located without the Commonwealth, and (d) a proportionate part of cash, accounts and bills receivable, in case the corporation maintains an office outside the Commonwealth. In addition to a  $\frac{1}{10}$  of 1% minimum tax based on share value, there is also provision for a minimum tax of  $\frac{1}{10}$  of 1% on the gross receipts of those corporations dealing in tangible property. Domestic business corporations engaged exclusively in buying, selling, dealing in, or holding securities on their own behalf and not as brokers are taxed under special provisions. In the case of a foreign business corporation the tax is based upon similar general principles, although the method of apportionment is somewhat different.

In normal times the yield from the income measure is slightly less than from corporate excess while in time of depression it is very much less. The tax has yielded an average of approximately \$12,500,000 annually since the present law became effective.

A franchise tax is assessed upon all other corporations organized for business or profit; except insurance companies, savings banks, national banks and trust companies, which are otherwise taxed; at a rate per \$1,000 of value, called the State tax rate, arrived at by using the total valuation of the real estate and tangible personal property locally taxed in the State and dividing it into the total amount raised by taxation by all the cities and towns within the State. For the year ending November 30, 1934, this rate was \$32.14 per \$1,000, and the franchise tax was levied upon the corporate excess of railroads, street railways, telephone and telegraph companies, water companies, gas and electric companies, power and miscellaneous companies. This tax is distributed to the cities and towns of the Commonwealth in the following manner, as provided by statute.

The tax paid by street railway corporations is distributed to cities and towns according to the mileage in each municipality where the company operates. [Not to be distributed after 1934.]

The tax paid by railroads, telephone and telegraph companies, after retaining for the Commonwealth the tax on shares owned by non-residents, is distributed to cities and towns in proportion to the assessed value of property actually taxed in each city or town for the preceding year. [Not to be distributed after 1934.]

The tax paid by gas, electric light and water companies, after retaining for the Commonwealth the tax on shares owned by non-residents, is distributed to cities and towns where the corporation operates in the proportion of tangible property in each.

The franchise tax of all other corporations is distributed to the cities and towns where the shareholders reside, or retained by the Commonwealth when stock is held by non-residents. [Not to be distributed after 1934.]

## NATIONAL BANKS — TRUST COMPANIES

National banks and trust companies are taxed locally upon real estate. The Commonwealth levies annually an excise tax measured by net income as defined in General Laws, chapter 63, section 1. The maximum rate is 6%. The present yield is approximately \$567,000 annually.

## SAVINGS INSTITUTIONS

The Commonwealth levies an excise tax upon deposits in savings banks and upon deposits in the savings departments of trust companies, the annual rate being one-

half of 1 per cent, payable semi-annually, and the entire tax is retained for the general purposes of the Commonwealth. Certain investments are deductible from the deposits before assessment. The average annual yield is over \$2,000,000.

### INSURANCE COMPANIES

The Commonwealth levies an excise upon domestic and foreign life insurance companies on the net value of Massachusetts policies, or reserve, at the rate of one-fourth of 1 per cent. All other classes of insurance companies are taxable on the basis of premium income at the rate of 1 per cent in the case of domestic, and 2 per cent in the case of foreign companies. Under retaliatory provisions, which at present necessitate examination of the insurance tax laws of 35 other States, the tax paid by a foreign insurance company must not be less in amount than would be imposed by the laws of its parent state or country upon a like Massachusetts company if doing business to the same extent in such state or country. Savings and insurance banks and the General Insurance Guaranty Fund of Massachusetts are taxed on all funds held as part of the insurance reserve or surplus at the rate of one-half of 1 per cent less certain deductions. The entire tax is retained for the general purposes of the Commonwealth. The average annual yield is approximately \$3,750,000.

### STOCK TRANSFER

An excise is levied upon the transfer, sale or delivery of shares in foreign or domestic corporations and voluntary associations at a rate of 2 cents on each \$100 of the par value, and 2 cents a share on shares having no par value. This tax is evidenced by stamps, and the entire revenue is retained for the general purposes of the Commonwealth. The average annual yield is approximately \$400,000.

### INHERITANCES

The State levies an excise upon legacies and successions and upon gifts which take effect at the death of the donor or were given in contemplation of his death. The rate of tax in these cases varies from 1 to 12 per cent, and depends upon the relationship of the parties and the amount of property involved. Liberal exemptions are provided. In the case of property so passing to members of the immediate family of the deceased, no tax is imposed unless the individual beneficiary receives more than \$10,000. The exemption of more remote relatives and strangers is \$1,000 each. There is also an Estate Tax in Massachusetts which becomes effective for the purpose of taxing the difference between the estate, legacy, succession and inheritance taxes paid to the several states of the United States and 80% of the Federal Estate Tax. (Acts of 1926.) This tax applies only to large estates. The proceeds of the inheritance and estate taxes are all retained by the Commonwealth for its general purposes. The annual yield varies from \$6,000,000 to \$14,000,000.

### INCOME TAX

The Income Tax Law replaces the general property tax laws formerly in force on intangible personal property and incomes, and provides for the taxation by the Commonwealth of the income from business, investments and profits, classified by the sources of the income. It is not a general income tax law, but rather a series of special income tax laws. In order that double taxation shall be avoided, income from certain sources is exempt from taxation, e.g., from rentals of real estate, dividends on shares in Massachusetts corporations [not exempt on income received in 1933, 1934 and 1935], deposits in Massachusetts savings banks and savings departments of trust companies, interest from mortgages secured exclusively by real estate taxed in Massachusetts, and the like. The law contemplates the taxation of individuals, partnerships and fiduciaries, but does not include the taxation of corporations. The tax is laid on various taxable classes at 1½, 3 and 6 per cent. A large part of the total tax is received from the 6 per cent class which is a tax on dividends and interest received. The proceeds, after a deduction for actual expenses of assessment and collection, and the sum retained under the provisions of chapter 357 of the Acts of 1933, are distributed to the cities and towns, for the purpose of reducing the tax on real estate and tangible personal property. The average yield is approximately \$19,000,000.

## WINE AND MALT BEVERAGES EXCISE

(Effective from April 7, 1933, to December 5, 1933.)

The State levied on every manufacturer of wines or malt beverages and every holder of a foreign manufacturer's agency license for the sale thereof in addition to the license fees elsewhere provided in this act, an excise for the privilege enjoyed by him as such manufacturer or foreign manufacturer's agency, the sum of one dollar for each and every barrel of thirty-one gallons of wine or malt beverages sold within the Commonwealth by such manufacturer or foreign manufacturer's agency, respectively, or a proportionate amount where any other form of container is used. All moneys paid into the treasury of the Commonwealth, after the expenses of the commission have been paid are used for reimbursing cities and towns for assistance given by them to aged citizens.

## ALCOHOLIC BEVERAGES EXCISE

Effective from December 5, 1933. Amended June 30, 1934

Every licensed manufacturer of alcoholic beverages and every holder of a wholesaler's and importer's license for the sale thereof, in addition to license fees is subject to an excise, for the privilege enjoyed by him as such manufacturer or wholesaler and importer, to be levied on sales of alcoholic beverages within the commonwealth as follows:

For each barrel of thirty-one gallons, or fractional part of a barrel aforesaid, of malt beverages, at the rate of one dollar per barrel aforesaid;

For each wine gallon, or fractional part thereof, of wine, including vermouth, at the rate of ten cents per wine gallon;

For each wine gallon, or fractional part thereof, of all other alcoholic beverages containing twenty-four per cent or less of alcohol by volume at sixty degrees Fahrenheit, at the rate of fifteen cents per wine gallon;

For each wine gallon, or fractional part thereof, of all other alcoholic beverages containing more than twenty-four per cent but not more than fifty per cent of alcohol by volume at sixty degrees Fahrenheit at the rate of forty cents per wine gallon;

For each proof gallon, or fractional part thereof, of all other alcoholic beverages containing more than fifty per cent of alcohol by volume at sixty degrees Fahrenheit, at the rate of forty cents per proof gallon.

All moneys received by the Alcoholic Beverages Control Commission and by the Commissioner of Corporations and Taxation are paid into the treasury of the Commonwealth and, after the expenses of the commission have been paid, used so far as necessary, for reimbursing cities and towns for assistance given by them to aged citizens. The yield from this tax for the first year was over \$2,750,000 and from license fees over \$700,000.

## GASOLINE TAX

An excise is levied by the state for the privilege of registering a motor vehicle as fit for use over the highways and is measured by gasoline or other fuels used in combustion type engines. The tax is paid by distributors licensed by the commissioner to manufacture, compound or import fuel. The rate, which is two cents on each gallon of fuel sold, has been increased to three cents, in effect through April 30, 1936. The receipts from this excise including penalties or forfeitures, interest, costs of suit and fines are credited to the Highway Fund. At present the tax yield is upward of \$16,000,000 per annum.

## THE TAX PROBLEM

The tax problem in Massachusetts is to be thought of first as an increasing cost for the governmental benefits which the State, its 14 counties and its 355 cities and towns have developed through a period of years. The development of these costs might well be split up into three groups: First, that represented by the things borrowed for, which constitutes a demand upon the tax dollar in order that principal and interest can be met on things had or enjoyed for which money had to be borrowed. Second, the form of government which has been handed down to us from the early Colonial days which, while being expanded to take care of the in-

crease in population, has nevertheless not changed its general characteristics since the early days; and, third, the expenses of government which developed during the present generation and which in large part can be said to have started the upward trend since the advent of the motor vehicle. As against these three basic things upon which government rests, there are on the other hand but two main bases upon which our tax structure rests in order to raise the necessary revenue to take care of these governmental costs. The first is a tax on capital, some of which has been developed and handed down through the years in the form of land and buildings and in the form of stocks and bonds. There also is developed under this head certain property created by the intelligent use of the hand and brain of the citizen of Massachusetts, annually ably developed property in the form of income out of which flows a capacity to contribute to the cost of government, the property or a capital tax base resting largely upon real estate, tangible personal property and intangible personal property. The second base is that which might be called a privilege tax, and is exemplified by the fees and licenses which are charged for various things which the individual has no right to do unless he has the privilege from the sovereign. In these are included our excises which permit groups operating together to run business corporations, public utilities such as gas and electric light, banks, insurance companies and commercial activities of that same general nature under a corporate form of government. Also under this grouping of privilege tax comes the right in the devolution of property upon which an assessment is made, the transfer of title in stock and the right to operate a motor vehicle and any of the privileges or rights which come only because the individual has requested it and government has provided the opportunity of enjoyment, if the request is but made. The first is a direct tax on property because a person has it and is compulsory in nature. The second is a tax on privilege but only to the extent that the person getting the privilege exercises it profitably or is charged a flat rate which is not commensurated with the particular privilege which may be received from government.

We, therefore, find a three-headed government, so far as costs are concerned, developed in part by borrowings of the past created government which has been handed from generation to generation and that which is represented by an expansion of governmental activities during the present time, and supporting these are but two legs, one that could be designated property taxes and another one which could be designated privilege taxes.

Massachusetts, the State, its counties and cities and towns, now require about one million dollars a day or something rising that to take care of its needs. This one million dollars a day must be paid out of the existing sources of revenue. It is earmarked in part for debt service, in part for a skeleton form of government that cannot be abandoned and in the balance for government which can or cannot be contracted as the wishes of the people dictate.

During the period of depression there has been a resort to borrowing, this with the idea of keeping the real estate tax down, although it has constantly mounted despite borrowing to prevent it. Probably this can be traced to the fact that there has been no substantial reduction in the cost of government, and when one looks at the large amount of money, probably approximating fifty-four million dollars, which is required annually to take care of public welfare and something approximating fifty-two millions to take care of debt service together with approximately seventy-eight millions to care for education and about forty-eight millions for highway work, it is clearly apparent that no great reduction can be had in the cost of government unless we are content to think in terms of abandoning some functions or to be satisfied with the comparatively few millions of reduction which undoubtedly could come through careful planning and an extension perhaps of services which are performed largely without adequate compensation.

It would appear that the tax structure has stood the load of government perhaps only because under the Massachusetts plan there cannot be an unbalanced budget. What the State has by way of deficiency in its budget must be assessed in the form of a State tax upon the cities and towns. The amounts that the counties require are determined by an annual legislative enactment and assessed directly on the cities and towns in the counties. The cities and towns, after providing for sufficient money for State and County charges and indicating the receipts which they can

apply against their levies, must raise the balance on the property. This increases the rate and as a result, real estate has borne an enormous burden. Under the Massachusetts practice, if cash is not available, then the property itself can be taken. In the event that there is a revenue deficit of one year, the communities must raise it in the subsequent year by an assessment on property. Borrowings must be had with the security of every piece of real estate obligated. A lien is impressed on every piece of real estate as of the taxing day. If an obligation is defaulted, the lender can seize any piece of property in satisfaction of the borrowing. It is clear that real estate in Massachusetts not only absorbs everything by way of deficit but also forms the complete base for borrowing. It would seem that this class of property should be particularly nurtured, and it is only because of the enormous capacity of our citizens owning real estate and the requirement that property itself should be taken in satisfaction of an unsatisfied amount that we are today in Massachusetts without a deficit.

In order to make this picture clear it might be well to show briefly what we have by way of need of new revenue. The figures here shown are used rather broadly but they are substantially accurate. If we are thinking in terms of new revenue, perhaps we should consider these particular things.

|  |               |
|--|---------------|
| Unemployment has annually added to "Public Welfare" an extra charge of about . . . . . | \$40,000,000  |
| Depression has reduced the capital upon which the tax base rests by about . . . . .    | 2,200,000,000 |
| Loss comparing 1930 revenue with 1934 yield . . . . .                                  | 37,993,421    |

|   |      | Loss         |              |
|---|------|--------------|--------------|
| Income Tax . . . . .                              | 1930 | \$31,786,014 |              |
|   | 1934 | 14,844,120   | \$16,941,894 |
| Business Corporation Tax . . . . .                | 1930 | 15,263,305   |              |
|   | 1934 | 7,532,124    | 7,731,181    |
| Inheritance Tax . . . . .                         | 1930 | 12,073,874   |              |
|   | 1934 | 4,891,978    | 7,181,896    |
| Estate Tax . . . . .                              | 1930 | 1,943,528    |              |
|   | 1934 | 833,973      | \$1,109,555  |
| Public Service Corporation Tax . . . . .          | 1930 | 5,636,942    |              |
|   | 1934 | *3,040,906   | 2,596,036    |
| Insurance Tax . . . . .                           | 1930 | 3,812,847    |              |
|   | 1934 | 3,757,191    | 55,656       |
| Savings Bank Tax . . . . .                        | 1930 | 2,914,535    |              |
|   | 1934 | 2,033,081    | 881,454      |
| Savings Department of Trust Company Tax . . . . . | 1930 | 354,952      |              |
|   | 1934 | 114,310      | 240,642      |
| Trust Company Tax . . . . .                       | 1930 | 723,291      |              |
|   | 1934 | 150,443      | 572,848      |
| National Bank Tax . . . . .                       | 1930 | 691,711      |              |
|   | 1934 | 311,992      | 379,719      |
| Stock Transfer Tax . . . . .                      | 1930 | 514,417      |              |
|   | 1934 | 211,877      | 302,540      |
|   |      |              | <hr/>        |
|   |      |              | \$37,993,421 |

|   |               |
|---|---------------|
| Debt of all units of government about . . . . .                                   | \$390,353,188 |
| Governmental costs of all units annually approximate . . . . .                    | 362,000,000   |
| Borrowings had to reduce tax rate annually approximate . . . . .                  | 20,000,000    |
| Revenue surplus of past years annually used to reduce tax rate about . . . . .    | 10,500,000    |
| Real Estate annually assessed at an average rate of \$33.87 per M about . . . . . | 200,000,000   |

\*For this comparison did not include tel. taxes in 1934 public service. (Chap. 357, Acts of 1933.)

|   |                 |
|---|-----------------|
| Total 1934 taxable value of Real Estate about . . . . .   | \$5,900,000,000 |
| If \$30 rate had prevailed 1930 to 1934 inclusive on 1934 valuation there would now be a deficit of about . . . . . | 105,000,000     |
| Real Estate has absorbed about . . . . .  | 105,000,000     |
| Real Estate has not done this without impairment to the extent of at least . . . . .                                | 1,163,342,045   |
| Tax Titles taken represent about \$23,000,000 or in capital value about . . . . .                                   | \$721,000,000   |
| Savings Banks are paying taxes to the extent of about \$7,000,000 representing a capital value of about . . . . .   | 206,000,000     |
| Co-operative Banks are paying taxes on capital value of about . . . . .   | 145,000,000     |
| Savings Bank Foreclosures are in capital value about . . . . .  | 91,342,045      |
|   | <hr/>           |
|   | \$1,163,342,045 |

Home Owners Loan Corporation tax payments, Insurance Company foreclosures, Commercial Bank foreclosures, Individual lender foreclosures and tax payments made by these as well as tax payments made out of individual savings or with money borrowed on insurance policies and other ways probably support the assumption that because of the depression and resulting heavy demand the amount really attributed to Real Estate impairment will approximate . . . . . 2,000,000,000

In a further consideration of the problem more or less briefly stated above the 1934 revenue sources should be stated.

|   | 1934          | Per Cent<br>1934 |
|---|---------------|------------------|
| Real Estate — Tax . . . . .                               | \$199,742,622 | 52.64            |
| Tangible Personal Property — Tax . . . . .                | 23,562,315    | 6.21             |
| Motor Vehicle Excise . . . . .                            | 5,198,288     | 1.37             |
| Income — Tax . . . . .                                    | 14,132,048    | 3.72             |
| Receipts Municipal Public Service Enterprises . . . . .   | *26,685,372   | 7.03             |
| Miscellaneous Municipal Receipts . . . . .                | *38,432,067   | 10.13            |
| Motor Vehicles — Fees, Fines, etc. . . . .                | 6,966,315     | 1.84             |
| Gasoline Tax — Excise . . . . .                           | 16,699,285    | 4.40             |
| Business Corporations — Excise . . . . .                  | 7,661,684     | 2.02             |
| Miscellaneous State Receipts . . . . .                    | 12,713,075    | 3.35             |
| Inheritance — Excise . . . . .                            | 5,297,542     | 1.40             |
| Estate — Excise . . . . .                                 | 867,117       | .23              |
| Public Service Corporations — Excise . . . . .            | 4,320,668     | 1.14             |
| Insurance — Excise . . . . .                              | 3,755,453     | .99              |
| Miscellaneous County Receipts . . . . .                   | 4,780,723     | 1.26             |
| Savings Banks — Excise . . . . .                          | 2,116,545     | .56              |
| Savings Departments of Trust Companies — Excise . . . . . | 112,133       | .03              |
| Poll Tax . . . . .  | 2,581,336     | .68              |
| Alcoholic Beverages — Excise . . . . .                    | 2,428,483     | .64              |
| Alcoholic Beverages Control Commission — Fees . . . . .   | 722,313       | .19              |
| Trust Companies — Excise . . . . .                        | 164,016       | .04              |
| National Bank — Excise . . . . .                          | 289,854       | .08              |
| Stock Transfer — Excise . . . . .                         | 211,877       | .05              |
|   | <hr/>         |                  |
|   | \$379,441,131 | 100.00%          |

\*1934 not available.

A rough approximation distributes this revenue for 1934 as follows:

|                                      |               |
|--------------------------------------|---------------|
| Education . . . . .                  | \$80,934,793  |
| Interest and Debt . . . . .          | 58,965,152    |
| Highways . . . . .                   | 38,095,889    |
| Fire and Police . . . . .            | 33,770,261    |
| Public Welfare . . . . .             | 72,321,480    |
| Health and Sanitation . . . . .      | 20,717,486    |
| Miscellaneous . . . . .              | 30,203,514    |
| Public Service Enterprises . . . . . | 13,963,433    |
| General Government . . . . .         | 10,244,910    |
| Mental Diseases . . . . .            | 8,992,755     |
| Courts . . . . .                     | 6,146,946     |
| Correction . . . . .                 | 5,084,511     |
|                                      | <hr/>         |
|                                      | \$379,441,131 |

In thinking in terms of relieving the situation we might possibly consider sources of permanent revenue under this general heading:

#### PROPERTY TAXES: —

Real Estate cannot absorb heavier payment.

Tangible Personal Property, so far as industrially identified, cannot contribute further and the amount available from that kind of property not now taxed will not yield more than three or four millions if completely taxed.

Intangible Personal Property as taxed on income has lost much of its capital value, and a substantial drop in dividend and interest payments reduces the amount possible from this form of taxation. Perhaps four millions might be obtained by abandoning exemptions and by making other readjustments.

Poll Taxes can be increased only by including women or raising the amount to three dollars but probably the actual additional amount obtained will not exceed three million.

#### PRIVILEGE TAXES: —

Motor Vehicle Excise cannot be made to yield more as it is now measured by a fair going average of a motor vehicle and reflects the constant increasing tax rate.

Business Corporation Taxes measured in part by income and in part by capital values will yield only if the business is successful, and as this revenue source shows a capital base shrinkage of about one billion, no extra revenue can come other than a small amount by slight readjustments as to exemptions and allowable deductions.

Public Service Corporation Taxes measured by value of shares constituting the capital stock taxed at average rate and will yield only if business prospers.

Inheritance and Estate Taxes greatly lessened in yield because depression has reduced value of property passing from dead to living so that 1934 will show about eight million less in yield than in 1929. The Federal heavy exactions operate to depress returns for state and to some extent make definitely impossible and improbable additional yield under any circumstances.

Bank Taxes, both National and State, are controlled through Congressional enactment and the State is powerless to do anything in respect to the tax sources without a change in the enabling statute by the Federal government.

Savings Bank Taxes measured by deposits are yielding less because of steady flow of money into tax exempts and the present tax rate is probably all that should be imposed.

Insurance Taxes laid on premium and reserves, while yielding a fair tax, can probably not be safely increased because of the retaliatory provisions of the insurance tax laws of every State in the Union.

Gasoline Tax yielding substantially under existing law can probably be because of Federal tax not be increased, although if the Federal tax is removed in June, the one cent might be added for the State and about five and one half million added by way of revenue.

Alcoholic Beverage Tax is yielding a fair amount but probably rates are as high as they should be. Moreover the yield is earmarked for Old Age Assistance.

Race Track revenue is problematical as to yield and no estimates can be safely made of additional revenue.

Stock Transfer Tax is a steady small yielder of revenue but until brisk trading in intangibles is again resumed but little will flow from this source under any rate. Our present rate has a tendency to divert some trading from New York.

Departmental receipts, fees, fines, licenses and miscellaneous revenues can be increased in many places but the yield will be small as to individual activities and probably not more than two million as a total could be added in all the many ways possible of some increase by way of increased charges.

Tax Laws generally as now in existence tend to tax the various possible sources at about the proper rates, although the many exemptions, if removed, would tend to increase the yield. To attempt a greater exaction on most forms of possible increased revenue source would have a tendency to so oppress the source as to dry it up. It would seem that with all possible readjustment of property and privilege taxes, making them as effective as humanly possible, not more than ten million would be made available as additional revenue. A tax on the purchase of tangible personal property at retail is apparently the only source offering real help.

In estimating the ability of Massachusetts to contribute it might be well to look at our property base from the revenue point, and while this is not intended to be completely accurate, it is fairly representative of our property base.

| Form of Property or Property Rights  |                |                |                   |             | Value                   |
|--------------------------------------|----------------|----------------|-------------------|-------------|-------------------------|
| Real Estate . . . . .                |                |                |                   |             | Taxable \$5,897,733,568 |
|                                      |                |                |                   |             | Exempt 1,351,683,894    |
| Tangible Personal Property . . . . . |                |                |                   |             | Taxable 695,410,388     |
|                                      |                |                |                   |             | Exempt 160,691,250      |
| Not<br>Locally<br>Taxable            | {              | Merchandise    | Of                | . . . . .   | 492,198,407             |

It has been suggested for a number of years, but not meeting with approval by the General Court, the new source of revenue which might be called a sales tax or a purchase tax has not been put into operation. What might be said in favor of it is briefly outlined here.

“Sales Tax”  
“Purchase Tax”

The Supreme Judicial Court has said that Massachusetts can lay a tax on the transfer of title in tangible personal property.

It seems clear that Massachusetts should not tax the manufacturer or the wholesaler because that might seriously affect our opportunities of marketing at a profit our property in the markets of the country where competition with manufacturers and wholesalers from other states is markedly keen.

A retail sales tax on the final purchaser can be had without any great injury to any one, and through this tax all people within our State and all who visit us will pay on each retail purchase made.

A rate of two per cent (2%), without exemption, will yield something approximating \$30,000,000.

The law can be so enacted as to be understood by all, it can be made inexpensive in administration, and will yield substantial revenue in good times or bad.

Exemptions are not wise because it is difficult to define the ordinary things that prompt the thought that they should be excluded from the Tax. With exemptions the cost of administration soars and litigation is bred. Food is usually first thought about, but no one knows what is essential food, nor where food begins or ends or melts into something else. Ice cream may be food to a hospital patient, but it surely is not necessary food to one who has already eaten more than his calorie requirement at luncheon. If it is covered with sauce and nuts, it probably becomes a confection but surely not what could be called essential nourishment. If it is dumped into a glass of soda and milk, it may be a confection, a beverage or food, but in no event can it be defined as essential food. Many such illustrations can be given in respect to drugs which may easily move into the class of cosmetics or even food. The amount that most people spend on tangible personal property is relatively small when compared to rent, but while the total from any one is small the combined total is large. With our population of 4,300,000 a ten dollar average tax, that is, ten per cent on \$500 annual purchase, the revenue would approximate \$43,000,000, and on the assumption that an average of \$350 could be taken, a revenue yield of about \$30,000,000 would be obtained. The \$7 tax on \$350 in purchases would not be excessive on those able to spend \$350, because it would represent only about two cents per day or the expenditure of one dollar a day.

Tokens or stamps can be used to take care of the fractions so that the merchant cannot profit by the tax, and through the requirement that each retail merchant must be licensed, the certainty of substantial revenue is assured which, coupled with monthly settlement, would cause funds to flow in shortly after enactment of a sales tax law.

Real estate can be relieved by using all the revenue from a sales tax to obviate the need of a State Tax or a County Tax. Or it can be definitely earmarked to care for all public welfare costs. Or it can be given to the cities and towns for definite credit on each real estate tax bill, although this method would cause much administrative expense. The State could without great expense collect and credit to general fund, and if State Tax and County Taxes were liquidated all the local revenue could be used locally. Anything over could be used to liquidate debt.

It would seem that a new revenue source of at least an annual continuing capacity to yield about \$30,000,000 must be found. It is probably most unwise to levy a property tax which will take in its exaction much of the principal itself and thus destroy its productivity. The Sales Tax or Purchase Tax appears to be the only source promising yield, simplicity and continuity as a reliable revenue source operating without great injury to any one.

There is a constant struggle in governmental matters between those who find that government can still further expand itself in the social services, but it is not clear that the capacity on the part of the existing taxpayers can absorb the cost as fast as those who see the end of social service can think in terms of how the spread should be made.

It would seem fair that all of us should contribute to the cost of government if we are all in accord that the governmental functions which are had must be continued. If there is not sufficient property to tax without confiscating it or there is not sufficient privilege exercised to furnish sufficient funds to carry forward the social service, it would seem that there must be some need of regards for the inhabitants as a whole. The determination of just how this revenue should come from all the people is perhaps a matter of controversy. Surely there are three ways open: — First, a direct head tax which might prove very uncomfortable in administration; second, a very much broadened income tax which again is perhaps administratively difficult; and, third, what really is a head tax or an income tax measured by purchases but to be thought of in terms of direct exaction without any opportunity of the citizens to avoid.

That it is clear borrowing will not cure the problem and equally true that it may be a long time before there is a restoration of ability on the part of property and business to pay more, recourse to some form of revenue source in the absence of a definite and sharp reduction in the cost of government seems obvious. Just when this becomes necessary is likely to be determined by happenings perhaps beyond the control of anyone — first, the matter of borrowing which may be necessary because rates will become too high or a reluctance developed on the part of the lenders of money, or a complete breakdown of certain sources of revenue, or that revenue sources being tapped to the extent of confiscating the property will tend to reduce the values as these confiscated properties flow into hands more capable of tax paying ability but at a much lower level for valuation purposes than had been enjoyed by the property going from the hands of distressed owners into the hands of those able to pay formed for the base of the raising of taxation.

The following municipalities borrowed from the Commonwealth the sums of \$6,452,080 in the year ending December 31, 1933, and \$9,530,104.16 in the year ending December 31, 1934, against tax title accounts with the approval of the Emergency Finance Board established by Chapter 49 of the Acts of 1933.

*Amounts Borrowed in 1933*

| <i>Municipality</i> | <i>Amount</i> | <i>Date of Loan</i> |

### MISCELLANEOUS

The special tax at one dollar on each male above the age of twenty to provide money for old age assistance has been discontinued by reason of the new Alcoholic Beverages Tax.

The Motor Excise has continued to be a good revenue producer for the cities and towns but has consistently shrunk each year in amount of yield.

The Gasoline Excise was increased to three cents from May 1, 1931, to April 30, 1933, one-half the proceeds thus added being given the cities and towns to use as an estimated receipt to apply against the appropriation made for highways. In 1932 the entire additional amount is given the municipalities and the period of the three cent excise has been extended to April 30, 1937.

Under various Division headings additional information will be found respecting the tax situation.

## PUBLIC BEQUEST FUND

Massachusetts has created an opportunity for gifts and bequests to a State controlled Public Bequest Fund. The income is to be used to aid male citizens of this State above the age of 65 and female citizens above the age of 60.

## FEDERAL TAX EXEMPTION

An individual making a contribution to the Massachusetts Public Bequest Fund is allowed a deduction of the amount contributed in his Federal income tax return.

## MASSACHUSETTS TAX EXEMPTION

Amounts devised to the Massachusetts Public Bequest Fund are exempt from Massachusetts Inheritance and Estate taxes.

## PUBLIC BEQUEST COMMISSION

### Chapter 6 General Laws (Ter. Ed.)

Section 28A (1934-208). There shall be a public bequest commission, consisting of the commissioner of corporations and taxation, the state treasurer and the commissioner of state aid and pensions, ex officio. Said officials shall receive no additional compensation for such service, but, with the approval of the governor and council, may employ and remove such assistants and fix their salaries, and may incur such other expenses, as may be necessary to render effective the provisions of this and the four following sections.

SECTION 28B. There is hereby established a public bequest fund, which shall be under the control of said commissioners, and which shall consist of any bequests, devises, contributions or other gifts to said fund or to said commission for the use of said fund. So much of the property provided to constitute said fund as aforesaid as consists of real property or of tangible personal property shall be sold by said commission, and the proceeds thereof shall become a part of said fund. The state treasurer shall be the custodian of said fund. The provisions of this and the two following sections and of all other provisions of law relative to said fund shall in all respects be subject to amendment, alteration and repeal by the general court.

SECTION 28C. When, and so long as, the principal of said fund amounts to five hundred thousand dollars, said commission, with the approval of the governor and council, may distribute, in accordance with its rules and regulations relative thereto, the income from said fund to such worthy citizens of the commonwealth, as, in its opinion, by reason of old age and need, are entitled thereto. No man under sixty-five and no woman under sixty shall be deemed to be entitled to assistance from such fund.

SECTION 28D. Said commission, subject to the approval of the governor and council, may make, and from time to time may alter and amend, rules and regulations governing payments under section twenty-eight C.

SECTION 28E (1934-208). For the purpose of making the provisions of section twenty-eight B better understood by the citizens of the commonwealth, the commissioner of corporations and taxation is hereby authorized to disseminate information relative to the public bequest fund to such group or groups of taxpayers as he may deem advisable; provided, that none of the cost of such dissemination shall come from the said fund.

## SUGGESTED FORMS

### FOR A GIFT:

Public Bequest Commission,  
State House,  
Boston, Massachusetts.

I hand you herewith (my check, money order, cash) for.....  
dollars, being my gift to the Public Bequest Fund of The Commonwealth of Massachusetts established by section 28B of Chapter 6 of the General Laws (Ter. Ed.).

Yours very truly,

## FOR A WILL:

I give to the Public Bequest Fund of The Commonwealth of Massachusetts, established by section 28B of Chapter 6 of the General Laws (Ter. Ed.), the sum of.....dollars (or, if other property, describe the property).

## FOR A TRUST:

I give to A the sum of.....dollars (or, if other property, describe the property) in trust nevertheless to pay the income to B for life, and at the death of B the remainder to the Public Bequest Fund of The Commonwealth of Massachusetts, established by section 28B of Chapter 6 of the General Laws (Ter. Ed.).

## [CHAP. 313]

## AN ACT INCREASING THE FUNDS AVAILABLE TO MEET LOANS TO CITIES AND TOWNS ON ACCOUNT OF TAX TITLES HELD BY THEM.

*Whereas*, The deferred operation of this act would tend to defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

*Be it enacted, etc., as follows:*

Section five of chapter forty-nine of the acts of nineteen hundred and thirty-three is hereby amended by striking out in line five the word "ten" and inserting in place thereof the word:—sixteen,—so as to read as follows:—*Section 5.* The state treasurer, with the approval of the governor and council, may borrow from time to time, on the credit of the commonwealth, such sums as may be necessary to provide funds for loans to municipalities as aforesaid, but not exceeding sixteen million dollars, and may issue and renew notes of the commonwealth therefor, bearing interest payable at such times and at such rate as shall be fixed by the state treasurer, with the approval of the governor and council. Such notes shall be issued for such maximum term of years as the governor may recommend to the general court in accordance with section three of Article LXII of the amendments to the constitution of the commonwealth, but such notes, whether original or renewal, shall be payable not later than November thirtieth, nineteen hundred and thirty-nine. All notes issued under this section shall be signed by the state treasurer, approved by the governor and countersigned by the comptroller.

*Approved June 23, 1934.*

## NATIONAL BANK TAXATION

The situation in respect to the taxing of national banks and because of their competitive condition trust companies organized under the laws of Massachusetts has not changed during the year ending November 30, 1934. There is still before the Congress the provision to change Section 5219 in order to permit states greater latitude in taxing national banking associations. The last printed document of the Congressional committee is H. R. 9045, and gives the Hearing held on April 11-12, 1934. Reference is made to reports previous to this one for information respecting attempts to change the provisions of the Congressional enactment to take care of national bank taxation which is still a problem in many of the states. The existing statute, Section 5219 of the United States Revised Statutes (Title 12, United States Code, 548) containing the provisions of law relating to national banks remains as follows:

"State taxation. The legislature of each State may determine and direct, subject to the provisions of this section, the manner and place of taxing all the shares of national banking associations located within its limits. The several states may (1) tax said shares, or (2) include dividends derived therefrom in the taxable income of an owner or holder thereof, or (3) tax such associations on their net income, or (4) according to or measured by their net income, provided the following conditions are complied with:

1. (a) The imposition by any State of any one of the above four forms of taxation shall be in lieu of the others, except as hereinafter provided in subdivisions (c) of this clause.

(b) In the case of a tax on said shares the tax imposed shall not be at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of such State coming into competition with the business of national banks: *Provided*, That bonds, notes, or other evidences of indebtedness in the hands of individual citizens not employed or engaged in the banking or investment business and representing merely personal investments not made in competition with such business, shall not be deemed moneyed capital within the meaning of this section.

(c) In case of a tax on or according to or measured by the net income of an association, the taxing State may, except in case of a tax on net income, include the entire net income received from all sources, but the rate shall not be higher than the rate assessed upon other financial corporations nor higher than the highest of the rates assessed by the taxing State upon mercantile, manufacturing, and business corporations doing business within its limits: *Provided, however*, That a State which imposes a tax on or according to or measured by the net income of, or a franchise or excise tax on, financial, mercantile, manufacturing, and business corporations organized under its own laws or laws of other States and also imposes a tax upon the income of individuals, may include in such individual income dividends from national banking associations located within the State on condition that it also includes dividends from domestic corporations and may likewise include dividends from national banking associations located without the State on condition that it also includes dividends from foreign corporations, but at no higher rate than is imposed on dividends from such other corporations.

(d) In case the dividends derived from the said shares are taxed, the tax shall not be at a greater rate than is assessed upon the net income from other moneyed capital.

2. The shares of any national banking association owned by nonresidents of any State, shall be taxed by the taxing district or by the State where the association is located and not elsewhere; and such association shall make return of such shares and pay the tax thereon as agent of such non-resident shareholders.

3. Nothing herein shall be construed to exempt the real property of associations from taxation in any State or in any subdivision thereof, to the same extent, according to its value, as other real property is taxed.

4. The provisions of section 5219 of the Revised Statutes of the United States as in force prior to March 25, 1926, shall not prevent the legalizing, ratifying, or confirming by the States of any tax heretofore paid, levied, or assessed upon the shares of national banks, or the collecting thereof, to the extent that such tax would be valid under said section."

Massachusetts still finds itself unable to enact any national bank taxes except such as is within existing Congressional authority. The existing law provides for an income tax on banks and trust companies in Massachusetts at an amount not to exceed six per cent, which is very likely under existing conditions to continue to be the rate for a substantial period.

### LOCAL TAXATION

The total value as found by local assessors for the 1934 local assessment on taxable real estate and tangible personal property amounted to \$6,594,252,283. The comparative amount for 1933 is \$6,741,559,304, and for 1932, \$7,001,697,802. This shows a loss in 1934 of \$147,307,021 in local taxable values. The real estate subject to 1934 local assessment shows an assessed value of \$5,898,574,605 as against the 1933 value of \$6,040,797,955. The land shows a valuation of \$2,052,199,858 as against the 1933 value of \$2,091,950,084, and buildings a valuation of \$3,846,374,747 as against the 1933 value of \$3,948,847,871. It is unlikely that the 1930 value of \$7,233,539,128 will be again reached for many years.

Of the total value found by the local assessors for taxable tangible personal property amounting to \$695,677,678 as against the 1933 value of \$700,761,349, the assessed value of stock in trade shows \$62,116,983 as against the 1933 value of \$62,512,407; taxable machinery shows a value of \$470,658,875 as against a 1933

value of \$474,195,048; the 1934 value of livestock shows \$11,788,724 and all of the many other kinds of taxable tangible personal property show a 1934 value of \$151,113,096. The total excise value found in the motor excise tax for 1934 is \$194,943,877 as against the 1933 value of \$212,093,824.

As compared with 1933 the \$2 poll taxpayers increased in number from 1,274,772 to 1,290,668. The "Head Tax" assessed under Chapter 398 of the Acts of 1931 ("imposing an old age assistance tax on male inhabitants . . .") which was in operation for the first time in 1931 was assessed for the last time in 1933. The personal property tax increased from \$22,333,398 in 1933 to \$23,573,233, and the real estate tax increased from \$190,751,981 to \$199,780,569. The total direct local tax of \$215,634,923 in 1933 increased in 1934 to \$225,935,138, and includes poll taxes in the sum of \$2,581,336 or about 2% of the total; tangible personal property taxes in the sum of \$23,573,233 or about 10% of the total, and real estate taxes in the sum of \$199,780,569, being about 88% of the total. For this partially complete picture there should be considered in addition to these direct local taxes the revenue of over \$5,198,000 the cities and towns received from the locally assessed motor excise and \$14,801,000 approximately from the personal income tax, making a direct tax in 1934 for city and town purposes of over \$245,934,138 as against the comparative 1933 amount of \$233,287,923. The total appropriations made by municipalities in 1934 was \$273,498,919 as against \$266,368,627 in 1933, some of which comes from other than direct taxes. Using the total assessed property value of \$6,594,252,283 (exclusive of motor vehicles which are taxed at a uniform rate for all cities and towns) a tax rate in 1934 of \$33.87 per \$1,000 would be required to raise the \$223,353,802 assessed locally as against a similarly computed rate of \$31.61 in 1933.

Comparing 1934 with 1933 there were assessed by the local assessors 37,411 horses in 1934 as against 39,584 in 1933; 131,459 cows as against 126,977; 9,172 sheep as against 10,081; 33,184 neat cattle as against 34,134; 31,417 swine as against 29,633; 779,014 dwelling houses as against 777,591, an increase of 1,423; 4,406,906 acres of land as against 4,404,886, a gain of 2,020; and 1,968,297 fowl as against 1,907,890.

The number of recorded local direct property taxpayers increased from 945,607 in 1933 to 953,570 in 1934. In all the foregoing, the figures presented include both the April assessments and the December "omitted assessments".

These taxpayers paid at different local tax rates ranging from \$11.50 per \$1,000 of value in the town of Gosnold, to \$51.00 per \$1,000 of value in the town of Merri-mac. Three towns showed rates from \$11.50 to \$14.75; nine towns, rates from \$16.50 to \$19.30; forty-two towns, rates from \$20.00 to \$24.80; five cities and sixty-seven towns, \$25.00 to \$29.80; thirteen cities and one hundred eleven towns, \$30.00 to \$34.90; thirteen cities and forty-nine towns, \$35.00 to \$39.60; eight cities and thirty towns, \$40.00 to \$44.60; five towns, \$45.00 to \$51.00.

## GOVERNMENTAL COSTS

For the year ending November 30, 1934, there was levied as taxes upon the real estate, tangible personal and motor vehicles located within Massachusetts the following sums: As a state tax, \$10,000,000; as a county tax, \$10,263,102; as a direct tax for the support of municipal activities in the cities and towns, \$208,240,123, \$2,581,336 assessed as a poll tax of \$2 on each male inhabitant twenty years of age or over, a total of \$231,084,561, being the total amount assessed by the cities and towns, including the amount assessed on motor vehicles under General Laws, Chapter 60A (Chapter 379 of 1928); first effective in 1929; in the sum of \$5,198,288 to meet with other revenue a total appropriation charge of \$273,498,919 in 1934 in the cities and towns. This local tax was levied at the varying tax rates of the several cities and towns, which ranged from: the lowest, \$11.50 per \$1,000, to the highest, \$51.00 per \$1,000, the average rate being \$31.64. The total valuation of the real estate and tangible personal property upon which this tax was levied was \$6,788,087,833. (This amount includes motor vehicles.)

The Commonwealth assessed upon corporations, insurance companies, national banks, trust companies, savings banks, legacies and successions, stock transfers, incomes, gasoline, and upon miscellaneous the sum of \$57,656,384.14; \$21,719,596.43 of which was distributed to the cities and towns and the balance retained for the general purposes of the Commonwealth.

To these sums are also to be added approximately \$69,898,162, received by the counties, cities and towns from fines, fees and miscellaneous sources; and about \$12,713,075 in revenue received by the Commonwealth.

These items combined make a total of \$371,352,182.

The contribution made in the form of taxation by the inhabitants of Massachusetts to the support of the government of the United States must not be forgotten. This sum for the year ending June 30, 1934 was not less than \$97,351,675.84, making a total direct contribution for government for the year 1934 by the 4,347,995 (estimated) inhabitants of this Commonwealth of approximately \$468,703,858 or a per capita of \$107.79.

## STATISTICAL

There are about 24,124 business corporations, 21,782 of which are domestic, and 2,342 registered foreign business corporations subject to taxation. A franchise tax return was received on each of the 220 public service corporations, and 125 were subjected to a tax assessment; 30 trust companies and 63 national banks were taxed on income. Under the Income Tax Law 217,915 returns were assessable. In the collection of the inheritance tax 14,416 estates were dealt with. The insurance tax was assessed upon 27 foreign life companies, 312 fire and marine companies of which 52 were Massachusetts companies, 132 miscellaneous companies of which 35 were Massachusetts companies, the insurance departments of 21 savings banks, and the General Insurance Guaranty Fund of Massachusetts. A tax was assessed against 193 savings banks and 67 savings departments of trust companies. 146 national banks were subject to tax; 82 trust companies were subject to tax.

For the year ending November 30, 1934, 2,694 corporations of all classes were organized, 2,178 of which were domestic business corporations. About 2,648 domestic business corporations were dissolved, 11 public service corporations, and about 24 corporations of other classes.

During the year ending April 30, 1935, the accounts of 185 cities and towns were audited; the standard system of accounts recommended to be installed is now in use in 217 cities and towns (a gain of 4) and assistance was rendered under Sec. 37 of Chapter 44, of the General Laws to 6 cities and towns. During the year ending November 30, 1934, 4,545 town and district notes were certified representing indebtedness amounting to \$48,524,805.71.

The net direct debt of the State on November 30, 1934, was \$15,541,533.87 and the net funded debt of all the counties except Suffolk on December 31, 1934 was \$6,812,937.70; Suffolk Co., \$669,702.99. The net funded debt of the cities and towns on December 31, 1934 was \$305,615,776.01, not including tax title loans of \$11,043,771.94.

## STATISTICAL TABLES

The tables relating to Sources of Tax Revenue, Massachusetts Wealth, Tax Rates and Valuations, County tax, State tax, County Aggregates of the Polls and Property tax, Business Corporation tax, Bank taxes, Public Service Corporation taxes, Income taxes, the Gasoline tax, Direct Local taxes, Treasurers' and Collectors' Bonds, Municipal Appropriations and Receipts, Uncollected taxes, Tax Titles, Municipal Indebtedness and Revenue and Loans appear under appropriate headings.

Table A is a list of assessments by the department during the year; Tables B and BB relate to the collection of taxes; and Table C deals with all taxes and revenue both state and local with which the department has to do. Three tables relate to the distribution of taxes to the cities and towns. A tabulation relating to the classes and the value of the property exempted from taxation in the cities and towns under the first fifteen clauses of Section 5 of Chapter 59 of the General Laws as amended relating to local taxation, also includes the valuations of property of the United States, property of the Commonwealth and of the cities, towns and counties, which is put to a public use. A transcript of the returns filed with the assessors of cities and towns relating to the classes of property owned by Literary, Benevolent, Charitable and other miscellaneous institutions claiming exemption from local taxation, also contains a statement as to income and disbursements by these organizations.

EXEMPTED FROM LOCAL TAXATION

The table which has appeared as a part of this report since 1923, differs somewhat from the similar table in reports previous to 1923, by reason of the fact that Section 51 of Chapter 59 of the General Laws as amended by Chapter 421 of the Acts of 1923 requires of assessors that more information be entered upon the valuation lists, respecting property which is exempted from local taxation, than in former years.

In making return to the Commissioner of Corporations and Taxation, assessors are instructed to report only the classes of property which are subject to tax under Chapter 59 of the General Laws, while in former years the figures included certain intangible personal property, the taxation of which is provided for by Chapter 62 of the General Laws, upon the income therefrom.

This explanation is to be borne in mind in a comparison of the figures with those of years prior to 1923.

\$1,516,143,476, or \$13,771,090 above the amount reported as exempted in 1932, is the total valuation, as reported by the assessors, of the property exempted from taxation, and it is to be borne in mind that assessors, being unaccustomed to revaluing exempted property each year, may, in some instances, not have estimated it at its actual value.

The division of this total is into the first fifteen clauses of Section 5 of Chapter 59, and Property put to a Public Use, and is the exempted property covered by the above figures, as shown in detail in Table N further on in this report.

AUDIT GAINS

During the year ending November 30, 1934, the following amounts have accrued by reason of departmental audits of tax returns and field audits:

|  |              |
|--|--------------|
| Income . . . . .                       | \$186,139.07 |
| Business . . . . .                     | 139,804.86   |
| Gasoline . . . . .                     | 19,556.16    |
| Alcoholic and Malt Beverages . . . . . | 59,386.30    |
| <hr/>                                  |              |
| Total . . . . .                        | \$404,886.39 |

CHARTS

The charts that follow correctly state the tax laws as of January 1, 1935, except as is noted below.

“Property Taxation in Massachusetts”

Motor Vehicles if registered, subject to excise. Beginning in 1929 registered motor vehicles are no longer included in the property tax, but are subject to the Motor Vehicle Excise, Chapter 379 of the Acts of 1928, which created Chapter 60A of the General Laws amended by Chapter 244, Acts of 1930.

Ships and vessels engaged in commercial fishing are now classified with those in the interstate and foreign carrying trade. Fourth footnote: There shall be added the following: If owned by or held in trust for a city or town, taxable to occupant lessee or person in possession if used for other than a public purpose.

To household furniture in the place of “domicile” only (Section 5, Clause 20, Chapter 59, General Laws) there is added: Effects, jewelry, plate, works of art, musical instruments, radios, garage or stable accessories and boats, fishing gear and nets not exceeding \$1,000 in value. Chapter 75, Acts of 1931.

Money in hand exempt (Section 5, Clause 20, Chapter 59, General Laws, as amended by Chapter 75, Acts of 1931).

Exemption of widows, minors and aged (Column No. 16 in table) \$2,000 instead of \$1,000. Chapter 247, Acts of 1930.

Veterans' exemption (Column No. 19 in table) includes other veterans. Chapter 189, Acts of 1930.

“Public Service and Bank Taxation”

Chapter 379 of the Acts of 1928, which created Chapter 60A of the General Laws (Motor Vehicle Excise) taxes registered motor vehicles.

Railroads to be in list at bottom of page.

National Banks and Trust Companies taxed on "net income." Chap. 327 of 1933 by Sect. 1 defines as "Net income," the gross income from all sources, without exclusion, for the taxable year, less the deductions, other than losses sustained by the bank in other fiscal or calendar years and other than dividends, allowable by the federal revenue act applicable for said taxable year; and by Sect. 2 defines the rate of tax. *Section 2.* Every bank shall pay annually a tax measured by its net income, as defined in section one, at the rate assessed upon other financial corporations; provided, that such rate shall not be higher than the highest of the rates assessed under this chapter upon mercantile and business corporations doing business in the commonwealth; and, provided, further, that such rate shall not be higher than six per cent.

"Insurance Companies"

Such change as may have been made by Chapter 379 of the Acts of 1928, which created Chapter 60A of the General Laws (Motor Vehicle Excise), taxes registered motor vehicles.

"Stock Transfer Tax"

High (1929) to read \$866,857.24. Average to read \$304,254.63.

"Liability of Property to Inheritance Tax"

Non-resident interests in real estate represented by mortgages or shares of real estate trusts exempted by Chapter 292, Acts of 1929.

"Income Tax"

Line 18 — Columns 1-3-5-7-10-12-13-15 to read taxable so far as received from deposits in National Banks.

Line 21 — Columns 1-3-5-7-10-12-13-15 should read taxable.

Line 22 — Columns 1-3-5-7-10-12-13-15 should read taxable.

Line 24 — Columns 1-3-5-7-10-12-13-15 should read taxable.

Line 29 — Columns 1-3-5-7-10-12-13-15 should read taxable.

## TAXATION OF BUSINESS AND MANUFACTURING CORPORATIONS

### DOMESTIC CORPORATIONS

#### I. *Property Tax* (Ch. 59).

Property *taxable* to Corporation.

Real Estate, underground conduits, wires and pipes. (G. L., C. 59, Sec. 2.)

Property *exempt* to Corporation.

All tangible personal property (including merchandise) other than machinery used in the conduct of the business. (G. L., C. 59, Sec. 5, cl. 16.)

Machinery used in the conduct of the business. (*idem*)

Note: Registered motor vehicles are subject to the excise imposed by G. L., Ch. 60A.

Intangible Property.

#### II. *Excise Tax* (G. L., Ch. 63, secs. 30 to 52, inclusive).

(1) \$5 per thousand upon the value of its corporate excess\* (Ch. 63, secs. 32 and 38C).

(2) 2½% of net income derived from Massachusetts business, subject in the case of manufacturing corporations to the deduction for machinery used in manufacturing, provided in section 38C (Ch. 63, secs. 32 and 38C).

Provided that no corporation shall pay a total excise less than

(a) 1/20 of one percent of the fair value of its capital stock (Ch. 63, sec. 32).

or (b) (If its profits are derived from tangible property) 1/20 of one percent of its gross receipts from business assignable to Massachusetts (Ch. 63, secs. 32A and 38C).

\*"Corporate excess" is the fair value of the corporation's capital stock less the value of

(a) Its works, structures, real estate, motor vehicles, machinery, poles, underground conduits, wires and pipes subject to local taxation in Massachusetts, except such part of the real estate as represents the interest of a mortgagee.

(b) Its securities, the income of which would not be liable to taxation, except shares in national banks and voluntary associations, trusts and partnerships. (Special provision is made temporarily for corporations owning over 50% of the stock of domestic corporations.)

(c) Its tangible property situated outside Massachusetts, except the interest of a mortgagee therein.

(d) Its cash and accounts and bills receivable attributable to an office outside Massachusetts. (G. L., Ch. 63, sec. 30, cl. 3, sec. 38C.)

Chapter 359 of the Acts of 1929 as amended (See G. L. Ch. 63, sec. 38B) makes a relatively small group of domestic business corporations, exempt from the above provisions. The group is limited to corporations engaged exclusively in buying, selling, dealing in, or holding, securities on their own behalf and not as brokers. Such corporations are required to pay an excise equal to the sum of the following: (a) 6% of dividends and interest received which would be taxable under the provisions of Chapter 62 of the General Laws to an individual if received by him, subject to a deduction for interest paid, (b) 1½% of business income, (c) 3% of gains from dealing in intangibles. It is further provided that the excise shall not be less than 1/20 of 1 per cent of the fair value of the corporation's capital stock. This excise is temporarily affected by the provisions of Chapter 307 of the Acts of 1933 which makes the provisions of subsection (b) of section one of chapter 62 of the General Laws inapplicable to income received during 1933, 1934 and 1935. Chapter 317 of the Acts of 1934 provides a minimum tax for 1934, 1935 and 1936 of not less than the amount by which (1), (2), (3) and (4) following exceeds 6% of the dividends paid by the corporation: (1) 6% of income taxable to an individual under section 1 of chapter 62 of the General Laws, less interest deduction. (2) 6% of income taxable to an individual under section 9 of chapter 307 of the Acts of 1933, less interest deduction. (3) 1½% of income taxable to an individual under clause (b) of section 5 of chapter 62 of the General Laws but without exemption under clause (b) nor deduction under clause (g) or (h) of section 6 of said chapter 62. (4) 3% of the excess of gains over losses from purchases and sales of intangibles. An alternative method of taxation is provided in G. L. c. 63, sec. 56A.

*Note.* Special provisions relate to the determination of the tax of subsidiary corporations which do not disclose the capital truly employed nor true earnings (Ch. 63, sec. 33). An excise is imposed of 1/3 of one per cent upon the value of ships and vessels engaged in interstate or foreign carrying trade or commercial fishing (Ch. 63, sec. 67), in which event the value of the ships and vessels is deducted in determining corporate excess.

## FOREIGN CORPORATIONS\*

### I. *Property Tax* (G. L., Ch. 59).

Property *taxable* to Foreign Corporation.  
Real Estate, underground conduits, wires and pipes. (G. L., Ch. 59, Sec. 2.)

Property *exempt* to Foreign Corporation.  
All tangible personal property (including merchandise) other than machinery used in the conduct of the business. (G. L., Ch. 59, Sec. 5, cl. 16.)

Machinery used in the conduct of the business. (*idem*)

Note: Registered motor vehicles are subject to the excise imposed by G. L., Ch. 60A.      Intangible Property.

### II. *Excise Tax* (G. L., Ch. 63, secs. 30 to 52, inclusive).

(1) \$5 per thousand upon the value of the corporate excess employed by it in Massachusetts† (Ch. 63, secs. 39 and 42B).

(2) 2½% upon its net income derived from Massachusetts business subject in the case of a manufacturing corporation to deduction for machinery used in manufacturing, as provided by section 42B, and subject to credit for dividends paid to Massachusetts inhabitants as provided by section 43\*\* (Ch. 63, secs. 39 and 42B).

Provided that every such corporation shall pay a total excise not less than

(a) 1/20 of one percent of such proportion of the fair value of its capital stock as the value of its assets employed in Massachusetts bears to the value of all its assets. (Ch. 63, secs. 39 and 42B.)

or (b) (If it derives its profits from tangible property) 1/20 of one percent of its gross receipts assignable to Massachusetts business. (Ch. 63, secs. 39C and 42B.)

†“Corporate excess employed within the Commonwealth” is such proportion of the fair value of its capital stock, as the value of the assets employed in business in Massachusetts less the value of (a) and (b) following bears to the value of all its assets: —

(a) Its works, structures, real estate, motor vehicles, machinery, poles, underground conduits, wires and pipes, subject to local taxation in Massachusetts, except the interest of a mortgagee in its real estate.

(b) Its securities held in Massachusetts, the income of which, if received by an inhabitant of Massachusetts, would not be subject to taxation, except shares in National Banks, Voluntary Associations, Trusts and Partnerships. (Ch. 63, sec. 30, cl. 4, and sec. 42B.) (Special provision is made temporarily for corporations owning over 50% of the stock of domestic corporations.)

Note. Special provisions relate to the determination of the tax of subsidiary corporations which do not disclose the capital truly employed nor true earnings (Ch. 63, sec. 39A).

\*\*“Foreign Corporation” is here used to mean a foreign corporation doing business in Massachusetts. Foreign corporations not doing business in Massachusetts are subject to local taxation upon real estate and all tangible personal property, including merchandise, and are, of course, subject to no excise.

\*\* The credit for dividends is temporarily suspended with respect to dividends paid in 1933, 1934 and 1935 by Acts of 1933, Ch. 307.

## TAXATION OF INDIVIDUALS AND BUSINESS CORPORATIONS CONTRASTED

## I. PROPERTY TAX

| INDIVIDUAL   |                      | CORPORATION  |  |
|--|----------------------|--|--|
| Taxable On*  | Exempt Upon          | Taxable On   | Exempt Upon  |
| Real Estate.   | Intangible Property. | Real Estate and Machinery used in conduct of business.                       | Intangible Property.   |
| Machinery and all other tangible personal property including merchandise, except motor vehicles subject to the excise imposed by G. L., Ch. 60A. |                      | Note: Registered motor vehicles subject to excise imposed by G. L., Ch. 60A. | Merchandise and every other type of tangible personal property except machinery used in conduct of business. |

† Figures not available 1934; 1933 used.

\* All spent on highways.

\*\* Five-sixths distributed to cities and towns and one-sixth retained by the State.

\*\*\* The tax on shares of non-residents of Massachusetts is retained by the State.

†† An additional amount of \$833,000 was distributed in 1931 and \$918,300 in 1932 to cities and towns under Section 26 of Chapter 81, General Laws.

## DECISIONS OF THE MASSACHUSETTS SUPREME JUDICIAL COURT

## Decisions Affecting Municipal Corporations

LEO H. GRAHAM & OTHERS *vs.* BOARD OF PUBLIC WORKS OF PITTSFIELD.  
285 Mass. 544.

Berkshire. September 19, 1933. — March 28, 1934.

*Tree — Way, Public:* public shade tree, “widening.” *Municipal Corporations, City Charter, Officers and agents.*

This is an appeal by the board of public works of Pittsfield from a final decree after hearing enjoining them from cutting down and removing four public shade trees standing within the limits of the highway in front of land owned by one of the plaintiffs. The purpose of the board in cutting down the trees was to afford a parking place within the limits of the highway, lessening the interference with traffic.

The court upheld the contention of the plaintiff's that the authority of the board which under the city charter of Pittsfield as revised was the same as that given by general laws to selectmen over shade and ornamental trees in public streets and ways, and to road commissioners, was controlled by the subsequent provisions of St. 1915, c. 145, now in G. L. (Ter. Ed.) c. 87. In *Whiting v. Board of Public Works of Holyoke*, 222 Mass. 22 it was held that this statute is applicable to a municipality not in terms excepted from its provisions.

The powers of the board are enlarged by § 5 of that statute, by doing away with the requirement of a public hearing or approval by the mayor in those particular instances (1) where a tree which “endangers persons traveling on a highway” is to be trimmed, cut or removed, or (2) where the “removal of any tree is ordered by the proper officers for the purpose of widening the highway.”

In the present case it was expressly found that the trees did not endanger travel on the highway. The purpose of the board was the widening of the traveled part of the highway within its existing limits and not “widening the highway” as used in the section quoted where the signification is a change in its location, — that is to say, its boundaries, — effected by bringing more of the earth's surface within that location. Such a widening requires the exercise of eminent domain. It is different in nature from a construction, as intended by the board in this case, of a wider traveled or paved surface within the limits of a highway as already laid out, which is frequently and accurately described as the making of specific repairs. See *McManus v. Weston*, 164 Mass. 263, 266, 267, G. L. (Ter. Ed.) c. 82, §§ 2, 17, 21.

In view of the above stated design and purpose of the board it was held that the proper procedure for dealing with the trees was by holding a public hearing under G. L. (Ter. Ed.) c. 87, §§ 3 and 4. That procedure failed to become effective because not approved by the mayor. The decree enjoining the board from cutting down the trees was accordingly affirmed.

SELECTMEN OF MILTON *vs.* JUSTICE OF THE DISTRICT COURT OF EAST NORFOLK.

SELECTMEN OF MILTON & ANOTHER *vs.* SAME.

286 Mass. 1.

Norfolk. June 27, 1933. — March 30, 1934.

*Jurisdiction. Civil Service, District Court,* Review of action with respect to civil service. *Municipal Corporations, Officers and agents.*

After due notice, the selectmen of the town of Milton on January 6, 1933 lowered the compensation of all town employees, including police officers and firemen by fixing it at eighty-seven and one half per cent of the amount prevailing in 1932. The reasons for this action were stated in the notice to be the economic condition of the town and its added expenditures. Within thirty days after a public hearing held upon the requests of a police officer and of a member of the fire department, petitions for a review of this action of the selectmen were brought before the justice of the appropriate district court who reversed the decision of the selectmen, holding that their action was not justified and was taken without proper cause. The burden of proof was not sustained, in his judgment, that the financial condition of the town absolutely required such drastic action as a lowering in compensation to police officers and firemen on the ground of economy where the morale of such

classified public service might be affected or the efficiency of these departments decreased. The town's acceptance of a statute placing the members of the police department under civil service law was held by the justice to be an additional assurance to the members that their compensation should not be lowered unless justified.

This controversy relates, therefore, to the justification for such reduction and the appropriate procedure respecting such reduction under the civil service law, G. L. (Ter. Ed.) c. 31.

The court said that definite duties with respect to town expenses are laid upon selectmen, G. L. (Ter. Ed.) c. 41, §§ 59, 60. They have a wide and undefined field in the management of the prudential affairs and in the general superintendence of the business of towns. It is not questioned that the power of the selectmen to make a general and uniform reduction in the compensation of all policemen, all firemen, and all other town employees falls within the sphere of general or implied authority of selectmen.

Art. 30 of the Declaration of Rights strictly forbids legislative or executive power to be conferred upon the courts. The constitutionality of G. L. (Ter. Ed.) c. 31, §§ 42A, 42B, 43, 45, however, has been expressly upheld. The exercise of executive functions as to the removal, suspension, transfer, demotion in rank or compensation, or abolition of office, taken after a full hearing upon adequate notice with full statement of hearings, is in the nature of a judicial investigation. Therefore, the duty to review such a hearing is judicial in character and may be imposed upon the courts. The court said that such action differs, however, in nature from a sweeping determination of municipal policy as to the scale of salary to be paid to all municipal employees or any department of them.

The general scheme of financial administration of a town rests upon the exercise of common sense applied to practical problems of municipal government. It involves the promotion of the public welfare in a wide sense. It must be supported by taxation dependent in its final analysis upon votes for appropriations passed at a town meeting. In broad meaning, the court continued, it may, partake, both of legislative and executive functions. Considerations of municipal economy, the rate of taxation, the efficiency of the public service, the necessities for preservation of law and order and other factors must enter into the solution of such a problem. The court declared that this is not a judicial function. Decisions in *Alger v. Justice of District Court*, 283 Mass. 596, *Reynolds v. McDermot*, 264 Mass. 158, and *Yunitz v. Chelsea*, 270 Mass. 179 support the conclusion, in the opinion of the court, that there can be no review of a hearing before an administrative or legislative board or officer by a court of law unless the question at issue is judicial in its character.

In the case at bar the district court justice did not proceed in accordance with these principles. His findings fall short of bad faith on the part of the selectmen in reducing salaries. They simply meant that the justice disagreed with the selectmen in their general municipal economy as applied to compensation of town employees. In a broad sense, that was a legislative or executive subject. Whether the selectmen acting in good faith were mistaken in their general financial policy of administering the affairs of the town was not within his province to decide. That was for determination by the selectmen acting in good faith subject to final review by voters of the town in making appropriations. The decision of the justice was therefore overruled.

GEORGE C. BUERKEL & ANOTHER vs. CITY OF BOSTON.

SAME vs. SAME.

BUERKEL-GASTON, INC. vs. SAME.

286 Mass. 412.

Suffolk. March 7, 1934. — May 25, 1934.

*Municipal Corporations, Public drain.*

In these cases damages were sought from a city for injury to goods and merchandise caused by water backing up and overflowing into the basements of stores by reason of the obstruction of a catch basin and a surface drain, in the care and maintenance of which it was alleged the city had been negligent.

The city had notice of the condition of the catch basin immediately after a heavy storm and knew that it would not carry away surface water but did nothing to free

it from the obstruction. There was no evidence, however, to show that the obstruction to the catch basin dammed the water as it flowed down the alley and thereby caused the water which would naturally have been received by the catch basin and discharged into the drain, to flow back into or upon the plaintiff's premises.

G. L. c. 83, § 5 (originally St. 1903, c. 383, § 1), provides that "When a town has provided both a drain for waters and a sewer for sewage in a public way, the owner of every parcel of land abutting on such way or connected with such drain or sewer shall arrange his plumbing so that the waters shall be kept separate from the sewage; and shall make such connections with the drain and sewer respectively that the waters shall pass into the drain and the sewage into the sewer in accordance with the directions of the board or officer having charge of the repair and maintenance of sewers in such town."

There was no evidence that the plaintiffs ever made connection with the surface water drains as they were required to do under this statute or that they were required to do so by any ordinance of the city. In the absence of such connection made under these requirements, the court said these cases stood or fell upon the issue whether the obstruction of the catch basin and the failure of water to flow through it to the drain was an act of negligence for which the city is liable if surface water entered upon the plaintiff's premises which would have passed into the drain if the catch basin had been free to collect such surface water. In the absence of a statute a municipality is not required to restrain the passage of surface waters from its streets over lands of adjacent or abutting owners. *Emery v. Lowell*, 104 Mass. 13. *Barry v. Lowell*, 8 Allen, 127. *Bates v. Westborough*, 151 Mass. 174. The court said the cases stood the same as they would have done had no surface drain or catch basin ever been constructed in the public alley, and there had been no collection of waters which flowed back or were discharged after an accumulation upon the plaintiff's premises. *Bates v. Westborough*, 151 Mass. 174. *Kennison v. Beverly*, 146 Mass. 467. The verdict of the trial judge in favor of the city was sustained.

ALVIN H. PHILLIPS vs. BOARD OF APPEALS OF THE BUILDING DEPARTMENT OF  
SPRINGFIELD.  
286 Mass. 469.

Hampden. September 21, 1933. — May 26, 1934.

*Zoning, Variance. Certiorari.*

The question for decision here is whether the decision of the board of appeals to vary a city's zoning ordinance (See G. L. [Ter. Ed.] c. 40, §§ 25-33) in order to allow a dwelling house in a strictly residential district to be used for an undertaking establishment was warranted on the ground that the enforcement of the ordinance (1) would work unnecessary hardship upon the landowner, and (2) desirable relief might be granted without substantially derogating from its intent and purpose.

It was shown that the owner could no longer afford to carry the place which once was a fine residential estate but was then unsaleable and unrentable. Experts had advised that if an apartment house were to be built on the lot, which the ordinance permits, it would be a loss to the owner and a detriment to other apartment property in the vicinity. The board was influenced in its decision to grant the variation of the zoning ordinance by its feeling that an undertaking business, although it has been held to be a "commercial enterprise," is on a little higher plan than other "businesses;" that the only advertisement of the business would be entirely inoffensive, and that any contemplated changes would be in the nature of improvements to well kept premises.

The court said that the power of variation is to be sparingly exercised. "The financial situation or pecuniary hardship of a single owner affords no adequate ground for putting forth this extraordinary power affecting other property owners as well as the public." *Prusik v. Board of Appeal of Boston*, 262 Mass. 451, 457. That is a factor entitled to consideration but, standing alone, is not sufficient. The chief purpose of a zoning statute has relation to the public welfare. See *Coleman v. Board of Appeal of Boston*, 281 Mass. 112, which governs this case. Circumstances which led to a different result in *Hammond v. Board of Appeal of Springfield*, 257 Mass. 446, *Marinelli v. Board of Appeal of Boston*, 275 Mass. 169, and

*Amero v. Board of Appeal of Gloucester*, 283 Mass. 45, were absent in this case. No finding was made of a public need at this place where business had not encroached for an undertaking establishment, which admittedly is a business or commercial enterprise. *Building Commissioner of Brookline v. McManus*, 263 Mass. 270. The neighbors were not in accord in approving the variation but there was some stout opposition.

In these circumstances the court held that the inability of the owner to rent the property as a residence, alone, was not a sufficient reason for varying the ordinance, and did not show that the desired variation would not derogate from the purpose and intent of the ordinance. The record of the decision of the board was quashed.

G. M. BRYNE COMPANY *vs.* TOWN OF BARNSTABLE.  
286 Mass. 544.

Suffolk. May 13, 1932. — May 29, 1934.

*Contract, Construction, Validity, Of Municipal corporation, Modification, Building contract. Municipal corporations, Municipal finances, Officers and agents, Contracts, Bridge in public way.*

The question for decision in this case was whether a contractor could recover from a town the entire unpaid portion of the total sum earned by him in building a bridge under a written contract dated May 15, 1911, or only the unexpended balance of the appropriation voted by the town. The court said that whether the town's liability was so limited depended upon the votes of the town and the applicable statutes.

These were examined with the following conclusions:

The building of a bridge for the purpose of replacing an existing bridge constituting a part of a public way is within the corporate powers of a town.

By vote of the town such powers could be exercised through a committee acting as an agent of the town, and not as a board of public officers, if the laws governing their exercise were complied with. See R. L. c. 25, §§ 14, 15; c. 51, §§ 1, 13, 23. *Simonds v. Heard*, 23 Pick. 120. *Hawks v. Charlemont*, 107 Mass. 414. *Shea v. Milford*, 145 Mass. 528. *Bigelow v. Worcester*, 169 Mass. 390, 393. *Twombly v. Billerica*, 262 Mass. 214, 219.

Under R. L. c. 51, § 13, a town could authorize such committee to enter into contracts. Though the bridge committee as constituted by vote of the town in the present case was not expressly authorized to make contracts for building the bridge, the vote authorizing the building of the bridge carried with it "an implied authority to make the necessary contracts for that purpose". *Simonds v. Heard*, 23 Pick. 120, 124-125. See *Damon v. Granby*, 2 Pick. 345; *Friend v. Gilbert*, 108 Mass. 408, 411. *Shea v. Milford*, 145 Mass. 528.

A vote of the town dealing with two distinct matters, (a) raising money by issuing "notes, bonds or script of the Town for \$14,000" for building the bridge, and (b) authorizing agents of the town to build such bridge did not limit the amount to be expended by the bridge committee to the amount of money authorized to be raised in the manner provided in the first part of the vote. Nor did a vote at a subsequent meeting accepting a report by the committee describing the progress of the work and declaring it to be "the sense of this meeting that the committee proceed to have the bridge completed", purport to limit the amount of the committee's expenditures to the sum so appropriated.

A vote at a still later meeting to borrow a certain sum: "for the purpose of completing" the bridge, even if intended to limit expenditures on the bridge, could not affect liabilities already lawfully incurred.

A town cannot escape liability under a contract legally made by failing to make a sufficient appropriation to meet the requirements thereof.

No statute in force in 1911 and 1912 prohibited the bridge committee, acting within the terms of the votes of the town from incurring liability in excess of the amounts appropriated (or borrowed) for building the bridge. The statute providing that no department of a town "shall incur liability in excess of the appropriation made for the use of such department," except in cases of extreme emergency (St. 1913, c. 719, § 16, now G. L. [Ter. Ed.] c. 44, § 31), did not take effect until January 1, 1914.

It was proper for the trial judge to refuse to rule that the contractor could not

recover more than the unexpended balance of the appropriations made by the town for doing the work. The town could not rely on R. L. c. 27, § 1, in force during 1911 and 1912 providing that "Cities and towns shall not incur debts, except in the manner of voting and within the limitations as to amount and time of payment prescribed in this chapter," as limiting the authority of the bridge committee to incur debts for construction of the bridge to the amounts appropriated for it. That statute was inapplicable. R. L. c. 27, § 20 provides that "The restrictions of the preceding sections shall not exempt a city or town from its liability to pay debts contracted for purposes for which it may lawfully expend money." It was said in *Smith v. Dedham*, 144 Mass. 177, 179 that "although the statute was prohibitory with reference to the borrowing of money and the contracting of debts, it was not intended to interfere with the limited corporate powers and duties of cities and towns . . . They are authorized to make contracts necessary and convenient for the exercise of their corporate powers, without bringing themselves within the limitation of this statute." Building the bridge was a purpose for which the town could "lawfully expend money" within the meaning of the statute. It was in pursuance of the statutory duties of the town to keep in repair at its expense "Highways, town ways, causeways and bridges." R. L. c. 51, § 1. And there was express statutory authority in R. L. c. 25, § 15 to appropriate money for the purpose of "making, altering and repairing highways and town ways". As between the contractor and the town the debt created by the contract, which by its terms was to be performed in the year in which it was made, was an obligation for "current expenses, payable out of current revenues" unless otherwise discharged.

The contractor was held entitled to recover the entire unpaid portion of the total amount earned by him. He was also entitled to recover for extra work when it could not be said as a matter of law that a modification of the written contract so as to authorize the performance of extra work upon oral orders of the engineer — when written orders were not required by statute or by vote of the town — was not reasonably adapted to the exercise of the powers conferred on the bridge committee.

Mass. Adv. Sh. (1934), 1225.  
287 Mass. 1

Worcester. January 5, 1934. — June 7, 1934.

*Equity Jurisdiction*, To restrain operation of unlicensed motor bus. *Municipal Corporation*, Officers and agents, Rubber stamp "approval." *Carrier*, Motor bus. *Motor Vehicle*. Eminent Domain. *Railroad*, Extent of easement. *Easement*, Of travel. *Words*, "Approval."

Twelve citizens of Worcester brought suit in equity under the provisions of G. L. (Ter. Ed.) c. 159 A, to restrain a violation of that statute alleged to be committed in the operation of motor buses for hire over a certain "Lake View Route" without a license. It was contended that the license granted was not valid for want of proper approval by the mayor.

The court rejected the contention of the defendant that the plaintiff's only remedy was by a writ of certiorari, relying upon *Cheney v. Coughlin*, 201 Mass. 204, where it was held that a sale of liquor under a license improperly issued was included within the scope of a sale without a license. In like manner G. L. (Ter. Ed.) c. 159A, § 1, includes operation under a license that is void because not properly issued.

The only sanction to the license by the mayor was that found in the general instructions, given several years before the grant of the license in question, that the clerk of the license board should indorse the mayor's approval by a rubber stamp on any license granted by the license board (except in a case not here material) unless otherwise directed by the mayor. In the absence of other directions the customary procedure was followed with reference to this particular license. The important provision of G. L. c. 159, § 45, as amended by St. 1926, c. 392, was that any license to operate a motor vehicle for hire should "be subject to the approval of the mayor" and should "not be valid unless such approval . . . [had] been endorsed thereon in writing." The city charter had a similar provision.

When there is kept in mind the provision that no license is valid unless the

mayor's approval is indorsed thereon in writing, it is plain that there must be an exercise of judgment and discretion by that official in respect to each license. It is well established that without approval of that nature no license can be valid. The court accordingly held in the present case that the general authority given the clerk to indorse the mayor's approval was not sufficient to meet with the above requirements. The statute contemplates by its terms that it is the "approval" of the mayor himself in respect to each license granted that is required, and not the action of a subordinate acting under a general authority, but not under specific directions from the mayor himself after the exercise of judgment and discretion in respect to a particular license. The statute vested in the mayor a matter involving the exercise of judgment and discretion. Such a duty cannot be delegated, and a previous general authority to act will not validate subsequent action in respect to a particular matter by the person to whom the proper official has sought to transfer his power. *Brown v. Newburyport*, 209 Mass. 259, 265, 266. In *Foss v. Wealer*, 242 Mass. 277, 282, cited by the defendant, it was not held that the authority of a board of street commissioners could be delegated to a clerk, but only that the clerk of the board could indorse the commissioner's signatures, by means of a rubber stamp, in indication of their approval when directed by them to do so with reference to licenses on which they themselves had passed judgment.

The court said that the denial of a petition to revoke the license to operate motor buses over the "Lake View Route" by the defendant company might conceivably be regarded as the equivalent of a grant of a license to that company. But where the affirmative approval of the mayor is necessarily implied as requisite to its validity, it is not as if the statute declared that a license granted by the city council was valid unless the mayor disapproved it. It was therefore held that no valid license was issued to the company. The court said it was unnecessary here to determine whether the department of public utilities could lawfully issue a certificate of public convenience and necessity to the holder of a license not properly granted.

A second case was joined with this one in which it was contended that the operation of motor buses over the way was in violation of the easement rights acquired by the defendant's predecessor in title, by reason of the change from the use of steam to electricity as the motive power or the substitution of buses in place of street cars. The court cited the principle stated by Chief Justice Shaw in *Chase v. Sutton Manuf. Co.* 4 Cush. 152, 167, 168 to be well settled "that where, under the authority of the legislature, in virtue of the sovereign power of eminent domain, private property has been taken for a public use, and a full compensation for a perpetual easement in land has been paid to the owner therefor, and afterwards the land is appropriated to a public use of a like kind, as where a turnpike has by law been converted into a common highway, no new claim for compensation can be sustained by the owner of the land over which it passes." The court held that no ground for relief was shown in this case where the plaintiff's predecessor was paid full compensation in title for the burden represented by the modern vehicle known as a motor bus. The grant of the perpetual easement for steam railroad purpose was held to include the right to adopt modern inventions including electricity as a source of motive power. The change in the method of operation to buses in connection with street cars was not shown to have caused any impairment of the plaintiff's legal rights.

MARY A. MAHAN vs. TOWN OF ROCKPORT.

Mass. Adv. Sh. (1934), 1237.

287 Mass. 34.

Essex. March 6, 1934. — June 7, 1934.

Way, Public: layout. Easement, Abandonment by nonuser. Evidence, Presumptions and burden of proof.

A petition to register the title to land was contested by the town on the ground that the claim of the petitioner encroached on a town way, laid out by the selectmen and accepted by a vote of the town at its annual meeting in 1889.

The lapse of time from that date until the petition on December 16, 1932, without action by the petitioner or by any owner of the land under whom she claims title, to remove the cloud on her or their title cast by the acceptance of the select-

men's layout was held to establish presumption, though not conclusive, of the performance of every act by the selectmen and the town essential to the validity of the accepted street.

The land which the petitioner wishes to register is situated between the travelled part of said way and the northerly line of the way as originally laid out. The dwelling house encroached upon the way but not on the travelled part of it, which was not constructed to the full width of the street as laid out.

In these circumstances the judge of the Land Court ruled that the town made a valid layout of the street, and that it took an easement in the land claimed by the petitioner but not the fee. On the ruling that "an easement can be abandoned in whole, or in part, and an election made to exercise rights under the easement within a lesser area," his finding was that the inhabitants of the town have abandoned their easement over any part of the location in question.

The court reversed this finding, stating that there were no facts shown by the record, other than nonuser of part of the location, to warrant the finding of abandonment of the easement taken but not used for travel. It is settled that a public way once duly laid out continues to be such until legally discontinued. *Preston v. Newton*, 213 Mass. 483, 485. A town way may be discontinued by vote of the town and not otherwise, G. L. (Ter. Ed.) c. 82, § 21. *Eklon v. Chelsea*, 223 Mass. 213. The rights of the public in the whole width of the way as laid out by the selectmen and accepted by the town in town meeting, were not lost by using less than the whole width of the way. *Harrington v. County Commissioners*, 22 Pick. 263, 265, 268. Compensation to land owners is based on the full width taken even though part of it is not constructed for travel. The entry upon any part of the location for the purpose of constructing the way was a taking of possession of all the land included in the layout, Pub. Sts. c. 49, § 88. *Wheeler v. Fitchburg*, 150 Mass. 350. The lapse of time was not sufficient to sustain the ruling that the easement or any part of it was abandoned.

CAROLINE C. BURRELL & ANOTHER, TRUSTEES, *vs.* CHECKER TAXI COMPANY.  
Mass. Adv. Sheets (1934), 1301.  
287 Mass. 108.

Suffolk. May 14, 1934. — June 26, 1934.

*Contract, Validity, For use of taxicab stand. Way, Public; Taxicab stand.*

The plaintiff as abutting owner assented to the granting of a license for a taxicab stand on the public highway. The defendant sought to avoid liability under an agreement to pay therefor and for certain other privileges on the ground that the agreement was illegal and contrary to public policy. The court held, however, that the use of the "special stand" under the permit of the police commissioner was not illegal whatever may be said of the right of municipalities to authorize "special stand" licenses against the protest of abutting owners having a fee in the public street. See G. L. c. 40, § 22 as to the authority of cities and towns to regulate the use of carriages and vehicles, which statute is a re-enactment of St. 1847, c. 224, § 1. The police commissioner of the city of Boston has all the power conferred upon the board of aldermen of a city by said section 22. See *Commonwealth v. Morrison*, 197 Mass. 199-204 for history of the statutory law relating to hackney carriage stands. See also Rules and Regulations for the Police Department of the City of Boston for 1898, 1903, 1913, 1927, Rule 58 relating to hackney carriages. These several rules, in substance the same, authorize the granting of special stands for licensed hackney carriages.

WEYMAN S. CROCKER & OTHERS *vs.* LOUIS N. M. DESCHENES & OTHERS.

Worcester. March 8, 1934. — June 29, 1934.

*Municipal Corporations, Officers and agents. Public Officer. Intoxicating Liquor. Words, "Municipal."*

A petition for mandamus was brought to determine the title to office of the licensing board of the city of Fitchburg as between the respondents, a board appointed by the mayor on April 3, 1933 under the provisions of G. L. (Ter. Ed.) c. 138, which appointments were not submitted to or confirmed by the city council,

and the petitioners, a board subsequently appointed by a succeeding mayor and confirmed by the city council. Both the petitioners and the respondents were duly qualified for appointment in so far as the provisions of G. L. (Ter. Ed.) c. 138, § 4, are concerned. The only question for decision is whether the appointment of a licensing board by the mayor requires for its validity the confirmation of the city council.

The city of Fitchburg operates under Plan B form of government specified in G. L. (Ter. Ed.) c. 43, §§ 1-45 inclusive, and §§ 56-63, inclusive. G. L. (Ter. Ed.) c. 43, § 60, provides in part: "Upon the adoption of Plan B, all heads of departments and members of municipal board, except the school committee, officials appointed by the governor, and assessors if elected by the people, as their terms of office expire, shall be appointed by the mayor, subject to confirmation by the city council; . . ." G. L. (Ter. Ed.) c. 43, § 11, provides in part, "If a majority of the total number of votes cast at a regular state election for and against the adoption of one of the plans of government provided for in this chapter shall be in favor of its adoption, this chapter, so far as applicable to the form of government under the plan adopted by the city, shall supersede the provisions of its charter and of the general and special laws relating thereto and inconsistent therewith . . ."

It was contended by the respondents that they were appointed by the mayor of the city under G. L. (Ter. Ed.) c. 138, § 4; that that section contains no provision requiring a confirmation of appointments by a city council, and that a licensing board appointed under G. L. (Ter. Ed.) c. 138, § 4, is not a "municipal board" within the meaning of § 60 of the charter of the city of Fitchburg so that confirmation by the city council of appointments by the mayor to that board is required. The petitioners, on the other hand, contend that a licensing board is a "municipal board" within the meaning of G. L. (Ter. Ed.) c. 43, § 60, and that the appointment of a licensing board under G. L. (Ter. Ed.) c. 138, § 4, requires confirmation in cities operating under a Plan B charter.

A review of the statutes showed that originally confirmation by the city council of appointments made by the mayor to the licensing board was required. St. 1875, c. 99, §§ 4, 20; Pub. Sts. c. 100, § 28. This requirement of confirmation was omitted in St. 1894, c. 428, and has not since been revived by subsequent legislation dealing with the question. R. L. c. 100, § 3, G. L. (Ter. Ed.) c. 138, § 4. St. 1933, c. 376, § 4. The court said that this shows a plain legislative intent to dispense with such requirement. In the act authorizing the sale of beer and wine, St. 1933, c. 120, § 3, repealed by the alcoholic beverage act, St. 1933, c. 376, in the definition of local licensing authorities the provision that appointments are to be made "by the mayor without confirmation by the board of aldermen and in accordance with the provisions of said section four [of G. L. c. 138] has the effect to bring these appointments in harmony with appointments made under G. L. (Ter. Ed.) c. 138, § 4, and the corresponding provisions of earlier laws, namely, made without confirmation by the aldermen.

The precise contention of the petitioners is that a licensing board is a municipal board within the meaning of G. L. (Ter. Ed.) c. 43, § 60, that the provisions thereunder requiring confirmation of appointments to a municipal board are inconsistent with the provisions of G. L. (Ter. Ed.) c. 138, § 4, and therefore control by virtue of G. L. (Ter. Ed.) c. 43, § 11. The court said this contention cannot be adopted. It is clear and well supported that a licensing board is not a municipal board. In *Cook v. Springfield*, 184 Mass. 247, the court in holding that a license commissioner of the city of Springfield appointed under St. 1934, c. 428, was entitled to no other compensation than that fixed by the city council in accordance with the provisions of that act, said at pages 248-249: "What this court said of assessors in *Walker v. Cook*, 129 Mass. 577, 578 is true of license commissioners. In that case *Endicott, J.*, said: 'The assessors, therefore are public officers, in the performance of whose duties the whole community has an interest. Towns have no authority to direct or control them, but all their powers and duties are prescribed and regulated by statute; and, in case they do not perform their duties, the town has no remedy against them. They are not, in any sense, the agents or servants of the town, and the town, by the election of assessors, enters into no contract with them for the payment of their services.' In *McGinnis v. Medway*, 176 Mass. 67, it was said at page 68: "Although the question whether licenses shall be granted in any city or

town is determined by the vote of the inhabitants thereof, still the licensing board, whether a special commission, or the mayor and aldermen or the selectmen, do not act as the agents of the city or town, but as public officers specially designated in that behalf, and, in the absence of any statute to the contrary, the city or town is not answerable for their acts as such officers. The license is not granted by the city or town, but by the State acting through its duly appointed officers."

In *Commonwealth v. Nickerson*, 236 Mass. 281, relied on by the petitioners, holding that the statutes of the Commonwealth relative to the business of the manufacture and sale of intoxicating beverages were not rendered inoperative by the adoption of the Eighteenth Amendment and the Volstead Act, this court said at page 305: "The general purpose of R. L. c. 100, is prohibition, except as local option manifested by annual votes in the several municipalities effectuated by the granting of licenses through municipal boards may result in a regulated method of sales by licenses."

The court said that the words "municipal boards" in this sentence cannot be taken, and were not intended, to overthrow and make a nullity of the established rule of law that a licensing board is not the agent of a municipality and not subject to its control. As stated in the brief of the respondents, the word "municipal" as used in that sentence refers to the geographical limits of the authority of the several municipalities rather than the political nature of their duties.

As it is a well established principle of the common law that members of a licensing board are public officers and not agents of a municipality and subject to its control, it is manifest that the words "municipal board" in St. 1915, c. 267, Part III, § 5, now G. L. (Ter. Ed.) c. 43, § 60, were not intended to include licensing boards appointed under the provisions of G. L. (Ter. Ed.) c. 138, § 4. There is, therefore, no inconsistency, and since the provisions of G. L. (Ter. Ed.) c. 138, § 4, are neither inconsistent with the provisions of a Plan B city charter nor unworkable therewith, they must still be considered in force and operative in a city which has adopted such a charter. *Ellis v. Members of Civil Service Commission*, 229 Mass. 147.

That the provisions of a Plan B charter have no application to licensing authorities appointed under G. L. (Ter. Ed.) c. 138, § 4, finds support in *McMinn v. Mayor of Cambridge*, 225 Mass. 104, which held that such provisions under what is now G. L. (Ter. Ed.) c. 43, § 63, conferring the veto power upon the mayor have no application to the licensing authorities appointed under G. L. (Ter. Ed.) c. 138, § 4. The reason is plain. In enacting G. L. (Ter. Ed.) c. 43, the Legislature was considering municipal government and its forms and not problems in any way associated with intoxicating beverages. G. L. (Ter. Ed.) c. 138 was intended to cover the entire field relating to liquor completely and exclusively. G. L. (Ter. Ed.) c. 43 was intended to provide for the ordinary and normal functions of municipal government, and was equally exclusive in its own field. The two acts are mutually exclusive.

It was accordingly held that the city of Fitchburg having once voted to grant licenses for the sale of nonintoxicating beverages, the mayor under the provisions of § 4 of c. 138 had full authority to make appointments to the licensing board. As that section does not require confirmation of such appointments, the appointment of the respondents on April 3, 1933, under the statute was therefore not invalid because not confirmed by the city council.

THOMAS N. ASHTON & OTHERS vs. TREASURER OF THE CITY OF FALL RIVER & OTHERS

Mass. Adv. Sheets (1934), 1465.

287 Mass. 276.

Bristol. May 17, 1934. — June 29, 1934.

*Municipal Corporations, Waterworks, Finances. Fall River.*

This is a bill in equity brought by ten taxpayers of the city of Fall River to restrain the alleged use of surplus water funds for municipal purposes other than for the maintenance of the water works system of the city, and payments required to be made in connection therewith.

St. 1931, c. 403, § 1, provides that "During the period of the existence of the Fall River Board of Finance established by chapter forty-four of the acts of nineteen hundred and thirty-one, all money received by the city collector of the city of Fall

River for water rates and charges shall be paid by him to the city treasurer and so much thereof as may be required shall be appropriated by the city council of said city for the following purposes: For necessary expenses of maintenance, operation, repairs, extension and improvements of the water works system of the city; for payments of interest on water loans; for payments on account of sinking funds of water loans and payments of principal on said loans; and for the payment of costs and expenses incurred under chapter one hundred and fourteen of the acts of eighteen hundred and ninety-one and acts in addition thereto and in amendment thereof. The balance, if any, after the payments for the aforesaid purposes may, during the period aforesaid, be appropriated for such other municipal purposes as the city council may from time to time determine, subject to the provisions of general law so far as applicable." Section 3 of the act further provided that during the period of the existence of the Fall River Board of Finance, the operation of the provisions of any law inconsistent therewith should be suspended.

The earlier legislation relating to the Fall River water supply is in part recited by the court and reference is made to *Sinclair v. Mayor of Fall River*, 198 Mass. 248 in which the history of the legislation relative to the water loan of the city was reviewed at length. The court points out that there is no allegation of fraud or collusion in the bill nor anything to indicate that any change in existing rates is contemplated. The court holds that there is no merit in the allegations that the charges for water are "disproportionate and unreasonable" and "contrary to the constitutional requirement that there shall be levied 'proportional and reasonable assessments, rates and taxes upon all the inhabitants' thereof." The question whether the charges for water are reasonable or otherwise cannot be considered or determined by a petition brought under G. L. c. 40, § 53.

The court holds that the demurrer was properly sustained and it affirmed the final decree dismissing the bill.

CLAYCRAFT COMPANY vs. JOHN BOWEN CO. & OTHERS

Mass. Adv. Sheets (1934), 1491

287 Mass. 255.

Suffolk. April 6, 1934. — June 29, 1934.

*Municipal Corporations, Public Work. Assignment. Equity Pleading and Practice, Decree.*

The plaintiff is a manufacturer of brick. The Pennsylvania Tile and Brick Company is or was a dealer in brick in Boston. The John Bowen Company is a building contractor in Boston. The plaintiff sold brick to the Pennsylvania Company which in turn sold it to John Bowen Company for use in a schoolhouse built by John Bowen Company for the City of Boston and the brick was used in the school house. The Pennsylvania Company owed the plaintiff \$5,597.50 for that brick. A bond had been given with a surety company as security under G. L. (Ter. Ed.) c. 149, § 29. John Bowen Company has withheld payment of \$10,262.86 due to the Pennsylvania Company and has paid that sum into court under a stipulation that any claim established by the plaintiff to the statutory security shall be paid out of that sum. John Bowen Company, the surety company and the City of Boston have been dismissed from the case.

The court holds that the plaintiff has no claim to the benefit of the statutory security and consequently no claim against the fund in court. The security required by the statute cited is for payment for materials "by the contractor and sub-contractors". It does not extend to payment for materials by one who is neither a contractor nor a sub-contractor undertaking any work of construction or repair, but is merely a dealer who buys material for the purpose of selling it to the contractor or a subcontractor. *Hightower v. Bailey*, 108 Ky. 198, 207, 208; *Hinckley v. Field's Biscuit and Cracker Co.* 91 Cal. 136. It is immaterial that the brick was made especially for the job; the plaintiff's debtor was nevertheless only a material man.

The court holds valid an assignment by the Pennsylvania Company to one Shaw of money due and to become due from the John Bowen Company, there being at the time of the assignment an existing engagement out of which it is expected that money will become due. The final decree rightly gave a fund to the defendant Shaw so far as necessary to repay him and the residue to the defendant

Proctor as assignee for the benefit of creditors of the Pennsylvania Company. Although the plaintiff failed to prove any claim against the fund it was proper to establish its claim against the Pennsylvania Company.

ANNA E. SEARS *vs.* TOWN OF GREENFIELD.

Mass. Adv. Sh. (1934), 1645.

287 Mass. 445.

Franklin. September 20, 1933. — September 12, 1934.

*Way, Public: defect.*

It is of some interest here to note what was said by the court in a case where the sole question was whether a defect in the sidewalk was such as to afford the basis of liability of the town under the highway statute.

That statute does not attempt to describe objectively such a defect. It prescribes the standard of duty for a town in the maintenance of its highways (G. L. [Ter. Ed.] c. 84, § 1), and describes the extent or character of a defect which will give rise to liability, in terms of the exercise of reasonable care and diligence on the part of the town in discovering and in remedying such a defect (§ 15). What is reasonable care is never a fixed or inflexible thing; it varies with the circumstances calling for its exercise. Manifestly an extent or character of a projection or depression in a highway which under one set of attendant circumstances would amount to an actionable defect by reason of the statute would not necessarily under other and different conditions constitute such a defect. A certain extent of a projection above the surface of a little used highway in a remote part of a town might not amount to such a defect as the statute contemplates (*Beaumier v. Heath*, 282 Mass. 312) while the same or a much smaller extent of projection in a well settled portion of a town might be a defect which would impose liability (*Hamlet v. Watertown*, 248 Mass. 473). Even on the same street there might be a projection which would not be sufficient in extent to amount to an actionable defect and yet that same extent of projection in an adjacent portion of the highway used exclusively by pedestrians would constitute such a defect. *Howe v. Marlborough*, 204 Mass. 26.

In this particular case a sharp and uneven elevation between two adjacent concrete blocks for which there appeared to be no necessity on a smooth level sidewalk where travellers might reasonably expect free passage unimpeded by sudden changes in the elevation of the surface was held to be an actionable defect. The sidewalk had been in that condition for a sufficient length of time for the town to have taken notice of it.

Essex. December 4, 5, 1933. — September 14, 1934.

*Lawrence. Municipal Corporations, Removal of appointive officers. Words, "Reason or reasons."*

Votes of the city council of Lawrence to remove a purchasing agent and a tax collector "for the good of the service" were held to be without effect when not accompanied by a statement of the reason or reasons for such removal under St. 1911, c. 621, Part II, which constitutes the charter of the city of Lawrence, and provides in § 44 that, "All removals from appointive offices shall be accompanied by a statement of the reason or reasons therefor under the signature of the director removing the officer or officers, and a copy of the statement shall be filed in the office of the city clerk." The mandate that all removals shall be accompanied by the statement is held to be the dominant feature of that provision and admits of no exceptions.

The Legislature has made a distinction between "cause" and "reasons" in connection with removals from office or employment protected by the laws relating to the civil service where both words are used. Although the two words are often used in a similar sense, there is a difference in meaning between them in application to removal from office or employment. Cause occasions removal. It is a succinct statement of that which produces or leads to removal as the result. Rea-

son or reasons are the circumstances, the proofs, the facts or the motives which generate the conviction that there ought to be removal. The statement of reasons for removal is a full and fair answer to the question why the removal was made. The statement of a cause may be in general terms; the statement of reason or reasons must be somewhat definite and detailed. The good of the service is a sufficient statement of a cause of removal. It is not an adequate statement of the grounds which create the state of mind precedent to the establishment of that cause in the opinion of the removing person or board. A statement of reasons leading to the removal of another from office explores the mind and searches the conscience more deeply than the statement of the cause.

The manifest purpose of the statutory provision here under consideration is to impose the restraint upon unwarranted, prejudiced or wrongful removals naturally flowing from immediate complete and permanent publicity of the true grounds and motives underlying that action, and to enable the removed officer or employee to know why he has been deemed unworthy to continue longer in the public service.

The court said this is by no means a vain form. Its design is to improve the public service and to afford some sense of security to faithful, efficient and honest officers and employees of good morals and sound character working with fidelity for the general welfare and at the same time to confer upon responsible executive officers power to remove the incompetent, the inefficient and the unworthy.

The contention was overruled that the power of the city council to remove the tax collector from office was not governed solely by the provisions of the city charter but was further limited by G. L. (Ter. Ed.) c. 60, § 96, and that such removal could be made only for the causes there specified. That section is general in terms. Standing alone it authorizes the removal of a tax collector of any city or town for the restricted causes there enumerated. It has been in substance a part of the statutory law of Massachusetts for many years. In its present form it antedates the enactment of the charter of Lawrence. It governs the removal of tax collectors of all towns and of cities for which no special provision of a different tenor has been made by the General Court. The charter of the city of Lawrence enacted in 1911 was a special act growing out of the peculiar wants, condition and circumstances of that municipality. It contains a provision touching this very subject of removal of tax collector. The court held that it is operative notwithstanding the general law which as to Lawrence is at most permissive and not restrictive. The terms of G. L. (Ter. Ed.) c. 60, § 96 are embraced within the broader scope of § 44 of the charter of Lawrence.

KATHERINE O'HEARN & OTHERS *vs.* TOWN OF ADAMS.  
Mass. Adv. Sh. (1934), 1993.

Berkshire. September 18, 1934. — October 24, 1934.

*Municipal Corporations, Liability in tort, Sewer. Sewer.*

This is an action of tort to determine the liability of a town on account of injuries to real estate resulting from the overflow of a river and discharge of sewage from an alleged common sewer on the plaintiffs' land over a period from 1912 to 1928, caused by acts of an individual acting as superintendent of sewers.

The basic questions here of interest were (1) the liability or non-liability of the town for the acts of an individual either as superintendent of streets or as superintendent of sewers, and (2) as to whether the plaintiffs' claims were outlawed in whole or in part by the six-year statute of limitations.

It appeared that in 1912 the individual acting as superintendent of streets, but without any authority from the owners, went on privately owned land through which the main channel of the river flowed, diverted the waters of the stream into what he thought was the old bed, but what was in fact a new channel connecting with the old river bed near or on the plaintiffs' land, and also extended the sewer line so as to connect with the new channel. These actions were known to the town which paid for the work although it had not expressly authorized it. In 1913, 1922, 1925 and twice in 1927, water from the diverted stream carrying sewage and rubbish from the sewer pipe as extended, and from other places, overflowed the plaintiffs' land causing damage to realty and to personal property.

The diversion by the superintendent of streets substantially increased any damage which might have resulted if there had been no diversion. After a complaint

in 1912, no further action was taken until this suit commenced in 1928. There had been no further acts with reference to the diverted stream in the meantime.

Considering the liability of the town for the acts of the individual as fundamental, the court said it is settled that private actions will lie in situations, as in this case, where a municipality is negligent in maintaining a common sewer, control of which by the municipality is authorized by statute. The burden of proof was held to be on the plaintiff, however, to show that the town was under an obligation to do the work resulting in the injury or that the work was done in the execution of a corporate power. The court pointed out that in the present case the proximate cause of the damage to the plaintiffs was found to be, not the building or maintenance of the school sewer which ran underground through a part of the plaintiffs' premises, but rather the diversion of the waters of the river so as to flow with increased force onto the land of the plaintiffs, carrying on its sewage from the school sewer and from other places.

It was early held that a town did not have, as an incident of its powers over highways, the power, through its officers, to cause a dam to be erected on private property. *Anthony v. Adams*, 1 Met. 284, 286. Likewise it was held that in the absence of an enabling statute a city had no power to erect a dam on private property even though the object was to abate a nuisance. *Cavanagh v. Boston*, 139 Mass. 426, 433. *Smith v. Gloucester*, 201 Mass. 329, 333. In both of the above cases, as a result of the lack of power, the municipality was held not to be liable for the trespasses of its representatives although the latter might be personally liable. In the case at bar the plaintiffs have not shown that the acts causing the injury were done pursuant to any vote of the town or under any enabling authority so as to establish liability on the part of the defendant town. *Gray v. Boston*, 277 Mass. 166, 167.

The court said that it might be assumed in favor of the plaintiffs that the acts done in the diverting of the stream might have been incidental to municipal powers to lay out sewers under R. L. c. 49, §§ 1 and 2, in force at the time of the doing of the acts. The first objection to the plaintiffs' recovery under this assumption was that it did not appear that this statute had been accepted by the town. In such circumstances, even had the work in question been done pursuant to a vote of the selectmen, no municipal liability would have been entailed. *Pinkerton v. Randolph*, 200 Mass. 24, 28.

To the possible contention that the occupation by the superintendent of streets of private land was rightful under the power of the town to take private land for public purposes under R. L. c. 49, §§ 1, 2, or St. 1905, c. 390, the court said there was here no taking of land, no permission secured from the owners, nor any showing of compliance with the necessary formalities for the taking of private property. In a recent case similar to this it was decided that an actual occupation of land by representatives of a municipality, where the formalities attendant on the taking of land have not been met, is not a legal taking so as to render the municipality liable in tort for the acts of its representatives. *Malinoski v. D. S. McGrath, Inc.*, 283 Mass. 1, 8.

This, in the opinion of the court, made it unnecessary to consider whether the individual who was in fact acting as superintendent of streets of the defendant town was appointed as such under R. L. c. 25, §§ 85, 86, so as to be subject to the liabilities of surveyors of highways and a public officer rather than an agent of the defendant, nor to decide that the individual acted as a public officer for whose acts the town would not be liable.

It followed that the town was not liable either to the owners of the lands entered upon or to anyone indirectly damaged by those acts. It was accordingly unnecessary to consider whether or not the claims were outlawed by the lapse of time.

HENRY K. HERRICK vs. CITY OF SPRINGFIELD.

SAME vs. S. J. GROVES & SONS COMPANY.

Mass. Adv. Sh. (1934), 2039.

Hampden. October 3, 1934. — October 25, 1934.

*Negligence*, In setting and controlling fire. *Municipal Corporations*, Liability in tort. *Agency*, Subcontractor.

A city was held liable for damages caused by fire started on land of the city

which had to be burned off within the area of a reservoir under construction, even though the negligence was in fact on the part of the firm to which the contract for that part of the work was sublet. The contractor to whom the city let the contract for the entire construction, and the city both contended that neither should be held liable where the finding was warranted that the subcontractor was negligent in letting the fire get out of control. It has long been settled in Massachusetts that one who negligently sets fire on his land and keeps it negligently is liable to an action for any damage done by its spreading to the land of another.

The court held, however, that the damage sustained by the plaintiff was due to negligence on the part of the chief contractor and of the city. As a general rule a person is liable for the negligence of his servants and agents engaged in his business; yet, as in this case where one is employed under an entire contract for a stipulated sum, and is not under the control of his employer, the relation is held to be that of contractor and contractee, and not that of master and servant, and the subcontractor alone is liable for negligence in the performance of the work. It is plain that in the present case to set a fire to burn over an area more than a mile in length, adjoining land of the plaintiff with only eighteen or twenty men to guard it from spreading to adjacent land was an act accompanied with great danger and could have been found to be an act of negligence for which the defendant city would be liable for the damage caused to the plaintiff. The city which employed another to burn over the land was required to use reasonable care to prevent the fire from spreading to other land not owned by it. "One who employs another to do it must use all reasonable care to guard against injury to others, and may be found not to meet that degree of care merely by employing a suitable person to do it." *McConnon v. Charles H. Hodgate Co.*, 282 Mass. 584.

LILLIAN MILES *vs.* COMMONWEALTH.

Mass. Adv. Sh. (1934), 2081.

Worcester. September 24, 1934. — October 26, 1934.

Way, Public: defect. *Tree.*

Damages were held to be rightly awarded for injuries received when a tree which stood not "in the macadam surface of the highway, but . . . near that surface," broke off by reason of a dangerous and decayed condition, and fell on the automobile in which the petitioner was riding. The chief contention of the Commonwealth was that the evidence did not warrant the finding that the tree constituted a defect "within the limits of the constructed traveled roadway," such as is a requisite of liability under G. L. c. 81, § 18. See *Lemon v. Commonwealth*, 236 Mass. 599.

The court assumed in favor of the Commonwealth that those words are more restricted than the word "way" in G. L. (Ter. Ed.) c. 84, § 15, or the words "travelled path" or "way" used in *Weare v. Fitchburg*, 110 Mass. 334, 337; *Moran v. Palmer*, 162 Mass. 196; *Dupuis v. Billerica*, 260 Mass. 210, and similar cases. But it said that a "constructed" roadway may include a gravel path as well as one built of macadam, and both may be "travelled" although one is used more than the other.

The warranted finding that the tree stood in a place "which had been graded and surfaced for travel and which to some extent was used for travel," justified the conclusion that the tree constituted a defect "within the limits of the constructed traveled roadway."

JOSEPH B. CLANCY *vs.* JOHN R. WALLACE & OTHERS.

Mass. Adv. Sh. (1934), 2431.

Essex. December 12, 1934. — December 18, 1934.

*Elections, Recount. Mandamus.*

The question here is whether after a recount in a senatorial election a writ of mandamus ought to issue to direct the election commissioners of the city of Lynn not to alter or amend any returns originally made which should stand as the true record of the election. The recount was contended to be invalid on the following grounds (1) The failure of the election commissioners of Lynn to attach to the petitions for a recount a certificate "of the number of names of subscribers which are names of registered voters in such ward" in conformity to G. L. (Ter. Ed.) c. 54, § 135, as amended by St. 1933, c. 270. (2) The failure of the election commis-

sioners to comply with the statutory requirement to give three days' written notice of the time for holding the recount to the petitioner and intervener. (3) Violation of the statutory requirement that candidates shall be allowed to be present and to witness the recount at any table where the recount is being held. (4) The blank ballots for the office of state senator were not counted although the statute requires the counting of such blanks.

It was held by the court that careful consideration of the arguments of the petitioner discloses nothing to warrant the issuance of such a writ of mandamus.

(1) Proceedings for a recount of votes are strictly statutory and are of no effect unless authorized by statute and in all essential particulars begun and conducted as the statute requires. *Eldridge v. Selectmen of Chatham*, 192 Mass. 409, 411. *Swift v. Registrars of Voters of Milton*, 281 Mass. 264, 268. The petitions for recount in this case each bore the signatures of ten or more voters in each ward together with their residences. The election commissioners compared and verified those petitions with the list of registered voters and found that ten signatures of such voters were actually attached to each petition, and checked such signatures. The court said it could not be contended that there was any defect in the petitions. So far as concerns essentials they were in entire conformity to the requirements of the statute. The procedure with respect to a recount under St. 1931, c. 92, which created the board of election commissioners of Lynn and vested them with all the duties and powers respecting recounts previously vested in the city clerk and board of registrars of voters, differs from that provided by G. L. (Ter. Ed.) c. 54, § 135, as amended. Under that special statute their action as described above was sufficient and they were not under a duty to make the certificate for the records of any other office. If and so far as the special statute with respect to Lynn is inconsistent with the provisions of the general law, it is operative notwithstanding the general law. *Copeland v. Mayor & Aldermen of Springfield*, 166 Mass. 498, 504; *McKenna v. White*, Mass. Adv. Sh. (1934) 1785, 1789. Such is the express provision of G. L. (Ter. Ed.) c. 50, § 6. The validity of the recount and the rights of the petitioner were held to be not adversely affected by a failure to annex the certificate.

(2) The object of the statutory requirement as to notice of a recount to candidates is to enable them to be present. If they attend, no notice is necessary, although the election commissioners failed to give the three days' written notice of the time for holding the recount to the petitioner and intervener, both received actual notice in writing when the recount was to begin and both were present at it. Actual notice received by a party affected by proceedings, although not in the form or through the channels prescribed, frequently has been held to be enough. *Morrison v. Selectmen of Weymouth*, 279 Mass. 486, and cases cited. The petitioner did not ask for delay in the recount. There is no indication of any harm sustained by him through failure to receive the statutory notice nor did he seek to obtain relief in the courts according to the provisions of G. L. (Ter. Ed.) c. 56, § 69. He attended the recount throughout and appears to have had every advantage which the technically legal notice would have given. Further, it would seem that as a matter of law, notwithstanding his protest, he may be held to have waived whatever informality there was as to notice. In these circumstances the petitioner was held not to be entitled to have the recount set aside because of the lack of statutory notice to him.

(3) The election commissioners decide that all candidates and their representatives should remain outside the railing separating the space which contained the tables where the recount was going on in the city council chamber, although that space was at times congested by the number of persons attending. This did not violate the statutory requirement that candidates should be allowed to be present and to witness the recount at any table where the recount is being held. Every right of the petitioner was preserved. Those standing outside the rail had every reasonable opportunity to observe each ballot, to verify the recount as it progressed and to see that no mistakes were made. They were near to and in plain sight of the tables where the recount was in progress. The regulations adopted by the election commissioners in view of all the conditions were reasonable, and only safeguarded in every practicable way the accuracy of the recount and protected the tellers from too close proximity to interested parties and their partisan supporters. There was compliance with the statute in this regard.

(4) The petitioner did not appear to make any objection to the fact that in the recount the blank ballots were not being counted as required by statute, although it must have been apparent to any observer. The omission to count the blank ballots, however, did not affect the accuracy of the count of the ballots actually cast for the competing candidates. The object of election laws, both as to the preparation and casting of ballots and as to the counting of them, whether by election officers or by recounting officers, is to ascertain the popular will and to secure the rights of the duly qualified electors. Statutory provisions as to elections must be interpreted on the theory that they are enacted to prevent fraud and mistakes and to secure freedom of choice. They are not to be so construed as to make the right of voting and having the votes ultimately counted with accuracy subject to technical obstructions not affecting the merits of the election on ascertained facts. The court said that this objection to the validity of the recount like the others is formal rather than substantial. See also G. L. (Ter. Ed.) c. 54, § 131. The record bears no indication whatever that the ballots for the petitioner and the intervener were not correctly counted according to law.

Mass. Adv. Sheets (1935), 169

Suffolk. November 20, 21, 22, 1933. — January 10, 1935.

*Advertising. Billboard. Constitutional Law, Outdoor advertising. Municipal Corporations, By-laws and ordinances.*

In this important decision covering fifty-seven pages the Supreme Court sustains the right of the Commonwealth to regulate so-called outdoor advertising and sustains certain rules and regulations of the Commissioners of Public Works relating thereto. It also sustains a by-law of the Town of Concord relating thereto. The opinion in so far as it relates to the by-law is as follows: "The Concord by-law makes in substance the same fixed provisions respecting size and spacing of billboards and their set-back from the boundary lines of highways and from the corner of intersecting highways and from public parks, playgrounds and other public grounds and their exclusion from residential blocks as do the rules and regulations of the commissioners of public works. The by-law provides also that no billboard, sign nor advertising device shall be erected, displayed or maintained until a permit therefor has been issued by the State department of public works after a public hearing by the selectmen and the transmission to the department of the results thereof including, in the event of disapproval, a statement of the reasons therefor. There was a proviso that the by-law should not take effect as to existing billboards and advertising devices until one year after its effective date. It contains the exceptions prescribed by G. L. (Ter. Ed.) c. 93, § 30. It is provided by § 2D of the rules and regulations of the commissioners of public works that, upon application being made to the division for a permit, notice thereof shall be given to the city or town where the advertising device is to be located with further provisions as to objections by such city or town. This by-law is not inconsistent with the provisions of the governing statute or with the rules and regulations, but is in harmony with them. Such by-law is expressly permitted by G. L. (Ter. Ed.) c. 93, § 29. It was duly adopted at a town meeting and its validity in this respect is not contested. It is somewhat more drastic in that it makes no provision for license and permit, and no provision or exception touching business districts. These differences do not render it invalid. It is matter of common knowledge that Concord has a small area devoted to strictly business activities. It has no area where there is business congestion. On the contrary, the town has exceptional attractiveness to the general public. It was the scene of a notable battle of the Revolution. Many of wide and enduring fame in literature and renown in statecraft have made their homes in the town and their mortal remains lie buried in its cemetery. The town is itself an historic and literary

shrine of singular interest. It is common observation that for these reasons large numbers of people resort to it year after year. Certain billboards and advertising devices maintained in Concord prior to the adoption of the by-law, and for which renewal permits were refused, violated some of the fixed restrictions. With respect to these the master made this finding: 'Although I find . . . that the rules and regulations tend to promote public safety when they require that signs, billboards and other advertising devices be limited in size and set back from the line of the highway a distance which would not be beyond the clear, normal vision of travellers generally, yet I am unable to find upon the evidence before me that either of these particular signs or billboards as located and maintained in the town of Concord tends seriously to affect the safety of travellers upon the highway, or unduly to withdraw the attention of a reasonably careful driver of vehicles from the business of driving safely. Nor can I find upon the evidence before me that these particular signs and billboards are appreciably detrimental to property values in the sections in which they are located.' We are of opinion that in a town like Concord the denial of renewal permits in the circumstances is not beyond the scope of art. 50, the governing statute, the by-law and the regulations, and that it violates no right secured to the plaintiffs by the Constitution. *Opinion of the Justices*, 234 Mass. 597, 604-611. *Cusack Co. v. Chicago*, 242 U. S. 526. *St. Louis Poster Advertising Co. v. St. Louis*, 249 U. S. 269. *Nebbia v. New York*, 291 U. S. 502."

HENRY P. BROWN & OTHERS *vs.* CITY COUNCIL OF CAMBRIDGE & OTHERS.  
Mass. Adv. Sh. (1935), 311.

Middlesex. January 9, 1935. — January 30, 1935.

*Supreme Judicial Court*, Moot question. *School and School Committee*.

G. L. (Ter. Ed.) c. 43, § 42 provides that upon the filing of a petition signed by the number of registered voters there required, protesting against a "measure" passed by the school committee "or any part thereof" such measure "shall be suspended from taking effect," and if not rescinded upon reconsideration "the city council shall submit the same . . . to a vote of the registered voters of the city, either at the next regular city election, or at a special election which may, in its discretion, be called for the purpose . . ."

In such circumstances resulting from a controversy over the budget adopted by the school committee of Cambridge for the financial year 1934, a special election was called by the city council under the provisions of the above quoted section. Prior to the date set for the election this petition was brought under G. L. (Ter. Ed.) c. 40, § 53, by more than ten taxpayers to restrain the city council and the election committee from expending any money or incurring any obligation in connection with a special election and from submitting to the voters at a special election the question of whether or not the school budget for 1934 should be limited to the amount expended for the school department in 1933. A temporary injunction, still in effect, was also issued against a special election.

The petition was reserved for the determination of the full court. It was argued on January 9, 1935. The financial year of Cambridge for 1934 corresponded with the calendar year 1934 and the Cambridge schools for that year had been in fact operated on a basis of an appropriation which it is presumed at least was included in the tax levy of 1934, G. L. (Ter. Ed.) c. 59, § 23; c. 71, § 34.

The court observed that interesting questions were raised and argued upon the merits of the petition, but said that they need not be considered. Those questions have become moot and the court does not decide moot questions. Manifestly, the public schools must be maintained and the cost thereof must be raised by taxation year by year, G. L. (Ter. Ed.) c. 70, §§ 1, 34. Popular vote touching the amount of a budget for the support of public schools for a specified year cannot be and become effective (even if otherwise permissible) after the expiration of that year. Such procedure would be vain and empty and would come to naught. Therefore, before the argument of the case at the bar of this court, it had become impossible to hold any special election respecting the matter set forth in the petition. Any decision as to the expenses of such election would be unavailing because no such expenses can be incurred.

PATRICK DUPUIS *vs.* ARTHUR M. REED & OTHERS.

Mass. Adv. Sh. (1935), 325.

Bristol. January 10, 1935. — January 30, 1935.

*Sheriff. County Commissioners. Jail. Equity Jurisdiction, Suit by one public officer against another. Public Officer.*

The true object of a bill in equity brought by the sheriff of the county of Bristol against the three county commissioners was to determine whether the sheriff or the county commissioners had the right to control a house, belonging to the county and situated within the yard of the jail and house of correction of New Bedford, occupied by the sheriff and his family.

The sheriff contended that the house is in reality only a part of the jail and within his custody and control by virtue of G. L. (Ter. Ed.) c. 126, § 16. On the other hand, county commissioners have in general the care of county property and the management of county business "where not otherwise expressly provided," including the erection, repair and inspection of jails and houses of correction G. L. (Ter. Ed.) c. 34, § 14; c. 126, §§ 1, 2.

Where the house is one of five buildings in the yard all used in connection with the maintenance of the jail, all heated by the same central heating plant, and the office used by the sheriff is in the house which was originally built and continuously used as a residence for the keeper of the jail, the finding was that the house is a part of the jail. The decision of the trial judge was that, under the statute, the house is in the custody and control of the sheriff, subject to the rights of the county commissioners to inspect and repair.

Notwithstanding the justification of such finding by the evidence, the court felt compelled to hold that this bill in equity cannot be maintained. All the parties are public officers of the same county, which is the owner of the property in question. The sheriff claims no private right or possession in the house. His rights are derived wholly as prerogatives of the office which he holds. Equity protects private property rights. "It is not within the general powers of a court of equity to supervise the conduct of public officers in the performance of their official duties, or to prohibit such officers from acting or to compel them to act in matters which concern political and personal rights, as distinguished from rights of property." *Larcom v. Olin*, 160 Mass. 102. The court said that the present case on this point could not be distinguished in principle from *Bauer v. Mitchell*, 247 Mass. 522, where it was held that a suit in equity would not lie by one public board against another public board of the same county to restrain the discharge of sewage by one board upon land of the county in control of the other board. The bill was accordingly dismissed as the cause was held to be not within the jurisdiction of the court.

DIX LUMBER COMPANY *vs.* CITY OF BOSTON & OTHERS.

WALSH HOLYOKE STEAM BOILER WORKS, INC. *vs.* THOMAS JOSEPH McCUE & OTHERS.

Mass. Adv. Sh. (1935), 401.

Suffolk. November 16, 1933. — February 4, 1935.

*Municipal Corporations, Security for public work. Commonwealth, Security for public work. Bond, Public work.*

Where claims were sought to be established for materials necessarily used in public construction work but not a part of the finished work, against security provided pursuant to the statutes, under G. L. (Ter. Ed.) c. 149, § 29 by one having a contract with the City of Boston, and under G. L. (Ter. Ed.) c. 30, § 39, by one having a contract with The Commonwealth of Massachusetts, the decision in *American Casting Co. v. Commonwealth*, 274 Mass. 1, 6-7, was held to be conclusive.

It was there held that the statutes in their present form "include materials which were not incorporated as a part of the finished work but which were necessary to the prosecution of the work and when 'used' were consumed or made so worthless as to lose their identity . . . the statute as amended is applicable to materials that must be used in some form in the construction of the work, which are necessarily consumed when used and are not tools . . . appliances, building materials . . . or other merchandise which does not become physically incorporated in the construction work."

In the present cases since none of the material was incorporated in the finished structures or was entirely destroyed in the prosecution of the work, it could not form the basis of a claim against statutory security unless, as the result of the uses to which it had been put, it was reduced to such a state of worthlessness that it was no longer physically identifiable. That may be said to constitute the ultimate test in determining whether materials have been so "used or employed" as to create a claim against security provided pursuant to the statutes in connection with a contract for public works.

The contention that the condition of the bond given as security, namely, that the contractor should pay for "all materials used or employed in the carrying out of said contract" should enable it to establish its claim even though it would not be entitled to do so if the bond followed the precise language of the statute, was held to be without force. Rights under a common law bond cannot be established in proceedings brought to enforce the security of statutory bonds. *Old Colony Crushed Stone Co. v. Cronin*, 276 Mass. 221.

JOSEPH J. BUONO *vs.* CITY OF BOSTON.

Mass. Adv. Sh. (1935), 631.

Suffolk. January 17, 1935. — February 28, 1935.

*Negligence*, In conduct of water department. *Municipal Corporations*, Liability for negligence.

A finding of negligence on the part of a city was justified where upon repeated complaint of the flooding of a cellar with clean, not sewer, water in fair weather, nothing effective was done to remedy the trouble until after the lapse of a year. The city's water main which ran behind the plaintiff's building was so far within its control that the city could have stopped the cause of the flooding by removing and capping the service pipe which led from the water main to some vacant houses where lead pipe had been taken away, or taken other means to stop the water, within a short time after it had knowledge of the flooding, just as it did a year later, whether or not the precise point of the escape of water was, as argued by the city, on private land.

IRENE E. WOOD *vs.* TOWN OF OXFORD.

HENRY W. WOOD *vs.* SAME.

Mass. Adv. Sh. (1935), 1047.

Worcester. May 22, 1934. — April 5, 1935.

*Municipal Corporations*, Liability in tort. *Notice. Negligence*, Of one owning or controlling real estate. *Snow and Ice*.

A town was held liable for injuries sustained by a person struck by an accumulation of snow, ice and slate falling from the roof of the town hall, a portion of which was rented at times for moving pictures, private and other public entertainments. It was claimed that the injuries resulted from negligence in the construction and maintenance of a public building and there was evidence that the town officers had knowledge of similar falls of such accumulations on previous occasions.

The court said that the distinction between the liability of a municipality for negligence in the conduct of public business and its liability for negligence in the conduct of affairs undertaken in considerable part for income has been stated in numerous decisions. The principle is well settled. *Hill v. Boston*, 122 Mass. 344. *Bolster v. Lawrence*, 225 Mass. 387, where many cases are reviewed.

Facts in the case at bar bring it clearly within the principle enunciated in *Oliver v. Worcester*, 102 Mass. 489. There the defendant was held liable for negligence in the case of an excavation within the public common "in the course of repairing and improving a building standing within the common, used by the city principally for municipal purposes, but a substantial portion of which both before and after the time of the accident, the city leased, and received rent for, either from private persons or from the county, and which was therefore held and used by the city, not for municipal purposes exclusively, but in considerable part as a source of revenue." In the application of this governing principle to the present case, it was immaterial that the revenue was obtained from use of the town hall by occupants from night to night and not by lease.

The court found for the plaintiff who gave reasonable notice to the town of the

time, place and cause of her injuries to comply with the condition precedent to the establishment of her right of action under G. L. (Ter. Ed.) c. 84, § 21. But the fact that the plaintiff's husband, who sued for consequential damages, gave no notice as the basis of his claim constituted a fatal defect to his case which could not be cured. Such a notice was as much a condition to the maintenance of an action by the husband for consequential damages as by his wife for direct personal injury.

DONALD SHEA & ANOTHER *vs.* TOWN OF LEXINGTON.

SAME *vs.* SAME.

Mass. Adv. Sh. (1935), 1075.

Middlesex. December 3, 1934. — April 11, 1935.

*Municipal Corporations, Officers and agents, Liability for tort. Drain. Highway Surveyor. Road Commissioner. Public Officer. Actionable Tort. Equity Pleading and Practice, Appeal, Exceptions, Dismissal without prejudice.*

In an action brought against a town to recover damages claimed to have been caused by the construction and maintenance of a drain, the dumping of stone and the discharge of water upon the plaintiffs' land through the drain by reason of its construction, it was held that no action of tort would lie against the town where it did not appear that the town ever assumed to perform by means of its agents any of the work done.

In this case the selectmen and surveyors of highways were the same persons at the time the work in question was done. The records of the selectmen, which were the same as those of the surveyors of highways, show the appointment of the superintendent of streets who was directed to lay the drain but there was nothing to show in which capacity these individuals who were elected both highway surveyors and selectmen intended to act when they gave him his orders. The act of the superintendent of streets in extending the drain, even if unlawful, was connected with the diversion of surface water from a public way and thus must be regarded as having been done to keep the streets in repair and safe for travel. No other reason could exist for the giving of such an order, and no justification could be found for such an act other than in the statutory duty to care for and repair highways. R. L. c. 25, § 81 (G. L. c. 41, § 62). Under that provision the exclusive control of such repairs was in the highway surveyors then chosen. Here, where highway surveyors were elected, there was no occasion to resort to R. L. c. 25, §§ 85, 86, (G. L. c. 41, §§ 66, 68) which provides for the appointment of a superintendent of streets in a town where a surveyor of highways is not elected by the selectmen to have full charge under the direction of the selectmen of the care and repair of highways and to be subject to the same liabilities and penalties as surveyor of highways. There was no evidence of a vote of the town or other official action giving the selectmen, as such, authority or control over the care and repair of the highways. The finding of agency, therefore, upon which the trial judge charged the town with liability in this case was reversed as unwarranted because the capacity in which the individuals were acting in directing the work of laying and extending the drain was held to be that of highway surveyors. Acting as such they were public officers and not agents of the town and the town was not liable for their acts, or the acts of their subordinates.

Work in resurfacing a street, and constructing catch basins, which was the cause of damage by flooding, was done by the superintendent of streets presumably under the direction of the selectmen who, in 1923, were road commissioners, by virtue of the acceptance by the town of St. 1922, c. 1, assumed to have been accepted before the performance of the work. That act provided that the board of selectmen of the town should be a board of public works, and in such capacity should have all the powers and duties vested by law in certain boards, among which were road commissioners. Road commissioners, when chosen, "shall exclusively have the powers, perform the duties and be subject to the liabilities and penalties of selectmen and surveyors of highways relative to public ways . . ." G. L. c. 41, § 64. Acting as such they are public officers and not agents of the town.

What was said in *Blaisdell v. Stoneham*, 229 Mass. 563, is here controlling: "An officer charged with the duties of a surveyor of highways is a public officer, and not an agent of the town . . . An action of tort at common law will not lie against a city or town for diverting the surface water from its streets in order to keep them

safe, and causing it to flow upon adjoining premises, even when the surface water is drained into a culvert or watercourse. The remedy is under the statute. R. L. c. 51, § 15, now St. 1917, c. 344, Part IV, § 21. *Woodbury v. Beverly*, 153 Mass. 245. *Brainard v. Newton*, 154 Mass. 255. *Holleran v. Boston*, 176 Mass. 75." The statutes make provision for damages resulting from repairing highways. G. L. c. 84, § 10 (R. L. c. 51, § 15). There is also a special provision with regard to drains from ways. G. L. (Ter. Ed.) c. 83, § 4.

COMMISSIONER OF LABOR AND INDUSTRIES *vs.* FRANK J. DOWNEY.

Mass. Adv. Sh. (1935), 1123.

Hampden. September 18, 1934. — April 30, 1935.

*Municipal Corporations*, Suspension of employee, Dismissal of employee.

A petition for a writ of mandamus to enforce the provisions of G. L. (Ter. Ed.) c. 41, § 111, as amended by St. 1932, c. 109, was brought by the Commissioner of Labor and Industries on whom the statute casts the duty of such enforcement. That section provides that in any city which accepted that section the city council may determine that a vacation of two weeks without loss of pay shall be granted to every person regularly employed by such city as a common laborer, skilled laborer, mechanic or craftsman. If such vacations are authorized, they shall be granted by the heads of the executive departments of the city at such times as in their opinion will cause the least interference with the performance of the regular work of the city. "A person shall be deemed to be regularly employed, within the meaning of this section, if he has actually worked for the city or town for thirty-two weeks in the aggregate during the preceding twelve months, notwithstanding that he has ceased, otherwise than by voluntary withdrawal or dismissal for cause in accordance with law, to be in the employ of such city or town."

Where a janitor of a public building who had been suspended but who had worked for city in an aggregate of thirty weeks during the preceding twelve months was denied his request for an annual vacation solely on the ground that his suspension for reasons of economy was the equivalent of a dismissal "for cause" within the meaning of those words in § 111, it was held that there had been no dismissal which would take him out of the class entitled to a vacation of two weeks without loss of pay under G. L. (Ter. Ed.) c. 41, § 111, as amended.

The court said that the governing statute in this case requires a vacation of two weeks without loss of pay unless there has been severance of his employment by "dismissal for cause in accordance with law." A sharp distinction is thus drawn between dismissal and suspension which in this context means "a temporary withdrawal or cessation from public work as distinguished from a permanent severance from the service accomplished by removal." *Bois v. Mayor of Fall River*, 257 Mass. 471. The latter part of the sentence just quoted defines the signification of dismissal as used in § 111. In a somewhat similar context dismissal has been said to denote "complete separation" from a public employment. *Boody v. School Committee of Barnstable*, 276 Mass. 134. The distinction is one of substance and not of form. Suspension imports the possibility or likelihood of return to the work when the reason for the suspension ceases to be operative. Dismissal imports an ending of the employment and in its effect is commonly the equivalent of removal. In this case the suspension for reasons of economy was doubtless for a just cause which may have warranted, but did not constitute, a dismissal.

JOHN C. HALL *vs.* RALPH P. BARTON & OTHERS.

Mass. Adv. Sh. (1935), 1273.

Suffolk. April 5, 1935. — May 2, 1935.

*Election. Ballot.*

Upon a recount in an election for the office of selectman, the registrars of voters decided that each candidate had received the same number of votes and that neither was elected. The question here to be decided relates to a single ballot which the registrars refused to count. If it should have been counted, the action of the registrars was erroneous and a writ of mandamus should issue to compel them to give the petitioner a certificate of election as a selectman.

The ballot in question, which was the regular official ballot, was marked in the usual manner indicating by a cross in the square opposite the petitioner's name

the voter's choice of candidates for selectman. His choice of candidates for ten other officers was also marked. No mark was made in the square opposite the name of the one candidate for town clerk but underneath that name in the space left blank to permit the name of a different candidate to be written in, the voter wrote: "Anyone else will do," and made a cross in the square opposite. In a similar manner the voter wrote "Mr. Punk" in the blank space below the name of the one candidate for assessor and marked a cross in the square opposite. Across from the names of two of the three candidates for constable to be voted for, the voter duly marked the proper square with a cross but opposite the name of the third candidate he wrote "Nix" and made no mark whatever in the square opposite that name.

The pertinent provisions of the statute are as follows: G. L. (Ter. Ed.) c. 54, § 80: "Except as authorized by this chapter, no voter, election officer or other person shall place on a ballot any mark by which it may be identified; nor shall any person place a mark against any name upon a ballot not cast by himself"; § 106: "If the use of a state ballot box is required, no ballot shall be counted unless it has been deposited in and cancelled by such ballot box, or has been otherwise deposited in accordance with section sixty-six. Only official ballots shall be counted in any election for which they are provided. If a voter marks more names than there are persons to be elected to an office, or if his choice cannot be determined, his ballot shall not be counted for such office. Ballots cast but not counted shall be marked 'defective' on the outside thereof, and shall be preserved like other ballots"; c. 56, § 31: "Whoever, at a primary, caucus or election, places any distinguishing mark upon his ballot, or makes a false statement as to his ability to mark his ballot, or allows the marking of his ballot to be seen by any person for any purpose not authorized by law, or gives a false answer to or makes a false oath before a presiding officer, shall be punished by imprisonment for not more than six months or by a fine of not more than one hundred dollars."

The only statutory provision forbidding the counting of a ballot actually deposited by the voter in the ballot box is in § 106, as quoted above, to the effect that a ballot containing more names than there are persons to be elected, or a ballot not disclosing the choice of a candidate, shall not be counted. *Beauchemin v. Flagg*, 229 Mass. 23. The ballot here in question does not fall within the terms of this interdiction because no more names were marked on the ballot than there were officers to be elected. There is no doubt as to the candidate for selectman for whom the ballot was intended to be cast.

There is no express prohibition against counting a ballot cast in violation of said § 80 in that the voter has placed upon his ballot a mark by which it may be identified and has thereby committed the crime denounced by said § 31 of placing a distinguishing mark upon his ballot. The purpose of these two sections is to preserve the secrecy of voting and to make difficult the corruption of voters. Ballots shown to be thus cast are illegal and to count them would break down the barriers against bribery of voters.

But the precise point remaining here for discussion is whether as matter of law the marks upon this ballot rendered it illegal under the governing statutes in the light of the finding that the voter did not place any marks on the ballot with the intention that it should be identified as his, and that while the unusual marks made it easier to identify, it was not more easy to identify than it would have been if the voter had exercised his privilege to write in the name of some other candidate and to vote for him.

The statute contains no definition of an identifying or distinguishing mark upon a ballot. That must be determined as to each case by considering its facts in the light of the words and general design of the election law. An identifying or distinguishing mark must be such in fact, made on purpose and not accidentally, and intended according to its appearance, place on the ballot and all attendant conditions to be a distinguishing mark. *Donlan v. Cooke*, 212 Iowa, 771. *Libby v. English*, 110 Maine 449. It has been held that all ballots properly marked should be counted although containing casual, accidental or unnecessary marks, provided the same do not appear to be made fraudulently or with criminal intent. *Phelan v. Walsh*, 62 Conn. 260.

The words written on the ballot here in question appear not to have been made in an attempt to indicate the candidate to be voted for. They were not written

inadvertently or by accident but must have been written by deliberate purpose. Conceivably, they might have been agreed upon between the voter and another person as distinguishing this from other ballots and identifying it as the one cast by the voter. But in addition to these features, there must be the further factor that whatever appears in writing or by device was intended to be a distinguishing mark. See *Barllett v. McIntire*, 108 Maine, 161. *Spaulding v. Romack*, 185 Ind. 105.

Whether irregular markings on a ballot import a dishonest purpose the court said is commonly a question of fact to be decided in connection with all the circumstances. Handwriting alone might be sufficiently distinctive in certain conditions, although if the name of a candidate is written in a blank space as expressly permitted by G. L. (Ter. Ed.) c. 54, § 42, it could not be an identifying mark within the meaning of G. L. (Ter. Ed.) c. 54, § 80 and c. 56, § 31.

In the opinion of the court the words written on this ballot cannot quite be said, as matter of law, to import a dishonest purpose. They disclose a frivolous, childish, or eccentric disposition and indicate freakishness rather than knavishness on the part of the voter.

The court called attention to the fact that there are decisions in other jurisdictions doubtless going somewhat further in condemning ballots irregularly marked. For example it was said in *Stevenson v. Baker*, 347 Ill. 304, 318: "Any deliberate marking of a ballot by a voter that is not made in an attempt to indicate his choice of candidates, and which is also effective as a mark by which his ballot may be identified, should be considered as a distinguishing mark." The case at bar was said to be very close to the line. A slight element doubtless might have resulted in a different finding of facts. But the court decided in harmony with the general trend of Massachusetts decisions as to the counting of ballots, that the ballot here in question ought to be counted for the petitioner and the certificate of election issued to the petitioner.

#### OPINION OF THE JUSTICES TO THE HOUSE OF REPRESENTATIVES.

Mass. Adv. Sh. (1935), 1395.

The House of Representatives required the opinion of the Justices of the Supreme Judicial Court upon certain grave constitutional questions arising in connection with a bill entitled "An Act creating the Home Security Corporation of Massachusetts and defining its Powers and Duties."

The bill provided substantially for the establishment of a corporation the affairs of which were to be directed by a board of directors consisting of certain public officials, *ex officio*, and of other persons to be appointed by the Governor with the advice and consent of the Council, and the funds for carrying on the business of which were to be obtained from the Commonwealth by subscription to all the capital stock of such corporation and from the proceeds of the sale of its bonds, which were to be fully and unconditionally guaranteed by the Commonwealth, both as to interest and principal, and were to be exempt from taxation. The corporation was to be empowered to insure privately owned and managed banks and other institutions and corporations or associations which entered into and performed agreements or contracts with it against loss through loans upon home or home construction mortgages and to discount obligations evidencing such mortgages, and under certain conditions to loan its funds directly upon such mortgages.

The answers given by the court to the questions submitted were conclusive against the proposed bill as unconstitutional.

The money to be used by the corporation as provided by the bill must be obtained directly or indirectly through the exercise of the power of taxation by the Commonwealth. The subscription to the capital stock of the corporation must come from that source, and the guaranty of its bonds would rest ultimately upon the same source. The corporation appears to be designed to be in a sense a governmental agency and the questions asked the court were based on this theory. While it has some of the characteristics of a private corporation, it is not privately owned or managed. The proposed bill would put the Commonwealth deeply into the business of lending money upon real estate mortgages. The court said that is not a public purpose. After the great fire of 1872 a statute was enacted purporting to authorize the city of Boston to borrow money in order to lend it to land owners

for rebuilding on the burned area. It was held in *Lowell v. Boston*, 111 Mass. 454 that this was not a public purpose for which public money under the Constitution could be used. That decision is decisive against the proposed bill.

The extension of public functions by art. 47 of the Amendments to the Constitution so as to include the "providing of shelter" during time of war, public exigency, emergency or distress" falls far short of embracing the insurance of real estate values and the money lending business as set forth in the proposed bill.

If the corporation established by the proposed bill were a public agency for a proper purpose, doubtless the credit of the Commonwealth might be given or lent to it. But the contemplated business of the corporation is the giving or lending of credit to, and the insurance of the mortgages held by, the participant corporations which are clearly privately owned and managed. The credit of this public agency created, financed and managed by the Commonwealth is thus given or lent in aid of such private corporations. The Commonwealth cannot do through such a public agency as the proposed corporation that which it is forbidden to do directly. This would plainly be in violation of art. 62 of the Amendments to the Constitution which prohibits the use of the credit of the Commonwealth "to or in aid of any individual, or of any private association, or of any corporation which is privately owned and managed." *Opinion of the Justices*, 261 Mass. 523, 542, 543.

Art. 66 of the Constitution organizes the executive and administrative work of the Commonwealth into twenty departments. A new agency of government like the proposed organization ought to be under such supervision and regulation as the General Court may prescribe by law. That is a legislative function. The omission of a provision that the board of directors of the proposed corporation should serve directly under the Governor or Council or be placed in a state department would also be in violation of the Constitution in this respect.

#### DECISIONS AFFECTING LOCAL TAXATION.

SOUTH ESSEX SEWERAGE BOARD *vs.* CARR LEATHER COMPANY.

SAME *vs.* VERZA TANNING CO.

SAME *vs.* KIRSTEIN LEATHER CO.

286 Mass. 191.

Essex. March 7, 1934. — March 30, 1934.

*South Essex Sewerage District. Equity Jurisdiction*, To enforce sewerage regulation.

Under authority of St. 1925, c. 339, the board of management of the South Essex Sewerage District made a regulation forbidding the discharge of caustic lime into any sewer of that district and looked to the Superior Court to restrain by injunction the violation of such regulation on the ground that it had jurisdiction under G. L. (Ter. Ed.) c. 83, §§ 10, 13.

It was held that in cases in equity not "cognizable under the general principles of equity jurisprudence", the Superior Court, as distinguished from the Supreme Court, has jurisdiction only when a statute expressly confers it. The sections of chapter 83 here relied upon apply only to regulations made by officers of a city or town. There appears to be no statute giving jurisdiction to the Superior Court to enforce in equity the regulation in question. The statute creating the South Essex Sewerage Board merely provides in § 20, that "The Supreme Judicial Court shall have jurisdiction in equity to enforce the provisions of this act."

L. CUSHING KIMBALL & ANOTHER, TRUSTEES *vs.* ARTHUR N. MADDISON, TRUSTEE.  
286 Mass. 277.

Suffolk. May 17, 1932. — May 24, 1934.

*Landlord and Tenant*, Construction of Lease, Words, "Person or persons entitled."

This is an action of contract brought by the trustees under the will of David P. Kimball against the present trustee of the Kimball Building Trust on a covenant in an indenture of lease, dated November 4, 1915, and in force during the year 1929 between said David P. Kimball, as lessor, and the former trustees of said trust, as lessees, to pay and discharge certain taxes and excises.

The covenant sued on is in the following terms: "The lessees covenant and agree as far as at any time permitted by law to pay and discharge any taxes or excises which during the term may be lawfully levied, laid or assessed upon or against the

rent payable hereunder, whether levied or assessed upon the same as rental or as income of any person or persons entitled thereto." The "rent payable" by the defendant under the lease for the calendar year 1929 and actually paid by him was \$24,475.

The plaintiffs seek to recover under this covenant a part of the amount of the federal income taxes for the calendar year 1929 imposed by the Revenue Act of 1928 (45 U. S. Sts. at large, 791, c. 852), and paid by three children of said David P. Kimball, life beneficiaries of a trust of the residue of his estate created by his will of which the plaintiffs are trustees. These three children of the testator were entitled under his will to receive from such trustees the "net annual income" of the trust for the calendar year 1929, "quarterly or oftener as . . . [the trustees] may deem best, in equal shares." The income of the trust for the calendar year 1929 consisted of the rent received from the defendant under the lease, other rents of real estate, interest and dividends, all taxable under the Federal Income Tax Law, and interest on bonds of the United States and certain dividends not so taxable. The trustees also received gains on the sales of property of the trust which were taxable as income but were not distributable to the life beneficiaries. The trustees filed the usual informational return pursuant to the provisions of the Federal income tax law. The beneficiaries included in their individual federal income tax returns with income from other sources their shares of the taxable dividends and of the "balance of net income" as shown in the federal informational return. The amount which the plaintiffs seek to recover from the defendant in this action is the aggregate of the parts of the Federal income taxes so paid by the beneficiaries fairly apportionable to rent received by the plaintiffs from the defendant.

The Court says "Unlike the covenant considered in *Codman v. American Piano Co.*, 229 Mass. 285, and the agreement considered in *Greenburg v. Bopp*, 251 Mass. 433 (see also *Stony Brook Railroad v. Boston & Maine Railroad*, 260 Mass. 379), the covenant in this lease in express terms applies to 'taxes or excises' 'levied, laid or assessed upon or against the rent payable' under the lease. Also in express terms the covenant applies to such taxes or excises, 'whether levied or assessed upon' such rent, 'as rental or as income of any person or persons entitled thereto'. This language discloses 'the purpose of the parties to impose the obligation [of paying or discharging taxes on rent] upon the lessee whether the tax was levied as a property or as an income tax' (*Kimball v. Cotting*, 229 Mass. 541, 542), or on the rent as such or as income, and irrespective of the persons by whom the tax is to be paid which is 'levied, laid or assessed upon or against the rent' if they are 'persons entitled' to such rent".

The defendant contends, however, that no part of the Federal income tax paid by a life beneficiary for the calendar year 1929 was "assessed upon or against the rent", but, on the contrary, that such tax was assessed upon an "undifferentiated mass" of income in the hands of the beneficiary by reason of (a) the mingling of the rent in the hands of the trustees with other income of the trust so as to make up the "gross income" of the trust; (b) the making of deductions from such "gross income" of the trustees' "commissions" and the expenses of the trust so as to determine the "net income" of the trust; (c) the distribution of such "net income" among the life beneficiaries; (d) the mingling of each beneficiary's share of such "net income" with other income of the beneficiary to make up the "gross income" of such beneficiary; and (e) the making of statutory deductions from such "gross income" so as to determine the "net income" of the beneficiary subject to the Federal income tax.

The Court however says "It is clear that the 'net income' of each beneficiary upon which he was taxed was increased by reason of the rent paid by the defendant to the plaintiffs. And we think that, in spite of the mingling of such rent with other income, the deductions from 'gross income' allowed by law and the distribution of the income of the trust among the life beneficiaries, such parts of the Federal income taxes of these beneficiaries as are fairly apportionable to such rent are taxes 'assessed upon or against the rent' within the meaning of the covenant."

In supporting its conclusion the Court cites and in some instances also comments upon a considerable number of decisions including the following: *Kimball v. Cotting*, 234 Mass. 172; *Suter v. Jordan Marsh Co.*, 225 Mass. 34; *Codman v. American*

*Piano Co.* 229 Mass. 285; *Philadelphia City Passenger Railway v. Philadelphia Rapid Transit Co.*, 263 Penn. St. 561; *Philadelphia, Germantown & Norristown Railroad v. Philadelphia & Reading Railway*, 265 Penn. St. 325; *Helvering v. Falk*, 291 U. S. 183. The Court rejects *Elliott v. Winn*, 305 Mo. 105; *Laclede Gas Light Co. v. St. Louis Union Trust Company*, 321 Mo. 782; and *Missouri Athletic Association v. Delk Investment Corp.* 323 Mo. 765 insofar as inconsistent with *Kimball v. Cotting*.

CITY OF LYNN *vs.* LYNN COMMERCIAL REALTY CO. & ANOTHER.  
286 Mass. 368.

Essex. May 10, 1933. — May 25, 1934.

*Tax, Demand, Sale. Constitutional Law, Taxation.*

In a petition brought in the Land Court by a city for the foreclosure of rights of redemption under a tax title acquired by the city for taxes on land of a corporation, the validity of the tax title was questioned by the corporation and its mortgagee on the ground that the demand for the payment of the tax did not sufficiently comply with the provisions of G. L. (Ter. Ed.) c. 60, § 16 which require that before selling the land of a resident, or non-resident, for taxes, the collector of taxes shall "serve on him a statement thereof with a demand for its payment".

The demand was addressed as follows: To Charles R. Adams, Treasurer, c/o Lynn Commercial Realty Co. 11 Stewart St., Lynn, Mass. (Assessed Lynn Commercial Realty Company). It was forwarded by the local post office to the office of the corporation in Boston where it was received. The Land Court ruled that the demand should have been addressed to the corporation instead of to the treasurer in care of the corporation but since it was followed by the words in parenthesis 'Assessed Lynn Commercial Realty Company' it was perfectly obvious that it was a demand for the payment of a tax and just as obviously a demand on the corporation sent in care of the treasurer and received at the corporation's office, rather than a demand on the treasurer for an individual tax assessed to him and sent to him in care of the corporation.

Although the treasurer of the corporation was also treasurer of several other corporations, the judge of the Land Court said that where the demand was received at the corporation's office it did not seem that there could be any mistake that it was a demand on the corporation for the payment of the taxes assessed to it. The error was not in regard to a matter essential to the jurisdiction of the Land Court or one that affected any substantial rights of the parties, so long as the statement, demand and notice, was actually received by the party in interest, namely, the corporation. His finding was sustained that "the error or irregularity in the demand was neither substantial nor misleading" within the meaning of G. L. (Ter. Ed.) c. 60, § 37 and that the tax title was not invalidated thereby. No merit was found in the contention that these provisions of G. L. (Ter. Ed.) c. 60, § 37, were unconstitutional as applied to the facts in this case.

CATHERINE C. HANLON *vs.* J. W. ROLLINS & OTHERS.  
286 Mass. 444.

Norfolk. May 16, 1934. — May 25, 1934.

*Statute, Construction. Tax, Betterment. Sewer. Milton. Words, "Determination".*

This question for determination in this case is the correct interpretation of a special statute, St. 1933, c. 37, enacted to enable the town of Milton to repay in part certain sums paid as sewer assessments.

By the decision in *Mullen v. Board of Sewer Commissioners of Milton*, 280 Mass. 531, a sewer assessment levied by the sewer commissioners of the town of Milton, pursuant to St. 1895, c. 304, and amending acts, was held to be illegal because there were included as its basis, in addition to the cost of the local sewerage system, payments made by the town to the Commonwealth for the cost of the sewage disposal of the town through the metropolitan system. Such payments were held to be not lawfully assessable under the controlling statutes. The order of the court was that so much of the record of the assessment as related to the inclusion of the cost of the metropolitan sewerage system was quashed and the remainder of such

assessment was to stand provided such separation in the assessment affecting the petitioner could be made as a practical matter; if such separation were impractical the petitioner's entire assessment was to be quashed which was the result in that case. It was shown that the total cost of the local sewers was \$505,870.04 and that the payments by the town for the metropolitan sewerage system was \$504,584.36.

Following that decision there was enacted the duly accepted special statute in question which gave the town of Milton authority to "repay, after determination by its board of sewer commissioners in accordance with the principles laid down by the supreme judicial court in the recent case of *Annie F. Mullen v. Board of Sewer Commissioners of Milton*, such parts of [certain] amounts assessed [under St. 1895, c. 304 . . . ] upon estates and owners in respect to sewer construction in the calendar years [1927-1931], inclusive, which have been paid, as would not have been assessed in case assessments upon said town on account of the south metropolitan sewerage system had been excluded."

The contention of the landowner bringing this petition, who had paid the sewer assessments as originally levied, is that the sewer commissioners under that act should have deducted from the amounts paid by abutters the excess which was paid on account of the inclusion of payments to the Metropolitan sewer district in the basis of the assessment levied upon them or approximately fifty per cent.

The procedure of the sewer commissioners had been to make new calculations, in the manner prescribed by St. 1895, c. 304, § 9, allotting twenty-five per cent of the total cost of the local sewers as payable by the town and the remaining seventy-five per cent as payable by the estates benefited thereby, all as approved in the *Mullen* case. They then "determined" that the differences between assessments calculated in such manner, and the original assessments, were the amounts which "would not have been assessed in case assessments upon said town on account of the south metropolitan sewerage system had been excluded". The practical result of this procedure was an abatement of approximately one third.

In holding that the sewer commissioners had correctly interpreted St. 1933, c. 37, the court cited the general and familiar rule that a statute must be interpreted according to the intent of the Legislature ascertained from all its words construed by the ordinary and approved usage of the language, considered in connection with the cause of its enactment, the mischief or imperfection to be remedied and the main object to be accomplished, to the end that the purpose of its framers may be effectuated. *Commonwealth v. S. S. Kresge Co.* 267 Mass. 145, 148.

In the opinion of the court such an interpretation by the sewer commissioners effectuated the manifest purpose of the General Court in enacting the statute, the clear design of which was to enable them to make a "determination" of the amounts to be repaid due to the illegal inclusion of the metropolitan sewerage system, in view of the greatly increased cost which must be paid, as a result of the decision in the *Mullen* case, by the town in requiring it to bear the entire expense to it of the metropolitan sewerage system. If the amounts actually assessed upon the estates benefited originally would have been not on the basis of fifty-six per cent of the cost as first determined but on the basis of seventy-five per cent of the cost in case assessments on account of the metropolitan sewerage system had been excluded, that was within the scope of the powers vested in the sewer commissioners by the statute in enabling them to make a "determination" of the matters specified.

"Determination" as here used with respect to repayments "in accordance with the principles laid down in" the *Mullen* case, imports the exercise of sound judgment and not mere mathematical computation. If it had been the legislative intention to repay the proportion of the original assessment representing the inclusion of the metropolitan system, it would have been practicable to state that proportion in explicit figures.

In the situation confronting the parties and the General Court after the *Mullen* decision several courses were open. A statute might have been enacted treating the original assessment as void and authorizing an entirely new assessment. The court said obvious objections might well exist to a statute of that nature. The design of the statute enacted was to treat the original assessments as valid as to those who had paid them. The time for assailing the validity of the assessments by those who had paid them presumably had expired. The statute enacted enabled the board levying the original assessment to make a determination of the amount

which would not have been assessed if the principles declared by the *Mullen* decision had then been known and followed.

Thus interpreted St. 1933, c. 37 imposes no penalty upon the town for the mistake of the sewer commissioners in levying the assessment. It does not enable the landowner to escape the payment of a just and legal assessment reasonable in itself and proportionate to the benefit actually conferred upon his land by the construction of the town sewer. It permits the accomplishment of the result which would have been reached if correct principles had been followed at the outset.

NELLIE M. CALLAHAN *vs.* BROADWAY NATIONAL BANK OF CHELSEA.  
286 Mass. 473.

Suffolk. October 3, 1933. — May 28, 1934.

*Landlord and Tenant*, Construction of lease, Liability for taxes. *Contract*, Implied. *Equity Jurisdiction*, Construction of instrument in writing. Declaratory judgment. Adequate remedy at law. *Equity Pleading and Practice*, Amendment, Decree, Appeal.

This case presents an interesting question of equity pleading and practice but only the real issue of liability for taxes will be considered here.

The point of controversy was whether the owner and lessor of real estate or the bank which leased the property was required to pay the taxes on the vaults and other fixtures, furnishings and equipment installed by the bank on the leased premises. Its settlement depended upon the correct interpretation of the lease.

The owner leased to the bank for a term of years the lower portion of a business block in process of erection. As the building progressed and in accordance with the lease, the bank at its own expense installed a vault in the basement and also grill work and other fixtures and furnishings to adapt the demised premises for use as its banking rooms. The bank as lessee covenanted at the expiration of the term to yield up to the lessor "all and singular the premises and all erections, alterations, and additions made to or upon the same," but it was expressly understood and agreed that the bank had the right of removal during the term of the lease, or upon its termination, of any vault and all other fixtures, furnishings and equipment installed by it. The vault was so constructed as to be independent of the basement walls and also as not to form a part of the structure of the building. It could not be removed from the building without destroying the vault or some part of the structure of the building. It was agreed under a further provision of the lease that should the lessor at any time fail or neglect to pay any tax or assessment upon the property, the lessee bank might at its option, do what the lessor might then be obligated to do and might deduct the amount so expended from the rent due or to become due to the lessor.

During the first three years of the lease the vault was assessed to the bank and it paid the taxes. After that no separate valuation of the vault was made and the owner and lessor paid the taxes on the land and building. For the last two years in question the vaults were assessed separately as real estate to the plaintiff owner who paid the taxes.

The trial judge was held rightly to have interpreted the lease as a whole, in the light of all the circumstances, to mean that the words "any tax or assessment on said property" referred solely to the land and buildings and did not include the vault and other fixtures and furnishings installed by the lessee bank. The court said the lease seemed to have been framed with care to indicate that as between the lessor and the lessee title to the fixtures installed in the building by the lessee should remain its property during the term of the lease. It was hardly open to the bank to take any different position because it requested the ruling that on the evidence it could not be found "that the vault ever became a part of the plaintiff's real estate" and that request was granted by the trial judge.

It was stated by the court that every implication in the absence of express agreement, is against the idea that as between themselves a lessor should be required to pay taxes on the property of the lessee. This is true even though for purposes of taxation the vault may be assessed to the lessor with her land and buildings because "erected thereon or affixed thereto." G. L. (Ter. Ed.) c. 59, § 3.

The tax for each year now in question was assessed to the plaintiff as a real estate tax. It created a lien, so far as concerned the taxing authorities, upon the whole

property including land, buildings and other things erected thereon or affixed thereto, G. L. (Ter. Ed.) c. 59, § 3; c. 60, § 37. The plaintiff lessor could not release her own property from the lien without paying the whole tax and thus discharging the liability. There was no direct liability on the part of the bank to pay to the collector of taxes the tax on the vault, yet it was liable for the payment of the tax because affixed to the building and land, and payment of the tax by the plaintiff owner discharged that liability and so benefited the bank. The final decree which was affirmed held that the plaintiff lessor was not required under this lease to pay taxes upon the defendant lessor's vault and other fixtures installed by it even though for purposes of taxation the lessee's vaults may be assessed to the lessor with her land and building because "erected thereon or affixed thereto." The bank was ordered to repay to the lessor such taxes as had been paid on that account.

MARY E. THAYER & ANOTHER *vs.* KATIE M. SHOREY.

Mass. Adv. Sheets (1934) 1385.

287 Mass. 76.

Middlesex. Nov. 7, 8, 1933. — June 29, 1934.

*Waste, Deed, Construction, Reservation, Life Estate, Remainder. Practice, Civil, Amendment, Removal of Action, Trial by Jury. Superior Court, Jurisdiction.*

This is an action of tort under G. L. (Ter. Ed.) c. 242, § 1. The plaintiffs claim the possession of certain premises and also damages alleged to have been caused by the failure of the defendant to pay taxes assessed thereon.

The premises in question were formerly the property of the defendant. In 1889 she conveyed them to one "Whittemore, his heirs and assigns" by deed containing these words: "The grantor reserves to herself the right to occupy, rent, or improve the granted premises during her life." Whittemore immediately conveyed the premises to Samuel D. Stone who died in 1906 leaving the plaintiffs as his only heirs. This deed to Stone recited "an incumbrance" in the deed from the defendant to Whittemore. The defendant failed to pay the taxes assessed on the premises for the year 1927. The premises were sold for nonpayment of these taxes to one Kumlin. In order to redeem the property, the plaintiffs paid to the collector of taxes the total of the accrued taxes, interest and statutory charges on December 17, 1931 and on the following day recorded their certificate of redemption. On December 28, 1931, the defendant recorded a deed of the premises to her from Kumlin dated December 1, 1931, and reciting "Redemption under said tax sale is hereby made by the grantee herein." The defendant admits that the plaintiffs had no knowledge of this latter.

The defendant contends that the plaintiffs are not persons "having the next immediate estate of inheritance" within the meaning of G. L. c. 242, § 1, 2. It has long been established in this Commonwealth that a deed containing a reservation of the premises to the grantor for life operates to seize the grantor of a life estate and by operation of law to vest the remainder in the grantee. *Brewer v. Hardy*, 22 Pick. 376. *Ashcroft v. Eastern Railroad*, 126 Mass. 196. The plaintiffs holding vested remainders after the defendant's life estate, are persons having the next immediate estate of inheritance, and so entitled to pursue their statutory remedy. *Sackett v. Sackett*, 8 Pick. 309. *Solis v. Williams*, 205 Mass. 350, 354.

Apart from any question of damages the plaintiffs in this action are entitled to recover possession of the premises. It is provided by G. L. (Ter. Ed.) c. 242, § 1 that "If a tenant in dower, by the curtesy, for life or for years commits or suffers waste on the land so held, the person having the next immediate estate of inheritance may have an action of waste against such tenant to recover the place wasted and the amount of the damage, and such action shall be subject to the provisions of law relative to trial by jury. . . ." Although the plaintiffs in their declaration as originally framed describe their cause as an "action of tort for waste," they were allowed in the Superior Court to amend by adding to this claim for damages "a further claim to recover said premises for waste as alleged." By the amendment a cause of action was set out under § 1. The allowance of the amendment was within the power of the court. G. L. (Ter. Ed.) c. 231, § 51. *Pizer v. Hunt*, 253 Mass. 321, 331. A somewhat similar amendment was allowed in *Fay v. Taft*, 12 Cush. 448, 454. The case of the plaintiffs as finally pleaded was not an action of tort in the nature of waste under G. L. (Ter. Ed.) c. 242, § 2. By the express words

of § 1, the plaintiff is entitled "to recover the place wasted" as well as damages. The tax was a lien on the entire tract and the tax deed covered the same locus. The case at bar is distinguishable on this point from *Padelford v. Padelford*, 7 Pick. 152; and *Thacher v. Phinney*, 7 Allen. 146. There was no error of law in the allowance of this amendment even though the action was brought originally in a district court.

There is nothing to the contention that the trial as a cause under § 1 must be by jury.

Waste is an unreasonable or improper use, abuse, mismanagement, or omission of duty touching real estate by one rightfully in possession, which results in its substantial injury. *Delano v. Smith*, 206 Mass. 365, 370. Taxes were properly assessed to the life tenant in possession. G. L. (Ter. Ed.) c. 59, § 11. The duty to pay the taxes rested on the life tenant even though the estate was unproductive. *Plympton v. Boston Dispensary*, 106 Mass. 544, 547; *Spring v. Hollander*, 261 Mass. 373, 375-376. A personal action could have been maintained by the tax collector against the life tenant in possession to recover the amount of the taxes. G. L. (Ter. Ed.) c. 60, § 35. The failure to pay the taxes and suffering the estate to be sold for nonpayment manifestly were a substantial injury to the rights of the plaintiffs. They would have been deprived of their estate by an ordinary tax sale unless they redeemed it. The life tenant cannot be permitted to acquire title through such a sale so as to cut off the remainderman. *Solis v. Williams*, 205 Mass. 350, 354 and cases cited. When the life tenant fails in this duty to pay taxes an action of waste will lie against him. *Wade v. Malloy*, 16 Hun. (N. Y.) 226. The circumstance that it does not affirmatively appear that the income of the property was sufficient to enable the life tenant to pay the taxes is no defense on this record. The life tenant, without notice to or knowledge by the plaintiffs, undertook by accepting a deed from the purchaser at the tax sale to acquire that underlying title for herself. That may be regarded as a basis for a deduction that the premises were not so overburdened by excessive taxation as to be of no value for use and occupation year by year. The trial judge must be presumed to have drawn every inference of which the agreed facts and the evidence are susceptible against the defendant. *Merrimac Chemical Co. v. Moore*, 279 Mass. 147, 152-153.

In this posture of the case, it is unnecessary to inquire whether in view of the nature of the liability of the life tenant for taxes under our statutes already cited, there is room for the application of a rule sometimes stated, to the effect that the liability of the life tenant to keep down taxes is limited to the rental value of the premises. See *Nation v. Green*, 188 Ind. 697, 709 and cases cited in 17 Am. L. R. 1394.

WILLIAM C. BARRY vs. ANTONIO FRANKINI.

Mass. Adv. Sh. (1934), 1423.

287 Mass. 196.

Middlesex. May 10, 1933. — June 29, 1934.

*Landlord and Tenant*, Cancellation of lease, Construction of lease, Covenant to pay taxes. *Equity Jurisdiction*, Cancellation. *Equity Pleading and Practice*, Retention for assessment of damages.

A lease of certain real estate contained a covenant by the lessor for quiet enjoyment of it by the lessee and also a covenant that "the said Lessor will pay all real estate taxes and betterment assessments that may affect the land and building herein demised."

When for two years the lessor had been unable to pay the taxes assessed upon the real estate, although they were paid by the mortgagee banks and the plaintiff lessee had not been disturbed in his possession, use or enjoyment of the property and had suffered no damage from the defendant lessor's failure to pay the taxes, the lessee sought to break the lease solely on the ground of non-performance by the lessor — or by his wife to whom in the meantime he had conveyed the property — of his covenant to pay taxes assessed on the property for the two years in question.

It was held that a breach of a lessor's covenant to pay taxes alone does not warrant a cancellation of the lease. The plaintiff lessee on the facts in this case was not entitled to equitable relief.

As between lessor and lessee, even apart from the covenant, the ultimate liability

for the real estate taxes on the demised premises were on the lessor, though such taxes might have been assessed on the tenant in possession, who could "retain out of his rent the taxes paid by him, or . . . recover the same in an action against his landlord." G. L. (Ter. Ed.) c. 59, §§ 11, 15. *Boston Molasses Co v. Commonwealth*, 193 Mass. 387, 391. But, the court said, in the present case the taxes were not assessed to the lessee, and though the premises were subject to a lien for taxes there was no personal liability for them upon the lessee. It was assumed in favor of the plaintiff, without decision, that the covenant in question, like covenants for payment of taxes by lessees, was not a promise "of indemnity against the tax, but a promise to pay it" (*Richardson v. Gordon*, 188 Mass. 279, 281) and that on the facts shown this covenant was broken.

Ordinarily equity will not set aside a contract at the suit of a party thereto on the sole ground of non-performance by the other party of one of his agreements therein contained, in absence of an agreement for termination upon breach by such non-performance, where the breach is not of such a material and substantial nature as to excuse the party suing from proceeding with the contract, but will leave the party suing to his remedy by way of damages. Here the grant of the leasehold was the major part of the transaction to be performed on the side of the lessor and his covenant to pay taxes was merely collateral to it. And there was nothing in the indenture or in the nature of the thing to be done to indicate that the parties regarded performance of this covenant as so vital to the lease that default therein would warrant the lessee in terminating the lease and surrendering the premises where no interference with the lessee's full enjoyment of the whole of the leased premises resulted from the default. The plaintiff lessee was not actually evicted from the premises, nor did the facts show, as is necessary to establish a constructive eviction, that "the landlord has deprived the tenant of the beneficial use or enjoyment of the whole or part of the leasehold." There was no interference whatever with the plaintiff lessee's enjoyment of the leasehold, either by the city by way of sale of the property for non-payment of taxes or by foreclosure by the mortgagee. The trial judge was held to be right in dismissing the bill which sought also to enjoin the lessor from instituting any legal proceedings against the lessee arising from or growing out of the lease.

TOWN OF PLYMOUTH vs. TOWN OF KINGSTON.

Mass. Adv. Sh. (1935), 49.

Plymouth. November 8, 1934. — January 4, 1935.

*Needy Person. Settlement. Domicil. Words, "Reside".*

An action brought by the town of Plymouth against the town of Kingston to recover for the support of a needy person is of interest here for what is said in interpretation of the word "reside".

The sole issue in the case was whether a person lost his settlement in Kingston because of his failure for five consecutive years to reside in that town within the meaning of G. L. (Ter. Ed.) c. 116, § 5. That statute provided in part: "Each settlement existing on August twelfth, nineteen hundred and eleven, shall continue in force until changed or defeated under this chapter, but from and after said date absence for five consecutive years by a person from a town where he had a settlement shall defeat such settlement." Amendments in 1922 (c. 479) and 1926 (c. 292) show a clear, legislative intention to strike out the word "absence" and to substitute in place thereof the words "failure . . . to reside". The court said the word "reside" in that phrase should be presumed to have the significance which was given to the same word in laws relating to poor relief and settlements before St. 1911, c. 669, *Leonard v. School Committee of Springfield*, 241 Mass. 325, 330. It pointed out that in laws relating to taxation, voting and settlements the word "residence", in the absence of an expressed, contrary, legislative intent, has always been interpreted as equivalent to the word "domicil". *Granby v. Amherst*, 7 Mass. 1. *Stoughton v. Cambridge*, 165 Mass. 251, 253. *Ness v. Commissioner of Corporations & Taxation*, 279 Mass. 369. A domicile once established as, for example, a domicile of origin "cannot be lost by mere abandonment even when coupled with the intent to acquire a new one, but continues until a new one is in fact gained." *Shaw v. Shaw*, 98 Mass. 158, 160. Absence from an established domicile for a particular purpose does not change domicile if residence in a new location is not accom-

panied with a fixed purpose to remain there indefinitely and with an intention not to return to reside in the former home which is abandoned. *Wilbraham v. Ludlow*, 99 Mass. 587.

In the present case the contention of the town of Plymouth rested upon the assumption that this person's settlement in Kingston came to an end in 1932, because he at no time during the five year period from 1927 to 1932, had a home there, that is, a permanent residence as distinguished from a temporary occupancy of a room at a boarding house. No contention was made that he abandoned his settlement in Kingston or acquired a domicile in any other place but only that he lost his settlement in Kingston by such "failure to reside" there for five consecutive years after 1927, thereafter becoming a public charge. The burden of proof was upon the defendant town of Kingston to establish that such "failure to reside" in Kingston was without any intention of returning there and was with an intention of living elsewhere for an indefinite period.

The trial judge was held to be warranted by the evidence in finding for the plaintiff town of Plymouth that the person never abandoned his residence in Kingston, that he intended to return there as soon as the opportunity presented, that he carried into effect and gave evidence of his desire to retain his residence in Kingston by returning for short periods for a series of years, within the five year period, until assured by one of the assessors that it was not necessary, and by exercising the rights and performing the duties of citizenship therein.

The court said it did not matter to the decision of this case whether or not the board of assessors of Kingston had authority to assess the person at his request, as was done from 1927 to 1933, but it was material that he paid a poll tax in Kingston, and also an old age assistance tax when due, during that five year period because such payments had an evidential value in the determination of his intention to retain and not abandon his settlement in Kingston.

JOSEPH KOSHLAND & OTHERS, TRUSTEES, *vs.* AMERICAN WOOLEN COMPANY.

Mass. Adv. Sh. (1935), 283.

Suffolk. February 9, 1934. — January 30, 1935.

*Landlord and Tenant.* Construction of Lease. Covenant to Pay Taxes.

In a lease which was extended to the period in question were a number of covenants requiring payments by the lessee and among them one under which the lessee was obligated to pay the lessor "all taxes and assessments whatsoever, except betterment assessments". Under the extension of the lease its expiration was October 1, 1932. The plaintiffs as lessors contend that they were entitled to receive from the lessees the full taxes for 1932. The defendant as lessee contended that the tax covenant did not cover a term which expired six months before the end of the tax year (April 1 to April 1) because the covenant did not contain the words "assessed during the term" or equivalent words. The Court holds that the plaintiffs were entitled to the full year's tax. A tax on land for a given year is regarded as a unit. The meaning of the covenant being fixed, certain and unambiguous, evidence as to the construction put upon the agreement by the parties was not admissible. See *Wilkinson v. Libbey*, 1 Allen, 375. *Baker v. Horan*, 227 Mass. 415, 419. *Welch v. Gordon*, 284 Mass. 485, 486, 487.

CARBONE, INCORPORATED *vs.* THE BOARD OF ASSESSORS OF THE CITY OF BOSTON.

Mass. Adv. Sh. (1935), 605.

Suffolk. January 17, 1935. — February 28, 1935.

*Assessors of Taxes, Records.* Tax, Abatement. Evidence, Competency.

An application for abatement of a real estate tax was seasonably filed by the occupant of the premises as a tenant "paying taxes in full", assumed to be "a person aggrieved". It was heard on the same day by two of the board of assessors at one of two meetings held by them on that day at which they constituted a majority of the board, the chairman being absent. At the conclusion of the hearing one of the assessors wrote the words "Abate 7000 B of A" across the face of the application, signed his name on one of the lines provided at the bottom of the form for the signatures of the assessors, and handed it to the secretary of the board. The secretary appropriately filled in that portion of the blank form immediately above

the assessor's signature, the last paragraph then reading as follows over the signatures of the secretary of the board and of the one assessor: "This application having been considered by the Board of Assessors, it was voted that an abatement of \$229.60 (Amount of tax) be allowed upon a valuation of \$7000." The stamp of the assessing department with the word "Abated" and the date of the day following the meeting and the words "No Bd. Action Bd. Vote Required" also appeared on the face of the blank although it was not known by whom stamped or written. It was the usual practice for the board to indicate upon the application what, if any, abatement was granted. If none were granted the application was stamped "Denied"; if granted, it would be posted in the record books of the board and various entries made by clerks, after which the secretary would sign the certificate of abatement issued to the taxpayer.

In this case where a petition for a writ of mandamus to compel the issuance of a certificate of abatement was dismissed by a single justice "as a matter of law and not as a matter of discretion", the sole question for the decision of the full court was whether there was anything in the findings and evidence reported to justify an ultimate finding that the assessors had abated the tax in question.

The court stated with emphasis that boards of assessors consisting of three members must make such official decisions as are involved in the act of granting an abatement by vote, while they or a majority of them are in session as a board at a duly constituted meeting. They cannot act separately as individuals. *Williams v. School District in Lunenburg*, 21 Pick. 75, 82. *Damon v. Selectmen of Framingham*, 195 Mass. 72, 78. *Barnard v. Shelburne*, 222 Mass. 76, 79. See *Cooke v. Scituate*, 201 Mass. 107.

The court called attention to the fact that G. L. (Ter. Ed.) c. 59, § 60, makes careful provision for the keeping by boards of assessors of a record of all abatements and prescribes the particular items which shall enter into it. It further provides that if the record of an abatement is made as a part of the record of a meeting of the board of assessors, the signature of the clerk or the secretary of the board for that meeting is sufficient but otherwise the signatures of a majority of the board are required.

The general rule was shown by the court to be well established that where a public board is required to act through votes at meetings and to keep records of its acts, the record duly kept cannot be varied or added to by other evidence. Like other aspects of the so called parol evidence rule, this is a rule of substantive law and not a part of the law of evidence. It forbids proof of acts of the board by any evidence other than the record.

In the present case records of the meetings of the board of assessors on that day were in evidence but they did not show any vote to abate the tax. The court said it could not be assumed without evidence that the notation signed by the one assessor, the stamp, nor the paragraph signed by the secretary on the face of the application for abatement are a part of the records of the acts of the board at a duly constituted meeting. Nor could these entries be construed as a record of an abatement which is not a part of a record of a meeting because in such a case G. L. (Ter. Ed.) c. 59, § 60 as above explained requires the signatures of a majority of the board. Nothing in the case supported a finding that the assessors had abated the tax.

LEE M. FRIEDMAN AND ANOTHER, TRUSTEES, vs. S. S. KRESGE COMPANY.

Mass. Adv. Sh. (1935), 719.

Suffolk. January 16, 1935. — March 6, 1935.

*Landlord and Tenant*, Construction of lease. *Equity Jurisdiction*, Determination of right. *Equity Pleading and Practice*, Bill, Decree. Words, "Taxes levied on the building."

By the terms of a lease the tenant of a part of a building was required to pay during the continuance of the lease, in addition to monthly rent, one quarter of the increase in any annual "taxes levied on the building" over the annual tax levied upon it in the year 1921. The landlords contended that the words "taxes levied on the building" included the whole tax on the real estate, including the land. The tenant's contention, sustained by the lower court, was that the words quoted included only so much of the tax as was based upon the assessors' valuation of the building, as distinguished from the land upon which it stood.

In an appeal by the landlords it was held that the mere use of the phrase "taxes levied on the building" does not require the splitting of the tax. While it is true that under the provisions of G. L. (Ter. Ed.) c. 59, §§ 44-47, the assessors fix separate valuations upon the building and the land and that by applying the tax rate to the valuation of the building alone, it is possible to determine what in a popular sense might be called the tax upon the building apart from the land, never heless, the principle is decisive which was laid down in *Newton Building Co. v. Commissioner of Corporations and Taxation*, 285 Mass. 471, 473, 474, namely, that a building and the land upon which it stands constitute a single estate upon which a single and indivisible tax is levied.

It was recognized by the court that an agreement might be drawn which would require payment by either party of that part of the tax which represents the valuation of either the building or the land alone but under the phraseology here in question it is well supported that the tenant is required to pay one quarter of any increase in the tax upon the land and building as a whole. Often the word building includes the lot of land upon which the building stands. *Harvey v. Sandwich*, 256 Mass. 379, 384. *Ansin v. Taylor*, 262 Mass. 159, 162. *Labelle v. Lafleche*, Mass. Adv. Sh. (1935) 1931. It was held in *Trinity Church v. Boston*, 118 Mass. 164, 165, that an exemption from taxation of "houses of religious worship" exempts the land as well as the buildings. A tenant of a "store", who covenanted to pay "all taxes . . . levied thereon," was held obligated to pay the whole tax on land and building. *Hooper v. Farnsworth*, 128 Mass. 487. While in that case the tenant occupied the whole property, the words are substantially the same as in the present case and the provision here that the tenant was to pay only one quarter of the increase in taxes takes account of the fact that he occupied only part of the property. Conversely, a covenant by a tenant of a part of a building to pay one-third of any increase in the taxes "upon the real estate upon which the leased premises" stood was held to require the tenant to pay one-third of any increase in the tax upon the land and building as a whole. *Wit v. Commercial Hotel Co.* 253 Mass. 564, 571, 572. See also *Stimson v. Crosby*, 180 Mass. 296.

*Bills and Notes, Acceptance. Trade Name. Corporation, Organization, Use of corporate name as trade name.*

Action was brought against an individual who refused payment on his acceptance of a draft. The order on the defendant bore upon its face, under date of April 21, 1928, the statement "Accepted" over the signature in the following form: "State Rubber Co Inc Trade Name By" [name of defendant] "Treas Signature of Acceptor".

Evidence was introduced to show that on March 1, 1928, articles of organization were drawn up under which the defendant and two others associated themselves with the intention of forming, under the corporate name signed to the acceptance, a corporation of which at the first meeting he was elected treasurer and director. The articles of organization were not filed and the charter not issued until May 21, 1928. The defendant testified that from March 1, he conducted business as a corporation.

Rulings were sought that the defendant could not be held liable on the acceptances as an individual because the orders were the orders of the corporation of which he was the duly authorized agent and that it was not open to the plaintiff to contend that the corporation was not then doing business.

The finding of the trial judge for the plaintiff, namely, that the defendant had accepted for himself in a form used by him as a trade name, was held by the court to be warranted. Since G. L. c. 156, § 12 provides that "The existence of every corporation organized under general laws shall begin upon the filing of the articles of organization in the office of the state secretary", the trial judge was right in finding that the corporation here in question was not organized before the filing of its papers on May 21, 1928, and that, consequently, at the date of the acceptance, April 21, 1928, the defendant was doing business as an individual under the trade

name in which the acceptance was signed. The court deemed it unnecessary to consider whether for any purpose and under any circumstances a corporation may be bound by action taken after the meeting for organization and before the filing of its articles with the state secretary.

Our law has long been settled that one who does business under a trade name may be liable upon paper executed by him in that name. *Bryant v. Eastman*, 7 Cush. 111. In G. L. (Ter. Ed.) c. 107, § 40 it is provided that "No person is liable on the instrument whose signature does not appear thereon, except as herein otherwise expressly provided. But one who signs in a trade or assumed name will be liable to the same extent as if he had signed in his own name." In view of the finding of the defendant's personal liability in the circumstances described the court saw no need to consider the liability of one who signs as agent for a non-existent principal.

MASSACHUSETTS HOSPITAL LIFE INSURANCE COMPANY *vs.* ISRAEL NESSON & OTHERS.

Suffolk. January 8, 9, 1934. — April 6, 1934.

*Corporation, Officers and agents. Agency, Scope of authority. Bills and Notes. Equity Pleading and Practice, Bill, Decree.*

This case is of interest here for what is said in regard to the authority of an agent or officer of a corporation where the question was whether the actuary of an insurance company [equivalent to its chief executive officer, general manager or president] had the authority, merely by virtue of his office, to agree to release from personal liability the maker of two mortgage notes payable to the company upon which a considerable sum was due, in consideration of the mortgagor's agreement to make certain improvements in the mortgaged property and to make a payment on the principal of one of the notes then due.

It is said of the title general manager, as applied to a corporation, that he may exercise all of the operative functions of the corporation within the field or rules prescribed by the board of directors. It is also said that a manager may be an officer of a corporation whose office signifies general management, such as a president, or one who in fact manages, although holding a subordinate office. "Except for purposes of determining apparent authority, the name of the office held is unimportant; the functions performed with the consent of the principal are determinative." Authority "to manage a business includes authority: (a) to make contracts which are incidental to such business, are usually made in it, or are reasonably necessary in conducting it." American Law Institute Restatement, Law of Agency, § 73. "Unless otherwise agreed, authority to receive payment includes authority: (a) to receive payment in full in money when the debt is due; and (b) to surrender to the payer any security for or evidence of the debt to which he is entitled and to give him such receipt as it is usual to give. . . . Authority to collect does not include authority to compromise, to release any part of the debt, or to permit a deduction because of an alleged set-off or counter-claim." § 72.

The court said that the fact that the present actuary had previously acted for the corporation when the defendant repurchased the equity in the mortgaged property and that the defendant had other dealings through the corporation acting through him did not warrant a finding that the actuary, by virtue merely of his office had ostensible authority to release the defendant from his obligations upon the notes, short of full payment, however adequate the consideration for the release was. There was no room for inference that such an arrangement had ever before been made, much less that it was a customary thing to do, and nothing to warrant an inference that it was necessary. Moreover, it is settled that an agent or officer of a corporation has not ordinarily authority to cancel or release a contract of his principal which is in force. *Craig Silver Co. v. Smith*, 163 Mass. 262, 268. *Hosher-Platt Co. v. Miller*, 238 Mass. 518, 523. *Eastern Advertising Co. v. Standard Nut Co.* 264 Mass. 238, 241. *DeBlois v. Boylston & Tremont Corp.*, 281 Mass. 498, 520.

Suffolk. March 10, 1934. — May 23, 1934.

*Equity Jurisdiction*, To relieve from results of fraud. *Bona Fide Purchaser. Corporation*, Transfer of stock.

A certificate of stock fraudulently obtained by a security corporation from one of its customers, was delivered to another customer together with an assignment thereof signed by the plaintiff. In a suit brought to recover the stock for the plaintiff the question for decision was stated by the trial judge to be which of two innocent women would have to suffer loss by the knavery of one or more officers or agents of the defendant corporation.

It was held upon the facts found that the defendant customer had obtained a good title to the certificate, and to the stock represented thereby. She had received the stock in good faith, without knowledge that the corporation had no authority to sell or pledge it, as collateral to secure a debt owed her by the corporation. In these circumstances, by the delivery of the certificate with separate document containing a stock power properly signed in blank by the plaintiff customer who appeared by the certificate to be the owner of the shares represented, the requirements of G. L. (Ter. Ed.) c. 155, § 27 for the transfer of the legal title to a certificate of stock were fulfilled. The defendant was accordingly held to be entitled to hold the stock as against the plaintiff even though the corporation, its officers and agents, by its transfer as described, had grossly defrauded the plaintiff.

286 Mass. 269.

Plymouth. March 9, 1933. — May 24, 1934.

*Actionable Tort. Unlawful Interference.*

Where the clerk of a business trust, by refusing to make a transfer of stock, intentionally, but not malevolently, interfered with the completion of an attempted gift of such stock, it was held that an intended transferee of stock cannot maintain an action of tort for malicious interference against a transfer officer for refusal to perform his duty as such officer when the intended transferor cannot maintain an action based upon such refusal.

In the case at bar no act on the part of the clerk was alleged to be wrongful toward the owner of the stock. The allegation was that it was his duty as clerk to "make all transfers of shares". Although the business trust was not subject to the provisions of the stock transfer law G. L. (Ter. Ed.) c. 155, §§ 24-46, the clerk of the business trust could not be construed to have any duty to transfer shares different from the duty of a treasurer of a corporation to make such a transfer. Such a treasurer would owe no duty to an owner of stock to make a transfer on the books of the corporation "which, in default, gave rise to an action in tort or upon the case for damages". The owner's right of action would be against the corporation. *Handy v. Miner*, 258 Mass. 53, 62. The duty of the treasurer of a corporation would be to the corporation only and the alleged duty of the defendant in this case would be to the business trust only. In neither case, the court said, would the proposed transferee have any greater right than the owner of the stock in an action based directly upon the refusal to transfer stock.

Subject to some limitations, protection is accorded against intentional interference without legal justification though the means of such interference is not in itself unlawful. The court pointed out that the gist is the intentional interference. But even in such cases no action lies for mere failure to act, which though intentional, is not in pursuance of a conspiracy where the defendant is under no duty to act. The present case stands on no different ground by reason of the duty which the clerk as agent of the business trust owed to his principal than does an ordinary case of the mere refusal of an individual to act where he has no duty to act.

The mere refusal of the clerk to perform his duty to the business trust, therefore, was not an actionable wrong on his part to the proposed transferor of the stock and such refusal, without more, was not a greater wrong to the proposed transferee.

*Devise and Legacy, Inconsistent gifts. Corporation, Corporate entity.*

A will contained certain inconsistent gifts. The court found it impossible to carry out the apparent intention of the testator and equally impossible to effectuate the inconsistent bequests directed by a literal reading of certain clauses of the will. The court finds that a division of the property between the residuary legatees more nearly carries out the general purpose of the testator than any construction contended for by the appellant. The testator owned all but two of the shares of a corporation and had not in all cases observed the requirements of the corporation law. The court held, however, that the corporation was not a party to this proceeding, that it had creditors that could not be ignored and that it was not a case where the corporate entity can be disregarded.

ANTONIO ESPOSITO *vs.* RIVERSIDE SAND & GRAVEL CO.  
Mass. Adv. Sh. (1934), 1373.  
287 Mass. 185.

Middlesex. May 18, 1934. — June 26, 1934.

*Corporation, Officers and Agents.*

The plaintiff, holding seventy shares of the defendant corporation, brought this bill to compel the defendant V, who holds the remainder and majority of the shares, to account to the corporation for alleged illegal payments and withdrawals of funds from the corporation. A master found that the management of the corporation by V had been honest and capable. Exceptions taken by the plaintiff to his report were overruled, the report was confirmed and the bill was dismissed. The plaintiff appealed from the interlocutory and final decrees.

In an earlier bill against the same defendants, disposed of by final decree, the plaintiff had made similar allegations against V and had prayed for the appointment of a receiver for the corporation. No receiver was appointed, and the final decree ordered V to pay the corporation \$1,000 and interest because of a loan of that amount made by V without the consent of the plaintiff to a private banker who failed.

The defendant V caused the corporation to employ counsel to defend that earlier suit. He paid part of the expenses for legal services out of corporate funds and paid a part himself. The plaintiff contends that V should have paid everything out of his own pocket but the master finds that "the corporation was attacked; that both a temporary and a permanent receiver for the corporation was prayed for in the bill; and that there was a prayer for the liquidation of the assets of the corporation." The corporation was not a mere nominal defendant. Upon the master's report, the Judge was right in allowing these expenditures as proper for the corporation to make. *Corey v. Independent Ice Co.*, 226 Mass. 391. *Barnes v. Newcomb*, 89 N. Y. 108. *Godley v. Crandall & Godley Co.*, 181 App. Div. (N. Y.) 75, affirmed 227 N. Y. 656. Compare *General Mortgage & Loan Corp. v. Guaranty Mortgage & Securities Corp.*, 264, Mass. 253, 261.

The plaintiff also objected to an increase of the salary of V as treasurer and general manager of the corporation under date of March 16, 1932 by vote of the directors. The salary had amounted to \$1,560 a year up to April, 1930, and \$1,300 a year afterwards. The vote of March 16, 1932 made it \$5,000. The master finds that V had never been adequately paid before, that the salary was fixed in good faith and that it was not excessive. The corporation had been very successful from 1920 to 1928 and paid out two and one-half times its capital as dividends. Since then the corporation has made a profit each year except for a small loss in 1932. It had a surplus of \$102,000 at the end of 1931. The business was extensive and the labor great. The evidence is not reported, there is no inconsistency in the master's findings and the Court accordingly says that it cannot say that the master was wrong in his conclusion that the salary was proper and lawfully established.

ALBERT RICHARDS CO. INC. *vs.* THE MAYFAIR, INC., & OTHERS.  
Mass. Adv. Sh. (1934), 1473.  
287 Mass. 280.

Suffolk. May 25, 1934. — June 29, 1934.

*Equity Pleading and Practice*, Appeal, Requests and rulings. *Corporation*, Officers and agents, Stockholder, Creditor. *Mortgage*, on personal property: validity. *Equity Jurisdiction*, Conveyance in fraud of creditors. *Fraud*.

By this suit in equity the plaintiff seeks to establish a claim against the defendant, The Mayfair, Inc. and to have declared void a personal property mortgage given by The Mayfair, Inc. to the defendant Sherman and to have set aside a foreclosure sale thereof, on the ground that these were a fraud upon the plaintiff as creditor. A final decree was entered granting the relief prayed for, and the case is before the Supreme Judicial Court upon the appeals of the defendant to the final decree and exceptions to the Judge's refusal to rule as requested.

The findings of the trial judge are set forth in the report of the case at considerable length. The court then says: "This being a suit in equity, with findings of fact and a full report of the evidence, on appeal to this court it is the duty of this court to decide the case upon its own judgment, giving due weight to the findings made and not reversing them unless plainly wrong". *Moss v. Old Colony Trust Co.*, 246 Mass. 139, 144. In such a case the refusal of the trial Judge to grant requests for rulings of law is considered as presenting the principles which the appealing party would have this Court apply to the performance of its duty to order a correct decree upon the pleadings and evidence, whatever view of the law was entertained by the trial Judge. See *Graustein v. Dolan*, 282 Mass. 579, 583-584.

The Court then reviewed the evidence. It finds that the trial Judge was justified in the conclusion that only three shares of the defendant corporation were ever subscribed for and that with the exception of \$5,000 alleged to have been advanced by one Staviski all advances which were made by the defendant Sherman were loans and intended as such by him. Accordingly Sherman being an officer of the corporation could not compete with legitimate creditors of the corporation in the distribution of its assets.

The Court says: "This Court adheres strictly to the usual rule that ownership by a person of all the stock of a corporation does not warrant disregarding the corporate entity and does not fasten on such person liability for the obligations of the corporation. *Berry v. Old South Engraving Co.* 283 Mass. 441-451 and cases cited. Circumstances sometimes exist which permit a sole stockholder to prove his claim against the corporation in competition with other creditors, *Salomon v. A. Salomon & Co. Ltd.* (1897) A. C. 22; *Wheeler v. Smith*, 30 Fed. Rep. (2d) 59, 61; *H. E. Briggs & Co. v. Harper Clay Products Co.*, 150 Wash. 235, but here Sherman tried to run the business which required expenditures of well over \$75,000 on a stock investment of \$100 by himself and possibly \$5,000 or \$6,000 by another. He entirely controlled the affairs of the corporation, and was in no proper sense a creditor, but was an owner of a substantial part of it and his contribution was a capital contribution. See *Luckenbach S. S. Co. Inc. v. W. R. Grace & Co. Inc.*, 267 Fed. Rep. 676, 681. It was evidently Sherman's purpose to draw profits on an investment equal to the amounts he advanced, at the same time that he protected this investment from any loss greater than that he would suffer upon a pro rata distribution of assets to all creditors. More than the legitimate object of limited liability was sought. He attempted to use the corporate entity to obtain profits on an investment of a certain size without exposing the capital invested in an economic sense in the business to the risk of full loss. The wrong was the disproportion between the capital advanced as a loan to his corporation and the capital put into the corporation for stock. In the case of a wholly owned and closely controlled corporation, such stockholder furnishing the capital necessary to the size of the corporation as a loan may not compete with legitimate creditors in the distribution of the assets. *Clere Clothing Co. v. Union Trust & Savings Bank*, 224 Fed. Rep. 363. *New York Trust Co. v. Island Oil & Transport Corp.* 56 Fed. Rep. (2d) 580, 583. *S. G. V. Co. v. S. G. V. Co.* 264 Penn. St. 265.

If Sherman is not to be regarded as a legitimate creditor of the corporation, manifestly the note and mortgage should be set aside. Sherman likewise would have no right to come in and prove his claims to the detriment of other creditors.

If Sherman is regarded as a legitimate creditor, the decree of the court may be justified for the further reason that the facts call for the application of the rule established by the great weight of authority that directors of a corporation which is insolvent or about to become so cannot obtain for themselves a preference over other creditors in respect to the assets by taking a mortgage or other security for preexisting debts. *Stuart v. Larson*, 298 Fed. Rep. 223. *Jackman v. Newbold*, 28 Fed. Rep. (2d) 107, 111. *Mica Products Co. v. Heath*, 81 N. H. 470. *Symonds v. Lewis* 94 Maine 501. *Gantenbein v. Bowles*, 103 Ore. 277, 289. The rule has been placed on the basis that directors are to some extent trustees of the corporate property for the creditors, that they should not be allowed to use their superior and far more intimate knowledge of the corporation's affairs to the detriment of creditors. There is no finding directly to the effect that the corporation was insolvent at the date of the giving of the mortgage, but that the corporation did not have sufficient assets or prospects of credit to meet the claims of those to whom it was indebted may fairly be inferred from the finding that Sherman's 'purpose in procuring the execution and delivery of the note and mortgage was to protect the assets from the landlord and other creditors'."

The Court finds it clearly inferable from the facts that the mortgage was given at least with insolvency in mind and with an intention of obtaining a preference in the assets when that event should occur.

The case is distinguished by the Court from *Holt v. Bennett*, 146 Mass. 437 where it was held that payments to directors of money borrowed from them made in the usual course of business, and not in view of the probable insolvency of the corporation, and while it expects in good faith to proceed with its business, are not frauds upon the other creditors and cannot be recovered by them from the directors to whom such payments were made. *Sanford Fork & Tool Co. v. Howe, Brown & Co. Ltd.* 157 U. S. 312, 318. See also *Cosmopolitan Trust Co. v. S. L. Agoos Tanning Co.* 245 Mass. 69, 73.

If the evidence established a loan to the corporation, Sherman could not as against creditors of the corporation enforce the mortgage, because it confessedly was given with actual intent to hinder, delay and defraud creditors of the corporation. G. L. (Ter. Ed.) c. 109A, § 7. *Crowninshield v. Kittridge*, 7 Met. 520. *Dondis v. Lash*, 277 Mass. 477. If the evidence established a loan and mortgage without actual intent to defraud creditors of the corporation, the corporation could not secure Sherman, its president and one of its board of directors, in preference to other creditors. See cases above cited. If the evidence established not a loan to the corporation but a capital contribution, Sherman was not a creditor of the corporation and the mortgage given to secure his interest was void. In any view of the evidence the mortgage was void as against creditors of the corporation.

THE NATIONAL SHAWMUT BANK OF BOSTON *vs.* THE CITIZENS NATIONAL BANK  
OF BOSTON.

Mass. Adv. Sh. (1934), 1539.

287 Mass. 329.

Suffolk. October 2, 1933. — July 2, 1934.

*Bank and Banking. Corporation, Ultra Vires.*

This is an action of contract. One defense set up by the defendant was that the act of borrowing by the defendant bank pursuant to the contract between it and the plaintiff bank was ultra vires. The act of borrowing was incidental to a plan for winding up the affairs of the defendant bank and the taking over of its assets by the plaintiff bank. The money borrowed was used to pay dividends to the stockholders of the defendant bank.

The defendant did not borrow the money here in issue in the ordinary course of its banking business. The transaction of borrowing by the defendant from the plaintiff imported a purpose on the part of the defendant declared in express terms to cease conducting the business of banking, to go into liquidation, to pay its debts and to distribute its capital or what may remain of it, among its stockholders. The plaintiff knew of this purpose and participated in the execution of the plan to effectuate this purpose. That design has been in large part carried out. There is nothing illegal about it. The national banking act makes provision for the voluntary liquidation of national banking associations by vote of its shareholders owning

two thirds of its capital stock. U. S. Rev. Sts. § 5220. That, however, is not carrying on the business of banking. It is the ending of the business of banking. The power to borrow money for the transaction of the business of banking cannot be implied when there is no banking business to be transacted. The avowed purpose of this loan was "in order that the Citizens National Bank may make an immediate distribution in liquidation of seventy-five dollars (\$75.) per share" among its stockholders.

That was a borrowing designed not to forward the usual course of business of the bank as a national bank but to extinguish that business. Borrowing by savings and loan associations to pay withdrawing members has been decided to be *ultra vires*. *Standard Savings & Loan Association v. Aldrich*, 163 Fed. Rep. (C.C.A.) 216, 221-224. *Blackburn Building Society v. Cunliffe*, 22 Ch. D. 61.

It has long been settled that *ultra vires* transactions by a national bank are void. *California Bank v. Kennedy*, 167 U. S. 362. "The latest reiteration of that doctrine, so far as we are aware, was in *Texas & Pacific Railway v. Pottorff*, 291 U. S. 245. . . ."

There is another principle sometimes applied to the defense of *ultra vires*. It was stated in *Central Transportation Co. v. Pullman's Palace Car Co.* 139 U. S. 23, 60, in these words: "A contract *ultra vires* being unlawful and void, not because it is in itself immoral, but because the corporation, by the law of its creation, is incapable of making it, the courts, while refusing to maintain any action upon the unlawful contract, have always striven to do justice between the parties, so far as could be done consistently with adherence to law, by permitting property or money, parted with on the faith of the unlawful contract, to be recovered back, or compensation to be made for it. In such case, however, the action is not maintained upon the unlawful contract, nor according to its terms, but on an implied contract of the defendant to return, or, failing to do that, to make compensation for, property or money which it has no right to retain. To maintain such an action is not to affirm but to disaffirm the unlawful contract."

The court states that in its opinion that principle cannot rightly be applied in the case at bar to overcome the defense of *ultra vires*.

NEW ENGLAND THEATRES, INC. vs. OLYMPIA THEATRES, INC. & ANOTHER.

Mass. Adv. Sh. (1934), 1719.

287 Mass. 485.

Suffolk. November 16, 1933. — September 14, 1934.

*Receiver. Equity Pleading and Practice*, Decree, Appeal. *Equity Jurisdiction*, Receivership proceedings.

The plaintiff and the defendant corporations in this case were all subsidiaries of one of the largest corporations in the country engaged in the motion picture business. When the parent corporation went into receivership it could no longer afford aid to the two defendant Massachusetts corporations, which precipitated their financial difficulties. Although solvent, they were without sufficient quick assets to carry on business, were unable to borrow money for that purpose, and could not meet their large liabilities as they matured. Attachments on their property had been made and others threatened which might well result in closing the many expensively fitted theatres under their control, destroying their good will and wasting valuable assets. If the assets were conserved and the corporations efficiently managed and their business continued, there would be sufficient to pay the debts and leave a substantial sum for the stockholders. The business could not be carried on except by a receiver, and a receivership was necessary to preserve the assets.

The plaintiff corporation was a large creditor of one of the two defendant corporations between which the relationship by stock ownership and management was so close and complex that the solvency of one depended upon the solvency of the other; receivership of one necessarily included receivership of the other. The plaintiff had made no demand upon the defendant for payment of its indebtedness prior to bringing this suit, the object of which was not to collect its indebtedness but to conserve the assets of the defendants. The procedure to be followed in order to get receivers appointed was agreed upon by the parties before the suit was instituted, there being the fullest agreement between the parent corporation and its subsidiaries in an attempt to work out a plan for saving the latter's assets. Dis-

closure of the whole situation was made to the judge. Many parties were represented but only one, a Massachusetts corporation, petitioned for leave to intervene in behalf of itself and other like attachment creditors, objecting to the continuance of the receivership. It set forth that it was an attaching creditor of the defendants by writ issuing out of the appropriate United States District Court in actions under the United States antitrust laws.

In the case heard by a judge of the Superior Court three questions were involved: (1) whether the court had jurisdiction to appoint receivers, (2) whether the facts justified the appointment of receivers, and (3) whether there was such collusion in the appointment of the receivers that they should be discharged and the bill dismissed.

The court held that the evidence amply supported the findings of fact made by the trial judge, embodied in a decree continuing the receivership, so far final as to be appealable to the Supreme Court.

It was decided that the Superior Court had jurisdiction as a branch of its general chancery powers to appoint receivers of a domestic corporation for the conservation of its assets and other appropriate purposes. The point that it was empowered to take this action at the instance of a simple contract creditor who had not reduced his claim to judgment, provided the defendants made no objection, was expressly held in *Hampden National Bank v. Hampden Railroad*, 246 Mass. 404. Numerous cases in Massachusetts reports were cited to show that receivers have been appointed for corporations at the instance of creditors who have not reduced their claims to judgment, without any challenge as to jurisdiction. These decisions the court deemed of persuasive weight since it is the duty of the court to take notice of its want of jurisdiction even though not raised by the parties. The decisions of the Federal court are to the same effect. It was said in *Re Metropolitan Railway Receivership*, 208 U. S. 90, at 110: "the consent of the defendant to the appointment of receivers, without setting up the defense that the complainants were not judgment creditors who had issued an execution which was returned unsatisfied, in whole or in part, amounted to a waiver of that defense."

Jurisdiction to appoint a receiver of a corporation upon the petition of a simple contract creditor cannot be doubted in this Commonwealth. Nevertheless, such appointment rests in sound judicial discretion to be put forth only with circumspection. It should not be exercised except in cases where otherwise there would be wasting and loss of property which ought to be made available for payment of the debts of the corporation and which cannot be conserved in any other way so satisfactorily as by the appointment of a receiver. *Falmouth National Bank v. Cape Cod Ship Canal Co.*, 166 Mass. 550, 568.

The court said that the general jurisdiction in equity to appoint receivers is not cut down by G. L. (Ter. Ed.) c. 156, § 51. That section does not purport to cover the entire subject of receiverships of corporations but was originally enacted with respect to the winding up of corporations whose charters had expired. General Equity power to appoint receivers as distinguished from statutory authority is recognized in *Pond v. Framingham & Lowell Railroad*, 130 Mass. 194 and in the *Falmouth National Bank* case cited above.

The appointment of receivers for both defendants was held to be warranted in the light of all the conditions in which the general financial and industrial depression was a factor, and there was no fraud nor collusion in securing their appointment. Cooperation among the parties chiefly interested to accomplish a proper end is not a badge of fraud. This was not an instance where the corporate entities can be disregarded and the plaintiff and defendant corporations be treated as identical or as agents of the parent corporation. So far as it appears, each carried on a distinct business in its own field and no one of them was organized to meet a legal exigency as distinguished from a commercial opportunity. The court's discussion at this point of interalliance of corporations is of considerable interest, ownership of all the stock in several corporations by one person does not create a single unit or justify a disregard of separate corporations. All the facts must be considered and due weight be given to each. Different corporations usually are distinct entities in law. It is only where the corporation is a sham, or is used to perpetrate deception to defeat a public policy, that it can be disregarded. The case at bar was held not to fall within the class which requires the court to look

through corporate forms to the dominating personality behind them in order to prevent fraud, to protect the public, or to accomplish some essential justice. Here, by preserving the continuous operation of the moving picture theatres of the defendants, waste and loss of their assets would be prevented, their debts paid and something salvaged for the stockholders. Receivership is a recognized procedure in such a case.

One object of receivership proceedings is to secure equality of treatment among creditors so far as permissible under the law. The circumstance that the interveners had attachments upon the property of the defendants at the time of the appointment of the receivers was held to give them no superior advantage in challenging the receivership. The right to establish the validity of their heirs so acquired was preserved to them by a clause in the decree from which they appealed. The defendants and some of the interveners joined in this case are domiciled in Massachusetts. The ordinary jurisdiction in equity of the courts of this state over its own corporate creatures doing business here is not impaired by an attachment of some of their property upon processes issuing out of the Federal court in the absence of a supervening and binding act of the Congress to that effect. No such law governs in this case. See U. S. Rev. Sts. §§ 915, 933.

TOIVO A. PARTAN, TRUSTEE IN BANKRUPTCY vs. WALTER A. NIEMI.  
Mass. Adv. Sh. (1934), 1949.  
288 Mass. 111.

Worcester. February 8, 1934. — October 24, 1934.

*Corporation, Dissolution. Bankruptcy. Jurisdiction. Word, "Suit."*

The question in this case was whether after the dissolution of a corporation by act of legislature, a district court of the United States had jurisdiction to adjudicate the corporation a voluntary bankrupt and to appoint the plaintiff a trustee in bankruptcy.

The right of the plaintiff as trustee in bankruptcy to bring this suit in equity against a director of the corporation for the purpose of setting aside as fraudulent and unauthorized certain mortgages and conveyances by the corporation to the defendant director was challenged by him on the ground that such appointment as trustee was nullified by the court's lack of jurisdiction.

For the purposes of this decision it was assumed by the court that want of jurisdiction by the bankruptcy court could be raised and the plea in bar filed by the defendant was held to be the proper way to raise the issue of legal incapacity of the plaintiff to sue.

The special act dissolving the corporation in substance made the dissolution subject to the provisions of G. L. (Ter. Ed.) c. 155, §§ 51, 52, 56. By § 51 of that chapter it is provided that a corporation thus dissolved "shall nevertheless be continued as a body corporate for three years after the time when it would have been so dissolved for the purpose of prosecuting and defending suits by or against it and of enabling it gradually to settle and close its affairs, to dispose of and convey its property and to divide its capital stock, but not for the purpose of continuing the business for which it was established; provided, that the corporate existence of such a corporation, for the purposes of any suit brought by or against it within said period of three years, shall continue beyond said period for a further period of sixty days after final judgment in the suit."

By § 52 a receiver may be appointed in such cases "to do all other acts which might be done by such corporation, if in being, which may be necessary for the final settlement of its unfinished business. The powers of such receivers and the existence of the corporation may be continued as long as the court finds necessary for said purposes." By § 56 provision is made for the revival of such corporations in specified circumstances.

From its examination of these provisions the court said it was clear that the dissolution of the corporation was conditional. Its corporate existence was not immediately extinguished but protracted for three years after the operative date of the special act dissolving it, with particular reference to the prosecution and defence of suits by or against it and the settlement of its affairs. The only positive prohibition is that the business for which it was incorporated shall not be continued. In the opinion of the court, it is a necessary conclusion from the statutory words

that something in the nature of a corporation must endure and remain in being to enable it to sue and be sued. Action and suit import by their very terms the existence of persons capable of being, and actually made, parties thereto. A non-existent corporation can hardly be a party to a suit or to an action.

Persistence of corporate entity is clear also from the provision as to the appointment of a receiver in appropriate instances and to empowering the court to continue the receivership and the "existence of the corporation" so long as may be necessary to accomplish the ends described in the statute. Moreover, the court said, an extinct corporation can hardly be revived as provided in § 56 which imports something of extended corporate being. In *Crease v. Babcock*, 23 Pick. 334, 346, it was said in discussing a similar statute that, although for some purposes the charter of the corporation had expired, it nevertheless was continued "for certain, definite, specific and limited purposes. This qualified prolongation of the existence of the corporate body, is in the nature of an administration of its estate . . . But it has a nominal existence for the purpose of closing its concerns in the most convenient manner. . . ."

One proper purpose and suitable method of closing the affairs of a corporation might be proceedings in bankruptcy. The word "suit" in § 51 must be interpreted in a broad sense in view of the purpose intended to be accomplished by the statute. As was said in *Worcester Color Co. v. Henry Wood's Sons Co.*, 209 Mass. 105, 110, with reference to another provision touching corporations, "Suit is used in this statute as a comprehensive word. 'To apply to any proceeding . . . by which an individual pursues that remedy in a court of justice, which the law affords,' and includes an action at law." The court accordingly held that the word "suit" as used in § 51 embraces a voluntary petition in bankruptcy. A chief purpose of the bankruptcy act is to enable the affairs of a bankrupt to be settled and his property distributed among those entitled to receive it.

The jurisdiction of the court to appoint the plaintiff a trustee in bankruptcy of the corporation dissolved by special act of legislature and his consequent right to bring this suit were thus held to be established.

ST. MICHAEL'S UKRAINIAN GREEK CATHOLIC CHURCH OF WOONSOCKET, RHODE ISLAND vs. ST. MICHAEL'S UKRAINIAN ORTHODOX CHURCH OF WOONSOCKET, RHODE ISLAND.

Mass. Adv. Sh. (1934), 2075.

Worcester. September 24, 1934. — October 26, 1934.

*Corporation, Religious. Equity Pleading and Practice*, Master: exceptions to report.

Within a religious corporation organized under the laws of Rhode Island with the conceded purpose of becoming affiliated with the Greek Catholic Church, a Uniat Oriental denomination acknowledging the supremacy of the Holy See, while retaining its Oriental rites, a controversy arose over putting the business concerns of the church, including title to its real estate and the appointment and discharge of a pastor, in the charge of a board of five trustees elected from membership instead of voting in sympathy with an attempted passage of a bill in the Rhode Island Legislature for the incorporation of the bishop and the chancellor of the diocese to take title to real estate theretofore owned by Greek Catholic Churches in the United States, subject to the Holy See.

Upon the granting of an injunction restraining the bishop from interfering with the possession of the property of the plaintiff corporation in Rhode Island and with the right of that corporation to appoint a pastor, the opponents of the bishop took possession of all the property of the corporation, including a cemetery in Massachusetts, and thereafter the officiating priests were exclusively those of the Greek Orthodox Church, which does not acknowledge the supremacy of the Holy See. The adherents of the bishop went to another place for worship and did not take any further part in the affairs of the corporation nor did they make any use of the cemetery from that time.

About two years later at a duly advertised meeting of the corporation held by the opposing faction comprising a majority of the congregation, it was voted to obtain a charter for a new religious corporation to which in due course all the property of the plaintiff corporation was deeded. The present suit was brought in the name of the plaintiff corporation, the control of which had apparently reverted in some way

to the adherents of the bishop, to obtain a reconveyance of the cemetery in Massachusetts.

The bill was held to be rightly dismissed. The corporate organization of the plaintiff as a religious society impressed its property with a trust for religious purposes. But neither that organization nor the practice of years in following and teaching the doctrines of the Greek Catholic Church created any trust to continue to maintain those doctrines rather than the tenets of some other denomination. This was held to be the law of Rhode Island in a case involving the plaintiff corporation. It was not argued that the conveyance of the property to the defendant, another religious corporation, constituted a breach of trust apart from the change of doctrine which had taken place three years earlier. The meeting at which the conveyance was authorized was not shown to have been held without proper notice.

J. W. GRADY COMPANY *vs.* LEANDER F. HERRICK & OTHERS, EXECUTORS.  
Mass. Adv. Sheets (1934), 2161.

Worcester. September 24, 1934. — November 7, 1934.

*Landlord and Tenant*, Tenancy at will, Landlord's liability for negligence, Executory agreement. *Practice, Civil*, Auditor: report as evidence; Findings by Judge. *Corporation*, Officers and agents.

The president and treasurer of the plaintiff corporation, one Grady, agreed with the defendant that he would "close up on the same basis" as stated in a written lease between the defendant and another corporation in which Grady was interested. The plaintiff corporation occupied thereafter without written lease as tenant at will. The written lease with the other corporation had a clause absolving the defendant from damages due to bursting water pipes. The plaintiff thereafter brought suit for such damages. An auditor in the case had made a report of the facts in which he found that the terms and conditions of the written lease were accepted by the plaintiff. The trial judge nevertheless found for the plaintiff. The Supreme Judicial Court sustains exceptions to the finding of the trial judge. The agreement, if it existed, was not contrary to public policy and, even though parole may be binding in the case of a tenancy at will. The trial judge could draw inferences from the report of the auditor but all the evidence not being reported the judge was not warranted in setting aside the auditor's finding that such agreement existed. It is not necessary to pass upon the question as to whether Grady by virtue of his office alone had authority to bind the plaintiff corporation to the agreement.

STANDARD OIL COMPANY OF NEW YORK *vs.* Y-D SUPPLIES COMPANY & OTHERS.  
Mass. Adv. Sh. (1934), 2319.

Suffolk. November 14, 1934. — November 30, 1934.

*Corporations*, Officers and agents: false certificate of condition.

The plaintiff in this suit had brought an action at law against the defendant corporation to recover a debt owed him by the corporation and obtained a judgment by default. This bill is brought under the provisions of G. L. (Ter. Ed.) c. 156, § 38, to enforce the statutory liability of the four individual defendants for the same debt. These defendants were directors of the corporation when the debt was contracted, and had each signed one or more certificates of condition which they knew, or on reasonable examination could have known, to be false.

G. L. c. 156, § 36 provides in part for the personal liability of the president, treasurer and directors of a corporation for all debts of the corporation contracted while they are in office, if any statement or report required by this chapter is false in any material representation and which they knew to be false. The provisions of § 38 require that a suit to enforce such liability cannot be maintained unless before it is brought, a written demand by or on behalf of the creditor has been made upon such corporation for the payment of the claim and the corporation has for ten days thereafter neglected to pay it.

Under these provisions it was found that the defendant directors were liable for the debt, except for the ruling that the plaintiff had failed to establish a sufficient written demand upon the defendant corporation in accordance with the above provisions of G. L. c. 156, § 38. The bill against the individual defendants was therefore dismissed but "without prejudice to the right of the plaintiff to bring

another or similar bill if and when it shall have made such sufficient written demand within the requirements of G. L. c. 156, § 38." Both parties appealed from this decision, the plaintiff contending that he was entitled to relief against the individual defendants, and the latter contending that the dismissal of the bill as to them should have been absolute and unqualified.

The defendant directors urged that the original cause of action became merged in the judgment obtained by default and that the writ and declaration served upon the corporation in the action at law which the plaintiff brought against the corporation to recover the same debt upon which the present bill is founded, could not constitute a written demand for the payment of the judgment.

It was the opinion of the court that the writ and declaration in that action by which service was made on the defendant corporation much more than ten days before the filing of the present bill amounted to "a written demand by or on behalf of the creditor upon such corporation for the payment of his (its) claim," as required by G. L. c. 156, § 38. This requirement originated in St. 1911, c. 488, § 2. *E. S. Porks Shellac Co. v. Harris*, 237 Mass. 312. A more definite and insistent form of "written demand" could hardly be imagined.

The court said that it was true that it had gone far in denying the identity of, and even the connection between the original cause of action and the resulting judgment. Under the state insolvency law, differing in this respect from the Federal bankruptcy law, it was held that where a creditor reduced his claim to judgment after the first publication of the notice in insolvency proceedings, the judgment could not be proved, and consequently was not discharged, because the law provided that a debt, to be provable, must have been due at the time of such first publication.

On the other hand, the continuity of the claim before and after judgment has been recognized in cases fairly close to the case at bar. *Byers v. Franklin Coal Co.*, 106 Mass. 131, arose under a statute providing that corporate officers who neglect to file a certificate of condition shall be liable for all corporate debts "contracted during the continuance of such . . . neglect." The debt in that case was contracted during the period of neglect, but was reduced to judgment against the corporation afterwards. It was held that the judgment was the same debt, for the purposes of the statute, and that the officers were liable. It was there said by the court, "A judgment against the principal debtor merges the debt as to him, but it does not operate to defeat any collateral, concurrent remedy against other parties, which the creditor may have." In *Continental Corp. v. Gowdy*, 283 Mass. 204, 210, the statutory liability of directors was again described as "a secondary liability for the same obligation."

In the present case, although technically for many purposes the original cause of action became merged in the judgment obtained by default, the plaintiff's "claim," for the payment of which a written demand upon the corporation had to be made, remained substantially the same claim though reduced to judgment. It was therefore held that a written demand prior to the judgment was sufficient to hold the defendant directors, whether recovery be based upon the original claim or on the judgment.

The present bill and the findings as to liability ignored the judgment, and relied on the original cause of action. The original claim sued on was less, rather than more, than the amount of the judgment, and consequently the defendants were not harmed by the want of technical accuracy in the description of the claim. Of course the original cause of action and the judgment were within the same "cause" (G. L. [Ter. Ed.] c. 231, § 51), and an amendment to the bill could now be allowed, basing relief on the judgment. The court said this was unnecessary, however, as the defendants in no way objected to a suit on the original cause of action.

The plaintiff's debt was held to be established and the statutory liability of the individual defendants for it held enforceable.

LIMERICK MILLS *vs.* ROYAL TEXTILE COMPANY.

Mass. Adv. Sh. (1934), 2329.

Suffolk. November 7, 1934. — November 30, 1934.

*Corporation, Ultra vires. Contract, Validity.*

It was held to be *ultra vires* for a Massachusetts corporation whose purpose was

in general to buy, convert, manufacture and sell cotton and other textiles and to do and transact all acts of business and things incident to or convenient in carrying on the business, to give a guaranty of the payment of another's indebtedness.

The plaintiff had refused to sell any more goods on credit to a company of which the Massachusetts corporation was a customer without said corporation's guaranty. Although a written guaranty, executed by the president of the corporation, of the payment of the company's subsequent indebtedness was obtained, the plaintiff could not recover.

GUILFORD W. COLPITTS & ANOTHER *vs.* L. C. FISHER COMPANY & OTHERS.

Mass. Adv. Sh. (1935) 227

Suffolk. November 5, 1934. — January 10, 1935.

*Corporation, Liability of. Statute of Frauds.*

This was an appeal by the defendant company, B, from a final decree entered in a suit in equity in the Superior Court.

On March 21, 1932 the plaintiffs were employees of the defendant company, A, and held its notes for money lent to it. Its indebtedness upon notes was greater than its indebtedness for merchandise. On that day that corporation decided to make an assignment for the benefit of creditors, and its officers with a creditor named C decided to form a new corporation, B, to succeed the business. All the stockholders of the new corporation agreed orally with the plaintiffs on that day that if the plaintiffs would not enforce their claim against the old corporation, but would let its assets be used to satisfy merchandise creditors, the new corporation would continue to employ the plaintiffs and would pay the note given them by the old corporation. The Judge of the Superior Court found that this arrangement conferred a benefit on the new corporation. The assignee for the benefit of the creditors sold all the assets of the old corporation to C for \$3,000 which was used to pay dividends to the merchandise creditors and then C turned the tangible assets over to the new corporation for a consideration. The plaintiffs forebore to enforce their claims against the old corporation and continued in the employ of the new corporation until they were discharged, but their notes have never been paid.

This bill was brought to require the new corporation, B, to pay the notes. The final decree dismissed bills against the other defendants but established liability against the new corporation, B, which appealed.

The record shows that the first meeting of the new corporation was held on March 21, 1932, the date of the alleged agreement, but fails to show that on that day the articles of organization had been filed in the office of the "state secretary" so as to give the new corporation legal existence and capacity to contract. *G. L. (Ter. Ed.) c. 156, §§ 11, 12; Lennox v. Haskell*, 253 Mass. 334; *Falls Rubber Co. of Akron, Inc. v. Applebaum*, 286 Mass. 18. Assuming without deciding that a later adoption or re-making of the contract by the new corporation could be found (*North Anson Lumber Co. v. Smith*, 209 Mass. 333; *Washington & Devonshire Realty Co. Inc. v. Freedman*, 263 Mass. 554; *Shumaker v. Lucerne-in-Maine Community Association*, 275 Mass. 201, 204), the question remains whether recovery against the new corporation would not be precluded by the statute of frauds.

The question is, whether the case falls within the class of cases in which the essence of the transaction is a purchase of property or rights, or the obtaining of some other benefit, by the promisor from the promisee, and the payment of the continuing debt of a third person in accordance with a promise is merely incidental and not the real object of the transaction.

Obviously, the mere existence of consideration for the oral promise does not bring the case within this class. Consideration is required by general principles of contract, and the statute of frauds would add nothing to the law if the statute should be satisfied as soon as consideration is shown. *Nelson v. Boynton*, 3 Metcalf 396, 399, 400; *Crowley v. Whittemore*, 255 Mass. 99, 103. Even consideration which is not only a detriment to the promisee but also a benefit to the promisor, is not enough to take the case out of the statute. *Curtis v. Brown*, 5 Cush. 488, 492; *Furbish v. Goodnow*, 98 Mass. 296; *Ames v. Foster*, 106 Mass. 400; *Richardson v. Robbins*, 124 Mass. 105.

The rule established in the class of cases under discussion has often been stated as limited to cases in which the transaction "is in the nature of a purchase of property or of a property right." *Carlton v. Floyd, Rounds & Co.*, 192 Mass. 204, 206.

In the present case, the continuance of the plaintiffs in the employ of the new corporation was not part of the consideration for its promise, but rather a benefit to the plaintiffs in addition to the promise. The plaintiffs never became parties to, or entitled to benefits under, the assignment for the benefit of creditors, so far as appears. They held no lien, and surrendered nothing to the new corporation. The direct beneficiaries of their forbearance were the old corporation and its creditors. Only indirectly was the new corporation aided. Under these circumstances the case does not fall under the rule. The promise is unenforceable under the statute of frauds. *Carlton v. Floyd, Rounds & Co.*, 192 Mass. 204, 206; *George Lawley & Son Corp. v. Buff*, 230 Mass. 21; *Harburg India Rubber Comb Co. v. Martin*, (1902) 1 K. B. 778; *Davys v. Buswell*, (1913) 2 K. B. 47. Final decree reversed. Bill dismissed with costs.

WARNER D. ORVIS & OTHERS *vs.* PATRICK T. JACKSON & OTHERS.

Mass. Adv. Sh. (1935), 337.

Suffolk. February 7, 1934. — January 31, 1935.

*Corporation, Certificate of Condition.*

This suit in equity brought under the provisions of G. L. c. 156, §§ 36, 38 by creditors of P. T. Jackson Company (a Massachusetts corporation that was adjudicated a bankrupt on August 19, 1930) is to enforce the individual liability of certain of its directors who signed a certificate of condition, alleged by the plaintiffs to be false in a material representation, and which the defendants knew, or upon reasonable examination could have known, to be false. In October, 1929, the individual defendants signed and swore to a certificate of condition and caused said certificate to be filed in the office of the secretary of the commonwealth on January 13, 1930, G. L. c. 156, § 47. The certificate contained the statement that the P. T. Jackson Company on July 31, 1929 had certain assets scheduled as "Cotton held for Mills" in the amount of \$991,385.56. The whole or at least a substantial part of the item was on July 31, 1929 pledged with various banking institutions. The certificate of condition made no reference to the pledges. The certificate did however include as indebtedness of the corporation the liability to the banks on account of which the cotton was pledged. The latest item in the statement of the plaintiff's account against P. T. Jackson Company is dated July 23, 1930. It is particularly to be noted that St. 1931, c. 313 had not been enacted until May 13, 1931. The writ was dated October 19, 1931 and entered in Court on November 6, 1931. The Court held that the rights of the plaintiff were to be governed by G. L. c. 156, § 36. The Court further held that the statement of condition was not false in not listing pledges as "Mortgages" or "Funded indebtedness" or "Floating indebtedness". A pledge is not a mortgage nor is it "Funded indebtedness". The omission to mention pledges was not a representation that there were not pledges. The omission to state in the assets column of the certificate of condition that "Cotton held for Mills" was implicated was not in itself a false statement in the material representation, upon which the plaintiffs rely.

(See change in the law effected by St. 1931, c. 313.)

FREDERICK I. CURTIS, EXECUTOR, *vs.* SWAN ISLAND CLUB, INC.

Mass. Adv. Sh. (1935), 409.

Suffolk. February 7, 1934. — February 6, 1935.

*Corporation, Transfer of shares, By-laws, Social club.*

The by-laws of a shooting club organized in 1921 under G. L. c. 180, provided as follows: "whenever any shareholder desires to sell his share or shares he shall sell the same to the corporation and the corporation shall be obliged to purchase the same within one year. The price payable for each share shall be the price fixed by the shareholders either at a meeting by vote of a majority of all the shareholders or by a written instrument signed by such majority, and such price shall remain in effect until a new price shall be fixed in the same manner. Upon the decease of any shareholder the corporation shall be obliged to purchase his share or shares

within one year after his death at the price fixed as provided above." Provision was made for the deduction from the price so fixed as payable either to a shareholder or to the representative of a deceased shareholder of whatever amount on account of debts, obligations and expenses of the corporation which were deemed to be just by the directors.

At the first meeting of the stockholders in 1922 it was voted to fix the price per share at \$6,000 and thereafter the corporation bought and sold shares at that price until April, 1929, when at a shareholders' meeting the value to be placed upon the shares under the by-laws was fixed at \$7,500. One of the shareholders died in 1931 and the corporation at a stockholders' meeting in 1932 fixed the price of the decedent's share at \$3,200, which sum, with an agreed deduction the corporation offered and stood ready to pay. The question for decision is whether under the by-laws as above set forth the corporation was obligated to pay for the share of a deceased member on the basis of the current "fixed" price obtaining at the date of death, or whether the shareholders, after the death of a member, might fix a new price which should govern the amount to be paid for his share.

It was held that the executors of the deceased member were entitled to \$7,500, less the agreed deduction, which was the price per share in effect at the time of his death. The by-law plainly stated that the price fixed should remain in effect until a new price should be fixed in the same manner. It was further specifically provided that upon the death of any shareholder or upon the sale of his share to the corporation his certificate was to become void. The court said that nothing in the by-laws warranted an interpretation which would permit the corporation to fix a new price after the death of a shareholder. Assuming, without admitting, that there was any doubt as to how the by-law should be interpreted, weight was entitled to be accorded to its interpretation by the corporation itself in fixing the price per share at \$6,000, at the first meeting of the corporation when no purchase or sale was in contemplation. Such interpretation was in agreement with the executor's contention and with the ruling of the lower court which was affirmed.

68 BEACON STREET, INC. *vs.* WILLIAM D. SOHIER.

Mass. Adv. Sh. (1935), 417.

Suffolk. October 5, 1934. — February 7, 1935.

*Landlord and Tenant*, Assignment of Lease, Construction of Lease, Termination of Lease. *Contract*, What constitutes, Covenant by Assignee of Lease, Covenant Running With the Land. *Corporation*, Transfer of Shares. *Restraint on Alienation*.

The plaintiff is a corporation duly organized under the laws of Massachusetts. It owns a building operated as a co-operative apartment house. The stockholders had a right to occupy apartments. The defendant became the owner of one hundred and fifty-two shares of the stock of the corporation and the assignee of a ninety-nine year lease of a certain apartment in the building. As assignee of the lease the defendant assumed certain obligations to pay rent and perform covenants and agreements in the lease. It was provided in the lease in the ninth paragraph as follows: "That the within lease shall cease, determine and become null and void upon the happening of either or all of the following contingencies: (a) In case at any time during the term of this lease the lessee shall attempt to sell, pledge or dispose of said shares of capital stock or any part thereof or this lease otherwise than in accordance with the provisions of the agreement of association, which said provision is stamped upon the certificate of said stock and is hereby made a part of this lease and reads as follows: This stock is continuously pledged to the company for the payment of any obligation to the company of the holder of said stock or of any occupant or lessee under said stockholder's proprietary lease and will not be transferred except upon such payment. No sale or transfer, or pledge, of said stock and no assignment of said proprietary lease shall be made without the written consent of the board of directors of the company" except as provided in case of the death of a stockholder and lessee. In the event of the death of the lessee, his lease and the stock connected therewith were to pass to the person designated in writing by him or his representative subject to the power of the corporation by its board of directors to purchase the stock and the lease at a valuation to be determined by arbitrators. The transfer of the stock was subject to the same restrictions as the

transfer of the lease, and there could be no transfer of the stock except in conjunction with the proprietary lease in the manner thereinbefore provided; and (b) "In case at any time hereafter the lessor shall determine, with the written consent of the holders of eighty-seven and one-half . . . per cent, in amount of its outstanding capital stock, to sell the property of the lessor in which the apartment hereby leased shall be, then and in such event this lease and all right and estate of the lessee thereunder shall at the option of the lessor terminate after the receipt of thirty . . . days' notice of the lessor's determination aforesaid to sell and of the aforesaid consent of eighty-seven and one-half . . . per cent, of the stockholders thereto, and upon or prior to the expiration of thirty . . . days after receipt of such notice the lessee shall quit and surrender up possession of said premises and this lease shall thereupon cease and determine." The defendant assigned his lease and share of stock to one deemed financially irresponsible.

The defendant's first contention is that as assignee of the lease he could terminate his liability on the covenant by an assignment. The Court held however that under the covenants of the lease the defendant could not escape liability by an assignment of his estate. The defendant's contractual liability on the covenant remains no matter how valid the transfer of his interest may be in the demised premises. *Taylor v. Kennedy*, 228 Mass. 390, 392; *Carlton Chambers Co. v. Trask*, 261 Mass. 264, 267; *Talbot v. Rednalloh Co.*, 283 Mass. 225, 235.

The defendant further contends that the lease was terminated as a result of his assignment by virtue of the ninth clause in the lease which provides that the lease "shall cease, determine and become null and void," upon the happening of either of two contingencies, one of which is the attempt by the lessee to sell, pledge or dispose of the lease, or his shares of stock. The Court however states that this provision is for the benefit of the lessor and it is wholly at the election of the lessor to avail itself of the breach as a cause of forfeiture or not. *Bartlett v. Greenleaf*, 11 Gray 98; *Saxeney v. Panis*, 239 Mass. 207, 210. It was further contended by the defendant that the provisions in the lease restricting assignment violate the law against restraint on alienation and are a bar to recovery in this action but the Court held this contention also was without merit and that the restrictions are valid and binding upon the defendant.

Restrictions on the transfer of stock by corporations were recognized and authorized by St. 1903, c. 437, § 8 (e), which provided that ". . . the number of shares into which the capital stock is to be divided, and the restrictions, if any, imposed upon their transfer . . ." This statute is now embodied in G. L. (Ter. Ed.) c. 156, § 6 (f). In *Longyear v. Hardman*, 219 Mass. 405, 408, it was said with reference to this statute, "In general . . . restrictions upon such transfer cannot be regarded as contrary to public policy, but must be treated as within the contemplation of the legislature . . . No such restrictions can be declared to be unlawful under these circumstances unless palpably unreasonable." Although a restraint on alienation of the stock and a ninety-nine year lease are imposed yet such restraint is specifically limited in the case of any owner of the stock and holder of the lease to the life of said owner and holder.

It was accordingly held that the defendant was not released from his contract by an assignment of the lease or of the stock.

JAMES F. MONAGHAN INC. vs. M. LOWENSTEIN & SONS INC.

Mass. Adv. Sh. (1935), 983.

Bristol. December 13, 1934. — March 30, 1935.

*Corporation, Officers and agents. Agency, Scope of authority, Ratification. Estoppel. Contract, What constitutes, Implied.*

An action of contract to recover for the professional services of an engineering corporation in planning a finishing plant for a corporation engaged in buying and selling cotton goods resulted from a dispute over whether the oral arrangement made by its vice-president for rough plans for such a plant, showing without drawings, the estimated floor space needed and the probable cost, called for the payment for such preliminary work in any event, or only in case it should be accepted and used.

The burden of proof was upon the plaintiff engineering corporation to show, not only that the contract alleged was within the corporate powers of the defendant

corporation, but also that it was either made or ratified by an officer or officers having authority to bind the corporation. *Cashin v. Corporation Finance Co.*, 251 Mass. 60.

Where the defendant corporation owned no finishing plant, but let out its finishing to others, the planning of a new finishing plant to cost several million dollars, was held to be no part of its regular business. And merely holding the position of vice-president gave the officer, who arranged for the plans to be made, no apparent authority to contract for plans for such a new and large venture. There was no evidence that he had any actual authority.

The court rejected the contention that the letters sent by the plaintiff engineering corporation to the defendant in which the plans and computation were discussed warranted the inference that officers of the defendant corporation having power to employ the plaintiff, such as the directors, knew that the engineering corporation was doing the work in reliance upon the credit of the defendant corporation, and by silence ratified the employment of the engineering corporation by its vice-president. Even if the correspondence, all but one letter of which was directed to the personal attention of the vice-president, had been seen by the responsible officers of the defendant, the plaintiff's plans and computations had already been completed and sent to the vice-president, and subsequent silence of the defendant corporation could not create an estoppel in favor of the plaintiff.

The return of a bill for the plaintiff's services by a secretary with a letter stating that a reading of the correspondence showed that there was to be no charge, nor a subsequent letter of the vice-president to the plaintiff's counsel stating that the corporation was not indebted to the engineering firm contains nothing in the nature of ratification even if the vice-president had authority to ratify his own acts. If the vice-president had merely solicited gratuitous information, as he maintained, the defendant corporation was not concerned, and there was nothing to ratify or repudiate. Ratification imports a full knowledge of all the essential facts.

Nor could the plaintiff recover on the ground that its work was used in the later construction of a finishing plant because, if it could be found that the defendant corporation was interested in that plant, there was no evidence to show that the engineering corporation's work was used, or could have been used, in its construction.

EDWIN J. SCRIGGINS *vs.* THOMAS DALBY COMPANY.

SAME *vs.* SAME.

THE UNION MARKET NATIONAL BANK OF WATERTOWN *vs.* EDWIN J. SCRIGGINS & OTHERS.

Mass. Adv. Sheets (1935), 1095.

Middlesex. March 13, 1933. — April 29, 1935.

*Corporation, Purchase by corporation of its own stock. Bills and Notes, Validity.*

On March 21, 1928 a Massachusetts corporation entered into an agreement with S. to buy 240 shares of its own stock for \$25,000. The shares were held in escrow by a bank and released from time to time as the corporation made payments. On February 15, 1930 the corporation gave a note to S. for \$4,000 for one year and February 16, 1931 a renewal note for six months. On the last mentioned day it also gave another note for \$4,000. These notes were given pursuant to fulfillment of the contract. They were unpaid and actions at law were brought thereon by the holder thereof. When the contract was made the corporation was solvent and could have liquidated the amount for twice the amount due creditors. From that time on its financial condition grew rather steadily worse, but the corporation was still solvent up to the time the suits were brought. At the time of trial it was doubtful if creditors could have been paid in full. The bank loaned the corporation money after the contract was made and the officers of the bank knew of the contract. It brought a bill in equity to enjoin enforcement of the contract and the actions at law. The court held that the bill was properly dismissed.

It is settled in this Commonwealth that a corporation though not expressly authorized if not forbidden by statute may purchase shares of its own stock and that an agreement to do this is enforceable subject at least to the limitations that the purchase must be made in good faith and without prejudice to creditors and stockholders. *Dustin v. Randall Faichney Corp.*, 263 Mass. 99, 102. *Barrett v.*

*W. A. Webster Lumber Co.*, 275 Mass. 302, 307-309 and cases cited. *Crimmins & Peirce Co. v. Kidder Peabody Acceptance Corp.*, 282 Mass. 367, 376. No decision by the Massachusetts Supreme Court has added the further limitation, independent of these limitations, that such a purchase can be made legally only out of surplus. A contract of a corporation to purchase its own stock, when surplus profits are not available for the purpose, unless prohibited by statute, is not *ultra vires*, or on any other principal inherently unenforceable, though it may be rendered unenforceable by special circumstances.

The contract for the purchase by the corporation of its own stock was not prohibited by any statute unless such purchase was a reduction of the capital stock of the corporation in violation of the statutory provisions regulating such reductions. G. L. (Ter. Ed.) c. 156, §§ 41, 45. Ordinarily a purchase by a corporation of its own stock is not a reduction of its capital stock when the stock purchased is "kept in existence ready to be sold and transferred to another party". *Leonard v. Draper*, 187 Mass. 536, 537-538. *Dustin v. Randall Faichney Corp.*, 263 Mass. 99, 103. See also *Commonwealth v. Boston & Albany Railroad*, 142 Mass. 146, 155. Furthermore, such a purchase, in other respects proper, is not a reduction of capital stock because not made out of surplus. *Barrett v. W. A. Webster Lumber Co.*, 275 Mass. 302, 308. The report of material facts shows no special circumstance, existing before the trial of the actions at law, which rendered the contract for the purchase by the corporation of its own stock unenforceable. On the contrary, there were findings that the contract was made in good faith, and that, prior to the trial of the actions at law, the transaction was not prejudicial to creditors.

The court holds that the contention cannot be sustained by the plaintiff that, if it cannot maintain its suit on the ground above stated, it can maintain the suit on the ground that at the time of the trial the corporation was insolvent. Even if it is assumed in favor of the plaintiff as the court does not decide that it was an implied term of the original contract that it would not be carried out if at the time or times fixed for performance the corporation was insolvent or performance of the contract would render it insolvent (see *Crimmins & Peirce Co v. Kidder Peabody Acceptance Corp.*, 282 Mass. 367, 376) such implied limitation is not applicable to the notes here sued on. The obligations of the corporation thereon had matured while the corporation was solvent and were not contingent upon any further act of the plaintiff in the actions at law. The corporation continued to be solvent until the actions at law were commenced. Changes thereafter in the financial condition of the corporation did not affect the enforceability as matter of law of the matured obligations upon which these actions were brought. *Barrett v. W. A. Webster Lumber Co.*, 275 Mass. 302, 308.

There was no error in the refusal of the judge in each action at law to rule that on all the evidence the finding should be for the defendant. It is not argued that the findings were not warranted that the defendant corporation at all these times was solvent, in the ordinary sense of the term, which does not take into account the liability of the corporation to its stockholders.

For the reasons stated in connection with the suit in equity the special findings warranted findings for the plaintiff in the actions at law. Proof that at the time the contract for the purchase by the corporation of its own stock was made, or at any later time, the stock could be paid for out of surplus was not an essential element of the plaintiff's case, nor was proof that the corporation was solvent at the time of the trial.

RAPHAEL SAGALYN & OTHERS vs. MEEKINS, PACKARD AND WHEAT, INC. & OTHERS.  
Mass. Adv. Sh. (1935), 1265.

Hampden. September 18, 1934. — May 2, 1935.

*Corporation, Officers and Agents, Salaries, Voting Trust. Equity Jurisdiction, Minority Stockholder's Bill.*

This is a suit by stockholders against a Massachusetts corporation and its directors. The object of the suit is to recover for the benefit of the corporation (1) the portion of salaries paid to three of the defendants as managing officers of the corporation in excess of the fair value of their services, and (2) certain moneys of the corporation paid for establishing a voting trust of its preferred stockholders designed to perpetuate control of its affairs by certain of the individual defendants.

Three of the directors were also officers. At a directors' meeting at which six were present, including the three officers, it was voted to add \$5,000 to the salary of each officer. No officer voted as to his own salary but on each vote it was necessary that at least one officer vote for the salary increase of one of the others. The aggregate increase of the three officers was the equivalent of the former salary of a deceased officer whose position had not been filled and whose duties were but in part assumed by the remaining officers. It was found that the salaries as increased exceeded the fair value of the services rendered. It was also found that the directors acted honestly, in good faith and without conscious fraudulent purpose.

The individual defendants were directors and were acting in a fiduciary capacity. They were required to exercise their authority in the utmost good faith. They may not be held responsible for mere errors of judgment or want of prudence in the performance of their duties; they are bound to act with reasonable intelligence. The management of the corporation is vested commonly in the board of directors. Their action taken in good faith even though wanting in sound judgment, does not involve them in personal liability. *Lyman v. Bonney*, 118 Mass. 222; *Hill v. Murphy*, 212 Mass. 1, 3; *Abbot v. Waltham Watch Co.*, 260 Mass. 81, 93 and cases cited. The Court does not undertake to substitute its business view for that of those vested with the control of corporate affairs. Where personal advantage is involved, as in the fixing of salaries to be received by directors, there is a fiduciary element in issue which may be open to inquiry in a court of equity. *Fillebrown v. Hayward*, 190 Mass. 472, 478; *Atherton v. Emerson*, 199 Mass. 199, 218; *Meyer v. Fort Hill Engraving Co.*, 249 Mass. 302, 305-306; *Albert E. Touchet, Inc., v. Touchet*, 264 Mass. 499, 507; *Cook v. Cook*, 270 Mass. 534, 541; *Geddes v. Anaconda Mining Co.* 254 U. S. 590, 599. Unjust enrichment of one occupying a trust relationship at the expense of his fiduciary is scrutinized carefully in a court of equity. *Brown v. Little, Brown & Co. Inc.*, 269 Mass. 102, 117 and cases cited. *Calkins v. Wire Hardware Co.*, 267 Mass. 52, 67; *Hathaway v. Huntley*, 284 Mass. 587. See *McKay v. Swenson*, 232 Mich. 505, 513. Although the Court says that the case at bar is close to the line on this point it nevertheless decides that the defendant officers must each refund to the corporation the excess of salary above the fair value of his services.

In the same case facts also show that the defendants determined to form a voting trust of the preferred stock. An agreement for the purpose was drafted. Its design was to insure the continuance of their management. It was the honest belief of all the directors that the management was good and that to make a change would be disastrous to the corporation. Without express vote the expenses involved in setting up this trust were paid by the corporation. The Court holds that the use of corporate funds for setting up a voting trust cannot be regarded as a corporate purpose and that the payment of the expenses thereby incurred by the corporation was *ultra vires*.

JOHN T. McGRATH & ANOTHER, SPECIAL ADMINISTRATORS, vs. C. T. SHERER  
COMPANY & OTHERS.

Mass. Adv. Sh. (1935), 1343.

Worcester. September 25, 1934. — May 14, 1935.

*Equity Jurisdiction, Rescission, Laches. Contract, Validity. Fraud. Equity Pleading and Practice, Bill, Findings by judge, Abatement. Executor and Administrator, Special administrator. Survival of Action or Suit.*

The defendant corporation organized under the laws of Massachusetts conducted a large department store. S & E controlled a majority of its stock. They desired to sell out their interest but were unable to effect a sale because of a large item of indebtedness. As a result of false and fraudulent representations made by S with the knowledge and connivance of E, the plaintiff was induced to invest \$250,000 in stock of the defendant corporation, the proceeds to be used to reduce the indebtedness of the corporation with a view to its sale and a quick profit. The plaintiff was made a director of the reorganized corporation. The trial judge found that the plaintiff never ratified the fraud practiced on him and was entitled to a decree of rescission. The Supreme Court reviews certain findings of the trial judge under the established principle that such findings shall not be reversed unless plainly wrong. *Moss v. Old Colony Trust Co.*, 246 Mass. 139, 144. *Berman v. Coakley*, 257 Mass.

159, 162. *Albert Richards Co. Inc., v. Mayfair, Inc.*, Mass. Adv. Sh. (1934) 1473, 1476. It sustains numerous findings of the trial judge without further reference to decided cases. It then takes up the question as to whether a decree awarding rescission on the findings was proper. It is elementary that a plaintiff reasonably may rescind a contract which he has been induced to enter into in reliance upon false and fraudulent representations as to material facts. *Stewart v. Joyce*, 201 Mass. 301, 310. *Ginn v. Almy*, 212 Mass. 486, 492, 493. *Bates v. Cashman*, 230 Mass. 167. It is not necessary that the false representations should have been the sole or even predominant motive actuating the plaintiff in entering into the contract. It is sufficient if they had a material influence upon him although combined with other motives. *Windram v. French*, 151 Mass. 547, 553. *Light v. Jacobs*, 183 Mass. 206, 210. *Baskes v. Cushing*, 270 Mass. 230, 233. The representations made to the plaintiff in the present case were assertions of material facts, not expressions of opinion or mere seller's or promoter's talk. *Ginn v. Almy*, 212 Mass. 486, 503. *Noyes v. Meharry*, 213 Mass. 598. *Lufkin v. Cutting*, 225 Mass. 599, 604. Compare *Everett v. Foster*, 223 Mass. 553, 554, 555.

It is contended by the defendants that the plaintiff did not fully and completely rescind, but continued to receive benefits from the transaction in that he continued to act as a director receiving a fee therefor, even after the bill was brought. The finding of the trial judge that the office of director which the plaintiff held between the date of his election to rescind and March 17, 1932, was a mere empty title to a useless office, that neither the title nor the office was of any benefit either to the plaintiff or to the defendants, in view of the interrelationship of the other four directors, and the control of the business exercised by them, was not unwarranted. This finding disposes of the contention of the defendants. See *O'Shea v. Vaughn*, 201 Mass. 412, 420, 421.

The defendants further contend that while the plaintiff sought to return the stock and the dividends to the corporation, as well as the emoluments received as a director, he has not offered to provide for the repayment of the \$80,000 invested by the defendants S and E nor has he provided for the restoration to them of their original position as stockholders. It is also contended that to place the defendant corporation in statu quo the reorganized company would have to be reorganized again. These contentions are disposed of by what was said in *O'Shea v. Vaughn*, 201 Mass. 412, 423 before quoted.

The defendants contended that the plaintiff has been guilty of laches. There is no hard and fast rule as to what constitutes laches. It is generally a question of fact with the burden of proof resting upon the defendant. *Alvord v. Bicknell*, 280 Mass. 567, 571. Compare *Tetrault v. Fournier*, 187 Mass. 58, 61. There is no evidence that the plaintiff had knowledge of the fraud practiced upon him until the results of the audit were made known to him. The audit was commenced April 26, 1931, and a report was made to the plaintiff on or about June 30, 1931. This suit was begun on November 12, 1931. There is nothing to indicate that the plaintiff was negligent in failing earlier to ascertain the existence of the fraud which was perpetrated upon him. The finding of the trial judge that the plaintiff was not guilty of laches was warranted. *Stewart v. Finkelstone*, 206 Mass. 28, 36. *Lufkin v. Cutting*, 225 Mass. 599, 607, 608. *Loomis v. Pease*, 234 Mass. 101, 105.

It was further held that the special administrators were properly allowed to appear and prosecute after the death of the plaintiff although not specially authorized by the Probate Court to prosecute the suit.

The court stated that it was not necessary to decide whether an action for damages or for rescission survived where a purchase of stock has been induced by false representations. As the present case has proceeded to a trial before a judge of the Superior Court resulting in findings of fact and a final decree the suit against the defendants does not abate. *Stickney v. Davis*, 17 Pick. 169. *Wilkins v. Wainwright*, 173 Mass. 212, 214. *Perkins v. Perkins*, 225 Mass. 392, 396. *Fenelon v. Fenelon*, 244 Mass. 14, 16, 17. *DeMarco v. Pease*, 253 Mass. 499, 505.

### Decision Affecting Credit Unions.

ANNA W. GILBERT *vs.* BEACON HILL CREDIT UNION.

MAURICE A. GILBERT *vs.* SAME.

Mass. Adv. Sh. (1934), 1675.

287 Mass. 433.

Suffolk. March 10, 11, 1933. — September 13, 1934.

*Credit Union. Practice, Civil, Findings by judge, Report.*

Two shareholders of a credit union gave notice of their intention to withdraw the sums of money which they had paid to the union for their shares and, after receiving a portion in instalments, brought actions at law to recover the balance.

The two questions of law involved were (1) whether under G. L. (Ter. Ed.) c. 171, there was an intention to put upon shareholders, who, in the exercise of the right expressed in the by-law of the defendant credit union, gave proper notice to withdraw their funds and failing to be paid brought suit, the burden of proving the order in which requests for withdrawal by other shareholders had been made or the fact that funds had become available, and (2) whether a withdrawing member of a credit union can obtain an advantage or priority over his fellow members by instituting suit by attachment of the funds and proceeding with suit after liquidation had been voted by the members of the credit union.

The court said that a corporation organized as a credit union under G. L. (Ter. Ed.) c. 171, is formed "for the purpose of accumulating and investing the savings of its members" which may be received by the corporation either "in payment for shares or on deposit . . ." §§ 2, 6. In § 28, it is provided that "The amounts paid in on shares or deposited by members who have withdrawn or been expelled shall be paid to them, in the order of withdrawal or expulsion, but only as funds therefor become available," and in § 7, that each credit union may determine for itself the method by which a member shall exercise his right of withdrawal of moneys paid for shares but the statute makes it imperative that the by-laws of each union provide "The conditions on which shares may be . . . withdrawn."

The provision adopted by the defendant credit union in its by-laws dealing with the matter of withdrawal of money paid by its members for shares is that money paid in on shares may be withdrawn on any day when payments on shares may be made, but the directors of the credit union have the right to require a member at any time to give ninety days' notice of his intention to withdraw the whole or any part of the amount paid in by him on account of his shares. The court said that similar provisions in by-laws of corporations have been held to be valid agreements between the corporation and the shareholders under which a shareholder has the right to demand the return of money paid for shares and to maintain an action for it if payment is not made.

No distinction is made by the law between members voluntarily severing their connection with a credit union and those who may have been expelled, and none between the withdrawal of amounts paid by members for their shares and the withdrawal of amounts placed by them on deposit. As to amounts paid in for either purpose the corporation is an agency for managing the moneys of shareholders. Its general obligation is to pay them in full if the assets are sufficient. G. L. (Ter. Ed.) c. 171, § 28 deals not with the sufficiency of assets of the corporation to meet its various obligations but rather with the availability of funds, that is, of cash assets at any time when two or more shareholders have applied for the withdrawal of moneys which they have deposited or paid for shares. In such a situation, presumably frequent, the statute directs the applicants to be paid in the order of their application out of funds becoming available for that purpose. It is manifestly a provision dealing generally with the withdrawal of any moneys in the ordinary course of business of a credit union as a going concern. There is nothing in such a withdrawal from a solvent going credit union to threaten danger to creditors or inequality of treatment of those who continue to remain shareholders.

The promise of the defendant credit union expressed in its by-laws to pay withdrawing members the amount they had paid for their shares was absolute in form with the sole qualification that a notice of ninety days might be required. Where there was complete compliance with the by-laws and requirement of notice, it was held by the court that § 28 of the statute was not intended to limit the power elsewhere in the statute given to credit unions (§ 7) to provide the conditions under

which in the ordinary course of business withdrawals were to be made. The statute does require that the credit union make payments in the order of withdrawal and as funds become available, and if it were established that funds were not available, that fact would excuse payment for a time until there were available funds. The order of applications for withdrawal, and the availability of funds were matters peculiarly within the knowledge or means of knowledge of the defendant's officers. (See *Strauss v. United Telegram Co.* 164 Mass. 130, 133; Wigmore on Evidence, § 2486.) The burden of proof was rightly ruled to be on the defendant credit union.

(2) The plaintiffs accomplished a withdrawal from membership at the expiration of a period of ninety days following the giving of notice of their intention to withdraw. Since it was not proved that funds were not available to pay their claims, they became creditors of the defendant credit union. Nothing which happened after that time changed that status. A year later the liquidation of the corporation was undertaken by its members under G. L. (Ter. Ed.) c. 171, § 29, which prescribes that in order to liquidate a credit union there must be first a recommendation by a requisite number of the board of directors. It was found that there was such a vote by the stockholders, but that there had not been a recommendation by the requisite number of directors. The plaintiffs as creditors of the union in a liquidation under the statute would be entitled to priority over the shareholders. Where there was no finding that the assets were not sufficient to pay all deposits and debts and the obligation to the shareholders of the corporation as well, the institution of the plaintiffs' suits by attaching funds was held to accomplish no other or greater priority over shareholders than the plaintiffs would have in a liquidation under the statute as creditors.

### Decisions Affecting the Income Tax.

CHARLES Q. TIRRELL *vs.* COMMISSIONER OF CORPORATIONS AND TAXATION.  
Mass. Adv. Sh. (1934), 1689.  
287 Mass. 464.

Norfolk. November 18, 1932. — September 13, 1934.

*Tax, on Income, On annuity. Trust, what constitutes. Annuity.*

Under the will of a sister who was a resident of another state, a Massachusetts inhabitant received regular monthly payments, to insure which a trust company, the executor and trustee of the estate domiciled in the state of the decedent, had been directed to set aside a sufficient fund, with further provision that no money bequests thereafter stated should interfere with such payments. Income thus received was reported and taxed under the heading of taxable annuities at the rate of one and one-half per cent. An additional tax was assessed by the commissioner of corporations and taxation on the ground that the income so reported was properly taxable at six per cent as interest and dividends under G. L. (Ter. Ed.) c. 62, § 5 (a) and § 11. These sections provide that the income of property held in trust shall not be exempted from taxation under G. L. (Ter. Ed.) c. 62, § 1 nor shall payments to beneficiaries be taxed as income from an annuity under said § 5 (a) because of the fact that the whole or any part of the payments to the beneficiaries is in the form of an annuity, and that any inhabitant of the commonwealth who receives income from one or more trustees or other fiduciaries who are not subject to the income tax under G. L. (Ter. Ed.) c. 62, shall be subject to the taxes imposed by this chapter upon such income according to the nature of the income received by such trustees or other fiduciaries.

Under these provisions, where, as in this case, a trust fund was set aside by the terms of the will for the specific purpose of providing for the payment of an annuity out of the income thereof, such payments, even if they could properly be described as "income from an annuity" because they were fixed periodical payments, were held by the court to be "income of property held in trust" and therefore not taxable as "income from an annuity". In the case of a trust under a will of an inhabitant of Massachusetts all income thereof, of a taxable nature, after the statutory deductions are made, is taxed, to the extent that such income is payable to inhabitants of this state, irrespective of the manner of the distribution thereof, and the tax is payable by the trustee. G. L. (Ter. Ed.) c. 62, §§ 10, 23. The same principle was held to be applicable under § 11 to "income [received by a Massachusetts inhabitant] from one or more trustees . . . not subject to taxation" in this state although

the tax is payable by the beneficiary. The court pointed out that in neither case is the fact that payments are "in the form of an annuity" material if they are in substance payments from "income of property held in trust" or its equivalent, "income from one or more trustees."

By directing the executor and trustee to set aside a fund sufficient to insure payments the will created a trust of such fund. It has been held that it is a trust to provide for periodical payments or annuities. The trust of this fund differed from the trust of the residue of the estate in that the payments here in question had priority over money bequests. The court said it was no less a trust, however, because of this priority, nor because the duty of making the payments rested upon the trust company in its capacity as executor until it had qualified to perform such duty as trustee since duties ordinarily performed by a trustee are not uncommonly "superadded to the ordinary duties of the office of executor". Furthermore, proper administration of the estate required that the fund set aside be adequate to provide for the payments to the taxpayer out of income. Such fund, as well as the residue of the estate, constitutes "property held in trust".

A significant difference between a gift by will of an annuity and a gift by will of the income of a trust fund is that the former is a gift of fixed periodical amounts, while the latter fluctuates with the income of the trust fund. Another characteristic of an annuity is that, when unrestricted as to source, it is chargeable upon and payable out of capital if income is insufficient. But it has been held that "the very nature of an annuity suggests, when those charged with the payment of it have in their hands a fund producing income sufficient to pay it, that the payment should be made from the income, and not from the principal". Here the payments though fixed in amount are by the express provision of the will, to be made out of income and are limited by the amount of that income — the income referred to being the income of property held in trust.

The court said that the governing statute clearly contemplates that, for the purpose of the Massachusetts income tax, payments may be both out of "income of property held in trust" and also "in the form of an annuity", and that in such a case the tax is to be imposed as upon "income of property held in trust", and not as upon "income from an annuity". It therefore upheld the decision of the Board of Tax Appeals that the commissioner rightly assessed the amounts received by the taxpayer at six per cent under G. L. (Ter. Ed.) § 1 instead of at three per cent under G. L. (Ter. Ed.) c. 62, § 5 (a) as income from an annuity even though the payments were in that form.

The taxpayer contended that if the income received by him was not taxable as an annuity, there was no evidence that it was taxable on any other ground and consequently the original tax should be refunded and the additional tax abated. No evidence was introduced by him, however, to show that the income of the trust fund was not of such a nature that it was taxable at six per cent and the court sustained the ruling of the Board of Tax Appeals that the burden rested upon the taxpayer to show that the income was not of such a nature. A further contention, that the commissioner neither had, nor attempted to obtain, sufficient information in regard to the nature of the income of the trust fund to warrant the assessment of any tax on such payments if they were not taxable as "income from an annuity" was dismissed since it did not appear to have been brought before the Board and the court was prohibited by statute from considering any issue of law not appearing to have been raised in the proceedings before the Board. The court said that since the validity of the additional tax implied the validity of the original tax, it was unnecessary to consider whether any question in regard to the original tax was before it.

ARTHUR H. WELLMAN, EXECUTOR *vs.* COMMISSIONER OF CORPORATIONS AND TAXATION.

Mass. Adv. Sh. (1935), 123.

Suffolk. November 15, 1934. — January 7, 1935.

*Tax, On income, On gain in corporate merger.*

Under a contract of merger, a sale of all the net assets of a corporation (Vacuum Oil Company) was made in return for stock of the merged corporation (Socony Vacuum Corporation) issued directly to the stockholders of the selling corporation

(Vacuum Oil Company), with a provision for payment in cash to non-assenting stockholders. An additional income tax was assessed upon shares thus received by a Massachusetts decedent on the ground that they constituted a dividend in liquidation, taxable to the extent of the difference between the value of the new stock received and the par value of the surrendered stock.

The main question of the controversy arising from this assessment centered about the nature of the transaction. The executor of the estate contended that it was not a dividend in liquidation taxable at six per cent under G. L. (Ter. Ed.) c. 62, § 1 (b) but a sale or exchange of intangible personal property, the gain from which was taxable, if at all, under G. L. (Ter. Ed.) c. 62, § 5 (c), at three per cent, but that actually the transaction was exempt from taxation because it fell within the meaning of the latter part of that section, which prohibits the tax upon the excess of the gains over the losses from purchases or sales of intangible personal property from being assessed when, in corporate reorganizations, stock taken in exchange represents the same interest in the same assets.

In affirming the decision of the Board of Tax Appeals which had sustained the Commissioner of Corporations and Taxation in his ruling that the additional tax was properly assessed on the shares as a dividend, the court upheld the Commissioner's view that this case was indistinguishable from that of *Commissioner of Corporations and Taxation v. Hornblower*, 278 Mass. 557, which was decided on the theory that there was a sale between the two corporations and that the seller having disposed of all its assets, was, by distributing the consideration received, declaring a dividend in liquidation, although no such dividend was formally declared.

A point of difference was contended in that there the selling corporation went out of business while here there was a merger of two companies, each of which intended to remain in business. Although in this case the merged corporation was to transfer its stock directly to the stockholders of the selling corporation rather than to that corporation for its own distribution to its stockholders, the court found no distinction so material as to require a different result.

It was pointed out that the transfers of the stock of the merged corporation to the stockholders of the selling corporation were to be made under the contract "upon the order of" the selling corporation and were in fact issued through a depository employed by the selling corporation. Also, that the stock of the merged corporation was to be delivered only to assenting stockholders who surrendered their shares of the selling corporation. Under the provisions made for payment of the appraised value to non-assenting stockholders, some stockholders did not surrender their shares and accordingly no stock of the merged corporation was delivered to them. It is established that a distribution of stock to shareholders willing to receive it may be a dividend. It was further noted by the court that the stock of the selling corporation was to be surrendered to it for cancellation instead of being delivered to the merged corporation as was the case in the *Hornblower* decision.

Considering these points the court viewed the transaction not as an exchange between the stockholders of the selling corporation and of the merged corporation of shares in the respective corporations but as a sale by the one corporation of all its assets in consideration for stock of the merged corporation which was to be distributed to the stockholders of the selling corporation. In such circumstances, disregarding the form, the distribution to stockholders was held to be a dividend resulting from stock ownership and accordingly taxable under that section of the Massachusetts income tax law which taxes certain classes of interest and dividends at six per cent.

Since the transaction was held to be taxable as a dividend the provisions of G. L. (Ter. Ed.) c. 62, § 5 (c) taxing gains from the sale of intangible personal property have no application. But even if they were here applicable, the exemption from taxation claimed by the executor of the estate would not obtain since the shares of the merged corporation clearly represented an interest in assets entirely different from those represented by shares of the selling corporation.

In view of the *Hornblower* case and supporting decisions of the United States Supreme Court, no discussion of federal constitutionality was held to be required. The validity of the tax as violating the uniformity provision of the Constitution

of Massachusetts, not having been raised when the case was before the Board of Tax Appeals, could not be considered under the provisions of appeal from the Board's decision denying abatement.

### Decisions Affecting the Corporation Excise.

COMMISSIONER OF CORPORATIONS AND TAXATION *vs.* THE THAYER, BRADLEY COMPANY.

Mass. Adv. Sh. (1935), 1551.

Suffolk. December 7, 1934. — June 26, 1935.

*Board of Tax Appeals, Jurisdiction. Tax, Excise on corporation, Abatement. Trust, Resulting. Words, "Owned."*

Additional taxes for the years 1926 and 1927 were assessed upon a corporation by reason of the refusal of the Commissioner of Corporations and Taxation to allow as a deduction from the fair value of the capital stock, the value of certain real estate in Massachusetts, subject to local taxation, which stood in the name of straws but to which the corporate taxpayer asserted title. The commissioner denied the corporation's application for abatement of such additional taxes on the ground that the legal title to such real estate was not in the taxpayer [for the reason that the corporation had no deed to it, either recorded or unrecorded] and so was not "owned by it" within the meaning of those words in G. L. c. 63, § 30, cl. 3 as amended.

"Corporate excess" in the case of a domestic business corporation for the purpose of the assessment of the corporation excise is defined by that section as "the fair cash value of all the shares constituting the capital stock . . . less the value of . . . : (a) . . . real estate . . . owned by it within the commonwealth subject to local taxation . . ."

The additional taxes were paid and petition for their abatement seasonably filed in the Supreme Judicial Court under G. L. c. 63, § 77, as amended by St. 1922, c. 520, § 14, on the ground that they were illegal. By the assent of both parties under St. 1930, c. 416, § 33, the case was transferred to the Board of Tax Appeals which held that claims for taxes for two different years were properly joined in one petition where a single substantial question of law was raised, and that real estate found by the board (contrary to the finding of the commissioner) to have been deeded to the appellant was deductible in determining corporate excess even though the deed was unrecorded.

The commissioner's appeal from the decision of the Board of Tax Appeals granting an abatement of the additional taxes on the board's finding of fact that the land was owned by the taxpayer, and that, although standing in the name of straws, the taxpayer in each instance held an unrecorded deed, was based upon the contention that in a case so transferred to it, the Board of Tax Appeals could not so reverse the factual finding of the Commissioner in the one case and of the Board of Appeal, as formerly constituted, in the other.

Agreeing with the commissioner that the Board of Tax Appeals had no greater powers than those conferred on the court under G. L. c. 63, § 77, as amended, the court upheld the board's jurisdiction to make such decision for abatement which it affirmed, recognizing as the only issue the statutory construction of the proper deduction to be made in a case of wrongful assessment.

The contention was held to be without merit that the board was bound to dismiss the petition because the taxpayer had made applications for abatement to the commissioner under G. L. c. 63, § 51, as amended, which before the enactment of St. 1930, c. 416, governed appeal for relief from overvaluation of that which was rightly subject to excise, and also under c. 58, § 27, for the reason that this question was not understood to be set forth as a distinct ground and no new question which does not appear to have been raised in the proceedings before the board could now under G. L. (Ter. Ed.) c. 58A, § 13 be considered. Moreover, the court said, it was provided by G. L. c. 63, § 77, as amended, that a petition in conformity to its terms "shall be the exclusive remedy."

There was no misjoinder of actions in combining in a single petition under G. L. c. 63, § 77, as amended, recovery of taxes assessed for two separate years. The reference to the word "tax or excise" in the singular in that section, which provides

that proceedings under it "shall conform, as nearly as may be, to proceedings in equity", is not decisive because by G. L. c. 4, § 6, Fourth, in construing statutes, "Words importing the singular number may extend and be applied to several persons or things." It was held proper practice to join in a single proceeding two claims of the same nature on identical grounds between the same parties.

The court held on the facts as found by the board that the taxpayer had the equitable title to the real estate in question by virtue of a resulting trust, having paid the entire purchase price, and also that the corporation held the legal title through unrecorded deeds executed and delivered to it by the straws who appeared by the record to be the owners. The question as to whether an "equitable title" to real estate would alone (without the legal title) be sufficient to entitle a corporation to such deduction was not considered.

### Decision Affecting the Inheritance Tax.

CHARLES J. BROWN ET AL., ADMINISTRATORS *vs.* MARGARET McLoughlin & OTHERS  
Mass. Adv. Sh. (1934), 1195.

287 Mass. 15.

Suffolk. April 2, 1934. — June 5, 1934.

*Tax*, On succession. *Will*, Compromise. *Contract*, Implied.

The terms of a will gave the residue of the estate to one Gaffney who was not one of the heirs. Under an agreement of compromise a contest of the will was withdrawn and the will proved. The residue of the estate was to be divided equally between Gaffney and the heirs. The state tax upon the succession by will to the residue of the estate (see G. L. [Ter. Ed.] c. 65) was paid by the accountants administering the estate out of such residue before dividing it. Upon the allowance of the account, the heirs appealed, contending that the whole tax should be charged to Gaffney's share.

The court said that even when a compromise of a contest over the admission of a will to probate has been authorized by a court under the statute (G. L. [Ter. Ed.] c. 204, §§ 15-18), upon the probate of the will the title devolves by force of the will and then is transferred according to the agreement of compromise.

The tax was held properly levied upon the gift by will of the whole residue to Gaffney, and at a rate adapted to his relationship or want of relationship to the testatrix. Under G. L. (Ter. Ed.) c. 65, § 17, the accountants were to deduct the tax from the "property subject to the tax," or collect it from the "legatee or person entitled to said property," or, in the case of real estate, from the "heirs or devisees entitled thereto." In this case the accountants had no right to pay out of the share transferred to the heirs half of the tax which was thus made collectible from Gaffney, unless the agreement of compromise expressly or impliedly so provided, *Prescott v. St. Luke's Hospital of New Bedford*, 280 Mass. 229, 231.

The court held that it did so provide by implication. The agreement of compromise called for the deduction of every other charge and expense, including the expense of the contest of the will, before dividing the residue. Every party to the compromise waived "his or her rights with respect to said will and estate" except as provided in the agreement. Since the agreement alone was to be the chart for the division of the estate, the court said that it was hardly consistent with the agreement to say that the will should nevertheless determine the ultimate burden of the tax, although it had ceased to have effect upon the ultimate benefit of the inheritance. Briefly stated, the payment of the succession tax follows the agreement of compromise.

## DECISIONS OF THE BOARD OF TAX APPEALS.

BOARD OF TAX APPEALS  
General Laws (Ter. Ed.) Chapter 58A

| Chapter<br>58A | Date<br>of<br>Decision | Advance<br>Sheet<br>Page | Appellant<br>and<br>Appellee                                      | Decision<br>for |
|----------------|------------------------|--------------------------|---|-----------------|
| § 6            | 1934<br>November 20    | 149                      | Elias Hartstone, administrator, <i>vs.</i><br>Assessors of Boston | Appellee        |

The effect of St. 1933, c. 167, § 4, amending G. L. (Ter. Ed.) c. 58A, § 6, is that the failure of assessors to act on an application for the abatement of a tax within four months from the date of its filing is the equivalent of an actual denial of the application at the expiration of that period, at which time the statute of limitations (ninety days) starts running.

In this case the power of the assessors to act as a tribunal whose decision was subject to appeal was exhausted at the end of the four months, on April 28, 1934. Thereupon a right of appeal came into existence, but by the very words of the statute the time for exercising that right was limited to "any time within ninety days thereafter," that is, on or before July 27, 1934. A petition filed on September 13 was therefore held not seasonably filed, notwithstanding the fact that it was filed "within sixty days" after receiving notice of an abatement granted by the assessors after the expiration of the four months period on April 28. See G. L. (Ter. Ed.) c. 59, § 65, as amended by St. 1933, c. 167, § 1.

|                            |                  |   |  |   |
|----------------------------|------------------|---|--|---|
| C. 58A, § 6<br>C. 62, § 45 | 1935<br>March 22 | 5 | Henry Hornblower & others <i>vs.</i> Com-<br>missioner of Corporations and Tax-<br>ation | By agreement<br>of appellee,<br>decision<br>vacated April<br>9, 1935. (See<br>following.) |
|----------------------------|------------------|---|--|---|

An appeal to the Board of Tax Appeals, following an application to the commissioner for abatement of an income tax which the commissioner denied more than four months after the filing of the application, was taken more than ninety days after the expiration of the four months period but within thirty days after the mailing of notice of the decision. It was *held* that the appeal was not seasonably taken, following *Hartstone v. Assessors of Boston*, Mass. B. T. A. (1934), 149.

The Board has no jurisdiction of an appeal taken after the time limited for the appeal has expired, and the Board must take notice of this defect of its own motion.

|             |                 |   |  |   |
|-------------|-----------------|---|--|---|
| C. 58A, § 6 | 1935<br>April 9 | 9 | Henry Hornblower & others <i>vs.</i> Com-<br>missioner of Corporations and Tax-<br>ation | Appeal to<br>stand for<br>future dis-<br>position.<br>(Decision of<br>March 22,<br>1935,<br>vacated.) |
|-------------|-----------------|---|--|---|

The burden is on the appellant to show the existence of facts on which the jurisdiction of the Board depends.

The general rule that after final disposition of a case it cannot be reopened is not applicable where the decision is not on the merits.

A decision of the board dismissing an appeal for want of jurisdiction, where it appears from a fact subsequently shown that the board had jurisdiction, may be corrected by vacating the decision.

## DECISIONS OF THE BOARD OF TAX APPEALS — Continued

LOCAL TAX  
General Laws (Ter. Ed.) Chapter 59

| Chapter<br>59 | Date<br>of<br>Decision | Advance<br>Sheet<br>Page | Appellant<br>and<br>Appellee  | Decision<br>for |
|---------------|------------------------|--------------------------|---|-----------------|
| § 38          | 1934<br>December 26    | 183                      | Crocker-McElwain Company <i>vs.</i><br>Assessors of Holyoke; Chemical<br>Paper Manufacturing Company<br><i>vs.</i> Same | Appellants      |

Where real estate consists of land and buildings thereon it is their aggregate worth, limited by their value in use together, which constitutes the value of the real estate for purposes of taxation, the separate valuation of land and buildings by assessors being merely for statistical purposes.

In ascertaining the value of real estate consisting of land and buildings, evidence of a sale of vacant land in the neighborhood is admissible.

Land and buildings may not be valued for inconsistent uses: their value considered separately cannot exceed the fair cash value of the whole property.

In determining the value of mill sites, restricted by indentures to manufacturing purposes, other possible uses are not to be considered.

Water power rights appurtenant to land are not taxable independently of the land but must be considered in valuing the land, so far as they add value to it.

Where an owner of a water power development sells land for mill sites with water power rights appurtenant thereto, the water power appurtenant to the several mill sites is taxable with them and the balance of the water power is taxable with the remaining land to the original owner of the whole.

An obligation of an owner of a mill site under an indenture by which water power rights are made appurtenant to his land, to pay rent which is charged on the land and the water power, should not be considered in determining the amount by which the value of the mill site is enhanced by the water power rights.

Boilers, railroad sidings, underground piping, yard equipment and hydraulic structures, whether they are to be classed with the land or the buildings where they are located, are properly included as part of the real estate.

It is the general rule that statutes are prospective in their operation and are not to be construed as affecting adversely substantive rights previously acquired.

St. 1933, c. 321, § 9, providing that "Notwithstanding anything contained in this act, the Board in considering any appeal brought before it may make such decision as equity may require and may reduce or increase the amount of the assessment appealed from," is not applicable to an appeal in which the pleadings were completed before the effective date of the act.

Before the enactment of St. 1933, c. 321, § 9, there was no power either in the assessors or in any appellate tribunal to increase the assessment of a parcel of real estate after the valuation and assessment had been made by the assessors, and on an application by a land owner for an abatement of the tax on any parcel the inquiry was not opened whether other parcels had been assessed at less than their fair cash value.

The effect to be given to St. 1933, c. 321, § 9, in appeals relating to assessments made after its enactment, in view of other statutory provisions in respect to the assessment and collection of taxes, was not decided.

|            |                     |     |   |           |
|------------|---------------------|-----|---|-----------|
| § 5, cl. 3 | 1934<br>November 20 | 157 | Cunningham Foundation<br><i>vs.</i> Assessors of Quincy | Appellant |
|------------|---------------------|-----|---|-----------|

Where five contiguous parcels of unimproved land situated in Quincy but adjoining and used as a unit with land in Milton owned by a charitable corporation, the purpose of which was to improve and beautify the town of Milton and to promote the health of the inhabitants of said town by aiding parks, playgrounds and hospitals, the question was whether the occupancy by the corporation of the land in Quincy was within the meaning of G. L. (Ter. Ed.) c. 59, § 5, cl. 3, so as to exempt it from taxation.

Although the use made of the real estate in Quincy was not extensive, it was held to be not inconsistent with the purposes set out in the corporation's charter, benefiting the inhabitants of Milton by extending the land used as a park across the Quincy border, improving the town and aiding the park by keeping it as a screen against unsightly development. These circumstances fulfill the requirements of the word "occupied" as used in G. L. (Ter. Ed.) c. 59, § 5, cl. 3.

Real estate must be occupied by a charitable institution for the purposes for which it was incorporated in order to be exempt from taxation.

The occupancy contemplated by the statute must tend directly to promote the purposes for which the institution was incorporated.

In deciding whether real estate is so occupied there is a presumption in favor of the judgment of the managing officers of the corporation, which if exercised reasonably and in good faith is controlling.

Unimproved land owned by a charitable institution and used for purposes of recreation or for the protection of other property may be exempt.

The mere fact that a list has not been furnished as required by G. L. (Ter. Ed.) c. 59, § 29, does not establish wilful omission to bring in a list under G. L. (Ter. Ed.) c. 59, § 5, cl. 3 (b), and the burden of proving that fact is on the appellee.

|      |                     |     |   |          |
|------|---------------------|-----|---|----------|
| § 65 | 1934<br>November 20 | 147 | Henry Webb Hyde <i>vs.</i><br>Assessors of Dedham | Appellee |
|------|---------------------|-----|---|----------|

The oral application for an abatement of a tax assessed for a year previous to 1933 was valid, the requirement that an application must be in writing, made by St. 1933, c. 266, not then being applicable.

A decision on such an application granting a partial abatement was a decision from which the appellant, if he considered himself aggrieved, should have appealed within thirty days after notice of the abatement. G. L. c. 59, § 65, as amended by St. 1930, c. 416, § 14.

The subsequent filing of a written application for abatement did not extend the time for taking an appeal.

## DECISIONS OF THE BOARD OF TAX APPEALS — Continued

## LOCAL TAX

| Chapter<br>59 | Date<br>of<br>Decision | Advance<br>Sheet<br>Page | Appellant<br>and<br>Appellee                              | Decision<br>for |
|---------------|------------------------|--------------------------|---|-----------------|
| § 59          | 1935<br>March 14       | 1                        | Silas Pennell & another <i>vs.</i><br>Assessors of Bourne | Appellant       |

St. 1933, c. 266, § 1, amending G. L. c. 59, § 59, limited the time for filing applications for abatement to within nine months after April first, and St. 1934, c. 136, § 2, changed the limit to December first. This statute became effective on December 31, 1934. December 30, 1934, was therefore the last day on which the time for filing was governed by St. 1933, c. 266, § 1, and an application filed then would have been in season. But that day was Sunday. *Held*, that under G. L. (Ter. Ed.) c. 4, § 9, an application filed on December 31, 1934, the next succeeding business day, was also in season.

|      |                |    |   |          |
|------|----------------|----|---|----------|
| § 59 | 1935<br>May 10 | 21 | Silas Pennell & another <i>vs.</i><br>Assessors of Bourne | Appellee |
|------|----------------|----|---|----------|

It was decided in *Pennell v. Assessors of Bourne*, Mass. B. T. A. (1935) 1, that in the circumstances there set forth an application for abatement of a 1934 tax on real estate if filed on December 31, 1934, was seasonably filed. The application for abatement, however, while mailed on December 31, 1934, was not received by the assessors until January 2, 1935. It was therefore too late unless it was regarded as made when it was mailed.

Where the use of the mail in giving notice is authorized it is held that depositing in the mail fixes the time of delivery. But in the absence of such authority the rule respecting the giving of notice or the filing of papers is that the act occurs when the paper is actually received.

Since G. L. c. 59, § 59, requiring a person aggrieved by the taxes assessed upon him to "apply in writing to the assessors" for an abatement thereof, contains no provision allowing the filing of the application by mailing, it was held that the appellant was bound to see to it that the application was in the hands of the assessors on the last day for filing. An application for abatement under this section is not made until it is received by the assessors.

|      |                 |    |   |          |
|------|-----------------|----|---|----------|
| § 38 | 1935<br>June 24 | 29 | Proprietors of the Locks and Canals<br>on Merrimack River <i>vs.</i> Assessors of<br>Lowell | Appellee |
|------|-----------------|----|---|----------|

In determining the value of land capable of producing water power, which has been developed by a dam, canals and other structures, all the elements of value, including the income which may reasonably be expected from it after deducting expenses of maintenance and operation, are to be considered, and the value is to be ascertained with reference to all uses, present or reasonably prospective, to which the property is adapted.

Where a water power has been developed by the construction of a dam and canals, and grants have been made in perpetuity of portions of the water power as appurtenant to mill sites on the canals, these rights are easements and the value of that part of the water power which is annexed to the mill sites must be subtracted, in ascertaining the value for taxation of the real estate belonging to the owner of the water power development.

In such a case it is not permissible to assume a new development of the water power which would eliminate the water power rights so granted, but possible uses of the water power consistent with the grants are open to consideration.

|      |                     |     |   |          |
|------|---------------------|-----|---|----------|
| § 59 | 1934<br>November 20 | 153 | Minnie M. Ryder <i>vs.</i><br>Assessors of Newton | Appellee |
|------|---------------------|-----|---|----------|

The authority of assessors to make a decision which can be appealed from is exhausted by the granting of an abatement on the taxpayer's application, and the subsequent granting of an additional abatement cannot be the foundation of an appeal.

St. 1933, c. 130, approved April 18, 1933, effective ninety days thereafter, on July 17, 1933, which extended the time for filing a petition with the Board of Tax Appeals from "within thirty days" to "within sixty days of the giving of the notice required by section sixty-three," did not apply to a petition filed on May 29, 1933, appealing from a decision, notice of which was given sixty days previously.

|  |                     |     |  |          |
|--|---------------------|-----|--|----------|
| C. 59, § 59<br>C. 60, § § 37,<br>40, 43, 45,<br>56 | 1934<br>December 12 | 173 | Emory T. Wright & others <i>vs.</i><br>Assessors of Lowell | Appellee |
|--|---------------------|-----|--|----------|

Taxes on real estate found to have been assessed on fractional interests of the heirs of an estate were held invalid because assessed upon the undivided interests of joint owners.

Where abatement was sought, not for the whole amount of the tax on the ground of illegality, but for an amount measured by the extent of the overvaluation claimed, it was held that no such remedy could be given. "A tax which is illegal because of error in the assessment, where the illegality is disclosed by some record, cannot be abated in proceedings for an abatement."

|---------|------------------|----|----------------------|-----------|

The Reconstruction Finance Corporation is an instrumentality of the United States government created and controlled by it exclusively to enable it to perform a governmental function.

The manager of an agency of this corporation is an officer or employee of an instrumentality of the United States government and his salary or wages is not subject to the tax imposed by G. L. c. 62, § 5 (b).

|             |                |    |                 |           |
|-------------|----------------|----|-----------------|-----------|
| §§ 1, 5 (b) | 1935<br>May 23 | 23 | George W. Treat | Appellant |
|-------------|----------------|----|-----------------|-----------|

An inhabitant of the Commonwealth within the meaning of the income tax statute is one who had a domicile therein.

The appellant, whose domicile of origin was at Livermore Falls, Maine, came to Boston in 1909 to take a position with an investment firm. Shortly thereafter he went to live in Braintree in a house purchased by his wife. He kept up the original home after the death of his father in 1917, returned to it from time to time, and always regarded it as his home. He voted, paid poll taxes and held public office in Maine, and intended finally to return there. It was found on the evidence that his domicile was at Livermore Falls, Maine, and that he was not an inhabitant of the Commonwealth within the meaning of the income tax laws.

## SPECIAL RECESS COMMITTEES AND COMMISSIONS

To the list printed upon page 57 of the department report of 1929, page 90 of 1930, page 65 of 1931, and page 90 of 1932, there may be added the following:

1. Special Report of the Director of Accounts relative to fees and allowances to Public Officers (Senate Document 5, 1933), 10 p.

2. Special Report of an Investigation relative to providing for certain annual payments by the Commonwealth to certain towns on account of the construction of certain additions to the Metropolitan Water System (House Document 228, 1933), 11 p.

3. Report of the Commissioner of Corporations and Taxation on ways and means for raising revenue required for financing the furnishing of adequate assistance to certain aged citizens (House Document 410, 1933), 63 p.

## RECOMMENDATIONS FOR LEGISLATIVE ACTION

In accordance with the General Laws the following was duly communicated:

## THE COMMONWEALTH OF MASSACHUSETTS

DEPARTMENT OF CORPORATIONS AND TAXATION,  
STATE HOUSE, BOSTON, NOVEMBER 28, 1934.

*To the General Court of Massachusetts.*

In compliance with the provisions of section 33 of chapter 30 of the General Laws (Ter. Ed.) there is submitted herewith such part of the annual report of the Commissioner of Corporations and Taxation (Pub. Doc. No. 16) as contains recommendations or suggestions for legislative action, accompanied by drafts of bills.

HENRY F. LONG,  
*Commissioner of Corporations  
and Taxation.*

## RECOMMENDATIONS.

## CORPORATIONS.

1. *Dissolution.* — This recommendation is for a continuance of the practice whereby annually an act is passed dissolving certain corporations. Many of the corporations have ceased to function, some apparently have no officers, others have failed to file certificates of condition or tax returns, and many have been enjoined by the Supreme Judicial Court from doing business. It is respectfully requested that the corporations submitted in the bill accompanying this be dissolved by an act early in the session to be effective as of January 1, 1935.

2. *Charitable and Similar Corporations.* — The general purpose of this proposal is to require reports from corporations organized under chapter 180 of the General Laws or under earlier laws or special acts for similar purposes to provide for restraint of those engaging in ultra vires activities, and for dissolution where it appears to be in the public interest. At the present time there are, no doubt, many such corporations as to which there is no record other than that of organization. There is nothing to indicate whether the corporation is still functioning, who its officers are, or whether the purposes permitted are strictly followed. It is probably true that others may be using this form of organization as a cloak for activities not contemplated by the law, and perhaps receiving tax exemptions to which they are not properly entitled. The proposal if enacted would tend to reduce such abuses and to clear the records of defunct organizations.

3. *Taxation of Deposits.* — This proposal provides a semi-annual minimum tax of one-fortieth of one per cent of the average deposits of savings banks and savings departments of trust companies. Where a savings bank or savings department of a trust company has large investments in deductible items which absorb or greatly reduce the deposits available for taxation it is felt that the bank on the behalf of its depositors should contribute at least this nominal amount on account of its deposits for governmental protection and benefits. But few banks will be affected, but the provision for a minimum tax should be included in this as in all other tax laws.

4. *Foreign.* — The proposal in part relates to the taxation of corporations engaged in Massachusetts exclusively in interstate commerce. The case of Alpha Portland Cement Company v. Commonwealth of Massachusetts, 268 U. S. 203, held that the present excise cannot constitutionally be applied to such corporations. Unquestionably, a tax may constitutionally be imposed upon the property, both tangible and intangible, of such corporations so far as it has a situs in Massachusetts. It is clear that a tax may be imposed upon the income of such corporations earned within Massachusetts. This proposal provides for the taxation of the property and income. In order to avoid discrimination against this type of corporation provision is made whereby such a corporation may at its option be assessed under the provisions of the excise applicable to other business corporations. The proposal also abolishes permanently the dividend credit granted to a foreign corporation. While the temporary law if made permanent would be sufficient, the law which would be operative at the expiration of the term of the temporary law is a provision which ignores the whole theory of an excise tax and attempts to give an illogical deduction to certain corporations because stockholders thereof have paid a personal income tax. It is a matter of record that no corresponding provision exists in the tax laws of any other State in the Union. The State of Oregon undertaking a similar provision failed as its courts held that law unconstitutional.

## LOCAL TAXATION.

5. *Invalid Tax Titles.* — Under existing law where a tax title is declared invalid by court decree a court order is required before the treasurer of the city or town where the land is located can make refund to the holder of the tax title. This proposal makes it possible for the municipal treasurer to make refund without such order upon presentation of the release of the holder accompanied by a copy of the decision of the court specifying the cause of the invalidity of the tax title.

6. *Vacancies.* — In boards of assessors a question has recently arisen as to the right of the remaining members to function in the event of a vacancy on the board, and the possibility of a deadlock in connection with the filling of such vacancy is not remote. It is obviously contrary to public policy to have the work of the

assessors tied up even temporarily, and at certain times of the year the consequences of such a tie-up might lead to very serious if not disastrous results. The accompanying proposal enables the remaining members to continue to carry on the work of the board in case of failure to fill the vacancy.

7. *Low-value Lands.* — Provision is made by existing law permitting a certificate where land is taken as security for unpaid taxes of such low value as not to warrant Land Court proceedings to be issued by the Commissioner of Corporations and Taxation, which when recorded furnishes the title that the community holds. The statute further provides for a sale of these lands of low value as so taken, and the certificate recorded, but it would appear that any bid made would have to be accepted, and as there is no provision for the rejection of a ridiculously low bid, legislation is requested authorizing the municipal treasurers to reject inadequate bids so as to protect the full right and title in interest of the municipality.

8. *Water Liens.* — It having been found difficult to trace water liens when it was necessary for the community to sell to protect its rights so far as taxes and assessments were concerned it is felt that provision should be made for commitment through the assessors of water charges which have become a lien on the property, and to make provision for adding to the annual tax bill in a manner similar to betterment assessments the amounts determined, and in connection therewith to make adequate provision for crediting collectors with proportioned betterment assessments with betterment assessments which have been recommitted and with water charges which have been recommitted.

9. *Deceased Owners.* — The general law providing for the taxing to the last owner of record, with a proviso that real property of a deceased person can be assessed in general terms to heirs or devisees, causes great confusion, particularly in the collection of taxes and where assessment is made without designating the heirs and devisees by name and the collector is almost deprived of every opportunity of making a proper sale which will be held legal. It is recommended that in cases where the probate court for the county in which the land lies makes available the necessary information as to the names of the heirs and devisees for assessment this practice be abolished.

10. *Tax Titles.* — The existing law providing that municipalities may determine how tax titles held should be disposed of other than by redemption or foreclosure under the statutory requirement causes considerable confusion. It appearing that it is likely that tax titles will be held by the municipalities for some years to come, it would seem advisable to provide through legislation for the treasurers themselves, subject to the approval of the selectmen or mayor, as the case may be, to make such disposition through assignment as will be the greatest benefit to the community.

11. *Sales.* — In the sale of property to protect liens where assessments have been made not only for municipal purposes but as well for district purposes, and to insure the ultimate collection of water liens, difficulty is had in priority of title or the disposition of funds upon sale. The proposal is to so define the word "taxes" as to make clear and unmistakable upon the collector's sale where title shall rest, and the order of distribution of money received upon sale by the municipality or redemption.

12. *Receiverships.* — The Federal court permitting injunctions running against collectors of taxes who proceed to protect lien on property where taxes are uncollected, raises the question of loss of lien after the expiration of the period stated in the statute. It would appear that the lien should exist, but there is an uncertainty as to the Federal court in this connection. The proposal is to have the lien extended for the benefit of the collector, and through him to the municipality, until six months or an indefinite period after the Federal receivership has been completed.

#### INCOME TAX.

13. *Verification.* — Existing law which in many instances might be construed to compel the Commissioner to expose to the taxpayer the information that he has received which indicated that the taxpayer had not made a complete return of his taxable income operates to hamper the work of the Commonwealth in investigation. It would appear that to investigate tax returns it would be advisable to give the taxing authority broad powers and similar general authority which is given to

the Federal Revenue Department in making examinations. Under the existing law, which might be construed to place the burden of ascertaining whether or not a taxpayer has made an error upon the taxing authority before an audit can be made, a premium is put upon carelessness and fraud. To allow a taxpayer to decide doubtful questions in his favor and leave the investigating authority handicapped is to lose taxes and encourage evasion. No matter how honest a taxpayer may be, he is apt to make mistakes. Experience shows that nearly 60 per cent of the returns investigated show errors of omission or commission. If the Commissioner is to have any power of investigation, he should be allowed full discretion.

14. *Associations.* — Since dividends from Massachusetts corporations, from whatever source derived, are now taxable, there is no good reason why dividends from partnerships, associations and trusts with transferable shares, which are in essence corporations in their method of doing business, should not be taxed in the same way. To accomplish this purpose permanent legislation should be passed and the so-called "agreement" provision of the existing statute abandoned.

15. *Deductions.* — This proposal becomes necessary because of a decision of the Supreme Judicial Court, and provides for the elimination of the arbitrary deduction of 5 per cent of the assessed value less mortgages of stock in trade and other tangible property, real and personal, owned by persons taxed and used in a profession, employment, trade or business. This is an arbitrary deduction, a parallel of which is not to be found in any other income tax law in existence, and does not appear to have any sound logical basis in economics. Its continuance in the statute will not only indicate an unconstitutional provision, but also will prevent the flow of income which is properly taxable under the theory of the Massachusetts Income Tax Law.

16. *Sales.* — Dividends paid in new stock of the company issuing the same and received in 1933, 1934 and 1935 are taxable (Acts of 1933, chapter 307, section 9). When sold, the cost of such new stock is its value when acquired, whether or not it has been taxed as a dividend (Acts of 1934, chapter 363, section 1). This proposal provides that if such new stock has been previously taxed as a dividend to the seller he may, when he sells, use as cost the value at which such stock was taxed, otherwise the cost of such new stock shall be zero.

## SPECIAL DUTIES OF THE COMMISSIONER.

### MASHPEE.

- 1932 Chap. 223. An act establishing an advisory commission for the town of Mashpee.  
 1932 Chap. 307. Sec. 315A. Appropriation for advisory commission  
 1933 Chap. 174. Sec. 177 Appropriation for advisory commission  
 1934 Chap. 162. Sec. 181 Appropriation for advisory commission

Report of the Special Commission on governmental activities of the town of Mashpee. March 29, 1932. House 1303.

FREDERIC W. COOK,  
*Secretary of the Commonwealth.*  
 JOSEPH E. WARNER,  
*Attorney General.*  
 THEODORE N. WADDELL,  
*Director of Accounts.*

 EDWARD T. SIMONEAU,  
 ARTHUR B. LORD,  
*Millville Municipal Finance Commission.*

## COMMISSIONER'S LEGISLATIVE REPORTS.

The Commissioner of Corporations and Taxation was charged by the Legislature in 1930 to make reports in respect to finding revenue to provide for the operation of the law effective July 1, 1931, to provide for adequate assistance to certain aged citizens. This report is designated as House No. 1, 1931, and was printed in my report for 1930.

Chapter 398 of the Acts of 1931 entitled "AN ACT IMPOSING AN OLD AGE ASSISTANCE TAX ON MALE INHABITANTS OF THE COMMONWEALTH ABOVE THE AGE OF TWENTY TO PROVIDE REVENUE FOR CARRYING OUT THE TERMS OF THE LAW PROVIDING ADEQUATE ASSISTANCE TO CERTAIN AGED PERSONS," provides by

SECTION 9 thereof that "The commissioner is hereby directed to consider ways and means for permanently raising the revenue required by the commonwealth and by the cities and towns thereof to provide for financing the old age assistance act, so called, giving special consideration to various forms of sales taxes, amusement taxes, luxury taxes, increases in income and inheritance taxes and any other form of additional taxation by which such revenue may be provided, and shall report to the general court his findings and recommendations, together with drafts of legislation necessary for carrying said recommendations into effect, by filing the same with the clerk of the house of representatives not later than the first Wednesday in December of the year nineteen hundred and thirty-two." (No Report made for submission to 1932 session [see Chapter 259, 1932].) (See report to the General Court; House 410, 1933.)

See 1930 Report and Instruction to Assessors, Nos. 13 and 14, for description of The Massachusetts Board of Tax Appeals. See 1930 Report for information on Reciprocal Inheritance Taxation.

## PUBLICATIONS

The following have been compiled and printed:

Public Document No. 16. — The Annual Report of the Department, for the year ending November 30, 1933, received from the printer February 20, 1935.

Public Document No. 19. — Part I. Aggregates of Polls, Property, Taxes, etc., as assessed April 1, 1933, received from the printer in March, 1934.

Public Document No. 19. — Part II. Aggregates of Property, Taxes, etc., assessed in December, 1933, received from the printer in May, 1934.

Public Document No. 29. — Statistics of County Finances for the year ending December 31, 1933, received from the printer in August, 1934.

Public Document No. 79. — Statistics of Municipal Finances for years ending between November 30, 1932, and January 31, 1933, received from the printer in July, 1934.

Estimate of County Receipts and Expenditures for the year ending December 31, 1934, issued in February, 1934, as a Legislative Document.

Instruction to Assessors No. 16, received from the printer March, 1935.

General Laws Relating to Taxation and Special Assessments, revised to May 1, 1934 (Through Chapter 184, Acts of 1934) received from the printer May 15, 1934.

Supplement to General Laws Relating to Taxation and Special Assessments (completing 1934 legislation) received from the printer in August, 1934.

Triennial Report upon the Equalization and Apportionment of State and County Taxes: December 31, 1934. Printed as House Document 309 of 1935.

## CONFERENCES

*Conferences.* — For the purpose of recording the events, reference is made to the Twenty-seventh Annual Conference on Taxation, under the auspices of the National Tax Association (organized 1907), held at the Statler Hotel, Boston, Massachusetts, October 1 to 5, 1934, and the Twenty-second Annual Conference on Taxation, under the auspices of the New England State Tax Officials Association (organized January 18, 1912), held at the Hall of Graduate Studies, New Haven, Connecticut, November 15 and 16, 1934.

The Ninth North American Gasoline Tax Conference (organized November, 1926) was held September 12, 13, and 14, at the Hotel Claridge, Atlantic City, New Jersey.

The Municipal Finance Officers Association of the United States and Canada,

formerly the International Association of Comptrollers and Accounting Officers (organized November, 1903) annual meeting was held September 17, 18 and 19, 1934, at Philadelphia, Pennsylvania.

The Forty-fifth Annual Session of the Association of Massachusetts Assessors was held November 1 and 2 and as usual brought out much of interest. "Instruction to Assessors No. 16" has been issued containing some of the addresses delivered at these meetings. The program follows:

1934

FORTY-FIFTH ANNUAL SESSION  
OF THE  
ASSOCIATION OF MASSACHUSETTS ASSESSORS  
Thursday and Friday, November 1 and 2, 1934  
Auditorium, State House, Boston.

PROGRAM

*Thursday, November 1, 1934*

First Session, 10 A.M., Gardner Auditorium, State House, Boston.

General Reception, Registration, Payment of Dues, Meeting new members.

Obtaining Banquet Tickets. Filing Questions or Suggestions for discussion.

10.15 A.M.

The Forty-Fifth Annual Session opened: Address by the President, Frank H. Hardy, of Andover.

Are the Massachusetts Assessors to Blame Where Real Estate Assessments Are Too High? John C. Kiley, of Boston.

Real Estate Values in Massachusetts. Harold A. Pheeny, Chief Appraiser, Home Owners Loan Corporation, U. S. A.

Discussion.

Reading of the Records, Frank A. Rogers, of Gloucester, Secretary.

Report of Treasurer. Joseph H. Hanford, of New Bedford.

Report of Legislative Committee. James J. Casey, of Cambridge, Chairman.

Other committee reports, if any. Other reports, matters or announcements.

Naming of nominating committee and other committees, if any.

Discussion of plans for Summer Meeting.

Second Session, November 1, 1934.

2 P.M., Gardner Auditorium, State House, Boston.

Taxation from the Taxpayers' Association Point of View. Norman MacDonald, Executive Secretary, Springfield Taxpayers' Association, Inc.

Assessment of Real Estate During Depression. Justin A. McCarthy, Assessor, Stamford, Connecticut.

Assessments from the Bankers' Point of View. Carl M. Spencer, President, Savings Banks Association of Massachusetts.

Discussion.

Third Session, November 1, 1934.

Banquet, 5.30 P.M., Boston Chamber of Commerce Building, 80 Federal Street.

Assessors, Collectors and Guests may be accompanied by ladies.

Call to order, Frank H. Hardy, of Andover, President. Toastmaster, John Morris, of New Bedford, President, Massachusetts Treasurers' and Collectors' Association.

Connecticut's Tax Situation. Arthur F. Potter, Director, Municipal Division.

Some Oddities in Taxation Legislation. Henry F. Long, Commissioner of Corporations and Taxation.

*Friday, November 2, 1934*

Fourth Session, 10 A.M., Gardner Auditorium, State House, Boston.

The Poll Tax Situation. David W. Creelman, Director of Division of Local Taxation.

The Massachusetts Tax Laws and Their Administration. Henry F. Long, Commissioner of Corporations and Taxation.

Fifth Session, November 2, 1934.  
2 P.M., Gardner Auditorium, State House, Boston.

Round Table: Henry F. Long, presiding.

Subject Matters:

Can Real Estate Assessments be made Certain and Unfluctuating?

Discussion led by Frank H. Hardy, of Andover.

Strange Developments in Solicitation of Local Tax Cases to go to the Board of Tax Appeals.

Discussion led by Edward J. Cormier, of Brockton.

Limitation on the Taxation of Real Estate.

Discussion led by James J. Casey, of Cambridge.

Questions and Answers for Assessors and Collectors.

David W. Creelman, Director of Division of Local Taxation.

Report of Nominating Committee.

Business Meeting.

Election of Officers.

Suggestions for future activities.

Adjournment.

Meeting of 1935 Executive Committee.

[ORGANIZATION FEBRUARY 5, 1890.]

Each Assessor should become a member.

Annual Dues One Dollar.

Collectors and all interested are invited.

## DIVISION OF EXCISE TAXES.

## GASOLINE EXCISE TAX.

Privilege of registering Motor Vehicles.

Chapter 64A General Laws (Ter. Ed.).

The gasoline tax law in its sixth year of operation shows a marked increase in revenue. The original law provided for a tax at the rate of two cents per gallon, but on May 1, 1931 a temporary increase to three cents per gallon was made by the Legislature, and this rate will be in effect until April 30, 1936.

The administration of the law was carried out without any appropriation therefor, the expenses being absorbed by the Department generally.

The work of the Division with respect to gasoline taxes consists of the assessment of taxes monthly, the audit and verification of the returns required to be filed, and the granting of refunds upon gasoline used other than in the propulsion of a motor vehicle over the highways.

Effective January 1, 1934 the Department collected the tax upon the first sale made within the Commonwealth, the practice of permitting sales between licensed distributors to be made without tax, being discontinued. The number of distributors was substantially reduced so that during 1934 there were forty-six distributors as compared to one hundred and nine in the previous year. The adoption of this method of assessment tended to increase the amount of tax collected during January of 1934, but the increase in the revenue in 1934 is due principally to an increased use of gasoline in motor vehicles.

It was found that motor vehicle fuel was being sold under trade names for industrial purposes, and that some revenue was lost to the Commonwealth, because this material eventually found its way into motor vehicle fuel. To eliminate this possibility of tax evasion, the Department during 1934 required the tax to be paid upon "gasoline, benzol and all coal tar, and/or petroleum products including all naphtha and all solvents", with refunds being promptly given to those who purchased any of these materials and used them other than in the propulsion of a motor vehicle.

During the year the Massachusetts Supreme Court handed down a decision in the case of John Brady vs. the Commissioner of Corporations and Taxation, wherein it was held that gasoline used in the operation of motor trucks which beside traveling on the highway, were part of the time in operation on private land, could not have a refund based upon the estimated amount of gasoline consumed by the trucks while they were upon private land, because it was impossible to calculate and itemize the amount so used, with any certainty.

In cooperation with the officials of the several states upon the northeastern seaboard of the United States, meeting in New York City as the Northeastern Tax Conference, a uniform form for reporting sales of gasoline by distributors, was devised and adopted. A system of daily exchange of inter-state movements of gasoline was also adopted through the efforts of that conference, and the information thus obtained has been very helpful in connection with the administration of the gasoline tax law. The Department of the Interior of the United States Government has assisted Massachusetts through its activities in connection with the enforcement of the oil code by furnishing daily reports of the movements of petroleum products in vessels between ports in the United States.

## EXCISE ON ALCOHOLIC BEVERAGES.

Section 21 of Chapter 138 of the General Laws  
as amended by Chapter 385 of 1934.

The Liquor Control Act enacted by the General Court to become effective upon the repeal of prohibition, December 4, 1933, provided in Section 21, for the taxation of those licensed to manufacture, import and sell alcoholic beverages in the Commonwealth. Prior to the enactment of National Prohibition, the Commonwealth received one-fourth of the amount collected by the various municipalities from liquor licenses, and the average amount payable to the Commonwealth in the ten years prior to the enactment of the National Prohibition Act was \$850,000. The excise imposed by the Liquor Control Act provided that, the licensed manufacturers and wholesalers and importers should pay as an excise for the privilege of being licensed as such, a tax upon the alcoholic beverages sold by them within the Commonwealth at following rates:

“the sum of forty cents for each proof gallon of all alcoholic beverages containing in excess of twenty-four per cent of alcohol by volume, the sum of ten cents for each gallon of wine, including vermouth, and the sum of one dollar for each barrel of thirty-one gallons of malt beverages.”

Effective: June 30, 1934 the rates were revised as follows:

“For each barrel of thirty-one gallons, or fractional part of a barrel aforesaid, of malt beverages, at the rate of one dollar per barrel aforesaid; For each wine gallon, or fractional part thereof, of wine, including vermouth, at the rate of ten cents per wine gallon; For each wine gallon, or fractional part thereof, of all other alcoholic beverages containing twenty-four per cent or less of alcohol by volume at sixty degrees Fahrenheit, at the rate of fifteen cents per wine gallon; For each wine gallon, or fractional part thereof, of all other alcoholic beverages containing more than twenty-four per cent but not more than fifty per cent of alcohol by volume at sixty

degrees Fahrenheit, at the rate of forty cents per wine gallon; For each proof gallon, or fractional part thereof, of all other alcoholic beverages containing more than fifty per cent of alcohol by volume at sixty degrees Fahrenheit, at the rate of forty cents per proof gallon."

Returns are made monthly and the tax is payable at time of filing return. Audits have been made of the accounts of all licensees from time to time, to determine whether or not the returns filed are accurate. The administration of this excise has been carried on with no additional expense to the Commonwealth.

The proceeds from this tax, including the fees for licenses received by the Alcoholic Beverages Control Commission, are after deducting the expenses of the Commission, placed in the Treasury of the Commonwealth for the purpose of reimbursing the cities and towns for the state's share of the cost of old age assistance under Chapter 118A of the General Laws.

During the fiscal year there were licensed as manufacturers, eight distilleries, fourteen breweries and one winery. As wholesalers and importers there were one hundred and nineteen licensed to deal in all alcoholic beverages and one hundred and two licensed to deal in wines and malt beverages only.

The total receipts of the Alcoholic Beverages Control Commission for the fiscal year ending November 30, 1934 was \$722,312.95. The taxes collected from these licensed manufacturers and wholesalers and importers are shown in table below:

## GASOLINE TAX RATE AND DISTRIBUTION.

Acts of 1931, Chap. 122, Sect. 4.

"SECTION 4. There is hereby imposed an additional excise tax of one cent on each gallon of fuel, as defined in section one of chapter sixty-four A of the General Laws, sold in the Commonwealth during the period beginning with the first day of May of the current year and ending with the thirtieth day of April, nineteen hundred and thirty-three, the same to be levied and collected, and the proceeds thereof disposed of, as provided in said chapter sixty-four A, and the provisions of said chapter shall apply to said additional excise to the same extent as to the normal excise levied thereunder."

*Approved March 24, 1931.*

Acts of 1932, Chap. 248.

AN ACT EXTENDING THE TIME DURING WHICH THERE SHALL BE COLLECTED AN ADDITIONAL EXCISE TAX ON SALES OF GASOLINE.

*Be it enacted, etc., as follows:*

The time during which the additional excise tax of one cent is imposed on each gallon of fuel, as defined in section one of chapter sixty-four A of the General Laws, sold in the commonwealth, is hereby extended to and including the thirtieth day of April, nineteen hundred and thirty-six, and the provisions of section four of chapter one hundred and twenty-two of the acts of nineteen hundred and thirty-one shall apply to the tax so imposed during such extended period.

*Approved May 23, 1932.*

Acts of 1934, Chap. 377

AN ACT TRANSFERRING A PORTION OF THE PROCEEDS OF THE GASOLINE TAX FROM THE HIGHWAY FUND TO THE GENERAL FUND.

Whereas, The deferred operation of this act would tend to defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

*Be it enacted, etc., as follows:*

The state treasurer is hereby authorized and directed to transfer the sum of ten million dollars from the Highway Fund to the General Fund.

*Approved June 30, 1934.*

Acts of 1933, Chap. 370.

AN ACT TRANSFERRING A PORTION OF THE PROCEEDS OF THE GASOLINE TAX FROM THE HIGHWAY FUND TO THE GENERAL FUND.

Whereas, The deferred operation of this act would tend to defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

*Be it enacted, etc., as follows:*

The state treasurer is hereby authorized and directed to transfer the sum of eight million, twenty-eight thousand, three hundred and twenty dollars from the Highway Fund to the General Fund.

*Approved July 22, 1933.*

Acts of 1932, Chap. 243.

AN ACT PROVIDING FOR THE PAYMENT BY THE COMMONWEALTH TO ITS MUNICIPALITIES OF SUBSTANTIALLY THE WHOLE OF THE PROCEEDS OF THE TEMPORARY INCREASE IN THE GASOLINE TAX.

Whereas, The deferred operation of this act would tend to defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

*Be it enacted, etc., as follows:*

SECTION 1. There shall be paid on June first in the current year, from the appropriation made by item five hundred and eighty-nine of the general appropriation act of the current year, to towns then entitled to state aid for repair and improvement of public ways, other than state highways, under section twenty-six of chapter eighty-one of the General Laws, as most recently amended by chapter one hundred and seventy-one of the acts of nineteen hundred and thirty, the sum

of four hundred and fifty-six thousand three hundred dollars, the same to be apportioned among said towns at the rate of fifty dollars for each mile of public ways, other than state highways, within their respective limits. Amounts paid to towns as aforesaid shall be in addition to the amounts to which they are entitled under said section twenty-six. There shall also be paid, without appropriation, from the Highway Fund on said June first to cities and towns not entitled to state aid as aforesaid the sum of five million five hundred thousand dollars, the same to be apportioned among such cities and towns in proportion to the amounts for which they will be respectively assessed for the state tax of the current year; provided, that no such city or town shall receive a sum less than was received by it under section seven of chapter one hundred and twenty-two of the acts of nineteen hundred and thirty-one. The amount of any sum payable to a city or town hereunder shall, in the current year, be included by the assessors thereof as an estimated receipt and deducted from the amount required to be raised by taxation to meet appropriations made in said year for the construction, reconstruction or maintenance of highways.

SECTION 2. Said section seven is hereby repealed.

(See Acts of 1932, Chap. 307, Sec. 2.)

*Approved May 20, 1932.*

Acts of 1931, Chap. 122, Sec. 7.

SECTION 7. There shall be paid from the Highway Fund on June first in each of the years nineteen hundred and thirty-one and nineteen hundred and thirty-two to the cities and towns of the commonwealth, except the towns entitled to state aid for repair and improvement of public ways under section twenty-six of chapter eighty-one of the General Laws, as most recently amended by chapter one hundred and seventy-one of the acts of nineteen hundred and thirty, the sum of two million five hundred thousand dollars, the same to be apportioned among such cities and towns in proportion to the amounts for which they were respectively assessed for the state tax of the year nineteen hundred and thirty, and any sum received by such a city or town hereunder, and any additional sum, not exceeding twenty-five dollars, received, as hereinafter provided, by a town entitled to state aid under said section twenty-six, shall be expended only for the construction, reconstruction or maintenance of highways, and shall, in the year of receipt, be included by the assessors thereof as an estimated receipt and deducted from the amount required to be raised by taxation to meet appropriations made in that year for highway purposes. For each of said years nineteen hundred and thirty-one and nineteen hundred and thirty-two the limitation of one hundred dollars per mile imposed by said section twenty-six upon the sums of money that may be expended by the commonwealth for the repair and improvement of public ways other than state highways in towns entitled to the benefits of said section is hereby increased to one hundred and twenty-five dollars per mile.

*Approved March 24, 1931.*

#### MOTOR VEHICLE EXCISE TAX

General Laws, Chapter 60A (Chapter 379 of 1928)

Privilege of using the highways

The fifth year of the operation of the motor excise tax law, amended April 23, 1930, has proceeded as formerly. The total experience for 1934 is available and from the information at hand, the 1929 to 1934 statistics follow.

|        | Cars<br>Taxed | Total<br>Value | Total<br>Tax    | Average<br>Car<br>Value | Average<br>Tax<br>per Car | Rate<br>per \$1,000 |

**MOTOR VEHICLE FEES AND REGISTRATIONS.**

For three years, contrary to the experience of all previous years but two, motor vehicle registration in Massachusetts for the fiscal year ended November 30, 1932, revealed a loss from the previous year. The year 1933, however, shows an increase over 1932, and 1934 shows an increase over 1933. The loss of 1932 was the fourth such loss on the books of the registry, the first being in 1927, the year of the Ford shut-down, and the second in 1930, the first full year of the "depression."

Passenger car registrations for the fiscal year reached 827,719, a gain of 11,417 over 1933. The number of business cars and trucks reached the peak in 1931 with registrations totaling 116,580, against 112,260 in 1934. Popularity of the motorcycle is still on the wane. Registrations of motorized "bikes" numbered 3,068 in 1931 and only 1,375 in 1934, compared with 10,333 in 1925.

Fees from registrations, licenses, etc., totaled \$6,202,907.26 for the fiscal year 1934, \$173,805 over the previous year's total, and under half of the 1928 figure. Registration fees were lowered beginning with 1929, but the difference has been more than offset by the gasoline tax.

That the desire to drive is apparently as strong as ever, is evidenced by the fact that in 1934, 1,053,527 persons hold Massachusetts permits to operate motor vehicles in this State, against 1,022,662 in the previous year. Only 83,031 persons took examination for driving licenses during the year, as compared with 184,077, the number of 1929, — no doubt a reflection of the business situation.

Record of motor vehicle registrations in Massachusetts for the fiscal year ended November 30, 1934, compared with previous years:

|                     | 1934        | 1933        | 1932        | 1931        |

## LEGISLATION OF 1934

The General Court enacted at the 1933 session law which has to do with the work of the Department of Corporations and Taxation; and which was printed in the 1933 report.

The report for the year ending November 30, 1933, went to press somewhat later than usual, and it was possible to include the legislation of 1934 for that reason therein. 1935 legislation is here included.

## LEGISLATION OF 1935

- Chapter 3 Establishing the basis of apportionment of state and county taxes.
- Chapter 4 Further extending the period of operation of certain laws authorizing domestic corporations to contribute to certain funds for the betterment of social and economic conditions.
- Chapter 8 Dissolving certain corporations.
- Chapter 12 Relative to the renewal of certain temporary revenue loans by cities and towns.
- Chapter 18 Relative to the capital stock of trust companies.
- Chapter 28 Authorizing cities and towns to appropriate money necessary to co-operate with the federal government in certain unemployment relief and other projects.
- Chapter 40 Relative to the eligibility requirements for directors, officers and employees of trust companies.
- Chapter 54 Extending the time during which co-operative banks may consolidate.
- Chapter 56 Relative to the duration of water liens.
- Chapter 59 Making certain perfecting amendments in the election laws incident to the change of date for the assessment of local taxes.
- Chapter 68 Excluding revenue loan orders by cities from certain provisions of their charters relating to publication of certain measures and their subjection to referendum.
- Chapter 76 Relative to the purchase by co-operative banks of mortgages held by other such banks which are in possession of the co-operative central bank.
- Chapter 80 Relative to the application of certain provisions of general law while the co-operative central bank is in possession of any co-operative bank.
- Chapter 82 Extending the duration of the co-operative central bank.
- Chapter 90 Relative to temporary emergency unemployment funds in towns.
- Chapter 95 Further regulating the sale of fuel oils.

- Chapter 99 Relative to the dates as of which amounts to be paid or repaid on account of deficits in the costs of operation of the Boston Elevated Railway Company shall be determined.
- Chapter 100 Providing for modification of the terms and conditions under which the Boston Elevated Railway Company is using certain alterations in and extensions to the Boylston Street Subway and making certain changes relative to payments in connection with such use.
- Chapter 106 Authorizing towns to insure against losses to members of police and fire departments.
- Chapter 119 Relative to abatement of taxes upon interests of individuals and partnerships in certain ships and vessels.
- Chapter 131 Providing for extensions of the boundaries of the North Chelmsford Fire District, relative to exempting certain property therein from taxes assessed by it and authorizing said district to make an additional water loan.
- Chapter 136 Further regulating the amount which a member bank may borrow from the co-operative central bank without collateral.
- Chapter 149 Relative to employment of counsel by boards of assessors in certain cases.
- Chapter 150 Relative to the disclosure of certain tax returns.
- Chapter 152 Relative to verification of income tax returns.
- Chapter 158 Reducing the rates of interest on unpaid local taxes.
- Chapter 162 Authorizing banking institutions and insurance companies to make loans insured under the provisions of the National Housing Act.
- Chapter 173 Relating to sale of lands of low value held by cities or towns under tax titles.
- Chapter 179 Authorizing municipalities to effect insurance providing indemnity for or protection to their officers and employees against loss by reason of liability for property damage caused by their operation of municipally owned vehicles.
- Chapter 181 Relative to refunds to holders of tax titles judicially adjudged invalid.
- Chapter 182 Subjecting to classification that portion of the salaries of the court officers and messenger of the Supreme Judicial Court in Suffolk County payable by said county.
- Chapter 183 Requiring tax title buyers, so called, of real estate to make immediate deposits on account of the purchase money therefor.
- Chapter 187 Relative to the date of application for abatement of local taxes.
- Chapter 188 Authorizing cities, towns and districts to borrow on account of public welfare and soldiers' benefits and their share of the cost of Emergency Relief Administration projects.
- Chapter 189 Relative to certain tax liens upon real estate taken by right of eminent domain.
- Chapter 196 Authorizing the acquisition by the commonwealth of certain properties in the towns of Sandwich, Bourne, Falmouth and Mashpee for military purposes.
- Chapter 213 Authorizing temporary borrowings by cities, towns and districts in anticipation of receipts from federal grants for emergency public works.
- Chapter 215 Establishing the procedure to be followed by a co-operative bank in converting into a federal savings and loan association.
- Chapter 218 Reducing the rate of interest payable upon sums reimbursed, when local taxes already paid are later abated.
- Chapter 221 Extending for one year the opportunity to cities and towns to borrow under the act creating the Emergency Finance Board.
- Chapter 222 Relative to the issue of certain coupon notes and other evidences of indebtedness by gas and electric companies and water companies.
- Chapter 224 Relative to practice and procedure in the Land Court in respect to petitions for foreclosure of rights of redemption under tax titles.
- Chapter 236 To avoid multiplicity of sales or takings of land for taxes and other charges.

- Chapter 246 Exempting the corporation known as the Disabled American Veterans of the World War from certain provisions of law relative to registration and the filing of annual reports.
- Chapter 248 Relative to water liens and to credits to be allowed to collectors of taxes.
- Chapter 249 Making appropriations for the maintenance of departments, boards, commissions, institutions and certain activities of the Commonwealth, for interest, sinking fund and serial bond requirements, and for certain permanent improvements.
- Chapter 250 Relative to the amount of expenditure for the work of the Cape Cod Mosquito Control Project.
- Chapter 252 Limiting the charges and fees for the collection of poll taxes.
- Chapter 260 Providing for reassessment and collection of local taxes after disclaimers of tax titles held by cities or towns.
- Chapter 266 Reviving and extending the existence of the Mashpee Advisory Commission.
- Chapter 269 Relative to tax liens on real estate in case of bankruptcy of the owner thereof.
- Chapter 276 Providing for adequate discovery in proceedings for tax abatement and in tax appeal cases.
- Chapter 278 Relative to the redemption of a tax title held by a city or town.
- Chapter 294 Relative to the exemption from taxation of property of certain persons.
- Chapter 295 Further regulating the calling out of the militia as an aid to the civil power of the commonwealth.
- Chapter 297 Regulating sales of stocks, bonds and other securities of corporations to their employees.
- Chapter 299 Making appropriations for the maintenance of certain counties, for interest and debt requirements, for certain permanent improvements, and granting a county tax for said counties.
- Chapter 300 Extending for one year the opportunity to cities and towns to borrow under the act creating the Emergency Finance Board and making certain that such extension becomes effective forthwith.
- Chapter 303 Relative to the disposition of certain motor vehicle fines.
- Chapter 305 Authorizing cities and towns to provide headquarters for local posts of the Jewish War Veterans of the United States.
- Chapter 307 Relative to the construction of a parkway extending from the junction of Revere Beach Parkway and Fellsway to Mystic Avenue in Medford.
- Chapter 310 Relative to the licensing of public warehousemen and relative to the contents of warehouse receipts.
- Chapter 318 Extending the jurisdiction of the Land Court.
- Chapter 322 Relative to the abatement of local taxes, assessments and other charges and to the suspension of payment of certain assessments.
- Chapter 336 Further extending the time during which there shall be collected an additional excise tax on sales of gasoline.
- Chapter 341 Relative to uniforms of court officers in a certain district court in Suffolk County.
- Chapter 345 Providing for the annual listing of aliens in all cities and towns of the Commonwealth.
- Chapter 346 Relative to the unauthorized practice of law.
- Chapter 354 Providing for redemption in part from tax sales in certain cases.
- Chapter 373 Relative to the acquisition of additional lands for state forests.
- Chapter 378 Providing for the licensing and bonding of certain theatrical booking agents, personal agents and managers.
- Chapter 380 Extending the term of office and the powers of the emergency public works commission.
- Chapter 388 Relative to the powers of Boards of Appeal under the municipal zoning laws, so called.
- Chapter 392 Authorizing temporary borrowings by the commonwealth in anticipation of receipts from federal grants for emergency public works.

- Chapter 403 Relative to the calling of town meetings and the validating of the acts and proceedings of certain towns.
- Chapter 404 Relative to the securing of the benefits of the National Industrial Recovery Act and the Emergency Relief Appropriation Act of 1935 by counties, cities, towns and districts.
- Chapter 409 Relative to the fees for the registration of certain motor vehicles and trailers.
- Chapter 411 Relative to the method of payment of salaries of members of the Commission on Public Utilities and of certain salaries and expenses incurred by the Department of Public Utilities in the performance of certain of its functions.
- Chapter 414 Relative to interest upon tax titles and to redemption therefrom by instalment payments.
- Chapter 436 Relative to certain deductions from income received from professions, employment, trade or business under the income tax laws.
- Chapter 438 Relative to the income taxation of gains from certain transactions in real property.
- Chapter 440 Making additional sundry changes in the laws relating to alcoholic beverages.
- Chapter 442 Relative to expenses of the Department of Public Welfare for the administration of old age assistance.
- Chapter 447 Relative to the informal procedure before the Board of Tax Appeals.
- Chapter 449 Further enlarging the powers of the State Board of Housing and of certain limited dividend corporations, and authorizing the establishment of local housing authorities and defining their powers and duties.
- Chapter 452 To provide for the authorization and supervision of banking companies.
- Chapter 461 Providing for preference to be given to veterans and others in the employment of mechanics, teamsters, chauffeurs and laborers on certain public works, and providing also for the prior determination by the Commissioner of Labor and Industries of the minimum wages to be paid to said employees on such public works.
- Chapter 462 Enabling the commonwealth to secure certain benefits provided for in an act of Congress for research into matters pertaining to the production, distribution and sale of agricultural products and for allied purposes.
- Chapter 464 Providing a public works program for the purpose of alleviating existing conditions resulting from unemployment.
- Chapter 470 Relative to the Municipal Finance Commission for the town of Millville and providing further for the financial relief of said town.
- Chapter 473 Relative to the assessment and payment of taxes of certain corporations and of interest thereon.
- Chapter 476 Transferring a portion of the proceeds of the gasoline tax from the Highway Fund to the General Fund.
- Chapter 479 To provide for the establishment and administration of unemployment compensation.
- Chapter 480 Providing for a temporary additional tax upon personal incomes, corporations, successions and legacies.
- Chapter 481 Relative to the taxation of the excess of gains over losses accruing from the sales of certain shares of stock.
- Chapter 489 Relative to the taxation of incomes and of certain business and manufacturing corporations.
- Chapter 494 Relative to the acceptance and expenditure of certain federal funds under the Social Security Act, so called, and changing the residence requirements for mothers' aid and old age assistance so far as necessary to obtain said funds.
- Chapter 495 Relative to the terms of certain bonds, notes or other forms of written acknowledgment of debt to be issued by the commonwealth.

- Chapter 497 In addition to the general appropriation act making appropriations to supplement certain items contained therein, and for certain new activities and projects.
- Chapter 498 To apportion and assess a State Tax of ten million dollars.

#### RESOLVES:

- Chapter 5 Providing for the indexing of the special laws of the Commonwealth.
- Chapter 12 Relative to certain expenses in connection with the interstate legislative assembly and the commission on conflicting taxation.
- Chapter 48 Providing for an investigation and study by a special commission relative to municipal financing in the city of Boston.
- Chapter 51 Providing for an investigation by a special commission relative to the advisability of providing for the licensing and regulation of the business of financing purchases of certain personal property.
- Chapter 53 Providing for an investigation by a special commission relative to the advisability of revising the provisions of the general laws relating to a contributory retirement system for cities and towns.
- Chapter 63 Providing for an investigation and study by a special commission relative to the taxation of tangible and intangible property, and related matters.

#### VALUATION OF MACHINERY, POLES, WIRES AND UNDERGROUND CONDUITS, WIRES AND PIPES OF TELEPHONE AND TELEGRAPH COMPANIES

##### General Laws, Chapter 59, Sections 39-42

The value at which machinery, poles, wires and underground conduits, wires and pipes of telephone and telegraph companies is assessed is determined annually by the Commissioner of Corporations and Taxation and certified by him to the assessors of the various cities and towns of the Commonwealth. Such property is in reality one continuous piece of property intersected by various town lines, and the value as a whole should be considered in determining its fractional subdivision.

The total valuation for April 1, 1934, as determined by the Commissioner, was \$57,174,583. It is to be borne in mind that this includes only such aerial construction as consists of poles and wires which are erected upon private property or in a railroad location, although it includes conduits with wires and pipes therein laid in public streets. The taxation of aerial construction in public ways is in substance accomplished through the corporate franchise tax. The total valuation of property so valued and certified to the local assessors exclusive of machinery amounted to \$56,609,049. Machinery so valued and certified amounted to \$565,534. Right of appeal against the values thus determined is granted by the statute to the corporations and also to the assessors. No appeals were taken during the fiscal year ending November 30, 1934.

#### THE TAXATION OF STOCK TRANSFERS

##### General Laws, Chapter 64

Chapter 64 of the General Laws imposes an excise "on all sales or agreements to sell or memoranda of sales or deliveries or transfers of shares or certificates of stock in any domestic or foreign corporation, whether made upon or shown by the books of the corporation, or by any assignment in blank, or by any delivery, or by any paper or agreement or memorandum or other evidence of transfer or sale, whether or not entitling the holder in any manner to the benefit of such stock or to secure the future payment of money or the future transfer of any stock". The excise is also applicable to the transfer of certificates of participation or shares of voluntary associations. The excise is at the rate of two cents on each one hundred dollars of face value or fraction thereof, or, in the case of no par stock, at the rate of two cents for each share of stock. The payment of the tax is denoted by adhesive stamps to be affixed and cancelled by the person making the sale or transfer. Stamps may be purchased from the Old Colony Trust Company, 17 Court Street, Boston, Massachusetts, which has been constituted agent for the sale of such stamps.

Checks should be made payable to that company. The company accounts monthly to the Commissioner of Corporations and Taxation. Through the foregoing arrangement the expense of collection is nominal. The proceeds of the tax are retained by the Commonwealth. Rules and regulations relating to the tax have been issued by the Commissioner and may be had upon application to the Department of Corporations and Taxation, State House, Boston.

A further drop in the revenue of this tax is shown and is undoubtedly attributable to the relative inactivity of the market. The total sales for the fiscal year ending November 30, 1934 amounted to \$212,246.80. Refunds for stamps erroneously affixed amounted to \$369.86 leaving the net receipts \$211,876.94.

Monthly sales were as follows:

|               |             |            |             |           |             |                |             |
|---------------|-------------|------------|-------------|-----------|-------------|----------------|-------------|
| December 1933 | \$24,296 62 | March 1934 | \$15,390 56 | June 1934 | \$14,043 08 | September 1934 | \$8,636 70  |
| January 1934  | \$32,092 30 | April      | \$16,423 62 | July      | \$15,150 18 | October        | \$14,906 86 |
| February      | \$25,017 84 | May        | \$18,468 60 | August    | \$12,644 38 | November       | \$15,176 06 |

The revenue from the sale of stamps from December 1, 1914 to November 30, 1934 inclusive on the basis of fiscal years ending November 30 is shown below:

|        |              |        |              |        |              |        |              |
|--------|--------------|--------|--------------|--------|--------------|--------|--------------|
| 1915.. | \$162,535 98 | 1920.. | \$264,172 52 | 1925.. | \$299,173 86 | 1930.. | \$514,416 78 |
| 1916.. | 212,878 09   | 1921.. | 191,144 34   | 1926.. | 322,297 92   | 1931.. | 341,169 76   |
| 1917.. | 148,906 14   | 1922.. | 219,633 14   | 1927.. | 425,435 64   | 1932.. | 308,204 58   |
| 1918.. | 112,707 04   | 1923.. | 207,249 44   | 1928.. | 540,058 32   | 1933.. | 302,536 99   |
| 1919.. | 214,248 86   | 1924.. | 219,589 08   | 1929.. | 866,857 24   | 1934.. | 211,876 94   |

The average yield per annum over the twenty years is \$304,254.63.

## INSURANCE COMPANIES

### General Laws, Chapter 63, Sections 20-29

#### *Tax upon Premiums*

Under the provisions of these sections there were subject to the premium tax 27 foreign life companies; 312 fire and marine companies, of which 52 were organized under the laws of Massachusetts; and 132 miscellaneous companies, of which 35 were domestic companies.

The basis of the tax is the total gross premiums written or renewed for insurance, or reinsurance, of property or interests in Massachusetts, deduction being granted for all premiums returned or credited to policyholders during the taxable year, including so-called dividends in the case of mutual companies, and for reinsurance paid to authorized companies, provided it is shown to the satisfaction of the Commissioner of Corporations and Taxation that the tax upon such premiums is being paid in full by the reinsuring company.

The rate of tax provided by the statute is 1 per cent for domestic companies and 2 per cent for foreign companies, but retaliatory provisions specify that the tax upon every foreign insurance company shall be not less in amount than would be imposed by its parent state or country upon a like insurance company incorporated in Massachusetts, if doing business to the same extent in such state or country.

The following table shows the assessment upon net premiums, classified by the rates per cent charged in conformity with the above provisions and in reconciliation of differing bases of taxation:

| Net Premiums Subject to Tax | Rate Per Cent       | Amount of Tax |
|-----------------------------|---------------------|---------------|
| \$24,739 57                 | $\frac{1}{10}$ of 1 | \$24 74       |
| 119,884 34                  | $\frac{1}{4}$ of 1  | 299 71        |
| 347,984 80                  | $\frac{3}{8}$ of 1  | 1,304 94      |
| 161,250 80                  | $\frac{1}{2}$ of 1  | 806 26        |
| 76,290,014 34               | 1                   | 762,900 12    |
| 333,974 15                  | $1\frac{1}{2}$      | 5,009 63      |

|                  |                 |                           |
|------------------|-----------------|---------------------------|
| \$1,494,884 40   | 1 $\frac{3}{4}$ | \$26,160 48               |
| 70,223,919 86    | 2               | 1,404,478 40 <sup>1</sup> |
| 138,555 21       | 2 $\frac{1}{4}$ | 3,117 51                  |
| 1,601,986 37     | 2 $\frac{1}{2}$ | 40,049 65                 |
| 982,246 22       | 2 $\frac{1}{5}$ | 25,538 39                 |
| 22,387 67        | 2 $\frac{3}{4}$ | 615 66                    |
| 60,981 34        | 2 $\frac{3}{5}$ | 1,740 00                  |
| 214,986 37       | 3               | 6,449 59                  |
| <hr/>            |                 |                           |
| \$152,017,795 44 |                 | \$2,278,495 08            |

<sup>1</sup> Includes one \$100 privilege tax.

So far as the tax authorized by these sections relates to foreign life insurance companies, the statute now embodies the decision of the court sustaining the interpretation of the Commissioner, that the premium tax shall be exacted only in cases where and to the extent that such tax exceeds the tax assessed under Section 20 upon the net value of policies described below. (*Metropolitan Life Ins. Co. v. Commonwealth*, 198 Mass. 466.) The amount of premium tax which would have been paid by these 27 foreign life companies, were it not for the credit to be given on account of the tax on the net value of policies, is \$711,182.86. But in the case of 11 of the 27 companies upon which a premium tax of \$626,417.36 was computed, the tax upon the net value of policies exceeded the premium tax, and so no premium tax was exacted, and in the case of the other 16 companies upon which a premium tax of \$84,765.50 was computed, there was given a credit of \$57,723.39 assessed as the tax on the net value of policies under Section 20. Therefore these 16 foreign life companies are actually required to pay only \$27,042.11 as a premium tax.

The total premium tax to be collected is as follows:

|                                     | Domestic     | Foreign        | Total          |
|-------------------------------------|--------------|----------------|----------------|
| Life companies . . . . .            | —            | \$27,042 11    | \$27,042 11    |
| Fire and marine companies . . . . . | \$59,269 95  | 538,681 68     | 597,951 63     |
| Miscellaneous companies . . . . .   | 129,469 02   | 839,891 57     | 969,360 59     |
| <hr/>                               |              |                |                |
| Total . . . . .                     | \$188,738 97 | \$1,405,615 36 | \$1,594,354 33 |

In settlement of claims the following abatements were made on account of taxes of previous years: 1932, \$657.79; 1933, \$18.42.

Additional taxes, due to audit, were assessed as follows: 1926, \$43.70; 1927, \$166.67; 1929, \$75.00; 1930, \$60.34; 1932, \$7.47; 1933, \$861.64.

#### *Tax upon the Net Value of Policies of Life Insurance Companies*

Foreign and domestic life insurance companies are alike subject to tax upon the net value of all policies in force upon the lives of residents of Massachusetts at the rate of one-fourth of 1 per cent. The aggregate net value of such policies issued by 48 companies, of which 12 were domestic companies, was \$854,627,216.52. The total excise assessed was \$2,136,568.09.

#### TAX UPON SAVINGS AND INSURANCE BANKS

##### General Laws, Chapter 63, Section 18

Under this section the General Insurance Guaranty Fund and the life insurance departments of twenty-one savings banks were taxed upon all funds held or in possession as a part of their insurance reserve or surplus at the rate of one-half of 1 per cent, deduction being granted for certain investments specified by Section 12 of Chapter 63. The total amount taxable was \$4,906,096.00, and the tax assessed, \$24,530.48.

Adjustments due to audit of the taxes of previous years resulted in the following additional assessments:

1932, \$3.43; 1933, \$319.58.

## THE APPROVAL OF CORPORATE ORGANIZATIONS AND REPORTS

Articles of organization, amendments, certificates of condition and reports of various kinds some of which are required to be filed by corporations in the office of the secretary of the Commonwealth and must first be approved by the Commissioner of Corporations and Taxation. Certificates thus presented for the approval of the Commissioner of Corporations and Taxation are submitted by domestic corporations including public service corporations, foreign business corporations as defined in Chapter 181 of the General Laws, religious, charitable, social corporations and the various other classes of companies that may be organized under Chapter 180 of the General Laws, and voluntary associations.

### MASSACHUSETTS CORPORATION ORGANIZATION

The number of corporation organizations which received the approval of the Commissioner during the year, together with the authorized capitalization thereof, follows:

| Law  | Number | Capital                   |
|--|--------|---------------------------|
| Domestic business corporations, G. L. chap. 156. . . . .                                   | 2,178  | \$37,090,710 <sup>1</sup> |
| Public service companies, G. L., chap. 158 . . . . .                                       | 2      | 11,500                    |
| Gas and electric companies, G. L., chap. 164 . . . . .                                     | —      | —                         |
| Savings Banks, G. L., chap. 168 . . . . .  | —      | —                         |
| Co-operative banks, G. L., chap. 170 . . . . .   | —      | —                         |
| Credit unions, G. L., chap. 171 . . . . .  | 33     | — <sup>2</sup>            |
| Trust companies, G. L., chap. 172 . . . . .  | —      | —                         |
| Charitable and certain other purposes, G. L., chap. 180<br>with capital stock . . . . .    | 10     | 184,810                   |
| Charitable and certain other purposes, G. L., chap. 180<br>without capital stock . . . . . | 440    | —                         |
| Churches, G. L., chap. 67 . . . . .  | 12     | —                         |
| Drainage districts, G. L., chap. 252 . . . . .   | —      | —                         |
| Co-operative Associations, G. L., chap. 157 . . . . .                                      | 6      | 40,246                    |
| Co-operative Associations, G. L., chap. 157 without<br>capital stock . . . . .             | 1      | —                         |
| Medical Milk Commission, G. L., chap. 180 . . . . .  | —      | —                         |
| Labor or Trade Organizations. . . . .  | 12     | —                         |
|  | 2,694  | \$37,327,066              |

### *Dissolution*

The Secretary of the Commonwealth reports that 21 corporations have been dissolved by order of the Supreme Judicial or Superior Court. In addition, the Legislature, by Chapter 187 of the Acts of 1934, dissolved 2,648 business corporations, and 24 corporations organized for charitable or other purposes, and 11 public service corporations.

### ARTICLES OF AMENDMENT

Information relating to certificates examined and approved by the Commissioner of Corporations and Taxation follows:

#### *Increase of Capital Stock*

|  | Amount of Increase        |
|--|---------------------------|
| 210 business corporations, under General Laws, Chapter 156, Sec-<br>tion 44 . . . . .  | \$17,530,845 <sup>3</sup> |
| 25 trust companies, under General Laws, Chapter 172, Section 18 . . . . .              | 10,637,500                |
| 8 gas and electric companies, under General Laws, Chapter 164,<br>Section 10 . . . . . | 3,327,475                 |
| 1 public service corporation, under General Laws, Chapter 158,<br>Section 24 . . . . . | 35,000                    |

| Total  | \$62,437,655              |
| Net decrease   | \$30,906,835 <sup>5</sup> |

<sup>4</sup>And 658,011 shares without par value.<sup>5</sup>And a decrease of 466,522 shares without par value.*Issue of Capital Stock*

423 business corporations, under General Laws, Chapter 156, Section 16.

*General Amendments<sup>1</sup>*

456 business corporations, under General Laws, Chapter 156, Sections 41 and 42.

*Miscellaneous Amendments*

384 changes in annual meeting date.

13 corporations organized for charitable and other purposes; change of purpose, under General Laws, Chapter 180, Section 10.

34 changes of name, under General Laws, Chapter 155, Section 10.

[Applies to all corporations except domestic business corporations, railroad and street railway companies.]

10 changes of name under General Laws, Chapter 180, Section 11.

No change in par value of shares, under General Laws, Chapter 164, Section 8.

No change of purpose, under General Laws, Chapter 164, Section 22.

No payment of capital, under General Laws, Chapter 164, Section 20.

No acceptance of Section 3, Chapter 156, General Laws.

1 verification of payment of capital, Chapter 158, Section 36.

*Change of Officers*

1,243 changes of officers, under General Laws, Chapter 156, Section 24, and Chapter 164, Section 29.

## CERTIFICATES OF CONDITION

17,350 business corporations, under General Laws, Chapter 156, Section 47.

111 gas and electric and other public service companies, under General Laws, Chapter 158, Section 37.

## SUMMARY

The foregoing shows that 23,137 amendments and certificates have been examined and approved by the Commissioner of Corporations and Taxation during the year; an increase of 404 over 1933.

## FOREIGN CORPORATIONS

## General Laws, Chapter 181

The term "foreign corporation" as used in the General Laws, Chapter 181, is defined as a corporation, association or organization, except an insurance company or a corporation organized for a purpose for which domestic corporations can be organized under chapter one hundred and eighty, which has been established, organized or chartered under laws other than those of Massachusetts.

## REGISTRATION

Foreign corporations under the provisions of General Laws, Chapter 181, Sections 3 and 5, as a condition precedent to doing business in Massachusetts, must file with the Commissioner of Corporations and Taxation —

<sup>1</sup>Includes change of name, par value of stock, location, nature of business, classes of capital stock subsequently to be issued, and their voting power, right to sell, lease or exchange of all property and assets including good will and corporate franchise.

1. Appointment of the Commissioner of Corporations and Taxation as its attorney upon whom all lawful processes in any action or proceeding against it may be served.

2. A copy of its charter certified by the Secretary of State (or other qualified officer) of the State or country which issued it.

3. A certificate regarding its capital stock, officers, and other information.

4. A true copy of its by-laws.

232 corporations registered and 281 corporations filed affidavits of withdrawal during the year ending November 30, 1934, or have been withdrawn from the list of active companies because of their repeated delinquency as to taxes and the filing of certificates of condition. The companies registered have an aggregate authorized capital stock of \$405,252,290 and 24,939,618 shares without par value. The fees amounting to \$11,600 have been deposited with the Treasurer and Receiver-General.

#### AMENDMENTS

Under the provisions of said chapter, there have been filed 9 certificates of increase and 42 certificates of decrease of capital stock. 25 corporations have filed amendments changing their corporate names.

Increases in authorized capital stock reported aggregated \$18,735,100, and no shares without par value and reductions aggregated \$523,690,456 and 1,235,905 shares without par value.

#### CERTIFICATES OF CONDITION

Foreign corporations are required annually to submit to the Commissioner of Corporations and Taxation for his approval a certificate of condition. After examination, if the certificate conforms to the requirements of the statute, the Commissioner indorses his approval thereon. The certificate is then filed in the office of the Secretary of the Commonwealth. 1,967 certificates of condition have been examined and approved during the year.

#### SERVICE OF PROCESS

Under the provisions of Sections 3 and 3A of Chapter 181 of the General Laws, as amended, 758 writs have been served upon the Commissioner of Corporations and Taxation during the year, and the fees accompanying, \$1,516, have been deposited with the Treasurer and Receiver-General.

#### VOLUNTARY ASSOCIATIONS

General Laws, Chapter 182

##### REGISTRATION

Section 2 of Chapter 182 of the General Laws provides that, as to voluntary associations under a written instrument or declaration of trust, except certain "Voting Trusts," when the beneficial interest is divided into transferable certificates of participation or shares a copy of the written instrument or declaration of trust creating it be filed with this Department. 28 such voluntary associations have registered during the year, and the fees, amounting to \$1,400 have been deposited with the Treasurer and Receiver-General.

#### PETITIONS TO REVIVE CERTAIN CORPORATIONS, ETC.

Section 7 of Chapter 3 of the General Laws, as amended, provides that whoever intends to present to the General Court a petition to establish or revive a corporation of a certain class, amend the charter, change the corporate purpose or name, shall, on or before November 1, prior to the intended presentation, deposit the same with the Commissioner of Corporations and Taxation; and if the petition relates to a corporation organized for business or profit it shall be accompanied by a fee of \$25.

Under the provisions of this section there has been received and turned over to the Treasurer and Receiver-General the sum of \$407, and the petitions forwarded to the General Court.

#### MISCELLANEOUS RECEIPTS

There has been received \$1,453.30 for copies of documents filed in this office and for witness fees, and this amount has been deposited with the Treasurer and Receiver-General.

## DIVISION OF MISCELLANEOUS TAXES

## TAXATION OF NATIONAL BANKS AND TRUST COMPANIES

General Laws, Chapter 63, Sections 1-7 as amended

In compliance with the law, the following procedure was followed to obtain the 1934 rate applicable to "banks."

## THE COMMONWEALTH OF MASSACHUSETTS

DEPARTMENT OF CORPORATIONS AND TAXATION

STATE HOUSE, BOSTON, June 21, 1934.

*To the Cashier of each National Bank  
and the Treasurer of each Trust  
Company in Massachusetts: —*

*Subject*  
1934 Bank Tax Rate

Pursuant to and under the authority of the requirements of sections 1 to 7, inclusive, and in particular, section 2 of Chapter 63 of the General Laws (Ter. Ed.), you are hereby notified of a hearing to be held in Room 239, State House, Boston, on Monday, June 25, 1934, at 12.00 o'clock noon.

Section 2 of Chapter 63 provides that

Every bank shall pay annually a tax measured by its net income, as defined in section one, at the rate assessed upon other financial corporations; provided, that such rate shall not be higher than the highest of the rates assessed under this chapter upon mercantile and business corporations doing business in the commonwealth, and provided further, that such rate shall not be higher than six per cent. The commissioner shall determine the rate on or before July first of each year after giving a hearing thereon, and at or prior to such hearing he shall make available to all banks requesting the same a statement showing the aggregates of the income returnable during the preceding calendar year and taxable under this chapter and the aggregates of the taxes under this chapter of such year, with respect to the following classes of corporations: (1) domestic financial corporations, (2) foreign financial corporations, (3) domestic manufacturing corporations as defined in section thirty-eight C, (4) foreign manufacturing corporations as defined in section forty-two B, (5) domestic business corporations as defined in section thirty, (6) foreign corporations as defined in said section thirty. The commissioner shall seasonably notify the banks of his determination. Appeal by a bank from the determination of the commissioner may be taken to the board of tax appeals within ten days after the giving of such notice.

Very truly yours,

HENRY F. LONG,  
*Commissioner of Corporations  
and Taxation*

STATE HOUSE, BOSTON, June 25, 1934.

*To the Cashier of each National Bank  
and The Treasurer of each Trust  
Company in Massachusetts:*

*Subject*  
1934 Bank Tax Rate

In compliance with the provisions of section 2 of chapter 63 of the General Laws as appearing in the Tercentenary Edition, and after due notice of a hearing which was held on June 25, 1934, I have determined the 1934 rate at which the income of banks shall be taxable to be 6.00 per cent.

Very truly yours,

HENRY F. LONG,  
*Commissioner of Corporations  
and Taxation*

## [CHAP. 327]

AN ACT RELATIVE TO TAXATION OF BANKS, TRUST COMPANIES AND CERTAIN OTHER CORPORATIONS, ESPECIALLY WITH RESPECT TO THE DEFINITION OF NET INCOME.

Whereas, The deferred operation of this act would tend to defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Section one of chapter sixty-three of the General Laws, as appearing in the Tercentenary Edition thereof, is hereby amended by striking out the paragraph defining "Net income" and inserting in place thereof the following:—

"Net income," the gross income from all sources, without exclusion, for the taxable year, less the deductions, other than losses sustained by the bank in other fiscal or calendar years and other than dividends, allowable by the federal revenue act applicable for said taxable year.

SECTION 2. Section two of said chapter sixty-three, as so appearing, is hereby amended by adding at the end of the first sentence the words:—; and, provided, further, that such rate shall not be higher than six per cent, — so as to read as follows:—*Section 2.* Every bank shall pay annually a tax measured by its net income, as defined in section one, at the rate assessed upon other financial corporations; provided, that such rate shall not be higher than the highest of the rates assessed under this chapter upon mercantile and business corporations doing business in the commonwealth; and, provided, further, that such rate shall not be higher than six per cent. The commissioner shall determine the rate on or before July first of each year after giving a hearing thereon, and at or prior to such hearing he shall make available to all banks requesting the same a statement showing the aggregates of the income returnable during the preceding calendar year and taxable under this chapter and the aggregates of the taxes under this chapter of such year, with respect to the following classes of corporations: (1) domestic financial corporations, (2) foreign financial corporations, (3) domestic manufacturing corporations as defined in section thirty-eight C, (4) foreign manufacturing corporations as defined in section forty-two B, (5) domestic business corporations as defined in section thirty, (6) foreign corporations as defined in said section thirty. The commissioner shall seasonably notify the banks of his determination. Appeal by a bank from the determination of the commissioner may be taken to the board of tax appeals within ten days after the giving of such notice.

\* \* \* \* \*

SECTION 7. This act shall apply to taxes assessed in the year nineteen hundred and thirty-three and thereafter.

*Approved July 17, 1933.*

The following tables show the amount of taxes flowing from the taxation of "banks."

TABLE ELEVEN

AMOUNT AND APPORTIONMENT OF TAX  
146 National Banks. 82 Trust Companies (1934).

| Year and Rate |       | Total Bank Tax | Cities and Towns | Commonwealth |
|---------------|-------|----------------|------------------|--------------|
| 1926          | 6.00% | \$1,035,362 38 | \$766,430 08     | \$268,932 30 |
| 1927          | 5.34% | 883,017 49     | 630,140 27       | 252,877 22   |
| 1928          | 5.65% | 1,013,539 62   | 724,945 81       | 288,593 81   |
| 1929          | 5.62% | 1,252,423 80   | 828,242 06       | 424,181 74   |
| 1930          | 6.40% | 1,415,002 24   | 772,949 85       | 297,257 33   |
| 1931          | 6.53% | 836,561 00     | 569,675 46       | 266,885 54   |
| 1932          | 7.59% | 389,305 17     | 273,646 70       | 115,658 47   |
| 1933          | 6.00% | 567,616 16     | 326,457 41       | 241,158 75   |
| 1934          | 6.00% | 453,870 24     | 260,050 74       | 193,819 50   |

## 146 National Banks (1934)

| Year | Total Tax    | Cities and Towns | Commonwealth |
|------|--------------|------------------|--------------|
| 1926 | \$561,931 19 | \$370,605 71     | \$191,325 48 |
| 1927 | 515,578 81   | 330,589 69       | 184,989 12   |

SAVINGS BANKS AND TRUST COMPANY SAVINGS  
DEPARTMENTS

## General Laws, Chapter 63, Sections 11-17

This heading includes 193 savings banks, the Massachusetts Hospital Life Insurance Company and 67 trust company savings departments. The tax is assessed semi-annually, in May and November covering the preceding six months, upon the average deposits, less those deposits exempt under Section 12, at the rate of one-quarter of one per cent. The essential facts relating to this tax are shown in the following tables:

|   | 1934     | Average Deposits Subject to Tax | Deposits Exempt from Tax | Deposits Taxed | Tax            |
|---|----------|---------------------------------|--------------------------|----------------|----------------|
| 193 savings banks . . . . .                       | May      | \$2,031,840,650                 | \$1,601,015,401          | \$430,877,833  | \$1,077,193 86 |
| 193 savings banks . . . . .                       | November | 2,052,345,806                   | 1,644,838,519            | 407,582,404    | 1,018,955 96   |
| Massachusetts Hospital Life Insurance Co. . . . . | May      | 25,269,067                      | 21,047,816               | 4,221,251      | 10,553 12      |
| 67 savings departments . . . . .                  | November | 24,988,890                      | 21,052,136               | 3,936,754      | 9,841 88       |
| 67 savings departments . . . . .                  | May      | 119,548,833                     | 98,466,364               | 21,446,910     | 53,617 02      |
| 67 savings departments . . . . .                  | November | 123,254,606                     | 99,980,631               | 23,406,440     | 58,516 02      |
| Total . . . . .                                   | —        | —                               | —                        | —              | \$2,228,677 86 |

The total of this tax for each of the years 1922 to 1934 follows:

|                |                |                |                |
|----------------|----------------|----------------|----------------|
| 1934 . . . . . | \$2,228,677 86 | 1927 . . . . . | \$2,398,423 58 |
| 1933 . . . . . | 2,465,085 46   | 1926 . . . . . | 2,124,481 04   |
| 1932 . . . . . | 2,819,141 46   | 1925 . . . . . | 2,071,370 53   |
| 1931 . . . . . | 3,309,303 11   | 1924 . . . . . | 2,037,391 02   |
| 1930 . . . . . | 3,269,487 04   | 1923 . . . . . | 1,998,190 25   |
| 1929 . . . . . | 3,151,956 61   | 1922 . . . . . | 2,052,196 09   |
| 1928 . . . . . | 2,871,473 78   |                |                |

TABLE TWELVE —

|   | October 31, 1928        | October 31, 1929                  | October 31, 1930         |
|---|-------------------------|-----------------------------------|--------------------------|
| Average of deposits in all Savings Banks, for six months ending . . . . .                                   | \$1,990,662,387 = 100%  | \$2,072,118,787 = 100%            | \$2,131,741,397 = 100%   |
| Of the above deposits the following sums are <i>exempt from taxation</i> because invested as follows:       |                         |                                   |                          |
|   |                         |                                   | INVEST                   |

| Net decrease in Deposits Subject to Taxation, 1928 to 1934 . . . . .  | \$114,845,263           |                                   |                          |

NOTE: Each \$1,000 of deposits pays \$1.019 tax per year. The banks ordinarily earn  $5\frac{1}{2}\%$  on their deposits. The tax on this \$55 of earnings is \$1.019 or figured on a percentage basis is the equivalent of 1.853% on income. The above rate of \$1.019 which is as of October 31, 1934, is comparable with \$1.322 as of October 31, 1928.

Net increase in Deposits Exempted from Taxation . . . . . \$201,592,689

\* Total of investments deductible plus the average deposits taxed is in excess of the average deposits, because some banks report investments of deposits exempt from taxation in excess of their average deposits subject to taxation.

<sup>1</sup>In May, 1919, this investment of deposits was \$99,915,152.

## TAXATION OF SAVINGS DEPARTMENT

Net decrease in Deposits Exempted from Taxation . . . . . \$64,266,283

\* Total of investments deductible plus the average deposits taxed is in excess of the average deposits, because some banks report investments of deposits exempt from taxation in excess of their average deposits subject to taxation.

## TAXATION OF PUBLIC SERVICE CORPORATIONS

General Laws, Chapter 63, Sections 53-66

This heading includes railroads, street railways, telephone and telegraph companies, gas and electric light companies, power companies, water companies, and a few miscellaneous corporations which are here included for the reason that they are not subject to Chapter 156 of the General Laws (The Business Corporation Law). The whole number of these public service corporations making tax returns as of April 1 is 220. Of these, a tax was assessed upon 125. The total amount of taxes so assessed was \$2,622,972.42, of which \$7,129.30 was laid upon the street railways and \$2,615,843.12 upon the other public service corporations. Of the \$7,129.30 assessed upon street railways, \$7,023.18 is apportioned to cities and towns in proportion to mileage of tracks, and \$106.12 to the Commonwealth principally on account of trackage in public reservations. Of the \$2,615,843.12 assessed upon other public service corporations, \$1,448,456.98 is apportioned to cities and towns, and \$1,167,386.14 to the Commonwealth. The part distributed to the cities and towns is governed by Chapter 58 of the General Laws which prescribes different methods of distribution for different classes of corporation taxes. Taxes of gas, electric light and water companies are distributed to the cities and towns where the business of the corporation is carried on. The taxes of railroads, telephone and telegraph companies are distributed to the several cities and towns in proportion to the total assessed value of property, actually taxed in each city and town for the preceding year. Taxes assessed on some miscellaneous companies are distributed to cities and towns in proportion to shares of stock owned by residents. The part apportioned to the Commonwealth is on account of shares of stock owned by non-residents of the Commonwealth or by certain corporations. The following table will show the amounts applicable to the different classes of corporations in detail:

|                               | Cities and Towns      | Commonwealth          | Totals                |
|-------------------------------|-----------------------|-----------------------|-----------------------|
| Gas, electric light and power | \$1,185,228 69        | \$725,069 15          | \$1,910,297 84        |
| Railroads                     | 169,073 29            | 117,155 33            | 286,228 62            |
| Street Railways               | 7,023 18              | 106 12                | 7,129 30              |
| Telephone and Telegraph       | 90,067 15             | 300,860 22            | 390,927 37            |
| Miscellaneous                 | 4,087 85              | 24,301 44             | 28,389 29             |
|                               | <u>\$1,455,480 16</u> | <u>\$1,167,492 26</u> | <u>\$2,622,972 42</u> |

The total value of the capital stock of the public service corporations as ascertained by me for the purposes of taxation is — \$671,775,617.

The value of the corporate excess actually taxed is \$81,610,860

The detail of taxes, both *public service* and *business corporations*, follows:

| Telephone and Telegraph       | 15,575 83                          | 62,836 11                   | 78,411 94        |
| Trust companies               | Loss 2,457 41                      | 6,842 33                    | 4,384 92         |
| National banks                | 13,352 97                          | 61,655 96                   | 75,008 93        |
| Miscellaneous                 | 232 14                             | 239 90                      | 472 04           |
| Net                           | \$594,955 55                       | Net \$414,128 83            | Net 1,009,084 38 |

In addition to the above, there has been collected and distributed: Business Corporation taxes of the years 1935 and 1936 in the amount of \$9,843.81, of which five-sixths was distributed to the cities and towns.

The amount shown above as accruing to the Commonwealth and to the cities and towns should not be confused with the sums reported as collections relating to corresponding items, because the distribution made in one fiscal year includes taxes paid in a previous fiscal year. These amounts indicate the distributions made during the fiscal year ending November 30, 1934.

Details of the distribution of corporation taxes appear in tables farther on in this report.

The total tax assessed upon domestic business and manufacturing corporations in 1934 is \$5,682,984.65, and upon foreign business corporations, \$1,978,699.38. There is apportioned to the Commonwealth on account of these corporations

\$947,164.11 of the tax on domestic and \$329,783.23 of the tax on foreign companies; the balance of \$4,735,820.54 on domestic and \$1,648,916.15 on foreign companies is apportioned to cities and towns under the provisions of Section 20 of Chapter 58 of the General Laws, as amended. The foregoing figures of *apportionment* in relation to business corporations show the amounts which would accrue to the Commonwealth and to the cities and towns if all assessed taxes were paid; it should be borne in mind, however, that the amounts actually accruing to the Commonwealth and to the cities and towns vary from these figures.

The amount of the 1934 corporation and bank taxes and interest thereon distributed to the close of the fiscal year, November 30, 1934, aggregated \$10,109,698.34. These taxes were paid by corporations, as follows:

|   |                |
|---|----------------|
| Domestic business companies . . . . .             | \$5,142,580 62 |
| Foreign business companies . . . . .              | 1,894,550 62   |
| Gas, electric light and power companies . . . . . | 1,910,479 80   |
| Railroads . . . . .                               | 286,173 78     |
| Street railways . . . . .                         | 7,129 36       |
| Telephone and telegraph companies . . . . .       | 390,573 74     |
| National banks . . . . .                          | 289,896 40     |
| Trust companies . . . . .                         | 164,016 08     |
| Miscellaneous . . . . .                           | 24,297 94      |

\$10,109,698 34

Distribution of the 1934 taxes and interest thereon paid to November 1 was made in time for settlement with the cities and towns November 20; a subsequent distribution was made as of the close of the fiscal year, November 30. The totals of these distributions are shown in the table following:

|   | Distributed to<br>Cities and Towns | Accruing to<br>Commonwealth |
|---|------------------------------------|-----------------------------|
| Domestic business companies . . . . .   | \$4,285,483 84                     | \$857,096 78                |
| Foreign business companies . . . . .    | 1,578,792 18                       | 315,758 44                  |
| Gas, electric light and power . . . . . | 1,185,340 22                       | 725,139 58                  |
| Railroads . . . . .                     | 169,025 75                         | 117,148 03                  |
| Street railways . . . . .               | 7,023 18                           | 106 18                      |
| Telephone and telegraph . . . . .       | 90,032 98                          | 300,540 76                  |
| National Banks . . . . .                | 140,527 02                         | 149,369 38                  |
| Trust companies . . . . .               | 119,535 78                         | 44,480 30                   |
| Miscellaneous . . . . .                 | 4,090 43                           | 20,207 51                   |
|   | <u>\$7,579,851 38</u>              | <u>\$2,529,846 96</u>       |

### CARE AND CUSTODY OF DEPOSITS

#### General Laws, Chapter 58, Section 28

This statute provides that the Commissioner shall assess one-twentieth of 1 per cent upon certain corporations and organizations on account of trust funds deposited with the Treasurer and Receiver-General. The amount of these funds as reported to me by the Treasurer and Receiver-General was \$6,251,143, upon which \$3,125.57 was assessed.

### EXPENSES OF COMMISSIONS

#### General Laws, Chapter 25, Section 11

The Comptroller reported that \$27,974.65 was the amount to be assessed upon corporations, individuals and municipalities for the expenses of the Gas and Electric Light Division of the Department of Public Utilities. The amount is that appropriated by the Legislature less any unexpended balance remaining from the previous appropriation and as provided in Section 12.

This amount was assessed; and notice thereof, respecting the amounts due from cities and towns, given to the Treasurer and Receiver-General.

## EXPENSE OF INQUESTS

## General Laws, Chapter 38, Section 11

The expense of inquests assessed for 1933 was \$540.19, being the amount reported to me by the Department of Public Utilities.

## INCOME TAX DIVISION

Chapter 307 of the Acts of 1933 in some respects suspends for three years the operation of Chapter 62 of the General Laws but this report is comparable with previous ones.

The returns filed in 1934 reporting income received in the calendar year 1933 provide an increase in revenue due to the passage of Chapter 307 of the Acts of 1933 bringing into the taxable class certain dividends formerly exempt. The revenue, aside from that produced by this change in the law, has remained about the same.

The revenue increase of approximately \$1,400,000 flows from income taxable at 6% of approximating \$800,000 and about \$600,000 taxable at 3% from gains in dealing in intangibles but a decline in business income taxable at 1½% of about \$100,000 reduces the net increase to \$1,300,000.

The collection of this assessment developed very satisfactorily. Of the \$14,133,-202.06 assessed, 98.88 per cent has been collected and deposited with the state treasurer leaving but 2.86 per cent uncollected as compared to 3.98 per cent uncollected on the same date (November 30) of the prior year.

There was collected in 1934 in addition to the current amount on account of assessments made on prior years' taxes, the sum of \$874,689.94, making for the year the sum of \$14,940,014.81, collected and accounted for.

The number of returns filed increased by approximately 9,000, there being 402,521 returns filed in 1933 and 411,305 in 1934. This increase is in major part due to the change in the law which provided for the taxing of dividends received on shares of corporations organized under the laws of Massachusetts. Many individuals who had previously filed income tax returns because their salary was slightly in excess of \$2000, having been reduced in salary to just below \$2000, are no longer required to file, and tend to reduce the number obligated to make returns. The Income Tax Law was not materially changed in 1934. While the revenue under the Income Tax Law continues to be substantial and as distributed to the municipalities an important factor in reducing direct local taxation, conservative estimates must continue to avoid the danger in overestimation which in fixing local tax rates at too low a rate might lead to revenue deficits.

The work of the Income Tax Division is disclosed under the following headings.

*Number of 1934 Returns Reporting Income Received in 1933*

|  | Taxable | Non-Taxable | Total   |
|--|---------|-------------|---------|
| Individual Form 1 . . . . .                | 193,389 | 178,982     | 372,371 |
| Fiduciaries " 2 (Includes 2A)              | 19,572  | 8,814       | 28,386  |
| " " 2B . . . . .                           | 1,837   | 882         | 2,719   |
| Partnerships " 3 . . . . .                 | 2,328   | 4,341       | 6,669   |
| " " 3C . . . . .                           | 181     | 68          | 249     |
| " " 3F . . . . .                           | 430     | 248         | 678     |
| Clubs and Asso-<br>ciations . 3M . . . . . | 178     | 55          | 233     |
| Totals . . . . .                           | 217,915 | 193,390     | 411,305 |

*Explanation of Form Numbers*

|        |  |
|--------|--|
| Form 1 | Used by individual inhabitants.  |
| " 2    | Used by executors, administrators, trustees, guardians, conservators and other fiduciaries.  |
| " 2A   | Used by executors, administrators, guardians or conservators carrying on a business in their fiduciary capacity.   |
| " 2B   | Used by executors, administrators and guardians to report income received prior to the death of decedents, or by the ward prior to appointment of guardian or conservator. |

- " 3 Used by ordinary partnerships doing business in Massachusetts.
- " 3C Used by banking and brokerage partnerships and some individuals engaged in such business, provided the business does not include dealings in or with real estate or tangible personal property.
- " 3F Used by such partnerships, associations or trusts having transferable shares which file the agreement provided by law to pay the tax direct, thereby relieving their shareholders from reporting dividends received on such shares.
- " 3M Used by unincorporated clubs, social or other organizations not carrying on business, but holding taxable investments.

#### ASSESSMENT OF TAXES

There were filed in 1934, 411,305 returns reporting income received during the calendar year 1933 as compared with 402,521 filed during 1933, an increase of 8,784 returns. In addition to the regular assessments, there were 29,337 additional assessments made covering all years open to assessment, bringing total assessments to 440,642.

Temporary female clerical assistance has been engaged during the periods of peak load, in order that no serious delay in the necessary work of the Division be encountered. This procedure proves more economical than permanently increasing the regular clerical staff. The work of assessing and billing the income taxes required the service of 82 clerks, of which 70 were regular employees and 12 comptometer operators employed for three months. 18,570 cases were handled through the Correspondence Section of the Division in correcting apparent errors and omissions and in the development of omitted income. These 18,570 cases were handled during the regular assessment period in addition to the "delinquents" cases referred to this section later in the year. The work in this section is done by one assessor, four to five deputy assessors and twelve clerks and stenographers.

As a result of the work in the Correspondence sections 7,496 cases were developed and taxes assessed in the sum of \$64,412.53 in excess of the tax shown on the return as originally filed by the taxpayer. This work necessitated the sending of 25,906 letters, personal interviews with 7,983 taxpayers or their representatives and the dispatching of 4,305 telephone calls.

Fiduciary returns are assigned to a group specially trained in the interpretation of wills, deeds, trusts, and other instruments. This group consisting of one assessor, one deputy assessor, eight clerks and stenographers and for three months one additional clerk as a computer, completed 29,594 assessments on Forms 2, 2B and 2A during the year. Additional revenue was developed in 260 cases through correspondence and personal interviews in the sum of \$16,326.78 which was, through error or misinterpretation of fiduciary instruments, omitted from the original returns.

The Partnership Section composed of one assessor, five clerks and stenographers are engaged on work relating to returns filed on Forms 3, 3-C and 3-M. The work in this section not only involves the assessment of the returns themselves but requires in certain cases a check with individual returns to determine that exemptions and deductions are properly claimed and not duplicated. 7,334 assessments were made during the year by this section and in addition the sum of \$681.39 was gained as additional revenue through correspondence and personal interviews in 37 cases. This additional revenue was from income discovered in excess of that shown by the original return as filed by the taxpayer.

The Corporation Section comprises one assessor, one deputy assessor, one regular clerk and stenographer and at intervals one additional clerk. The principal work of this section is to answer questions pertaining to corporation dividends, both cash and stock, reorganizations, mergers and consolidations, and various forms of liquidation. For this purpose a substantial financial library must be maintained. In addition there is also handled the work of filing and assessing 682 returns filed on Form 3-F by partnerships, associations and trusts with transferable shares, which have filed the necessary agreement with the Commissioner. Completed field audits are checked and recorded by this section.

The value of a careful examination of income tax returns filed is shown by the fact that such examination developed the sum of \$81,429.70 in additional revenue.

## DELINQUENTS

Since the enactment of the Income Tax Law (Chapter 269 — 1916) there has been a steady and unrelenting effort through every available method to uncover delinquent taxpayers. Many thousands of income tax returns have been obtained by requiring taxpayers who have filed some year to account for omitted years, by checking in addition to the information returns filed with the Division, records in the local assessors' offices, registrar of voters, registrar of motor vehicles, registry of deeds and probate, directories, blue books, telephone books, "banker and tradesman," chattel mortgage records, records of licensing bureaus, federal returns filed in Washington and Boston, and all and minor other available sources. Nothing is overlooked and no source is neglected. Few cases of deliberate evasion are found. Most of the delinquent cases are due to ignorance of the law, failure to note changes, due to court decisions and rulings coupled all too frequently with too general acceptance of advice from "the man on the street." The results obtained year by year indicate the value of this effort and demonstrate the need of continued attention to the detail of unearthing new taxpayers by frequent excursions into new and unploughed fields. For the year ending November 30, 1934, 16,386 returns were thus obtained, covering the income received in the calendar years 1931, 1932 and 1933, and a tax of \$96,997.92 was assessed thereon.

The correspondence, fiduciary, domicile and auditing sections of the main office and the assessors and deputy assessors in the ten district offices pursue this line of endeavor throughout the year.

In the fall of each year, statistics are taken from the returns of the current year and a check made of each individual case to make certain that all returns that are due are filed, under the requirements of the law. Where a return for a particular year is not on file, the Correspondence Section is instructed to ascertain the reason or require a return to be filed. During the current year 19,769 such cases were referred, which required the mailing of 23,936 letters (dictated and form), interviewing of 7,983 taxpayers or their representatives, and the handling of 4,305 telephone calls. As a result 5,663 returns were obtained and a tax of \$30,044.70 assessed as additional revenue.

The Domicile Section, comprising one assessor, one deputy assessor, five clerks and stenographer, handle all cases where domicile adverse to Massachusetts is claimed. 3,384 such cases were handled by this section during the current year. In 1,477 of these cases it was clearly demonstrated that domicile was actually in Massachusetts, in 364 cases that domicile was outside of Massachusetts and in 1,443 cases there was doubt, which cases were held in abeyance pending the submission of additional facts or the result of an investigation. The 1,477 cases held to be domiciled in Massachusetts involved taxes totaling \$82,586.33. At the close of the current year approximately 100 cases had not been reached and as their status had not been determined they are not included in the foregoing figures.

The Fiduciary Section consisting of one assessor, one deputy assessor, eight clerks and stenographers are charged with tax returns pertaining to executors, administrators, trustees, guardians, conservators, trustees and receivers in bankruptcy, other fiduciaries and the returns filed by them. The work involves the interpretation of many involved wills, trust and indentures. During the assessment of fiduciary returns and a review of probate records, errors and omissions were found in numerous cases and 646 fiduciaries were discovered as having omitted to make any returns. This work resulted in additional revenue of \$16,326.78. Of the 646 returns required to be filed, 421 were the direct result of the information obtained by a review of the records in the various probate registries.

Other than the main office, ten district offices are maintained in various parts of the state, and through these offices delinquent and audit work is carried on throughout the year, which is in addition to the necessary work in assisting taxpayers on filing return, the collection of taxes and other detail work. The activities of the district offices developed 9,778 delinquent returns, with \$38,210.93 assessed as additional revenue.

The Auditing Section, while a part of the main office and assigned to the audit of the larger and more complicated tax returns, has incident to the audit work discovered 133 delinquent taxpayers and required returns to be filed involving additional taxes of \$6,057.41.

## AUDITS AND INVESTIGATIONS

The auditing work is carried on in the field by personal contact with the taxpayer and his records, by the assessor and deputy assessors in the ten district offices and the auditing section of the main office. The primary object is to check the taxpayer's original records with the amounts shown on the filed tax return, and during this fiscal year, involved the 1932, 1933 and 1934 returns filed showing income for the calendar years 1931, 1932 and 1933 respectively. Particular attention was paid to the 1932 returns as the right to review expired under the law on September 1, 1934. In the course of the various audits 9,294 returns were found to be incorrect or insufficient and additional taxes were assessed totalling \$186,139.07.

There are thirty-one assessors and deputy assessors in the district offices who have audited the returns of taxpayers involving a total of 6,367 returns. These include individuals, partnerships, associations and fiduciaries and additional taxes of \$73,306.84 have been assessed.

The force of auditors in the main office was composed of twenty-one men under an assessor as chief auditor and divided into a group of fifteen experienced auditors and six investigators. During the fiscal year this group completed the audit of 4,313 returns filed by 1,771 individuals, partnerships, associations and fiduciaries, and obtained additional revenue in the sum of \$112,832.23.

The total audits for the fiscal year by all the men on this class of work covered the returns of 8,138 taxpayers, showing an average gain per individual case of \$30.05 as compared with an average gain of \$41.91 for each case in the prior year. There were 13,605 returns involved in these examinations and it was found that errors and omissions occurred in 68.31 per cent of the returns so examined. This percentage is comparable with 51.99 per cent in the prior year. While this percentage may seem high, it must be borne in mind that with the limited time and personnel only a small proportion of the returns filed can be audited in the field and selection must be made from the larger returns where, due to the ramifications of business and a complicated law, the opportunity for error and misunderstanding is more apt to be present. Results of special investigations are included in above figures.

The total increase in revenue from field audits was \$186,139.07, a decrease of \$85,673.50 from that received in 1933.

The results of the past seven years of field audit work are clearly shown in the graph following. The fact that gains continue to be made emphasizes the need and desirability of this field of endeavor.

It is axiomatic that no law will administer itself and although the Division and the taxpayer, have had eighteen years of experience, eternal vigilance is still the answer to effective administration and productive results.

Graph showing seven years of field audit work.

## TOTAL GAINS IN TAXES FROM ADMINISTRATIVE ACTIVITIES

Gains from desk audits during the assessment period, new returns through delinquent work and audit work in the field, produced during the year an aggregate additional assessment of \$408,826.03, which except for administrative activities would not have been obtained.

There has been a falling off in additional revenue from this source due to unsettled business conditions and reduced incomes. This shows a loss of 19.18% from the prior year, and yet the money gain nearly equals the total cost of administration.

There was collected by the Division up to March 15, 1934, under the requirements of the change in the law, providing for one half of the tax to be paid at the due date of filing, (Chapter 350 — 1933) \$9,590,458.82 in advance of the assessment of the tax. The greater portion of this sum was distributed to the cities and towns in April, 1934, and thus obviated the need of borrowing this sum. There is some gain in the use of this money while in the hands of the State, but no calculation has been made of the amount saved the state because they were saved borrowing.

## INFORMATION REPORTS

The information reports required to be filed under sections 33 and 34 of the law and Chapter 307, Acts of 1933, by individuals, partnerships, associations, corporations and banking associations, also the Commonwealth and political sub-divisions thereof, form the basis of much of the audit and delinquent work. The information reports are filed on cards of uniform size supplied by the Division. Cards this year combined all the information previously required on separate cards for the various classes, one column being used to report the salary, wages, commissions, fees and all other compensation in amounts exceeding \$2,000 paid to inhabitants of Massachusetts; one column for reporting the number of shares, the preference and the annual dividend rate, held by inhabitants of Massachusetts in corporations and banking associations organized under the laws of any state or nation, and doing business in Massachusetts; one column for the amount of interest paid on bonds, notes and other evidences of indebtedness; and a column for the amount of any annuity paid to an inhabitant of Massachusetts. These cards were subsequently arranged in alphabetical order and their contents checked to the respective returns, or if no return had been filed, were sent to the district offices for delinquent work.

Sample cards were sent to all who had filed in the prior year and to all corporations listed in the printed records of corporations within Massachusetts. There were 1,153,638 such cards filed which cannot be compared to the prior year because of the change in form and the law.

There were reports filed by 27,204 separate organizations and individuals, giving information concerning 1,153,638 items. This section handled 108,698 pieces of mail, gave assistance to 1,387 persons and sent out 6,838 letters in answer to inquiries.

## COLLECTION OF TAXES

Ready comparison may be had in the table following of the net amount of taxes warranted for collection since the law became operative, the net amount actually collected, the balance remaining uncollected and the percentage of tax collected.

|                        | Total Net Tax<br>for Collection | Net Amount<br>Collected | Uncollected<br>November 30,<br>1934 | Percentage<br>Collected             |
|------------------------|---------------------------------|-------------------------|-------------------------------------|-------------------------------------|
| Levy of 1917 . . . . . | \$12,540,561 03                 | \$12,540,561 03         | -                                   | 100%                                |
| Levy of 1918 . . . . . | 14,956,925 47                   | 14,956,925 47           | -                                   | 100%                                |
| Levy of 1919 . . . . . | 15,771,997 67                   | 15,771,997 67           | -                                   | 100%                                |
| Levy of 1920 . . . . . | 17,604,718 21                   | 17,604,718 21           | -                                   | 100%                                |

The difference between certain of the figures in this table and the figures for corresponding years in prior reports is due to additional assessments, subsequent collections and abatements, the object being to bring the tables in each report to an accurate statement as finally disclosed.

In addition to the collection of income taxes, the Commissioner designates the "Collector" to collect in his name all taxes assessed under the tax laws by the commissioner. These include foreign and domestic business corporation taxes, legacy, succession and estate taxes, gasoline taxes, savings and national bank taxes, trust company taxes, insurance company taxes, public utility taxes, liquor taxes, stock transfer taxes and miscellaneous and special taxes. This requires the services of the tellers assigned to the Income Tax Division and at the peak loads additional clerical assistance, in addition to two regular clerks employed by the Corporation Division, but assigned to the "Collector". The amount of collections handled by the collection office, in addition to the income tax collections, amounted to \$43,-551,036.00.

The total revenue collected by this section during the fiscal year 1934 was as follows:

|   |                        |
|---|------------------------|
| 1934 Income Taxes . . . . .   | \$14,065,324 87        |
| Taxes collected under the provisions of Section 4 Chapter 357<br>of the Acts of 1933 . . . . .  | 1,706,879 36           |
| Income Taxes for prior years . . . . .  | 874,689 94             |
| Corporations, Gasoline, Bank, Insurance, Liquor, Inheritance<br>and other Collections . . . . . | 43,551,036 00          |
| Total Collections in 1934 Fiscal Year . . . . .   | <u>\$60,197,930 17</u> |

#### ABATEMENT OF TAXES

No Court or Board of Tax Appeals cases promulgated during the year added materially to the number of cases where abatements were claimed.

Eliminating Court and Board of Tax Appeals cases, there were 3,681 claims for abatement filed and disposed of during the fiscal year, an increase of 172 claims. The total abatements granted covered 3,430 claims with a total of \$94,797.16 in tax as compared with \$126,428.82 in tax in the prior year in 3,163 cases.

During the year 3,595 claims for abatement were filed, of which 251 were disallowed in total, saving \$70,009.42 in tax. There were 3,430 claims allowed in whole or in part involving a total in tax of \$94,797.16. This total was made up of \$91,501.59 regular tax \$263.00 penalties and \$3,032.57 accrued interest at the time the assessment was made. The total abated also includes \$9,950.11 on 101 claims brought under General Laws (Ter. Ed.) Chapter 58, Section 27.

The abatement section also handled 6,194 so-called refund cases without claims for abatement, being cases wherein the taxpayer paid the tax in advance of assessment and the subsequent correct assessment disclosed the overpayment.

Personal interviews were had with 1,865 taxpayers or their representatives in order to assist in the proper filing of the claim or to obtain necessary or additional information to properly judge the merits of the claim.

In the volume of returns assessed and billed only 83 claims for abatement were found to be due to departmental errors, indicating that the system of billing and checking is well developed. At the end of the fiscal year 775 cases remained to be acted upon, of which 108 had been approved but certificates had not been issued.

The following table shows the tax levy, the abatements granted and the percentage abated in their respective years.

| YEAR           | TOTAL        |    | TOTAL      |    | PER CENT |  |
|----------------|--------------|----|------------|----|----------|--|
|                | ASSESSMENTS  |    | ABATEMENTS |    | ABATED   |  |

## DISTRIBUTION OF TAXES

The following table shows the total distribution of income taxes to cities and towns, fire, water and improvement districts, together with the educational encouragement distribution for the fiscal year as noted at the head of each column.

|   | 1930            | 1931            | 1932            | 1933            | 1934            |
|---|-----------------|-----------------|-----------------|-----------------|-----------------|
| Cities and Towns:                           |                 |                 |                 |                 |                 |
| Distributed to Dec. 1, 1933                 | \$25,275,000 00 | \$16,320,000 00 | \$11,600,000 00 | \$6,000,000 00  | —               |
| Distributed Dec. 22, 1933 .                 | —               | 300,000 00      | 500,000 00      | 100,000 00      | —               |
| Distributed Mar. 26, 1934 .                 | —               | —               | —               | —               | \$5,500,000 00  |
| Distributed Nov. 15, 1934 .                 | —               | —               | 170,000 00      | 360,000 00      | 2,160,000 00    |
| Educational Encouragement Measure . . . . . | 5,540,560 13    | 5,684,177 30    | 5,890,130 16    | 5,894,124 26    | 5,673,309 11    |
| Totals . . . . .                            | \$30,815,560 13 | \$22,304,177 30 | \$18,160,130 16 | \$12,354,124 26 | \$13,333,309 11 |

## STATISTICS OF THE 1934 TAX LEVY

The tables following display the principal classes of income which contributed the tax assessed in 1934.

The tax assessed upon salaries, wages, commissions, fees and business income was \$2,392,962.74, a decrease of \$92,730.26 from the total in 1933 or about 3.73 per cent, while the tax from annuities increased \$7,246.73 over the total of \$49,207.97 in 1933.

The tax at 3 per cent upon the excess of gains over losses from the purchase or sale of stocks, bonds, "rights" and other intangible personal property was \$762,-640.56 as compared with \$159,552.94 in the prior year, an increase of 377.98 per cent.

The tax at 6% upon income from intangible personal property increased from \$10,129,560.08 in 1933 to \$10,919,990.06 in 1934 or 7.8 per cent. This increase is due largely to increasing the base by bringing into the taxable class certain dividends previously exempted.

The tax law being divided into four brackets prevents losses in one class of income being deducted from income in another class and has therefore been productive of more revenue for the cities and towns than might have been produced under a general income tax law.

Analysis tables can never be complete for the year at the time of their preparation as additional taxes may be levied for two years or until September 1, 1936, and abatements may be granted. The analysis figures below do not tie in exactly with figures of some of the other tables because of minor clerical errors, absence of returns from the files temporarily and the closing of various estates during the fiscal year.

## ANALYSIS OF 1934 ASSESSMENT

| Total . . . . .        | \$159,530,849 34   | \$3,763,646 66 | \$25,421,352 00 | \$181,999,834 35          |

Total Income Taxed Amounts to \$370,715,682.35

## COST OF ADMINISTRATION.

The main office force of the Division at 40 Court Street, Boston, consists of the director, assistant director, collector, 39 assessors and deputy assessors and 159 to 225 clerks, stenographers, bookkeepers, messengers, telephone operator and photostat operator. There are also 10 offices maintained outside of the main office where 31 assessors and deputy assessors are employed, together with the necessary clerical force of 11 persons. The regular force provided for in the budget appropriation totals 240 persons and additional provision is made for temporary female help during the filing, collection and assessing periods.

In the main office 1,469,625 pieces of mail were handled including both incoming and outgoing mails and also some 166,000 pieces of outgoing mail for the Divisions located at the State House. This same force also handled \$14,940,014.81 of income tax collections, besides the necessary work involved in the collection of \$45,257,915.36 of other taxes collected by the Commissioner.

The ten outside offices located in accessible centers, handled 85,362 pieces of mail both incoming and outgoing, interviewed 108,609 persons at the offices, collected and deposited \$2,359,406.56 of income tax money.

The total cost of administration of the Income Tax Division was \$599,194.25 or 3.59 per cent of the total income tax collections during the year. The percentage of cost to collection will necessarily vary with the amount of revenue collected. It costs just as much to collect \$100 as to collect \$1,000. It is well, however, to call attention to the additional revenue gained through administrative activities, which amount practically equals the cost of administration and has in many previous years nearly doubled the cost.

## ADVANCE PAYMENTS.

A change in the law in 1933 (Chapter 350) required for the first time a payment of one half of the tax at the time of filing the returns and advance payments in 1934 were much in excess of the voluntary advance payments in 1933. While only one half of the tax was required to be paid at the time the return was due to be filed, the Division encouraged the payment of the full tax especially in the smaller cases. Where full payments were made, much expense was saved the Division in postage, envelopes and time, and eliminates the cost of extra efforts often necessary to collect small accounts. During the filing period of 1934 there were 198,235 advance payments made or 193.40 per cent more than in the same period of 1933. The payments totalled \$9,590,458.82 as against \$1,114,880.67 in 1933 or an increase of 760.22 per cent and averaged \$48.37 per payment.

The table following shows the volume of advance payments and the amounts, since the second year of the operation of the law.

| YEAR                     | NUMBER OF<br>PAYMENTS | TOTAL AMOUNT<br>PAID | AVERAGE TAX<br>PER PAYMENT |
|--------------------------|-----------------------|----------------------|----------------------------|
| Taxes of 1918 . . . . .  | 7,967                 | \$227,940 70         | \$28 61                    |
| Taxes of 1919 . . . . .  | 18,273                | 466,668 05           | 25 53                      |
| Taxes of 1920 . . . . .  | 33,030                | 1,101,838 76         | 33 35                      |
| Taxes of 1921 . . . . .  | 47,116                | 1,051,325 25         | 22 31                      |
| Taxes of 1922 . . . . .  | 51,285                | 1,109,813 78         | 21 63                      |
| Taxes of 1923 . . . . .  | 60,679                | 1,313,061 68         | 21 63                      |
| Taxes of 1924 . . . . .  | 68,689                | 1,473,325 67         | 21 44                      |

\* Compulsory.

## LITIGATION

During the fiscal year 1934 two cases pertaining to income tax matters were decided by the Supreme Judicial Court.

Sayles *vs.* Commissioner of Corporations and Taxation by opinion filed March 20, 1934, and Tirrell *vs.* Commissioner of Corporations and Taxation by opinion filed September 13, 1934. Both cases were appeals from decisions of the Board of Tax Appeals.

The "Sayles" case confirmed the Division practice for many years standing in construing the refund of taxes paid on certain bond interest as additional income taxable under section one of the law.

The "Tirrell" case decided that the income of property held in trust is not taxable as an annuity even though the whole or any part of the payments to the beneficiaries is in the form of an annuity.

On November 30, 1934, there were five cases pending before the Supreme Judicial Court.

There were eight appeals taken from the decisions of the Commissioner to the Board of Tax Appeals. The Board of Tax Appeals has promulgated decisions in eight cases, six of these in favor of the Commissioner and two against the Commissioner. Two cases were withdrawn and three appeals taken to the Supreme Judicial Court.

There are now six cases pending before the Board of Tax Appeals.

TABLE FOURTEEN —

## DISTRIBUTION OF TAXES OF THE VARIOUS YEARS

The following table shows the Income Taxes assessed and collected for the years ending November 30, 1934, as distributed to cities, towns and districts.

This table shows the accounting of the Division for the tax levies of the various years:

|                                  | 1925            | 1926            | 1927            | 1928            | 1929            | 1930            | 1931            | 1932            | 1933            | 1934            |
|----------------------------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|

### DIVISION OF CORPORATIONS.

The number of business and manufacturing corporations subject to taxation as of November 30, 1934, was, Domestic, 21,782; Foreign, 2,342.

There has been a slight increase in excise taxes due in part to improvement in certain kinds of business and in part to legislation.

Under the heading "statistics" a detailed comparison is shown.

### ASSESSMENT AND ABATEMENT

The following table gives the total number of original assessments made and total sums assessed during the fiscal year with respect to the business and manufacturing corporation taxes for the years indicated. "Regular" assessments mean those made upon returns filed. "Estimated" assessments mean such assessments as are based upon estimate in case the corporation has failed to file a return. "Accelerated" assessments are those laid previous to the normal due date by reason of the sale or transfer of corporate assets otherwise than in the ordinary course of business. This table does not include so-called "additional" taxes nor taxes resulting from Federal changes. (See post.)

## ASSESSMENTS FOR FISCAL YEAR ENDING NOVEMBER 30, 1934.

| Assessments                         | Number | Amount       |
|-------------------------------------|--------|--------------|
| 1932 Domestic Estimated . . . . .   | 4      | \$60 00      |
| 1932 Domestic Regular . . . . .     | 2      | 519 43       |
| 1933 Domestic Estimated . . . . .   | 569    | 8,580 19     |
| 1933 Domestic Regular . . . . .     | 25     | 1,804 92     |
| 1933 Domestic Accelerated . . . . . | 8      | 283 86       |
| 1934 Domestic Estimated . . . . .   | 1,664  | 52,409 31    |
| 1934 Domestic Regular . . . . .     | 18,966 | 5,961,369 85 |
| 1934 Domestic Accelerated . . . . . | 868    | 47,421 75    |
| 1935 Domestic Estimated . . . . .   | 63     | 1,430 45     |
| 1935 Domestic Accelerated . . . . . | 307    | 10,465 33    |
| 1936 Domestic Accelerated . . . . . | 11     | 80 89        |
| 1932 Foreign Estimated . . . . .    | 12     | 1,185 00     |
| 1932 Foreign Regular . . . . .      | 2      | 150 00       |
| 1933 Foreign Estimated . . . . .    | 72     | 4,322 69     |
| 1933 Foreign Regular . . . . .      | 12     | 20,766 86    |
| 1933 Foreign Accelerated . . . . .  | 1      | 8 28         |
| 1934 Foreign Estimated . . . . .    | 109    | 16,375 17    |
| 1934 Foreign Regular . . . . .      | 2,049  | 2,018,233 94 |
| 1934 Foreign Accelerated . . . . .  | 132    | 22,254 17    |
| 1935 Foreign Estimated . . . . .    | 5      | 853 36       |
| 1935 Foreign Accelerated . . . . .  | 44     | 2,064 12     |
| 1936 Foreign Accelerated . . . . .  | 2      | 112 61       |

## ABATEMENT CLAIMS

The following shows the number of abatement claims for all years acted upon under the provisions of Section 51 of Chapter 63 of the General Laws, the disposition of the cases and the amounts abated during the fiscal year:

*Number and Disposition of Claims*

|  | Domestic<br>Corporation<br>Claims | Foreign<br>Corporation<br>Claims |
|--|-----------------------------------|----------------------------------|
| Number allowed, original tax . . . . .     | 1,475                             | 241                              |
| Number allowed, additional tax . . . . .   | 140                               | 17                               |
| Number disallowed, original tax . . . . .  | 136                               | 25                               |
| Number disallowed, additional tax. . . . . | 20                                | —                                |
| Total number of cases . . . . .            | 1,771                             | 283                              |

*Amounts Abated*

|                               | Domestic<br>Corporation<br>Claims | Foreign<br>Corporation<br>Claims |
|-------------------------------|-----------------------------------|----------------------------------|
| Of original tax . . . . .     | \$677,727 00                      | \$302,375 18                     |
| Of penalty . . . . .          | 369 00                            | 155 00                           |
| Of additional tax . . . . .   | 36,161 79                         | 7,582 95                         |
| Total amount abated . . . . . | \$714,257 79                      | \$310,113 13                     |

During the fiscal year the following abatements have, with the approval of the Attorney General, been made in accordance with the provisions of Section 27, Chapter 58, of the General Laws:

*Number and Disposition of Claims*

|  | Domestic<br>Corporation<br>Claims | Foreign<br>Corporation<br>Claims |
|--|-----------------------------------|----------------------------------|
| Number allowed, original tax . . . . .     | 307                               | 41                               |
| Number allowed, additional tax . . . . .   | 25                                | 4                                |
| Number disallowed, original tax . . . . .  | 96                                | 12                               |
| Number disallowed, additional tax. . . . . | —                                 | —                                |
| Total number of cases . . . . .            | 428                               | 57                               |

*Amounts Abated*

|                               | Domestic<br>Corporation<br>Claims | Foreign<br>Corporation<br>Claims |
|-------------------------------|-----------------------------------|----------------------------------|
| Of original tax . . . . .     | \$56,267 56                       | \$10,015 91                      |
| Of additional tax . . . . .   | 7,867 17                          | 522 35                           |
| Total amount abated . . . . . | \$64,134 73                       | \$10,538 26                      |

*DELINQUENTS.*

The amount of taxes assessed delinquent corporations after deducting abatements, in those cases where returns were subsequently filed during the fiscal year ending November 30, 1934, was:

|  |            |             |
|--|------------|-------------|
| Domestic corporations (s. 51, c. 63) . . . . . | \$2,909 07 |             |
| Domestic corporations (s. 27, c. 58) . . . . . | 7,935 97   | \$10,845 04 |
| Foreign corporations (s. 51, c. 63) . . . . .  | \$539 22   |             |
| Foreign corporations (s. 27, c. 58) . . . . .  | 1,350 97   | 1,890 19    |
|  |            | \$12,735 23 |

*AUDIT.*

The results of the work of verification and audit with respect to taxes for the years 1927 to 1932 inclusive, are to date as indicated below:

*November 30, 1934.*

|                                  | 1927         | 1928         | 1929         |
|----------------------------------|--------------|--------------|--------------|
| Additional Assessments . . . . . | \$369,886 42 | \$375,777 49 | \$325,070 56 |
| Abatements . . . . .             | 67,659 06    | 90,175 43    | 92,404 30    |
| Net Gain . . . . .               | \$302,227 36 | \$285,602 06 | \$232,666 26 |

|                                  | 1930         | 1931         | 1932         |
|----------------------------------|--------------|--------------|--------------|
| Additional Assessments . . . . . | \$369,096 83 | \$232,792 64 | \$148,395 04 |
| Abatements . . . . .             | 101,128 27   | 60,264 82    | 15,896 09    |
| Net Gain . . . . .               | \$267,968 56 | \$172,527 82 | \$132,498 95 |

*Audit Gains in 1934.*

Business \$139,804 86.

*CHANGES IN FEDERAL NET INCOME.*

During the fiscal year additional taxes amounting to \$170,620.89 were assessed by reason of changes in net income as determined by the federal government and \$66,027.17 was certified for refund or abatement because of such determination. As a result there was a net gain in taxes for the year in the amount of \$104,593.72. The "gain" or "loss" for each year is shown in the following table. A "loss" indicates an excess of refunds or abatements over assessments and a "gain" indicates an excess of assessments over refunds or abatements.

|                     |   |   |   |   |   |   |   |   |                     |      |
|---------------------|---|---|---|---|---|---|---|---|---------------------|------|
| 1918 additional tax | . | . | . | . | . | . | . | . | \$14 68             | gain |
| 1919 war bonus tax  | . | . | . | . | . | . | . | . | 5,721 00            | gain |
| 1920 excise.        | . | . | . | . | . | . | . | . | 21,692 57           | loss |

## DIVISION OF INHERITANCE TAXES

Following is a statement of the amount of inheritance taxes paid to Massachusetts during each fiscal year since the present law became effective:

|            |              |            |                |
|------------|--------------|------------|----------------|
| 1908 . . . | \$357,529 46 | 1922 . . . | \$6,805,977 44 |
| 1909 . . . | 908,134 42   | 1923 . . . | 6,158,924 99   |
| 1910 . . . | 1,467,697 10 | 1924 . . . | 6,489,173 41   |
| 1911 . . . | 2,029,225 13 | 1925 . . . | 5,920,307 41   |
| 1912 . . . | 2,154,406 85 | 1926 . . . | 6,511,302 84   |
| 1913 . . . | 2,832,674 12 | 1927 . . . | 10,751,882 63  |
| 1914 . . . | 2,277,382 19 | 1928 . . . | 10,337,738 99  |
| 1915 . . . | 3,204,177 32 | 1929 . . . | 12,082,348 57  |
| 1916 . . . | 4,223,843 35 | 1930 . . . | 14,337,250 92  |
| 1917 . . . | 3,900,247 10 | 1931 . . . | 11,688,657 25  |
| 1918 . . . | 5,841,204 68 | 1932 . . . | 10,970,740 81  |
| 1919 . . . | 5,002,697 13 | 1933 . . . | 7,996,136 68   |
| 1920 . . . | 4,607,663 00 | 1934 . . . | 5,725,952 02   |
| 1921 . . . | 7,322,947 10 |            |                |

The net amount collected in 1934 is about 28 per cent less than the collection in 1933 and about 40 per cent of the amount collected in 1930, the year that yielded the largest net amount since the inheritance tax law was enacted in 1907. The net return for the year is about the amount estimated and probably somewhat more than will be realized in 1935, as there are comparatively few large estates in process of settlement and claims for refunds since the beginning of the fiscal year will probably reduce the gross collections by a substantial amount. While the expense of collection has not increased, owing to the reduced amount collected it represents a little more than one per cent of the net collection.

In the collection for 1934 there is included Estate Taxes of \$833,973.57 under Chapter 65A, General Laws (Ter. Ed.). The net amount collected from this source since this act was passed in 1926 is \$12,256,987.24. This chapter was enacted in consequence of the Federal Revenue Act of 1926 (re-enacted in 1928) that inheritance, transfer and estate taxes paid to the several States may be credited on account of the Federal Estate Tax to an amount not in excess of 80 per cent of the Federal Estate Tax. As it appeared that in some of the larger estates the sum of all the State taxes would be less than 80 per cent of the Federal Estate Tax, it was clear the Massachusetts tax, in such cases, could be increased without adding to the gross amount of death taxes payable by the estates. This increase was effected by the Act above cited, which provides that estates of all resident decedents shall pay a Massachusetts Estate Tax equal to the amount by which 80 per cent of the Federal Estate Tax exceeds the sum of all state taxes. If this chapter had not been enacted, the estates which have paid a Massachusetts Estate Tax would have paid the same amount to the United States in addition to the Federal Estate Tax they have actually paid. This act applies only to the estates of persons dying after February 26, 1926 and is effective for such time as the Federal Estate Tax Law allows this credit. A perfecting amendment providing for refunds was added in 1930 by Chapter 301.

This chapter was amended by Chapter 284 of 1932 which makes the estates of non-residents who died subsequent to June 5, 1932 subject to a Massachusetts Estate Tax. The estates of non-resident decedents owning a large amount of real estate or tangible personal property in Massachusetts may increase the estate tax revenue, payable under this act, by a substantial amount. A few non-resident estates have become subject to this tax.

By the provisions of Chapter 316, Acts of 1933, effective as of December 1, 1932, the estates of decedents who are not residents of the United States are subject to a Massachusetts Estate Tax and some collections have already been made under the provisions of this act.

The Federal Revenue Act of 1932, providing for an additional Estate Tax has reduced the net values of estates substantially and consequently the Massachusetts inheritance tax has been diminished since this act took effect.

The Federal Revenue Act of 1934 provides for still larger Estate Taxes and will tend to reduce the Massachusetts inheritance tax in the future until such time as

these additional Federal Estate Taxes are reduced, or the provisions for a credit under the Federal Revenue Act of 1926 are extended to the Federal Revenue Acts of 1932 and 1934.

Chapter 293, Acts of 1933, applicable to estates of persons dying on or after June 27, 1933, increased the rates on beneficiaries or distributees under Class A whose beneficial interest is in excess of \$500,000.

Chapter 319, Acts of 1933, provides for reciprocal relations in respect to death taxes upon estates of non-resident decedents. The purpose of this act is to ensure that the domiciliary State of any non-resident decedent shall receive all death taxes to which it may be entitled. Ten other States already have reciprocal acts and it is expected many more will enact similar legislation in the near future. Two additional States have been added to the list since the report of 1933. No inheritance tax legislation was enacted in Massachusetts in the current year.

Of the amount collected in 1934, \$63,395.94 was derived from estates of non-resident decedents and \$13,968.23 has been assessed in 12 estates under the so-called "collateral inheritance tax law" which was in effect from July 11, 1891 until June 27, 1907 and was applicable to the estates of persons who died between those dates and which has been administered by this Division since January 1, 1923. While the major part of these estates have been settled in full, some further taxes will become payable under this law upon the termination of trusts and the distribution of property under the wills of persons who died while the law was in effect.

While stock of Massachusetts owned by non-residents who died before December 1, 1926 was generally subject to an inheritance tax in Massachusetts, our laws always contained a reciprocal provision. The law was amended by Chapter 156 of the Acts of 1927 which exempts from inheritance taxes in Massachusetts intangible personal property of all non-residents dying on or after December 1, 1926. Under the law now in effect, General Laws (Ter. Ed.) Section 1, Chapter 65, as amended by Chapter 292 of the Acts of 1929, the only property of non-residents dying subsequent to December 1, 1928, subject to an inheritance tax in Massachusetts, is real estate and tangible personal property having a situs in Massachusetts.

The Supreme Court of the United States in the case of *First National Bank of Boston vs. State of Maine*, January 4, 1932, 284 U. S. 312 said "shares of stock, like other intangibles, constitutionally can be subject to a death transfer tax by one state only". As a result of this decision it seems that property of a decedent can not now be subject to more than one State inheritance or transfer tax.

As our law provides that an executor or administrator is liable for the inheritance tax (Sec. 6, Chap. 65, Gen. Laws (Ter. Ed.)) waivers will not be issued for the transfer of securities belonging to the estate of a resident decedent, when an executor or administrator has been appointed by a Massachusetts court and given bond as the law requires. Waivers are not required for the transfer of securities of a non-resident decedent, except in estates of persons who were not residents of the United States and who died on or after July 7, 1933. Such estates may be subject to an estate tax under Chapter 316 of the Acts of 1933 and personal property in Massachusetts should not be transferred until permission is given by the Commissioner of Corporations and Taxation, or the exhibition of a receipt showing that the Massachusetts Estate Tax has been paid.

In 1934 there were received from the probate courts, executors and administrators, wills, inventories and other papers relating to 5,519 estates. As frequently as possible a representative of the Division has visited the registry of probate in each county of the State, and upon examination of inventories and other papers there on file has excused the register from sending to this Division copies of papers in estates that appeared not subject to a tax. The number of cases from the mailing of which the registers were thus excused aggregated 8,897. It thus appears that 14,416 new estates have been dealt with by the Division in 1934. The total number of cases examined by a representative of the Division during the year is 33,797 including incomplete cases. It will be seen that the number of cases examined is about 19,000 in excess of the number of cases received from the probate court and the number from which the registries have been excused from mailing. This latter number represents cases pending in the probate courts which were not completed in 1934 and includes all unfinished cases since the present law took effect September 1, 1907.

In the registries of deeds 139 deeds of trust have been examined. At some future time property passing by some of these deeds will be subject to a tax and records have been made which will enable the Division to certify and collect such taxes when due. There are still many deeds of trust to be examined but it has been impossible to make any progress in this part of the work this year, the inside work increasing to such extent that no one could be assigned to such examinations. It is unfortunate the examinations cannot be made promptly and brought up to date, so that any possible taxes could be certified before the due date.

The total amount of tax assessed and certified in 1934 was \$6,164,659.25. The reason why the amount of tax assessed does not correspond with the amount collected is because the date the tax becomes due or is paid does not always fall in the same fiscal year in which the tax is assessed.

In many estates upon request, partial assessments of the tax have been made. As it is impossible to give a complete summary of such cases, the following analysis deals only with cases that have been completed during the fiscal year.

ANALYSIS OF COMPLETED CASES.

|  |                  |
|--|------------------|
| Number of cases completed in the year 1934:                        |                  |
| Massachusetts decedents . . . . .                                  | 3,541            |
| Foreign decedents . . . . .  | 37               |
| Total . . . . .  | 3,578            |
| Net property of 3,578 estates . . . . .                            | \$141,047,883 76 |
| Property of 3,578 estates actually taxed . . . . .                 | 127,393,480 68   |
| Property of 3,578 estates exempted:                                |                  |
| Charities, etc. . . . .  | \$5,654,693 67   |
| Other exemptions . . . . .   | 7,999,709 41     |
| Total Exemptions . . . . .   | \$13,654,403 08  |
| Total tax assessed on \$127,393,480.68 contained in 3,578 estates: |                  |
| Massachusetts decedents . . . . .                                  | \$4,291,062 89   |
| Foreign decedents . . . . .  | 63,395 94        |
|  | <hr/>            |
|  | \$4,354,458 83   |

The discrepancy between \$4,354,458.83 which is the total tax assessed on 3,578 finished cases and \$6,164,659.25 reported as the total amount of tax assessed and certified in 1934 is because taxes in an estate may be certified on account over a period of years, but the tax may not be certified in full until a distant date, when it is then shown in the compilation of completed cases.

The amounts and proportions of this tax assessed at various rates are:

|                |  |
|----------------|--|
| At 1 per cent  | \$342,371 05 = 7.89 per cent of whole tax. |
| At 1½ per cent | 9,074 20 = .19 per cent of whole tax.      |
| At 2 per cent  | 256,800 46 = 5.96 per cent of whole tax.   |
| At 3 per cent  | 454,834 20 = 10.49 per cent of whole tax.  |
| At 4 per cent  | 806,146 09 = 18.56 per cent of whole tax.  |
| At 5 per cent  | 976,267 53 = 22.47 per cent of whole tax.  |
| At 5½ per cent | 88,444 43 = 2.03 per cent of whole tax.    |
| At 6 per cent  | 198,473 23 = 4.56 per cent of whole tax.   |
| At 7 per cent  | 322,019 38 = 7.41 per cent of whole tax.   |
| At 8 per cent  | 286,349 58 = 6.59 per cent of whole tax.   |
| At 9 per cent  | 42,954 74 = .98 per cent of whole tax.     |
| At 10 per cent | 25,000 00 = .57 per cent of whole tax.     |
| At 11 per cent | 12,098 18 = .27 per cent of whole tax.     |
| At 12 per cent | none = — per cent of whole tax.            |
| “Settlements”  | 522,927 51 = 12.03 per cent of whole tax.  |

|                 |                |
|-----------------|----------------|
| Total . . . . . | \$4,343,760 58 |
|-----------------|----------------|

25 per cent additional:

|  |                |
|--|----------------|
| General Acts of 1918, Chapter 191 . . . . .            | 11,022 57      |
| General Acts of 1919, Chapter 342, Section 4 . . . . . | 895 83         |
| Total . . . . .  | \$4,355,678 98 |
| Foreign taxes deducted . . . . .                       | 1,220 15       |
| Net tax . . . . .                                      | \$4,354,458 83 |

Average rate, .0342.

The proportions of property taxed at the various rates are:

|                                 |                |
|---------------------------------|----------------|
| \$34,237,105 00 at 1 per cent = | 26.88 per cent |
| 604,946 66 at 1½ per cent =     | .47 per cent   |
| 12,840,023 00 at 2 per cent =   | 10.08 per cent |
| 15,161,140 00 at 3 per cent =   | 11.91 per cent |
| 20,153,902 25 at 4 per cent =   | 15.83 per cent |
| 19,525,350 60 at 5 per cent =   | 15.33 per cent |
| 1,608,080 54 at 5½ per cent =   | 1.27 per cent  |
| 3,307,887 16 at 6 per cent =    | 2.59 per cent  |
| 4,600,276 86 at 7 per cent =    | 3.62 per cent  |
| 3,579,369 75 at 8 per cent =    | 2.80 per cent  |
| 477,274 88 at 9 per cent =      | .37 per cent   |
| 250,000 00 at 10 per cent =     | .19 per cent   |
| 109,983 45 at 11 per cent =     | .08 per cent   |
| none at 12 per cent =           | — per cent     |
| 10,938,140 53 "settled" =       | 8.58 per cent  |

\$127,393,480 68 (total property taxed) = 100.00 per cent

The items in the preceding tables indicating that some taxes were "settled" instead of computed at definite rates, refer to settlements made under the provisions of law by which the Commissioner of Corporations and Taxation, with the approval of the Attorney General (Section 14, Chapter 65, General Laws, Ter. Ed.) is authorized to settle by agreement the tax upon present or future beneficial interests which are so involved in uncertainties and contingencies that the value of the interest to the beneficiary cannot be accurately determined.

During the year, 6,254 estates have been appraised by the appraisal Section and the total valuation put upon the same is \$233,679,529.14 as compared with a total valuation of \$220,342,858.02 as returned by the estates. This is an increase of 6.05 per cent of the values returned by the estates, while the increase in determined values in 1933 over the reported values was 4.93 per cent.

The above figures representing reported and determined values in 1934 are about \$13,000,000 less than the corresponding figures in 1933, while the valuations in 1933 were about \$115,000,000 less than in 1932.

Since Chapter 416 of the Acts of 1930 became effective, three appeals from the valuations of estates as determined by this division have been taken to the Board of Tax Appeals. In the first case, Harold T. Davis, Admr. *vs.* Commissioner of Corporations, the Board sustained the valuation as determined, its decree was accepted by the Probate Court and on appeal to the Supreme Court the decree was affirmed (Harold T. Davis, Admr. *vs.* Commissioner of Corporations and Taxation, 280 Mass. 138, July 16, 1932). In the second case the Board found for the appellant and is now before the Probate Court. The third case is still before the Board for a hearing at some future date.

There have been no Supreme Court decisions in inheritance tax cases since the Davis case mentioned above and no inheritance tax cases are now pending.

Within the past few years there has been an increasing tendency on the part of administrators and executors to file inventories of estates with the Commissioner of Corporations and Taxation, under the provisions of General Laws, Chapter 65, as amended, rather than in the probate court and at the present time a very large percentage of inventories are here. This has resulted in much additional work for the Division in filing papers, additional correspondence and in numerous ways, particularly in additional space for filing cabinets.

## APPRAISALS FOR LEGACY AND SUCCESSION TAX FOR YEAR ENDING NOVEMBER 30, 1934

| MONTH           | Number of Cases | ORIGINAL PERSONAL |                  | DETERMINED PERSONAL |                  | REAL ESTATE     |                 | TOTALS           |                  | Increase in Values |
|-----------------|-----------------|-------------------|------------------|---------------------|------------------|-----------------|-----------------|------------------|------------------|--------------------|
|                 |                 | Tangible          | Intangible       | Tangible            | Intangible       | Original        | Determined      | Original         | Determined       |                    |

| \$191,534,089 03  | \$201,305,225 20    | \$9,771,136 17    | \$28,808,768 99      | \$32,374,303 94        | \$3,565,534 95       |

In the latter part of the year the division was transferred from Room 243 where it was located for many years, to Room 235 in the east corridor. As a result of this change it was possible to move all the files from the outside corridors and the general appearance of the office is much improved. It is hoped that an additional number of competent clerks will be provided, so that estates may be properly appraised, the probate records and registries of deeds promptly examined and the work brought up to date. The additional cost would be slight in comparison with the additional taxes that could be collected.

### DIVISION OF LOCAL TAXATION.

The work of the Division of Local Taxation has progressed during the year 1934 substantially along the same lines as in the past, but very much increased on account of the conditions prevalent, many serious situations, at times seemingly hopeless, having arisen concerning taxpayers, city and town officials and the municipalities, which have required even greater time and attention on the part of the personnel of the Division, thus adding considerably to the duties and requiring a great deal of time in the solution of the many difficult situations concerning assessment, collection, settlement and official acts of city and town officers. This is partially disclosed in the following comparative statistics regarding visits and correspondence for the years 1932, 1933 and 1934:

|  | 1932   | 1933   | 1934   |
|--|--------|--------|--------|
| Visits to boards of assessors . . . . .                    | 1,297  | 1,383  | 1,220  |
| Calls of assessors and collectors at this office . . . . . | 1,686  | 2,156  | 2,548  |
| Other calls at this office . . . . .                       | 2,697  | 3,092  | 3,194  |
| Letters received . . . . .                                 | 11,171 | 13,138 | 15,681 |
| Letters sent . . . . .                                     | 38,622 | 43,801 | 52,668 |

Owing to prevailing conditions numerous inquiries are being made at this office by letter, telephone and personal calls by many persons and organizations, many of a civic nature, regarding the status of uncollected taxes in the municipalities of the Commonwealth, particularly the surety companies, who are anxious for this information with respect to issuing surety bonds to collectors of taxes and treasurers. In former years we found an annual report of this nature sufficient for this purpose, but we now find it necessary to acquire and tabulate this data every three months. The many calls for this important information adequately repay all the time and effort consumed. The collection and tabulation of these figures have further taxed the time of the office force and to some extent have delayed other important work. This information is also solicited by many of the banking houses loaning money to the various municipalities, the uncollected taxes being a vital element in the determination of such loans.

The work of approving the forms used in assessment and collection of taxes by local officials has continued under Section 3 of Chapter 168 of the Acts of 1933, which at times has proved to be a stupendous tax on the office force and may be partially visualized when it is thought of in terms of three hundred and fifty-five cities and towns and the great number of forms necessary in this varied and important work, many of which have not been revised for years, and in some instances new forms have been devised to take care of certain requirements. These forms are classified under those to be used by the assessors, the collectors and the treasurers and are incorporated in our latest pamphlet containing the tax chapters.

The certification of old age assistance taxes has continued during the year. In 1934 there were many of such taxes collected which had previously been refunded by the State. There were also some late assessments, both of which necessitated the preparation of a great many certificates to be filed with the Treasurer and Receiver General of the Commonwealth.

The checking of post cards from the assessors and the collectors relative to the correctness and the balancing of the annual valuation and commitment lists was continued in 1934 as in former years.

By the passage of Chapter 254 of the Acts of 1933 the local taxing day was advanced from April first to January first, going into effect on December 31, 1934 and thus effective in 1935 for the first time. This necessitated a great deal of labor and planning to make the many necessary changes in the numerous forms and in

order to have all the required material in the hands of the local assessors in time for their official work January 1, 1935.

The members of the office have co-operated in every way, cheerfully and willingly accepting these added burdens, and in consideration of the time and application required it is most satisfying that the various duties have been performed and in such a competent way on time, to the mutual satisfaction of all concerned.

During the year the calls upon the four supervisors for assistance and advice have been constant and their activities have proven most invaluable to the taxing officials, other municipal officers and the taxpayers in solving many difficult situations.

Many extra and exacting duties have devolved upon the Division on account of prevailing conditions, such as writing the certifications for the transfer or use of available funds to be used by the assessors in the determination of the annual tax rate. Such certificates were sent to 232 cities and towns, involving the sum of \$10,498,383, all of which had the approval of the Commissioner under Section 23 of Chapter 59 of the General Laws (Ter. Ed.). The certification of approval of the appointment and of the bond of deputy collectors has continued and for the year 1934 there were three hundred and ten appointments, some municipalities having more than one deputy collector and in many other cases the same officer receiving appointment in more than one city or town.

TABLE SEVENTEEN —

Rate of taxation used in all cities and towns for the excise tax on registered motor vehicles under Chapter 60A, General Laws: This rate being the rate described

in Section 58 of Chapter 63, General Laws, as " . . . a rate equal to the average of the annual rates for three years preceding that in which such assessment is laid, said annual rates to be determined by an apportionment of the whole amount of money to be raised by taxation upon property in the Commonwealth during each of the said three years, as returned by the assessors of the several towns under section forty-seven of Chapter fifty-nine, upon the aggregate valuation of all towns for each of the said three years, as returned under said section forty-seven."

### ADJUSTMENT OF VETERANS' EXEMPTIONS BETWEEN THE CITIES AND TOWNS.

Under the provisions of Section 85 of Chapter 59 of the General Laws, assessors of every city and town must make a return to the Commissioner of Corporations and Taxation of the value of property exempted from taxation under the provisions of clauses 22 and 23 of Section 5 of said Chapter 59, as amended, together with the amount of taxes which would have been assessed on such property but for said exemption. The Commissioner must determine from the returns or otherwise the total amount so exempted, and apportion one-third of such taxes as a charge upon the cities and towns, according to the basis determined by him for the apportionment of the State tax. He must also credit to each city and town one-third of the amount of taxes exempted. On the seventh day of November notice of the charge or credit was sent to the assessors of each city and town, and since no appeals were taken within the statutory ten days the amounts were certified to the Treasurer and Receiver-General (see Sections 11 and 12, Chapter 58, General Laws as amended). The total amount of taxes lost on account of the exemption was \$111,249.16, one-third of which was adjusted between cities and towns under the provisions of said sections.

Part I of Public Document No. 19 gives full details of assessed values and taxes as laid in the original assessment of each year throughout the Commonwealth. Part II of the same document gives the same information in regard to assessments laid in December pursuant to the provisions of Section 75 of Chapter 59 of the General Laws.

TABLE TWENTY-ONE —

The total value of real estate and tangible personal property as assessed by cities and towns in selected years is: (Including 1916 the assessment was on tangible and intangible property but beginning April 1, 1917, only tangible property is locally assessed, the intangible property being freed from local taxation but subject to the income tax.)

|                |                 |                |                 |
|----------------|-----------------|----------------|-----------------|
| 1875 . . . . . | \$1,840,792,728 | 1919 . . . . . | \$4,903,775,948 |

The above figures include the April and December assessments.

<sup>1</sup> "State Tax" is really a deficiency bill. The State for its purposes having certain revenues which are estimated in the State budget as an offset to the estimated cost of running the State activities. The balance is assessed directly upon the cities and towns in proportion to an equalization made every three years, when the ability of the municipality to pay is determined.

<sup>2</sup> "County Tax" is an amount authorized by legislative act that the counties are permitted to spend in their budget; they then assess directly upon the cities and towns in the proportion used for the "State Tax."

<sup>3</sup> The figures for 1929 to 1934, inc., do not include the amount of tax on Registered Motor Vehicles. The figures for 1928 and the earlier years do include Motor Vehicles. The assessed value of and the amount of the tax upon registered motor vehicles in 1929, 1930, 1931, 1932, 1933 and 1934: 1929, value \$389,777,927; 1929, tax \$10,363,324.71; 1930, value \$352,760,905; 1930, tax \$8,534,837.50; 1931, value \$304,113,291; 1931, tax \$7,611,555.12; 1932, value \$240,317,775; 1932, tax \$6,183,706.22; 1933, value \$204,870,214; 1933, tax \$5,237,438.63; 1934, value \$194,943,877; 1934, tax \$5,198,287.55.

## COLLECTION OF OVERDUE TAXES

The commissioner has been notified of the settlement in full of all taxes of the year 1932 and years prior thereto, in the following cities and towns, under the provisions of Section 7 of Chapter 58 of the General Laws:

NOTE: — Other towns may be entitled to appear in this list but reports to that effect have not been received.

## DIRECT TAX AND BONDS OF TREASURERS AND COLLECTORS

Under the provisions of Chapter sixty-five of the Acts of 1926 the Commissioner is required to establish the minimum amount of indemnity which may appear in the surety bond of each treasurer and collector of taxes of each city and town in the Commonwealth.

This duty was first performed with respect to the bonds of these officers for the year 1926 and the minimums established together with other information relating thereto appear on pages 8 to 12 of my report for 1926.

The form to be used for the bonds required under the provisions of Chapter 65 of 1926 is found on pages 6 and 7 of my report for the year ending November 30, 1926.

The following table shows the amount of direct tax in each municipality in 1933 and 1934 and the minimum established for the bond of each treasurer and collector of taxes for the years 1934 and 1935.

TABLE TWENTY-THREE —

| Municipality           | 1933<br>Direct<br>Commitment<br>Basis for<br>1934 Bond | Minimum for<br>1934 Bonds<br>Treasurer and<br>Collector each<br>No Joint Bonds<br>Approved since 1933 | 1934<br>Direct<br>Commitment<br>Basis for<br>1935 Bond | Minimum for<br>1935 Bonds,<br>Treasurer and<br>Collector<br>each |

## DIVISION OF ACCOUNTS

The work of this division, consisting of the auditing of city, town and county accounts together with the certification of city and town notes, is more fully described in Public Document No. 79. This publication is of necessity many months later than this report for the reason that many of the city financial years do not end at the same time that the town year ends, which is December 31. Because of the necessity of getting accurate and complete figures by way of tabulation, correct amounts for inclusion in the report must be delayed until Public Document No. 79 is ready for printing. Information as to the number of audits made during the year and information of that character is more completely carried in the report of this division, "Statistics of Municipal Finances." In addition to this publication, information in respect to counties will be found in Public Document No. 29 and in the estimate of county receipts and expenditures filed each year with the Legislature which goes under a legislative document number.

The amount of work done by the division in respect to audits and certification of town notes and other activities is dealt with under the heading "Statistical" in the introductory text of this report.

## END OF FISCAL YEARS OF CITIES AND TOWNS

Chapter 38 of the Acts of 1934 relates to the establishing of the fiscal year of the City of Waltham, as ending Dec. 31, in 1934.

Chapter 229 of the Acts of 1934 relates to establishing the end of the fiscal year of all cities as Dec. 31, beginning in 1935.

## FINANCIAL STATUS OF THE MUNICIPALITIES

*Revenue and Expenses*

Referring to the tables "Revenue for Current Charges" and "Current Charges against Revenue" which follow, it will be noted that receipts from revenue for current charges have been reduced from \$290,523,610 to \$284,173,461, a reduction of \$6,350,149. Receipts from taxes show a decrease of \$12,622,707. Receipts from privileges, made up largely from the motor vehicle excise tax, show a decrease of \$1,446,813. The loss of revenue from taxes was offset partly by the distribution of gasoline taxes to cities and towns by the Commonwealth which is reflected in the increase of \$7,756,372 in grants and gifts for expenses. Departmental revenue shows an increase of \$1,753,618. The increase in departmental collections is really much greater since there is no receipt from the Boston Elevated Street Railway Company in 1932 to compare with the \$1,409,253 received in 1931. Public service enterprises show a decrease of \$1,242,591.

Of the current charges against revenue, general government shows a decrease of \$130,312, or 1.18 per cent. The total expense for this function, in spite of reductions in the past two years, is still 4.08 per cent greater than in the year 1929. Protection of persons and property shows a decrease of \$1,681,666, or 4.59 per cent; health and sanitation, \$281,197, or 1.50 per cent; highways \$2,829,305, or 12.16 per cent; schools, \$3,424,617, or 4.50 per cent; libraries, \$265,113, or 6.39 per cent; recreation, \$959,403, or 14.13 per cent; public service enterprises, \$1,197,741, or 7.60 per cent; and cemeteries, \$126,772, or 8.75 per cent.

The following functions show increases in current charges: charities, \$16,078,669, or 50.88 per cent; soldiers' benefits, \$2,533,048, or 84.40 per cent; pensions, \$390,515, or 8.96 per cent; unclassified, \$707,520, or 19.35 per cent; and administration of trust funds, \$10,414, or 4.92 per cent. Interest shows an increase of \$2,973,036, or 15.55 per cent, and debt charges, including transfers to sinking funds, \$1,511,869, or 5.13 per cent.

The total current charges against revenue for 1932 show an increase over the previous year of \$13,308,945, or 4.66 per cent. The maintenance charges, aside from interest and debt, show an increase of \$8,824,040, but it will be noted that the increase in charities and soldiers' benefits alone amounted to \$18,611,717, which shows that economies have been effected in other departments to the amount of nearly \$10,000,000. The increase in unclassified payments is caused by the Boston Elevated deficiency assessed to cities and towns amounting to \$1,783,600.

A comparison of revenue for current charges and current charges against revenue for the years 1931 and 1932 for all cities and towns, together with the percentage each class of receipts bears to the total receipts, and the cost of each function of government as compared with total expenditures, as well as the outlays for these years, will be found in the following tables:

TABLE TWENTY-NINE — REVENUE FOR CURRENT CHARGES

| CLASSIFICATION                               | 1931          | 1932          | PERCENTAGES |        |

| TOTALS . . . . .                             | \$72,919,122 68        | \$45,654,050 74        |

Expenditures for outlays shown in the preceding table have been provided for largely by non-revenue funds, although a portion of the cost has been financed from revenue sources. Outlays include expenditures for any work of construction, public improvement, or additional equipment which increases the visible assets of the municipality. The line of demarcation between current charges against revenue and outlays is admittedly often exceedingly difficult to draw; generally, however, if the improvement or equipment will last for several years, or is an object for which a loan might be issued under our indebtedness statute, the cost of the same may properly be regarded as an outlay. It will be noted that the expenditures for outlays have been reduced by \$27,265,072 from the outlays shown for the year 1931.

The tables showing revenue for current charges and current charges against revenue are shown on page 230. A deficiency of revenue collections in the year 1932 is shown in 36 of the 39 cities, making a net deficiency for the entire group of cities of \$15,410,111. There is also a deficiency in 39 of the 83 towns over 5,000 in population. This is offset by the excess of revenue in the remaining 44 towns, so that for the entire group of large towns there remains an excess of revenue collections of \$383,499. The returns from which these tables are prepared are made upon a cash basis. Under normal conditions, such returns, considered over a period of years, give a true picture of the methods of financing the activities of the municipalities. For the year 1932 conditions were so abnormal that the revenues receivable were greatly in excess of the cash collections, so that to the extent of this deficiency in collections, it was necessary for many municipalities to draw on the surpluses accumulated during previous years.

## THE DEBT BURDEN.

The net funded or fixed debt of all municipalities at the close of the year 1932 was \$311,892,390, a decrease from the preceding financial year of \$4,758,233, or 1.50 per cent. The assessed valuation of taxable property decreased \$232,781,231, or 3.13 per cent. The debt figures reported here for the close of the financial year 1932 should not be confused with figures previously reported for the calendar year 1932. On page 229 of this report will be found the date of the fiscal year ending of the cities. In all towns the fiscal year ends on December 31.

The total net funded or fixed debt January 1, 1934, which is shown in the tables on pages 236 to 243, was \$316,745,605, an increase of \$5,078,860 over the debt on January 1, 1933, or 1.63 per cent. Of this amount \$4,246,356 represents an increase in general debt. Included in the general debt were Emergency Finance loans issued on account of tax titles under the provisions of Chapter 49 of the Acts of 1933, amounting on December 31, 1933, to \$5,626,564.65; Municipal Relief loans issued under the provisions of Chapter 307, Acts of 1933, amounting to \$12,212,053.23; and the public welfare loan of \$4,100,000, issued under the provisions of Chapter 159 of the Acts of 1933. The aggregate of the relief loans was \$16,312,053.23, and the net reduction in loans for general permanent improvements was \$17,692,261.62, so that if we were to exclude from the general debt the tax title loans, which are offset

by thoroughly good assets, we should have an actual reduction in general debt of \$1,380,208.39.

The net increase in public service enterprise loans was only \$832,503. The debt for traffic tunnel in the city of Boston aggregating \$17,200,000, of which \$4,200,000 was issued in 1933, is included in the total public service enterprise debt.

For cities, the total of the net funded or fixed debt of all classes was \$270,188,361, an increase of \$8,922,616, or 3.42 per cent; for the towns over 5,000 population the debt was \$35,851,805, a decrease of \$2,991,875, or 7.70 per cent; for the towns under 5,000 population the debt was \$10,705,439, a decrease of \$851,881, or 7.37 per cent.

Loans in anticipation of revenue of 1933 and prior years, outstanding January 1, 1934, aggregated \$62,912,671, but to meet these loans there were unpaid taxes of 1933 amounting to \$74,248,791; unpaid taxes of 1932 of \$14,023,932; and unpaid taxes of prior years of \$2,285,260, making a total of \$90,557,983. The statute which provides for the assessment of property as of April 1 for taxes payable October 15 makes it necessary in most cases that there shall be temporary loans in anticipation of the collection of taxes. These loans are usually for a short period of time, which, under the general laws, cannot exceed one year. Under Chapter 3 of the Acts of 1933, some loans were extended for an additional six months.

The tables on pages 234 and 235 show the total debt, the sinking funds and the net funded or fixed debt for each year from 1910 to 1932, the assessed valuation, and the yearly increase or decrease in valuation and debt. There is also shown the ratio of net funded or fixed debt to assessed valuation for each year. For the first time since 1918 the total net funded debt at the close of the year 1932 showed a decrease from the amount at the end of the previous year. The percentage of decrease was 1.50 per cent, but the assessed valuation for 1932 showed a greater percentage of decrease, so that the ratio of net funded or fixed debt to assessed valuation for the year 1932 is greater than the ratio for the year 1931.

It will be noted that the ratio of net funded or fixed debt to valuation of 4.33 per cent is higher than at any time since the publication of these reports.

#### THE CERTIFICATION OF TOWN AND DISTRICT NOTES.

The amount of borrowing by towns by the issuance of town notes is constantly increasing. The data collected for use in connection with this report and the records of town notes issued are being used constantly throughout the year by investors in municipal securities. Information relative to tax levies, tax rates, uncollected taxes, outstanding indebtedness, both funded or fixed and temporary, are proving to be of great service to investors and the general public.

The number of notes certified and the amount of loans represented by them since the town note act took effect on January 1, 1911, are shown in the following table:

TABLE THIRTY—

| YEARS                   | REVENUE AND OTHER<br>TEMPORARY LOANS |                | GENERAL LOANS |              | TOTAL  |                |

## THE AUDITING OF ACCOUNTS AND INSTALLATION OF ACCOUNTING SYSTEMS.

During the past year one system of accounts has been installed bringing the total to 214 cities, towns and districts now operating under the uniform system of accounts. Audits have been made in 197 cities and towns during the year and assistance rendered to accounting and financial officers in 13 other towns.

The work of making the audits has been more complicated owing to the conditions under which municipalities are operating. Much of the work of the accountants of this Division is necessarily devoted to assisting and advising the officials as to the best way of meeting some of their problems and the reports received from officials, both by letter and verbally, indicate that the services of our accountants have been helpful and appreciated.

To the accountants engaged in this branch of the work I wish to express my appreciation of the efficient way in which they have performed their respective duties.

TABLE H — AGGREGATE MUNICIPAL INDEBTEDNESS — COMPARISONS FOR 1910, 1930, 1931 AND 1932  
*All Municipalities.*

<sup>1</sup>Decrease due to items now presented in Column 4

<sup>2</sup>Total does not show annual increase in amounts reported by assessors, because one municipality had in previous years reported erroneously intangible personal property estimated at \$58,000,000, and which is not reported this year.
